For Section 3, Projector Mounts, use Quick Dial #: 821
Brettford’s LCD projector mounts easily adjust to fit most LCD projectors and are available in three different styles for various methods of installation. Projector is held in place by 12- to 14-gauge steel arms, which allow air flow and access to functions on all sides of the projector. Mount has roll, pitch and yaw adjustments to fine tune your projector. Unique hanger support system allows one man installation, and projector can be mounted right-side up or upside down. Mount easily re-adjusts for exchanging projectors. When you upgrade projectors, you won’t have to purchase a new mount. Finished in black powder paint.

- Mounts easily adjust to fit most LCD projectors.
- Available in three different styles for various methods of installation.
- These mounts feature an open design that allows the air flow to cool the projector and allows for access to functions on all sides of the projector.

**TPMA1-BK**

This ceiling mount is for use with 1 1/2" NPS pipe or 1/4" threaded rod installation. All mounting pipes, rods and accessories are sold separately.

**TPMA2-BK**

This mount attaches flush to the ceiling. Flush mount plate included. The projector is held in place by steel arms which allow air flow and access to projector functions.

**TPMA3-BK**

This mount holds a projector to a single wood stud on the wall and includes a wall bracket arm. All mounting pipes, rods and accessories are sold separately.

Ceiling Mounting Brackets

TVCCB-BK Cathedral Ceiling Bracket (BRTVCCBBK)
Designed for angled ceiling installations on LCD mounts. Used with extension pipe. For use with wood support beams and joists. Uses gravity to hang at the proper angle. Weighs 5 lbs. Comes in black $29.50

TVRA-BK Revolving Adapter (BRTVRABK)
Adapter to connect mount and ceiling pipe. When used with Bretford LCD mounts, adapter allows mount to swivel 360° without having to reset a screw $34.50

TVEBP-BK Flat Exterior Back-up Plate (BRTVEBPBK)
Mounts on the opposite side of a hollow concrete block mounted bracket and provides added strength and safety. Matches hole pattern of all Bretford wall mount brackets and is installed with 3/8” threaded rod and nuts (not included) $27.95

TVEBP10-BK Flat Exterior Back-up Plate 10-Pack (BRTVEBP10BK)
10 piece pack of the TVEBP-BK mounting plates $59.95

TVSTBL-BK Adjustable Stabilizing Bracket (BRTVSTBLBK)
The adjustable stabilizing bracket prevents swaying on LCD mounts. Attaches to ceiling and extension pipe $64.95

TVWJK-BK Wire Jacket Kit (BRTVWJKBK)
Keeps cable and LCD projector cords organized and out of the way $27.95

CEILING MOUNTS

RPA Series Inverted Projector Mounts

An inverted ceiling mount with the exclusive All-Points security system, the RPA series is the top-selling projector mount in the industry. Supplied with everything you need for a quick installation, low-profile look and hassle-free projector maintenance, they are ideal for offices, schools and homes. All-Points is an integrated security system that uses security hardware at all key connection points to protect projectors from theft. A steel-into-steel design makes All-Points more effective than other integrated security systems.

- UL listed for proven strength.
- Easy installation – no assembly.
- With their low-profile design, RPA Series mounts can be flush mounted without additional accessories.
- Quick projector disconnect/reconnect with lamp and filter access—always maintains registration. Disconnecting doesn’t affect pre-set adjustments.
- Independent Roll, Pitch and Yaw adjustments make it easy to precisely register the projector.
- Integrated cable management allows cables to be routed through the top of the mount without additional accessories.
- Includes the All-Points Security System.
- Compatible with a large assortment of accessories to easily overcome a variety of installation challenges.
- Allows lateral shift by adding the optional LSB-100 Lateral Shift Accessory
- Compatible with the PG-1 Projector Guard Security Cage.
- Allows natural convection ventilation.
- Three ceiling mounting methods: Flush mount; optional 1/4” threaded rod; or an optional 1½” NPT Threaded Extension Column.

RPA Inverted Custom Projector Mount (CHRPA)
Includes an SLB bracket that is designed for each specific projector. Call to determine which mount to order based on your projector model. Available in black, silver and white colors ...............................188.95

RPA-U Inverted Universal Projector Mount (CHRPAU)
Universally supports most invertible projectors. Available in black, silver and white colors ...............188.95

UPC Non-Inverted Custom Projector Mount

Chief’s customized UPC Series Mount offers the best-looking and most functional installation possible for projectors that must be mounted upright in the ceiling. Each mount includes a bracket that is custom designed to fit the contour of your projector, giving you the lowest profile support possible. The UPC customized brackets also save you valuable projector maintenance time by providing easy access to the lamp and filter.

- Low-profile design
- Heavy-duty construction for added strength and security
- Independent Roll, Pitch and Yaw adjustments make it easy to precisely register the projector.
- Integrated cable management allows cables to be routed through the top of the mount without additional accessories.
- Quick projector disconnect/reconnect with lamp and filter access—always maintains registration. Disconnecting doesn’t affect pre-set adjustments
- Three ceiling mounting methods: Flush mount; optional 1/4” threaded rod; or an optional 1½” NPT Threaded Extension Column.
- Compatible with optional LSB-100 Lateral Shift Bracket

UPC Non-Inverted Custom Projector Mount (CHUPC)
Includes an SLB bracket that is designed for each specific projector. Call to determine which mount to order based on your projector model. Available in black or silver colors .................................264.95

www.bhphotovideo.com
## LCDA Non-Inverted Universal Projector Mount

A universal solution for mounting upright LCD/DLP projectors, the LCDA Series Mount holds projectors on an adjustable tray and allows you to tighten the mount around your projector for a secure fit. The LCDA provides you with independent adjustments for quick, easy registration. Ideal for portable projector installations in offices and small businesses where the projector needs to be taken down frequently for traveling.

- Easy installation, no interface bracket required
- Adjustable tray accommodates a wide variety of projectors
- The mount can be tightened around the projector for a secure fit

### VCM Inverted Heavy-Duty Projector Mount

The VCM Series Ceiling Mount provides the strong support you need for mounting heavy LCD/CRT projectors in schools and auditoriums. Chief’s exclusive micrometer adjustments and quick disconnect save installation and maintenance time. Micrometer adjustments give you the precision you need to quickly achieve registration. The quick disconnect feature allows you to remove the projector for maintenance and replace it on the mount without losing registration.

