RAIN RECORDING
Nimbus-VM1
Digital Audio/Video Workstation

#RANBVM1
$3199⁹⁵

Nimbus is designed for advanced audio and video content creation. Intel's Core 2 Quad 2.4GHz processor is at the center of a system architecture engineered to provide you with industry-leading A/V editing capabilities. For video, there is no more powerful graphics system than the included nVIDIA Quadro FX1500, a ground-breaking GPU delivering 42.Gbps of data transfer with 32-bit floating point precision.

- 4GB DDR-2 800Mhz RAM
- 500GB Drive
- 1TB RAID-0 Audio Drive
- Dual Layer DVD+RW/CD-RW
- nVIDIA Quadro FX1500
- Windows XP Pro or Vista Ultimate
- RainCare Precision Support
- 7 USB 2.0 / 5 Firewire

MUSICXPC
Professional C5

#MUPC5
$1899⁰⁰

The Professional C5 is a Windows-based PC that features an Intel Core 2 Duo CPU and more than a half-terabyte of hard-disk storage — all in the space of 3 hard drive cases. The Professional C5 is designed for professional musicians who want the computer at the heart of their digital studio to be flawless, supremely powerful, quiet, and robust. The Professional C5 is all those things and then some.

- 2.13GHz CPU • 1GB RAM
- DVD±RW/CD-RW, 16X
- 8x USB 2.0 • FireWire 2 [front: 1 | 4-pin] [rear: 1 | 6-pin]
- PCI 2.3 slots- 1 • PCI-E x16 slots-1
- Graphics Intel GMA950 256-bit 3D Engine
- SATA250 7200rpm 120GB HD
- SATA320 7200rpm 200GB HD
- Microsoft Windows XP

MUSICXPC
Professional M4

#MUPM4
$1899⁰⁰

The Professional M4 features an Intel Core 2 Duo 1.83GHz CPU, a 100GB 5400 rpm HDD, 1GB of DDR2 RAM [expandable to 2GB], a 15.4-inch WXGA wide angle, and non-glare screen with superior off-axis performance. The recovery utility stores the system factory settings outside of Windows XP in a host-protected area of the hard drive in case of reformatting. Gigabit LAN improves workflow and plays projects stored on other computers via Ethernet; built in 8X DVD+/-RW burner.

- 15.4-inch WXGA TFT Active Matrix Color (1280 x 800)
- Intel Graphics Media Accelerator 950 with DirectX 9 acceleration
- SATA 100GB, 5400 RPM
- 4-in-1 card reader
- 3 USB 2.0 ports, VGA monitor display port
- 3 Firewire, Microphone-in

WESTERN DIGITAL
My Book Studio Edition

Speed is what you need for audio editing, big design projects, or managing photo shoots and that's what this drive delivers with FireWire 800 and eSATA connectivity. With our automatic backup capability your creative masterpieces will be backed up the minute you save them. You can now back up important projects to multiple destinations including files servers, portable drives and My Book. Synchronize project files to keep them current and secure. Set it and forget it; every time you save a change it's automatically backed up.

• High capacity • Small footprint design • Quad Interface
• Formatted for Macintosh • Extra-fast performance

GLYPH
GT 050Q

Glyph-Technologies offers a number of different desktop closures that can connect to your computer via the FireWire-800, FireWire-400, USB 2.0, or eSATA interface. The drive enclosure is designed for use in professional audio applications. The enclosure is constructed from stainless steel and features tri-laminate sound damping to help reduce noise. This makes the drive an ideal solution for storage in audio and video production environments.

• Glyph exclusively uses high-quality Seagate drives
• Features a large 8MB data buffer
• 7200 rpm rotation speed • 8 ms seek time

GLYPH
GT Key

The GT Key 750GB Hot Swappable Drive Cartridge from Glyph-Technology is a hard drive in a hot-swappable enclosure that is compatible with the GT 051, GT 103, GT 205, and GT 308 series of enclosures. The drive can be hot-swapped from any of these Glyph drive enclosures, allowing you to integrate it easily into your work environment. It even includes a carrying case that allows you to store and transport the drive module safely when it is not in use.

