Microphone and Equipment Stands, Booms, & Accessories

Synonymous with durability and quality, Atlas is the world recognized leader for cast-base and tripod style floor stands, desk, and studio boom stands; boom attachments; loudspeaker/equipment stands; and over 40 adapters and fittings. The unique selection, developed over the past 60 years, offers the professional musician, performer, educator, and lecturer great flexibility in choosing models that satisfy unique application, performance, and budget requirements. Classic styling in mirrored chrome or non-reflective ebony epoxy (perfect for video application) combine with the famous Atlas Sound wear-proof clutches to provide attractive, durable, and reliable service for all types of communication and entertainment applications.

**MS Series Microphone Floor Stands**

Your microphone is a valuable investment, so why trust it to a cheap stand. Manufactured with fine U.S. craftsmanship, Atlas stands are simply built better. Each clutch is made of a wearproof, three piece construction. The bases and housings are high-stability cast metal, and the tubings are finished in ebony or mirrored chrome. With more than 60 years of performance, both on-stage and off-stage, these stands are proven performers. And with 12 models to choose from, Atlas offers the widest selection of floor stands available.

TRIPOD STANDS

TE-E Series Tripod Stand
Lightweight, professionally styled stand with the fit and feel of tripod costing much more. Features full-height extension (37” to 65”) to meet versatile miking needs, a three-piece clutch with protective insert & metal clutch barrel for secure and scratch-free positioning, and easy-locking legs that tighten with a single motion of the metal leg attachment “cup” for fast set-up and teardown. Durable tripod legs attach to a metal retainer assembly that includes a thumbscrew/brake system to provide secure positioning and prevent tube marring. Tube assemblies are durable CRS construction terminated in 5/8˝ - 27 thread pattern. Satin ebony finish.

TE-E Tripod Stand (ATTEE): 5 lb .............. 23.95

TEB-E Tripod/Boom
This tripod/boom features the TE-E stand with the removable BE-E telescopic boom to provide microphone extension from 24” to 39”. The boom includes a molded plastic handle, metal swivel clamp with protective rubber inserts, and an easy-grip knob for vertical alignment. Adjustment for the main and extension boom include a thumbscrew/brake system to provide secure positioning and prevent tube marring. Tube assemblies are manufactured of CRS and terminate in 5/8˝ - 27 thread pattern. Satin Ebony finish.

TEB-E Tripod/Boom (ATTEBE): 7½ lbs ....... 39.95

BOOM ATTACHMENTS

PB11XE Mini Adjustable Boom (ATPB11XE)
Compact booms extend from 16½” to 24½” with a single motion—perfect for drum/piano/guitar amp and short distance miking. Units include a threaded end cap and a fixed 3/4 lb. counterweight for stability. Ebony epoxy ........................................... 39.95

PB21XE Extendable-Length Booms (ATPB21XE)
Booms extend from 25¼” to 38½” with a single motion and are suitable for a wide variety of miking applications. Units contain a fixed 3/4 lb. counterweight and threaded end cap. Ebony epoxy finish ..................................................... 42.95

BE-E Series Extendable Length Boom (ATBEE)
Versatile, low-cost BE-E boom has adjustable-length positioning for extended microphone range applications. Two-piece boom extends 24-39”. The boom includes a molded plastic handle, metal swivel clamp with protective rubber insert, and an easy-grip knob for vertical alignment. Adjustment for the main and extension boom include a thumbscrew/brake system to provide secure positioning and prevent tube marring. Satin Ebony. 2½ lbs ............................................... 17.50

DS-5 / DS-5E General Purpose Stands
These fixed-height stands include traditional, circular cast iron base and choice of chrome or ebony tubing finish. Stands are suitable for application with any standard microphone.

DS-5 (ATDS5): Chrome finish .................. 11.95
DS-5E (ATDS5E): Ebony finish ................. 11.95

DS-2 Vibration Isolating Stand (ATDS2)
A low-silhouette stand, the DS-2 features an integral tension mount to reduce conductivity of external mechanical vibrations. High-stability metal base with protective pads includes notched area for convenient placement of cards or pens. Fixed-height tubing is chrome finished. Base is ebony ........................................... 27.50

DS-7 / DS-7E Adjustable Stands
These versatile stands have a vertical height adjustment from 8” to 13”, with wearproof clutch and ebony finish cast iron base.

DS-7 (ATDS7): Chrome finish .................. 16.50
DS-7E (ATDS7E): Ebony finish ................. 16.50

**PRO AUDIO CASES**

**Console Racks**
Gator’s line of console racks features a revolutionary design that maximizes space, thus offering the rack mount space you need in a more compact, easily movable case. The top 19-inch rack rail is slanted for easy use with mixers; the bottom, front and rear load have threaded rack rails. The entire case, including the handle assembly, is constructed from the nearly indestructible military grade Polyethylene. Sloped side handles make these cases easy on the hands. Large latches are durable and make set-up quick and easy. Weighing in at 1/2 the weight of a carpeted rack, this is the perfect lightweight but strong solution for A/V, DJ’s, live sound reinforcement or the portable audio application.