- All steel, heavy-duty design securely mounts large, heavy projectors
- Quick projector disconnect/reconnect with convenient lamp and filter access—always maintains registration and disconnecting doesn’t affect pre-set adjustments
- Three ceiling mounting options
- Exclusive micrometer roll (±5°) and pitch (±20°) adjustments are made with the alignment features of the body. Simply turn the roll adjustment bolt to raise or lower either side of the projector, then adjust and lock the pitch adjustment. This process enables you to remove the projector for service and remount without disturbing the original projector alignment.

### LCD Projector Stackers

Utilizing RPA or UPC Series mounts, Stackers provide easy projector registration and quick disconnection for maintenance. Order as a system or choose modular components.

- Projectors can be installed inverted or non-inverted and facing the same or opposing directions for increased versatility
- 360° of rotation on arm
- ± 4° roll, ± 25° pitch, 12° yaw

### LCDA Model Max Height Max Width Tray Depth B&H SKU Price

| LCDA-240C | 10¼“-16” | 14¼“-19½” | 22½” | CHLCDA240C | 322.95 |

*LCDA-240C tray is a fixed 12½” wide. Adjustments are for the side panels only.

### PG-1A Projector Guard Security Cage

A top security solution for schools and gymnasiums, this cage fully encloses projectors in a black, locked steel cage to prevent theft, as well as recreational damage.

- Mount with pre-existing installations without disturbing projector settings
- Adjustable front opening accommodates different lens positions
- Hinged doors for easy access for projector maintenance
- Accommodates roll, pitch and yaw adjustments
- Provides proper projector ventilation

8” Ceiling Plate with Attached Adjustable 1½” NPT Column
- Universal solution for most structural ceiling installations
- Easy way to achieve the desired drop distance, 24½”-46”
- Adjustable in 3/4” increments
- Provides unmatched rigidity
- Weight capacity is 500 lbs.
CMA-100 (CHCMA100) ............................. 156.95

5" Designer Ceiling Plate with 1½” NPT Opening
- Cost effective, attractive solution for simple installs
- Can hold equipment using all four holes or two opposing holes
- 4” x 4” mounting pattern is designed to allow use of 3/8” mounting bolts
- Includes set screw to secure a 1½” NPT to the ceiling plate
- Weight capacity is 500 lbs.
CMA-101 (CHCMA101) ............................. 18.95

4” Ceiling Plate with 1½” NPT Opening
- Combines with fixed or adjustable CMA extension columns to customize your installation
- Great for installations where a short extension column is used, or where there isn’t space for a larger plate
- Includes set screw
- Weight capacity is 500 lbs.
CMA-105 (CHCMA105) ............................. 38.95

8” Ceiling Plate with 1½” NPT Opening
- Combines with fixed or adjustable CMA extension columns to customize your installation
- CMA-210 available for attaching to 2” NTP
- Includes set screw
- Weight capacity is 500 lbs.
CMA-110 (CHCMA110) ............................. 58.95

6” Ceiling Plate with 1½” NPT Opening
- Combines with fixed or adjustable CMA extension columns to customize your installation
- Includes set screw
- Weight capacity is 500 lbs.
CMA-115 (CHCMA115) ............................. 48.95

Offset Ceiling Plate
- Routes projector cables through the extension column and out the top of the ceiling plate for better cable management
- Includes an 8” square ceiling plate with a 1½” high offset
- Overall height is 4¾”
- Attaches to a 1½” NPT extension column; it can also attach to 2” NPT column with the CMA-332
- Weight capacity is 500 lbs.
CMA-330 (CHCMA330) ............................. 48.95

Structural Ceiling Plate
- Flexible neoprene rubber joint to minimize shock and vibration
- Overall height is 4½”
- Attaches to a 1½” NPT threaded extension column
- Weight capacity is 500 lbs.
CMA-345 (CHCMA345) ............................. 148.95

100° Angled Ceiling Plate with Threaded Coupler
- Adjusts from -5° to +95° to level an angled ceiling
- Attaches to a 1½” NPT threaded extension column
- Two slotted mounting holes
- Includes set screw
- Weight capacity is 500 lbs.
CMA-395 (CHCMA395) ............................. 48.95

Easy Installation Kit
- Provides all the accessories you need for a complete structural ceiling installation
- Easy to install
- Includes a 6” x 6” ceiling plate and adjustable extension column that spans 12”-18”
- Weight capacity is 500 lbs.
CMA-700 (CHCMA700) ............................. 108.95

www.bhphotovideo.com
CMA-165 Internal Joist Ceiling Kit (CHCMA165)
The CMA-165 makes home installations quick and easy. The system works like a ceiling fan installation and is designed to suspend a projector between ceiling joists. With just a 4” hole in the ceiling, it is possible to install a projector. The adapter is designed with a cable management system for a clean installation. The kit includes a junction box mounting brace and a 5” round plate that adapts to 1 1/2” NPT holes and concrete anchors. It’s weight capacity is 250 lbs. 108.95

CMA-440 UL-Listed Lightweight Suspended Ceiling Kit (CHCMA440)
This easy-to-install, economically priced mounting kit is perfect for mounting most LCD/DLP projectors under 50 lbs. It offers easy clamping to ceiling tracks with minimal assembly. Infinite adjustment allows positioning of 1 1/2” NPT opening at nearly any location within a 2’ x 2’ or 2’ x 4’ ceiling tile. The kit includes a 10’ safety cable, 20’ strand wire, two outlet knockouts, four turnbuckles, wood eye bolts, concrete anchors and a chrome ring. 108.95

CMA-450 UL-Listed Suspended Ceiling Kit (CHCMA450)
The flexible, easy-to-install CMA-450 is a 2’ x 2’ plate designed to sit unseen above the suspended ceiling. It is secured with four tie wires and a safety cable. Nine mounting hole positions with threaded ends for accepting 1 1/2” NPT column offer great flexibility for mounting. It comes with a 10’ safety cable, 20’ strand wire, two outlet knockouts, four turnbuckles, wood eye bolts, concrete anchors and chrome finishing ring. It’s weight capacity: center hole (250 lbs.), side and corner holes (125 lbs.) 158.95