• Glyph's integrity FireWire 400 interface
• 16MB cache in 320-750GB capacities

GLYPH
PortaGig

With its tiny bus-powered enclosure, it's small enough to fit into a pocket and powerful enough to support high track-count audio sessions. With FireWire 400 and USB 2.0 interfaces, PortaGig is compatible with Mac, Windows, and Linux systems supporting FireWire or USB. Designed with a fanless, light aluminum enclosure, it allows you to work easily and reliably on the road.

• Seagate drive mechanism with 8MB cache • Weighs less than 10 Ounces
• Optional power supply available • Carrying sleeve included

GLYPH
GT060BR

Glyph's GT 062 is a two-drive tabletop designed for professional audio and video applications, and supports three drive modes through the use of a rear-panel selector switch. Drives are seen as one large volume, and the built-in RAID 0 controller distributes the I/O burden by reading and writing data from both drives at the same time. The back panel features four ports for multiple connectivity options — two FW800, one FW400, and one USB2.0.

• Ideal for video, content creation, sound libraries, and data backup applications • Internal power supply, no wall wart, internal quiet fan
• Dual Seagate SATA drive mechanisms each with 8MB cache
• Sustain data rates of 80 Mbps with Mac OS X 10.4 Tiger
• Durable Stainless Steel • Rack-mountable (rack-mount kit optional)

GLYPH
GT 103

Designed for applications requiring multiple drives, the Glyph-Technologies GT103-03 1U Rack Enclosure can be set up with any combination of fixed-mount drives. Data can easily be transferred to other GT series enclosures with the 7200 RPM GT Key by using Integrity; an advanced FireWire hot-swap interface that provides greater reliability than current hybrid ATA-to-FireWire products.

• Single-space 19" rack mount enclosure for up to three FireWire drives
• FireWire connectivity is hot pluggable and allows for 63 devices to be daisy chained
• Engineered for professional audio and video production

PRIMERA
Bravo SE Blu-ray Publisher

#PRBSEBR
$2994⁵⁰

Bravo SE is Primera's newest "all-in-one" disc-publishing system featuring Blu-ray Media disc-burning capability. It combines fast, automated robotic CD/BD/DVD duplication with full-color, 4800 dpi direct-to-disc printing all in one compact, desktop unit. Bravo SE is ideal for producing either one at a time, unique discs or jobs of up to 20 discs at a time. It includes both Windows-based PC and Mac duplication software.

- Perfect for audio/video content and press kits • 20-disc capacity
- Save time and money with fully-automated publishing • Provided with both Mac and PC software • USB 2.0 data interface

RIMAGE
2000i

#RI2000IDVD
$3449⁹⁵

The 2000i DVD/CD duplicator/printer provides some of the most advanced printing and robotic technology in the industry. Users can print directly to disc easily with customized graphics for a complete, professional publishing solution.

- Reliable, professional solution for custom-graphics • FireWire
- Optimized 2-to-1 recorder-to-printer ratio

UTRONICS
SmarrCopy 1:3

#UTSCDVDD13
$549⁹⁵

This compact desktop enclosure delivers one-touch DVD and CD duplication. Featuring a 1:5 duplication, allowing you to duplicate up to 5 discs from one master simultaneously at DVD speeds of up to 16x and CD's at up to 48x speed. This one-touch system operates independently without a computer.