**Deluxe Racks Cases**
Gator’s deluxe rack cases are molded from incredibly durable high-density military grade Polyethylene. This lightweight yet super strong material insures maximum protection at a weight you can easily handle. The cases have 19.5” of rackable depth with front and rear threaded rack rails that are field replaceable. Exclusive to the Gator racks are locking front and rear lids. Sloped side handles molded from Polyethylene make them comfortable to carry when the racks are loaded and they are virtually indestructible. The ridges on the top and bottom make them universally stackable with Gator racks and those of other manufacturers. The latches are strong twist style and are designed to take the beatings of a rack on the road.

**Powered Roller Racks**
Gator’s revolutionary Powered Racks contain everything you need for your rackable gear. A built-in power distribution center provides 5 power sources, 15 amp push to reset circuit breaker, and front panel on/off control with pilot light. In addition, surge protection keeps your gear safe against power spikes! The power unit is mounted under the rack rail and doesn’t use up a rack space like other distribution units. Like other Gator racks, these also have threaded rails and locking covers. The best part is that this unit is put into their roller rack. Thus giving you a rack with wheels, pull out handle, lightweight, super durability and power!

Shallow Racks

Gator’s mini racks are the perfect solution for shallow rack gear such as effects, EQ’s, and the new smaller amps. Compact with the exterior depth of 17.5”, and total rackable depth of 14.5”, these racks are easy to carry. Packed with all the features such as front and rear rack rail, universally stacking, durable front and rear lids and comfortable sloped side handles these are the perfect space savers offering all the benefits of a full size rack in a compact size!

GR-3S (GAGR3S)  3 space shallow polyethylene 19" rack ...................... 79.99
GR-4S (GAGR4S)  4 space shallow polyethylene 19" rack ...................... 89.99
GR-6S (GAGR6S)  6 space shallow polyethylene 19" rack ...................... 99.99

Shock Racks

With today’s ever-increasing amount of gear that contains disc drives and LCDs, the need for an affordable shock rack has become mandatory. Gator’s G-SHOCK deluxe shock rack cases have a 20.5" rackable depth and are molded from the incredibly durable high-density military grade Polyethylene. This lightweight yet super strong material insures maximum protection at a weight you can easily handle. Gator uses rubber shock absorbers on all eight corners which assures a soft ride in every direction. The internal 19" rack frame has threaded front and rear rack rails. In addition, Gator has another exclusive – a moveable rear support system. This does away with needing a machine shop in your garage to make a rear support for your power amps or rack gear. Furthermore, those threaded rack rails are field replaceable. Exclusive to the Gator racks are locking front and rear lids. Sloped side handles molded from Polyethylene, make these cases comfortable to carry when the racks are loaded and they are virtually indestructible! The ridges on the top and bottom make these cases universally stackable with both Gator racks and those of other manufacturers (if in accordance with EIA specifications).

G-Shock 16L (GAGSHOCK16L): 16 RU Shockmount Rack Case .............. 399.99

Roller Racks

Gator is the original case manufacturer to add built-in wheels and pull out handles to the rack mount case. We took the high quality construction and design of our deluxe racks and strategically placed roller blade style wheels and a pull out handle. The best part is that the wheels do not interfere with the universal stack ability of these racks! The pull out handle has a locking mechanism to hold the handle firmly in place when in the extended position.

PRO AUDIO CASES

GPA-700 Rolling Speaker Bag
The GPA-700 is designed to fit the popular molded speaker cabinets such as the JBL Eon Series, Mackie, DAS, American DJ and Peavey. The case has a large side pocket designed to fit 100’ speaker cables, two accessory pockets, heavy-duty six wheel assembly and strong pull out handle. The bottom of the case has skid bars for going up stairs and over obstacles. Handles are strategically located to allow easy lifting. 10mm side foam and a sculptured industrial foam interior over a floor of Polyethylene, makes your speakers ride from van to venue easily and safely! Rated up to 100 pounds.

GPA-700 (GAGPA700): Rolling Speaker Bag. 28 x 19.5 x 13” interior; 32.5 x 20 x 17” exterior ..........94.99

Utility Cases
The Gator Utility Case meets the needs of the semi pro and pro users. The GX-3 features Diced Foam for designing your own interior. The GX-2 has Velcro dividers that make available 7 separate areas for storing wireless, in-the-ear-monitors or small effects units. These cases are made from the incredibly durable high-density military grade Polyethylene and include a heavy-duty valance and recessed lockable twist latches. This is a case built for the road. This case is also available in a shallow model, GB-1, that has a briefcase interior.