CMA-455 UL-Listed Suspended Ceiling Replacement Kit (CHCMA455)
Quick installation without cutting any ceiling tiles, the CMA-455 is designed to replace a 2’ x 2’ ceiling tile or sit above the suspended ceiling. It is secured to the structure above with four tie wires. A threaded hole accepts a 1 1/2” NPT extension column. It includes a 10’ safety cable, 20’ strand wire, two outlet knockouts, four turnbuckles, wood eye bolts and concrete anchors. It’s weight capacity is 250 lbs. 148.95

CMA Adjustable Extension Columns
- Use with any 1 1/2” NPT accessory to lower the projector to desired height
- Provides range of height adjustment in 1” increments, depending on the model (3’ to 12’ lengths).
- 1 1/2” NPT Column threaded on both ends
- Includes set screws for added rigidity
- Weight capacity is 500 lbs.

**PROJECTION MOUNTS**

### SECURITY ACCESSORIES

**Heavy-Duty Cable System**
System includes the SA-1 security anchor, 1/4" x 5' vinyl-coated cable, 40mm padlock, two steel security pads with patented rotating cable fasteners and a tube of instant adhesive.

HC-1 (CHHC1) ........................................... 83.95

**Cable Lock**
Includes a coiled cable that extends 6', two steel security pads, a tube of super glue gel and a 30mm padlock.

LC-1 (CHLC1) ............................................ 58.95

**Security Anchor**
Attaches to NPT pipe, truss work and other components. Security shroud is held in position by a security cable (not included) blocking access to the hardware.

SA-1 (CHSA1) ........................................... 19.95

**Projector Lock**
Lock body is 1" diameter x 1 1/4" long. Made from aircraft aluminum, it has a seamless housing with a seven-pin tumbler locking mechanism (two keys provided). 3M adhesive secures lock to projector.

PL-4 (CHPL4) ........................................... 88.95

**SSC Security Screw Cover Kits for RPA Mounts**
- Provides added protection against equipment theft.
- Prohibits access to screws by covering hardware and locking with padlocks or cable (padlocks and cable not included).
- Compatible with the All-Points Security System

SSC-1 (CHSSC1): Includes 3 covers for screws up to #10 ....... 28.95

SSC-2 (CHSSC2): Includes 3 covers for screws up to 1/4" ....... 28.95

SSC-3 (CHSSC3): Includes 3 covers for screws up to 5/16" ....... 28.95

SSC-4 (CHSSC4): Includes all covers for RPA mounts ........... 32.95

**PL-1 Projector Lock Security Enclosure**
The PL-1 series provides an added measure of defense from theft beyond the All-Points Security without the extreme of enclosing the entire projector. The PL-1 offers three unique key options for multiple installations at the same location, and is compatible with all RPA series installations.

The multiple key options provide greater security in instances where multiple PL-1 series installations are in one location and a key is lost or stolen. The three (PL-1A, PL-1B, PL-1C) are to assist in tracking the type of key that is used for a particular installation, and to ensure that if you standardize on a single key your installations will be the same.

- Keyed lock for an added level of security
- Maintains convenient lamp and filter access for hassle-free maintenance
- Slotted design for proper projector ventilation
- Compact design for a discrete appearance
- Sliding access doors make projector maintenance quick and easy
- Compatible with new or existing RPA series installations
- Allows standard routing of cables through 1/2" NPT pipe
- Dimensions are 13 3/4" x 3 3/4" x 11 1/4". It ships fully assembled

PL-1A (CHPL1A): With key option "A" ....... 148.95

PL-1B (CHPL1B): With key option "B" ....... 148.95

PL-1C (CHPL1C): With key option "C" ....... 148.95
**SL-150 Smart-Lift**

Designed to fit most installation requirements, the SL-150 delivers an exceptionally smooth and quiet movement. It needs only 11” of ceiling clearance, easily accommodates multiple control options, and is plenum rated. Projectors can be non-inverted or inverted. (Requires SLB bracket).

- Low profile – requires only 11” clearance above the ceiling; 8¾” of downward travel distance
- Suitable for push-up table top installation
- Projector Roll, Pitch and Yaw.
- Fore/aft, left/right projector positioning
- Horizontal and vertical cradle positioning
- Quick connect/disconnect
- Three mounting methods

**SL-236 Smart-Lift**

Your solution to electrically lower projectors from high ceilings in sophisticated homes and corporate offices. The SL-236 fits most installation requirements, needs only 11” of ceiling clearance, easily accommodates multiple control options, and is plenum rated. (Requires SLB bracket).

- Low profile – 11” overall closed height; 36” of travel distance with three adjustable stopping positions (up/show/service)
- Projector roll, pitch & yaw
- Fore/aft, left/right projector positioning
- Vertical projector cradle adjustment
- Quick connect/disconnect
- Four mounting methods
- Cable management
- Multiple Control Options
  - Single momentary pushbutton
  - Low Voltage Controller (accepts 5–30v AC/DC for triggering commands)
  - Internal and external wiring options

**SLMA-600 Single Column Mounting Plate (CHSMA600)**

Used for the SL-236 installation and attaches to any 1½” NPT extension column. The mounting plate allows 3” fore/aft and 3” left/right adjustments, as well as slight roll, pitch and yaw adjustments.

**SLMA-620 Suspended Column Ceiling Plate (CHSMA620)**

A secure way to attach the suspended ceiling T-channel in place. It allows the suspended ceiling track to be attached to the sides of the lift. Kit includes eight clips.

**SLMA-650 Threaded Rod Adapter for SL-236 (CHSMA650)**

Designed for ease of use when installing threaded rod or cabling. Attach the U-channel adapters to the lift and attach outside holes to threaded rod. Allows easy access for bolting lift to rod. Kit includes two U-channel adapters.

**UPB-1 Upright Projector Bracket (CHUPB1)**

Allows projectors to hang in an upright position and retain the pitch and roll adjustments of the SL-150 and SL-236. The UPB-1 will accommodate projectors up to 9½ x 17½ x 20” (HxWxD).