- A 2x20-character LCD is included to monitor status and set options. • It supports CD-R at 40x, DVD+R and DVD-R at 16x and dual-layer DVD discs at up to 8x speed.
- 128 MB Buffer Cache Memory discs on one ink cartridge

LACIE
Dupli Disc

#LADVD15
$719⁹⁵

A much faster and more cost effective solution than professional duplication, the Dupli 125 can even erase DVD-RW and CD-RW discs. As a standalone unit, it can also be used as an external 16x DVDRW drive with any PC or Mac. Compatible with most CD and DVD formats, it recognizes formats automatically for fast, hassle-free duplication.

- Includes intuitive menus • A user-friendly LCD interface
- One touch CD and DVD duplication
- Five system modes, including copy, test ,and verify options
- Features smart controller technology and five CD and DVD writers

RIMAGE
Everest II

#RIAE2
$7899⁹⁵

The Everest II can deliver, at one time, up to 120 CD-R and DVD-R discs with high resolution four color graphics. These photo-realistic images can be produced on inexpensive standard media.

- Ideal for music and video-post studios
- Less than 60 second per disc printing time
- Powerful CD designer

APPLE

Requires graphics card with dual-link DVI

SAMSUNG
XL20
LED backlight monitors

The Samsung XL20 uses LED as a backlight instead of fluorescent lamps, making possible a color gamut of 114%, revealing a previously unseen world of vivid colors. It provides Adobe RGB support using a calibrator which is specifically tuned to the XL20's high performance range. Screen Size: 20.1″; Resolution: 1600 x 1200; Brightness: 250cd/m2; Contrast Ratio: 700:1

SAMSUNG
SyncMaster 226BW
22″ Widescreen LCD

The wide, 16:10 format of SAMSUNG's 226BW digital/Analog widescreen LCD monitor gives you plenty of room for all your computer applications and multiple images. The 1680 x 1050 panel featuring 3000:1 contrast ratio creates crisp, easy-to-view images and gaming graphics, without ghosting or blurring. Complete with Microsoft® Vista® Premium certification and advanced dual interface for both analog digital video signals, the 226BW monitor is future-ready.

HEWLETT-PACKARD
LP3065
30″ Widescreen LCD

The HP LP3065 Flat Panel Monitor offers best-in-class performance for professionals working in visualization who need the best color and highest resolution available. Experience high resolution and crisp image clarity with a high 1000:1 contrast ratio, 12 ms response time, superior scaling, and sharp 2560 x 1600 resolution; multi-task on an extra large work space with the 30-inch viewable wide aspect screen. A dual-link DVI graphics card is required for the LP3065.

SAMSUNG
SyncMaster 275T
27″ Widescreen LCD

Imagine being able to see everything that you're thinking. Every detail of your ideas will come to life when you create them on the Samsung 305T high-definition monitor. They're the perfect monitors for professionals who need fast image processing. The LCD panel coupled with a dynamic contrast ratio of 1000:1 and resolution of 2560 x 1600 provides optimal viewing settings for user's working environment. The 305T features fast 6ms gray to gray response times, for sharp, smear-free, impressive motion video.

NEC
LCD3090WQX
30″ Widescreen LCD

The MultiSync 3090WQXi 30″ Widescreen LCD Display from NEC is a high quality monitor built with video prosumers and professionals in mind. The monitor features a high 1000:1 contrast ratio, a wide 178°/178° viewing angle and a fast 12ms response time. You'll be able to connect and toggle between two video sources thanks to the monitor's dual DVI inputs. That along with the other features makes it a great choice for video editors and graphic designers alike.

VIEWSONIC
VX2835wm
27.5″ Widescreen LCD Monitor

Let the 28″ VX2835wm widescreen LCD ramp up your desktop experience with an ultra-fast 3ms response time, integrated speakers and amp. Raise the bar to lofty heights with multiple video connections, including HDMI, a 1920 x 1200 resolution spec, 800:1 contrast ratio and 500cd/m2 brightness. Snappy detail, remarkably rich colors prevail while VESA wall-mounting convenience completes the picture. The VX2835wm is perfect for the serious gamer or movie aficionado in search of unsurpassed digital entertainment diversion.