GX-1 (GAGX1): Utility Briefcase. 17.5 x 12.25 x 5.25” interior; 18.5 x 14 x 6.5” exterior; weighs 7 lbs ....74.99

GX-3 (GAGX3): Universal Utility with Diced Foam. 17.5 x 12.25 x 5.25” interior; 18 x 14 x 9” exterior .89.99

The Ultimate Rolling Cable Caddy
Hauling your cables and snakes to the gig is much easier with the Cable Caddy line! The GX-20 design features a compartment in the bottom of the case to house small snakes and all sorts of cabling. A deep lift out tray on the top holds smaller cables and accessories. A front zipper pocket is perfect for other accessories. The GX-22 Snake Caddy is the big daddy to the GX-20 and is built to easily carry a 100’ hard wired snake along with all the other required cabling. The lift out tray is large enough for small mixers, cabling and other devices required to setup a professional sound system. The front zipper pocket holds smaller items. Both the Snake and Cable Caddy are made with the Gator semi-hard construction technique, which is both lightweight and rugged.

GX-20 (GAGX20): Rolling Cable Caddy. 13½ x 12½ x 14” interior; 15½ x 17 x 24½” exterior; weighs 21 lbs ..........99.99

Rolling Powered Mixer Case

Finally – a way to easily move and protect your expensive powered mixers that is stylish and durable! Designed to fit all major brands such as Yamaha, Peavey and Mackie, the case is constructed from 1/2” plywood covered with 600-denier ballistic material. Large industrial size wheels and pull out handle make this case ready for easy transport.

GPA-720 Powered Mixer Transporter. 13” x 13.5” x 20” interior, 16” x 17” x 24” exterior, 23 lbs ........89.99
SPEAKER STANDS

TS-80 Series Speaker Stands
These high-quality aluminum and steel tripod speaker stands feature a built-in socket adapter that accommodates both 1-3/8” and 1-1/2” speaker sockets. A glass-reinforced telescoping collar has a die-cast metal clamp for maximum security and durability. The secure leg collar slides smoothly on the tube for easy set-up.

- Glass reinforced polycarbonate fitting at the leg juncture uses a metal clamp over the fitting to minimize over-tightening and breakage
- The stands raise and lower with the turn of a knob, locking tightly for secure support. Metal clamps minimize over-tightening and breakage
- The rubber footcaps are held in place by both internal and external friction so they stay on gig after gig
- The connector tube, which telescopes up to accommodate 1-3/8” speaker sockets and down for 1-1/2” sockets. Locks firmly into desired position. Minimizes the need for adapters. The telescoping tube lock prevents accidentally pulling out the center tube

Telescoping and Leg Collars
Die-cast metal clamps fit snugly over glass-reinforced polycarbonate fittings creating the strongest, most durable telescoping collar and leg collar possible. Since the handknob actually tightens the metal clamp and not the plastic directly, these collars aren’t easily overtightened, snapped or cracked!

TS-90 Series Speaker Stands
A step-up from the TS-80, the TS-90 tripod speaker stands features a telescoping tube lock that increases safety and prevents accidentally pulling the center tube. It has an internal friction mechanism with three settings. In the “RAISE” setting, the mechanism grips and holds the tube, allowing you to incrementally pull the center tube up to the required height. “LOCK” the collar in place for extra security. In the “LOWER” setting, TeleLock eases off and assists lowering the center tube. This unique design safely takes the strain off you!

MUSIKA TS-70B ECONOMY SPEAKER STAND

The Musika TS-70 tripod speaker stand was designed to bring Ultimate quality to the masses with a more affordable speaker stand. Although it is not a heavy duty stand like the TS-80 or TS-90 series, it still brings quality and innovation to this segment.

- Glass reinforced telescoping collar secures the telescoping tube without slipping. A safety pin is also included for extra security
- Glass reinforced tripod leg fitting secures the base of the tripod. By using a glass reinforced plastic Ultimate tripods are stronger and more durable than the competition
- Like all tripod speaker stands from Ultimate, the TS-70B includes an adapter for 1⅜" speaker sockets as well as 1⅝" sockets

BMB-200K Large Mounting Bracket
- External 4 x 6" bracket securely mounts any speaker cabinet with a flat bottom on an Ultimate tripod (1⅜" tube)
- Glass-reinforced polycarbonate fitting holds 100 lbs.
- All hardware included for installation
BMB-200K (ULTBMB200K) ........................................ 22.95

TMB-400K Slide Mounting Bracket
- Low-profile external 4 x 4" bracket securely mounts any speaker cabinet with a flat bottom on an Ultimate tripod (1⅜" tube)
- Two-piece design: the plate attaches to the bottom of the speaker, and the slide-in base connects securely to the tripod
- All hardware included for installation
- Strong glass-reinforced polycarbonate fitting holds 100 lbs.
TMB-400K (ULTTMB400K) .................................. CALL

TAD-100 Adapter Stud (ULTTAD100)
- Converts a 1⅜" tripod top tube to mount a speaker cabinet with a 1" inside diameter socket
- Strong glass-reinforced polycarbonate fitting holds 100 lbs.

TAD-138 Adapter Stud (ULTTAD138)
Same as above but converts 1⅝" top tube to 1-1⅛". Holds 100 lbs.