**CMA-240 Suspended Ceiling Finishing Kit (CHCMA240)**

Provides a finished look to the T-Channels in a 2’ x 2’ suspended ceiling installation for the SL-150.

**IR-10 Infrared Remote Control (CHR10)**

Can be used to control the SL-150 or SL-236. Must be used in conjunction with low-voltage control.

**RC-10 Radio Frequency Remote Control (CHRC10)**

Can be used to control the SL-150 or SL-236. Must be used in conjunction with low-voltage control.

**ASP-401 Up/Down Individual Control System (CHASP401)**

Allows up/down intermediate break by rocker switch. Must be used in conjunction with low-voltage control.

**CMA-240 Suspended Ceiling Finishing Kit**

Provides a finished look to the T-Channels in a 2’ x 2’ suspended ceiling installation for the SL-150.

For CMA Adjustable Extension Columns (see page 207).

For CMA Fixed Extension Columns (see page 207).
When you want to suspend your LCD or DLP projector from the ceiling, Draper’s Aero Mounts and Aero Accuset Mounts are sophisticated in appearance, functional in their abilities and installer-friendly. They combine stylish appearance with unique features, such as infinite height adjustments, built-in cable management and an infinitely adjustable ball joint for instant registration of the projected image.

All Aero Mounts and Aero Accuset Mounts include the Aero Universal Projector Bracket to take the guesswork out of projector bracket selection. The bracket attaches to your projector in seconds. It’s infinite adjustability enables you to quickly find and secure the projector’s center of gravity, so the projector hangs level. And if you upgrade your projector, there’s no need to buy a new bracket.

Aero Accuset Mounts

◆ The Accuset family of Aero projector mounts dramatically increase the number of installations you can address with Draper projector mounts.
◆ All mounts include the revolutionary Aero Universal Projector Bracket at no additional cost!
◆ Aero Accuset mounts offer infinite adjustment of the projector through 30° pitch, 30° roll and 360° yaw. Fixed extension and adjustable mounts provide built-in cable management.
◆ Five options to choose from.

Aero Accuset Component Kit (DRAACK)
Consists of a Ceiling Plate, a Bracket Adapter and a Universal Projector Bracket. You furnish a 1½” diameter NPT pipe in your required length. Pipe must be threaded on each end...

197.50

Aero Accuset Adjustable Mount
Consists of a Ceiling Plate, two-piece NPT pipe, Extension Adapter, Bracket Adapter and Aero Universal Projector Bracket. This mount is infinitely adjustable within its specified range. A positive stop prevents the separation of the pipe, and the Extension Adapter locks the lower pipe in its final position.

Aero Accuset Low Profile Mount (DRAPMLP)
Fixed mount for “low profile” ceiling installations. Places projector 4½” from ceiling with the Aero Universal Projector Bracket attached. Ball joint adjusts infinitely up to 30° pitch, 30° roll and 360° yaw for instant registration of projected image. For projectors less than 26 pounds...

*A Ceiling Plate, Bracket Adapter, and Aero Universal Projector Bracket add 1¼” to the length of the pipe for overall length. Assembled tolerance ± 1/4”.

** Includes Ceiling Plate, Bracket Adapter, Flush Extension and Aero Universal Projector Bracket. Overall length is 10½”.

Aero Accuset Fixed Extension Mount
Consists of Ceiling Plate, Bracket Adapter, Aero Universal Projector Bracket and one section of 1½” diameter NPT pipe, threaded and notched on both ends, available in twelve standard lengths from which to choose. Or, use Draper’s 1½” long Flush Extension section of pipe that’s threaded on both ends for a close to ceiling installation.
Build Your Own Aero Accuset Kit

Order just the pieces you need for your job requirements. Choose from Ceiling Plate, Bracket Adapter, Extension Adapter, Aero Universal Projector Bracket, fixed length 1½” NPT fixed pipe section (may be cut to fit at the job site and threaded on each end), and adjustable pipe sections in seven available ranges.

### Aero Universal Projector Bracket (DRAUBUP)
This bracket fits the majority of LCD/DLP projectors designed for inverted mounting, with threaded mounting holes, weighing 26 lbs. or less. Standard with the Aero and Aero Accuset Mounts, it is furnished with four long and four short horizontal bracket arms and four threaded vertical spacers. Mix and match bracket arms as needed to fit your projector ..........84.95

### Bracket Adapter (DRAABA)
Attaches the Aero Universal Projector Bracket to a 1.5” Accuset column. Allows for cable management. 5¼” in height .....................................................87.95

### Ceiling Plate for 1½” (DRAACP1.5): 8 x 6 x 1.5” (WLH) plate attaches to building structure or can be suspended with threaded rod. Offset design allows cables to exit through top of ceiling plate ............................................................37.95

### Ceiling Plate for 2” (DRAACP2): 8 x 6 x 2” (WLH) plate ........41.95

### Aero Accuset Extension Adapter (DRAAEA): Connects 1.5 and 2” NPT pipe together providing infinite telescoping adjustment. Included threaded ring acts as a positive stop for the 1.5” NPT pipe section. This adapter comes standard with Aero Accuset Adjustable Mounts and Columns ..........54.95

### Aero Accuset Extension: Fixed length NPT pipe 1½” diameter, threaded and notched on both ends. See chart.

### Aero Accuset Adjustable Column with Ceiling Plate: Consists of Ceiling Plate, Extension Adapter, and two-piece NPT pipe (2” diameter upper section and 1.5” diameter lower section). See chart.

### Optional Accessories

#### Security Lock Kit (232076)
While no system can guarantee complete security, the Security Lock Kit is an excellent deterrent. Designed to keep your projector safe and secure when mounted to an Aero or Aero Accuset. The kit includes 6’ cable, key lock, flexible adhesive pad and microslot lock ..........Call

#### Escutcheon Ring (DRERAP1.5)
Chrome ring trims the ceiling hole around your projector safe and secure when mounted to an Aero or Aero Accuset. Excellent deterrent. Designed to keep your projector safe and secure when mounted to an Aero or Aero Accuset. The kit includes 6’ cable, key lock, flexible adhesive pad and microslot lock ..........Call

#### Escutcheon Ring (DRERAP2)
Same as above, for 2” NPT pipe ..........16.95

#### Aero Accuset Angled Ceiling Plate (DRAACP1.5)
Attaches to vaulted or angled ceilings and adjusts from 0 to 25°, allowing the projector to remain level. 8 x 6 x 2” (WLH). It must be used with an Aero Accuset ceiling plate ..........35.95

#### Aero Accuset Suspended-Ceiling Panel (DRAACP5.5)
Steel panel suspends from structure to fit within 2’ x 2’ ceiling grid. 23¼” x 23¾” white panel provides 10” of overall lateral adjustment for precise projector placement. 1½” and 2” Aero Accuset column or NPT pipe will attach directly to threaded panel opening ..........116.50

#### Security Lock Kit (232076)
While no system can guarantee complete security, the Security Lock Kit is an excellent deterrent. Designed to keep your projector safe and secure when mounted to an Aero or Aero Accuset. The kit includes 6’ cable, key lock, flexible adhesive pad and microslot lock ..........Call

#### Escutcheon Ring (DRERAP1.5)
Chrome ring trims the ceiling hole around your projector. For 1½” NPT pipe ..........16.95

#### Escutcheon Ring (DRERAP2)
Same as above, for 2” NPT pipe ..........16.95

(212) 444-6605 • 1-800-947-9905 • Quick Dial 821
Draper Aero Mount complement the latest generation of LCD and DLP projectors. But more than a shapely column, they have innovative features that simplify installation procedures.

**Aero Adjustable Mounts**
- Adjustable steel ceiling mounting plate has slotted screw holes for fine adjustments
- One screw adjusts column pitch ±30°. Adapts to cathedral ceilings without special fixtures
- Telescoping extruded aluminum column in your choice of five different sizes, 1 13/16” the shortest and 5 1/4” the longest. Black powder finish.
- Inner column is infinitely adjustable within the specified range. Loosen one concealed setscrew, lower to the exact extension you need and tighten the screw. Inner column has a mechanical safety stop to prevent it from disengaging from outer column.
- Races for cable management are concealed by “peel off” black moldings. Conveniently located on sides of the column. Hide almost any combination of cables without threading them through a column. Put cables into races after making connections to projector.
- Orient your projector quickly with the steel ball-in-socket located at tip of inner column. Provides instant registration of the projected image and adjusts through 30° pitch, 30° roll and 360° yaw. Locks with a turn of two set screws.

**Aero Fixed Adjustable Mounts**

**Aero Model 4-N (DRAPM4N)**
A fixed extension mount that places the top of the projector only 6 3/8” from the ceiling (may vary slightly according to choice of projector). The steel ceiling mounting plate has slotted screw holes for fine adjustments. A ball joint at the tip of the column adjusts infinitely to 30° pitch, 30° roll and 360° yaw. For projectors weighing less than 26 pounds. Includes the Aero Universal Projector Bracket ........................................182.50

**Aero Low Profile Mount (DRAPMLP)**
Fixed mount for “low profile” ceiling installations. Places top of projector only 4 7/8” from ceiling (may vary slightly according to choice of projector). Ball joint adjusts infinitely up to 30° pitch, 30° roll and 360° yaw. For projectors weighing less than 26 pounds. Includes the Aero Universal Projector Bracket ........................................134.50

**Aero Projector Shelf (DRAPS)**
For projectors that were not designed for inverted mounting. The Projector Shelf holds projectors up to 11.75 x 14.75 x 7.75” that weigh 26 lbs. or less. Attaches to any Aero or Aero Accuset mount.................................199.95

www.bhphotovideo.com
## LCD Lift

The LCD Lift is compact, lightweight and accommodates most LCD/DLP projectors. The standard bomb bay doors open into the room. The plenum housing is aluminum, with closure doors finished in white. It contains an internal switched duplex receptacle, 115v AC, which is powered when the unit is fully down. The LCD Lift contains an innovative current sensor that delays the closing of the unit until the projector fan has shut off. Lifting capacity is 65 lbs.

### Model A (300031)
11½" of internal travel. It places the lift at the ceiling line, and measures 17¾" x 24" x 24".

| Model A (300031) | 11½” of internal travel. It places the lift at the ceiling line, and measures 17¾” x 24” x 24”. | 2089.95 |

### Model B (300051)
16½” of internal travel. It places the lift at the ceiling line, and measures 22¾” x 29” x 29”.

| Model B (300051) | 16½” of internal travel. It places the lift at the ceiling line, and measures 22¾” x 29” x 29”. | 2254.95 |

## Revelation Lifts

The Revelation is totally different from other projector lifts and mounts. It permanently conceals the projector and its noise above the ceiling at all times. You won’t see or hear the projector—not before, during or after the show. You’ll only see a hinged door in the ceiling, finished in white powdercoat. Available in two models, Revelation requires only 13½” of space above the ceiling, and can be installed to match a 2’ x 2’ ceiling grid spacing, or used with reveal-style grid ceilings.

The Revelation’s highly reflective dual first surface mirror system delivers a perfect picture to your screen at the touch of a switch or wireless controller. Combine the Revelation with a ceiling-recessed projection screen and take your projection showmanship to a new level. The Revelation is compatible with a wide variety of LCD/DLP projectors.

When access to the projector from above the ceiling is not convenient.............197.95

## AeroLift 25, 50, 150

The AeroLift keeps footprints and height to a minimum. The smallest (AeroLift 25), actually installs easily between standard 2” thick ceiling joists on 16” centers. Three models offer weight capacities of 25, 50 or 150 lbs. The AeroLift is powered by a motor-in-roller design and features a stabilizing arm which can also be used for cable management. Built-in adjustability allows you to deal with job site conditions quickly and easily, like slightly out of square or irregularly spaced joists. All components can be serviced from below. The projector can be mounted flush to the bottom pan, or with the optional Aero Low Profile Mount (shown).

### AeroLift 25 (300020)
20” vertical travel distance. 25 lb. lifting capacity.................1539.95

### AeroLift 50 (300025)
32” vertical travel distance. 50 lb. lifting capacity.................1979.95

### AeroLift 150 (300027)
36” vertical travel distance. 150 lb. lifting capacity..............2474.95

(212) 444-6605 • 1-800-947-9905 • Quick Dial 821
Designed for today’s smaller projectors

The Micro Projector Lift is small and convenient, just like the projectors it is designed to accommodate. Weighing only 35 pounds, it can be installed in an existing 2’ x 2’ ceiling opening without disturbing the ceiling framework.

All components can be serviced from below the unit. The projector’s “show” position can be set at any point with infinite adjustability, up to 48” extension.

The Micro Projector Lift utilizes the same exclusive 3-scissor design as Draper’s popular Scissor Lift, but features a compact sidefolding scissor. The load is lifted by two 1” wide Kevlar straps. Safety belt provides extra protection.

Closed height of lifting unit is only 5” tall (not including projector, mounting mechanism or closure), so a minimal amount of overhead ceiling space is required.

The Scissor Lift retracts your projector to ceiling level or above, then lowers it to the projection and service positions you require. Factory set “store,” “show” and “service” positions may be specified to your specifications, or easily adjusted after installation.

Scissors on the left, right and back sides of the unit stabilize the projector from any sway both laterally and front–to–back.

SL Series lifts are 23” wide and 23½” deep. SLX Series lifts are 27” wide and 29½” deep.

Projectors can be bolted directly to the lift’s bottom pan, or mounted with the optional Aero Low Profile Mount. The movement of the pan is driven by a gearmotor with a powerful, reliable metal chain drive system. Each lift is equipped with a fail safe inertial safety belt system, and a Cable Management System that includes a pre-wired power cable on the back scissor, bringing 110v current right to your projector.

Operation is 115v; switching is 12v. Lifting capacity is 350 lbs.

**MICRO PROJECTOR ACCESSORIES**

| Ceiling Closure Panel (DRCCMPPL) | Universal steel ceiling closure with a white baked enamel finish can also accept ceiling tile | 389.95 |
| Ceiling Finish Trim Kit (DRCFTRMPML) | Consists of ceiling closure panel and mating trim ring | 626.95 |
| Ceiling Access Door (DRCAD) | Provides access above a finished ceiling for maintenance | 359.95 |
| Metal Finished Ceiling Access Door (DRCADMF) | | 197.95 |

*Not including projector, plenum housing or ceiling closure.

**Optional Ceiling Closure Panels for SL and SLX Series**

Universal steel ceiling closure, with a recess to accept a ceiling tile, or with a smooth surface finished in white. Six sizes available.
**LSPM: Universal Small Project Mount (LULSPM)**
The LSPM Universal Projector Mount offers the latest design in safety, flexibility, and value for many of today's popular LCD projectors. The unique 8-point clamping mechanism allows expensive projectors to be safely and securely installed using a 360° system of support. The LSPM can be used as a flush mount or can be extended 18-30" from the ceiling by using a telescoping ceiling mast (included).
The LSPM rotates 360°, and holds most 10 - 21" wide LCD projectors. It has a 0-10° adjustable tilt, opens from 7" to 14" (left to right) and from 3" to 5.75" (top to bottom). An 8-point clamping mechanisms adjust from 6.5 - 10" (front to back). The mast telescopes 18-30" from ceiling. An integrated flush mount plate is included. The LSPM's load capacity is 75 lbs., and it weighs 15 lbs. Black power coat paint finish..........................CALL

**LLPMS: Universal Projector Mount (LULLPMS)**
The LLPMS rotates 360° with an adjustable 0-20° tilt upwards and downwards. Cable management mast, telescopes 11¼-36" from the ceiling. Unit comes complete with extension brackets and stackable spacers to compensated for the curvature of most projectors. Mounting plate included. Load capacity is 35 lbs. Weighs 15 lbs. Black power coat paint finish..........................73.50

**LXPBL: Universal Projector Mount (LULXPBL)**
The LXPBL rotates 360° with an adjustable 0-20° upward and downward tilt and is an easy installation with a low-profile and cable channel enclosure. Weighs 10 lbs..............................................................119.95

**LXAPL: Adapter Kit for Mounts (LULXAPL)**
Adapter kit for the LXPBL allowing for adjustable extension lengths from 26"-47" continuing the channel enclosure for holding the cables while providing that clean look. Weighs 9 lbs.................................................................69.95

**LXSCS: Security System (LULXSCS)**
Dual-Cable security system providing safety and security. Protecting the mounting points on the chassis and the two installation mounting points of wall or ceiling. Weighs 2 lbs.........................................................47.50

**LVDH: VHS/DVD Wall Mount Bracket (LULVDH)**
Wall mount brackets for VHS/DVD recorders, CD players, digital cable and HD receivers. For your convenience, brackets are stackable to create a tower effect. The mounting ring tray extends 12" from the wall and has a load capacity of 25 lbs. Weighs 5 lbs. Black glossy powder coat finish............CALL
Demand for installed projectors in business, houses of worship, entertainment, as well as education and government facilities continues to rise. Peerless has projector mounting solutions to meet the unique physical environments each market presents, from suspended ceilings in classrooms to structural ceilings in houses of worship. Peerless offers three levels of security to prevent the loss of projectors. All projector mounts include the exclusive Armor Lock security. Armor Lock Plus, which adds security cabling, and Armor Lock-Box, a steel enclosure that surrounds the projector, are additional options for increased theft-resistance.

PRS Series Adjustable Height Projector Ceiling Mount Kits

The PRS Series adjustable height ceiling kits provide an all in one solution for quick and easy installations where variable drop length is needed. The kitted ceiling mount is available in three adjustable sizes to accommodate various desired drop lengths. It can be mounted to any common ceiling structure, and can be flush mounted where a low profile application is needed. The PRS adjustable height kits are specifically designed to save time and money when mounting projectors.

- Comes in three adjustable height ranges (in 1” increments): 8”-11”, 14”-20”, and 20”-26”
- Can also be flush mounted to position the projector close to the ceiling
- +5°/-20° Pitch, ±10° Roll, 360° Yaw (when attached to an extension column); +/-15° Yaw (when flush mounted)
- Independent roll, pitch, and yaw adjustments provide easy image alignment
- Ceiling plate included
- Hardware included for wood or concrete installations
- Built-in cord management access hole provides complete access to route cords through extension column to keep cords hidden
- Quickly release the projector for maintenance by a simple turn of a knob

**PRS-KIT0811** (PEPRSKIT0811)
Height-adjustable from 8”-11” in 1” increments, this mount has a maximum load capacity of 25 lbs. It weighs 4.75 lbs. Black .................................................................189.95

**PRS-KIT1420** (PEPRSKIT1420)
Height-adjustable from 14”-20” in 1” increments, this mount has a maximum load capacity of 25 lbs. It weighs 6.75 lbs. Black .................................................................204.95

**PRS-KIT2026** (PEPRSKIT2026)
Height-adjustable from 20”-26” in 1” increments, this mount has a maximum load capacity of 25 lbs. It weighs 8.75 lbs. Black .................................................................209.95
**Vector Pro II**

The Vector Pro II, with its included extension column connector, incorporates internal cord management paths that keep unsightly cords concealed from view. It features a ceiling plate, ball and socket design, multidirectional positioning (roll, pitch, and yaw) for proper image alignment and Armor Lock security at every connection point. It is perfect for classrooms, hotels, boardrooms, bars or anywhere a projector needs to be mounted. It can be wall mounted, flush mounted, mounted using a 1½" diameter extension column, 3/4" extension columns, or a ⅛" thread rod.

- Roll: 30° (±15°), Pitch: 30° (±15°), Yaw: 360° - all with positive lock at any degree
- Theft-resistant Armor Lock security for complete, integrated security from projector to ceiling
- Two thumb screws allow for easy projector removal
- A 1½" cord access hole offers a clean appearance
- Ships fully assembled and attaches to projector adapter plate with a partial rotation and engages into place with spring loaded screw
- Maximum load capacity of 50 lbs. Weighs 2 lbs.

PJF2-1 Vector Pro II
Available in Black (PEPJF21B) and silver (PEPJF21S).
Requires model-specific adapter plate ................. 84.95

**Projector Wall Mount**

Offering the same adjustability as ceiling mounts, the Projector Wall Mount maintains a sleek, low-profile design. It is designed with security, functionality, aesthetics, and ease of installation in mind. The Projector Wall Mount ships standard with Armor Lock security as well as the ability to quickly remove the projector from the mount.

PWA-14 Projector Wall Mount:
Available in Black (PEPWA14), Silver (PEPWA14S) and White (PEPWA14W) colors ...................................................... 54.95

**Universal Projector Mounts for PRS Series and Vector Pro II**

Universal projector mounts are offered in two designs: a clamp-style bracket that wraps around the projector, and the Spider, which is a flat plate that matches the mounting holes on the projector. Both designs are offered with Vector Pro II or PRS Series Projector mounts.

The clamp-style design is width and height adjustable and is available in three sizes. The Spider plate is a breakthrough in design that can match virtually every projector on the market. It offers unmatched versatility and includes four adjustable legs to properly align with the projector’s mounting holes. Both designs allow for proper projector ventilation and ship standard with Armor Lock security.

**Spider Universal**

PRS-UNV
PRS projector mount kitted with Spider Universal Adapter plate. Available in Black (PEPRSUNVB), Silver (PEPRSUNVS) and White (PEPRSUNVW) colors. It weighs 3.5 lbs......... 169.95

PJF2-UNV (PEPJF2UNV)
Vector Pro II mount kitted with the Spider Universal Adapter plate. Available in black. It weighs 4 lbs.............................. 89.00

**Clamp-Style Universal**

PRS35: PRS mount kitted with a small Clamp Style plate. Available in Black (PEPRS35B), silver (PEPRS35S) or white (PEPRS35W): 214.95

PRS40: PRS mount kitted with medium Clamp Style plate. Available in Black (PEPRS40B), silver (PEPRS40S) or white (PEPRS40W): 214.95

PRS45: PRS mount kitted with large Clamp Style plate. Available in Black (PEPRS45B), silver (PEPRS45S) or white (PEPRS45W): 214.95

PJF2-35 (PEPJF235): Vector Pro II mount kitted with a small Clamp Style plate. Available in black... 189.95

PJF2-40 (PEPJF240): Vector Pro II mount kitted with a medium Clamp Style plate. Black color... 189.95

PJF2-45 (PEPJF245): Vector Pro II mount kitted with a large Clamp Style plate. Black color........ 189.95

(212) 444-6605 • 1-800-947-9905 • Quick Dial 821
Internal Joist Mount (PEACC120)
Attaches between two woods joists 16” or 20” on center. Attachment point may be positioned at any point within 3” of either joist. Supports up to 300 lbs. Black.....................76.95

Unistrut Adapter (PEACC550)
Designed for use with 1 5/8 x 1 5/8” 12-gauge support. Supports up to 250 lbs. Black.....................29.95

Truss Ceiling Adapter (PEACC557)
Attaches to a square, round, rectangular, or I-Beam truss up to 3” in outside diameter. Maximum load is 1200 lbs. Black.....................41.95

I-Beam Clamp (PEACC558)
Clamps onto 4”- 8” I-Beam. Black. Maximum load is 250 lbs..................................................79.95

I-Beam Clamp (PEACC559)
Clamps onto 7”-12” I-Beam. Black. Maximum load is 250 lbs..................................................83.95

Round Ceiling Plate
Designed for finished or structural ceilings (wood or concrete), this plate features a cord management access hole. Maximum load is 150 lbs. Available in Black (PEACC570), Silver (PEACC57OS) and White (PEACC57OW).................24.95

Round Ceiling Plate (PEACC571)
To flush mount a Vector Pro II or Armor Lock-Box (includes EXT 002 Flush Mount Tube) directly to concrete or wood ceilings; or to concrete with fastners (not included). Features a cord management access hole. Maximum load is 150 lbs. Black ......................31.95

Armor Lock
When it comes to protecting valuable projectors, Peerless has you covered. Armor Lock security delivers complete protection from the extension column to the projector using security fasteners at all connection points. Armor Lock security comes standard on all Peerless projector mounts including.

- Metal-in-metal connection points
- Integrated washer head security screw secures the connection between the Vector Pro II and the adapter plate
- Security fasteners at all connection points including the extension column
- Fortified core with steel bolt and aluminum ball (Vector Pro II)

Armor Lock Plus Security Cable (PEACC021)
A cabling security option that can be used with any projector. It ships with a 1/4” diameter cable, security screws, security allen wrench, permanent high-strength adhesive, and an attachment plate for easy connection to either the Vector Pro II, PRS Series, or Armor Lock-Box. Two keys are provided for convenience........................................41.95

Armor Lock Plus Security Cable with Kensington Lock (PEACC020)
For any projector with a Kensington slot built into the chassis. It ships with a 3/16” cable, a Kensington Lock, security screws, security allen wrench, and an attachment plate for easy connection to either the Vector Pro II, PRS Series, or Armor Lock-Box. Two keys are provided for convenience...............................77.95

Armor Lock-Box
The ultimate in projector security, with an enclosure that features a ball and socket design for multi-directional positioning (roll, pitch, and yaw). It is ideal for schools or other public areas where theft is a concern. It features a keylock with a controlled key that requires registration, an additional lockdown point for an optional padlock or combination lock, fine-tuning adjustment abilities. It is designed to attach to a 1/2” diameter extension column or 1/2” threaded rod. Black.

- Roll: 60° (+ 30°), Yaw: 360°
- Armor Lock security at extension column/threaded rod attachment point and all Peerless ceiling plates
- Projector tray designed for easy removal while maintaining set mount position
- Ships fully assembled
- A mount is integrated into enclosure - no additional mount is required.
- Multiple holes for simple cord management and proper ventilation
- Fine-tuning adjustment capabilities for accurate and easy image alignment
- Metal-in-metal connection points
- Integrated washer head security screw secures the connection between the Vector Pro II and the adapter plate
- Security fasteners at all connection points including the extension column
- Fortified core with steel bolt and aluminum ball (Vector Pro II)

www.bhphotovideo.com
Anti-Vibration Ceiling Plate (PEACC840)
Reduce unwanted vibrations that may cause internal damage to the equipment or that will cause the screen image to vibrate. It supports a maximum load of 60 lbs. It features two cord management access holes. Designed for a wood structural ceiling. Black……………………………………77.95

Anti-Vibration Ceiling Plate (PEACC845)
Reduce unwanted vibrations that may cause internal damage to the equipment. It features two cord management access holes, and supports a maximum load of 60 lbs. It is designed for a Unistrut ceiling (1 1/4” x 1 1/4” 12-gauge Unistrut). Black……………………………………89.95

Lightweight Cathedral Ceiling Plate (PEACC912)
Compact, lightweight, and easy to install, it offers 120° of adjustment (± 60°) and includes a security slot for theft resistance. Maximum load is 75 lbs. Black finish……………………………………38.95

Unistrut and Structural Ceiling Plate (PECM300)
A 4 x 4” plate for either a Unistrut ceiling (1 1/4” x 1 1/4” 12-gauge Unistrut) or a solid structural ceiling (mounting hardware not included). Maximum load is 250 lb. Black finish …………………24.95

Unistrut and Structural Ceiling Plate (PECM310)
An 8 x 8” plate for either a Unistrut ceiling (1 1/2” x 1 1/2” 12-gauge Unistrut) or a solid structural ceiling (mounting hardware not included). 250 lb. maximum load. Black…………………………29.95

Finished or Structural Ceiling Plate
Mounts to two wood joists 16” on center. It can also be mounted direct to concrete (fasteners not included). 300 lb. capacity. Available in Black (PECM470) and White (PECM470W)……………………………………31.00

Finished or Structural Ceiling Plate
Same as above, but mounts to two wood joists 20” on center. Available in Black (PECM480) and White (PECM480W)……………………………………38.95

Finished or Structural Ceiling Plate
Same as above, but mounts to two wood joists 24” on center. Available in Black (PECM490) and White (PECM490W)……………………………………46.95

Lightweight Adjustable Suspended Ceiling Kit (PECM500)
Mounts above 2’ x 4’ or 2’ x 2’ false ceiling tile to offer unlimited adjustment for projector placement. The kit includes tie wire supports, a flush mount tube, and offers two knockout panels for outlet boxes. Maximum load is 60 lbs. White finish……………………………………119.95

Extension Column Stabilizer Kit (PEACC500)
Can be used to reduce unwanted swaying that may occur with extension columns over 21” in length. Includes a hose clamp, two stabilizer column supports and hardware for mounting to wood joists. Black finish……………………………………53.95

Threaded Rod (PEACC820)
For use with Vector Pro II and Armor Lock-Box. Includes four 3 pieces of 1/2” threaded rod. Black finish……………………………………18.95
Projector Enclosure
Lock in the highest level of security with the PE1120. Solid 1/2" diameter steel bars provide protection from theft or accidental damage. Installation is a snap – just snap the two halves of the steel frame together and hook the enclosure body to the frame. It’s so easy that you can attach it to existing projector installations without having to remove the projector mount or disturbing the image alignment settings. It’s the toughest security available with a user-friendly design.

◆ Adjustable bar position to accommodate projector lense placement
◆ Patented security fasteners and security wrench only offered by Peerless
◆ Padlock ready
◆ 3-step installation, great for retrofit applications
◆ 11” tall, 20” wide, 20” deep enclosure. It’s shipping weight is 39.5 lbs.
◆ Adjustable pipe clamp fits 1” to 1 1/2” pipe
◆ Mounts flush to ceiling, or drop mounted from extension pipe

Projector Enclosure: Available in black (PE1120) or white (PE1120W) finish...............................CALL

CORD MANAGEMENT

Cord Wrap
Consist of four 2’ sections. Designed to externally route cords along the outside of an extension column. Sections can be stacked to create longer lengths or cut to desired length. Available in Black (PEACC852), White (PEACC852W) or Silver (PEACC852S)........................................34.95

Cord Wrap
Consist of four 6’ sections. Designed to externally route cords along the outside of an extension column. Sections can be stacked to create longer lengths or cut to desired length. Available in Black (PEACC856) or White (PEACC856W)................................................................................89.95

Extension Column Connector with Cord Management
Designed to route cords internally through an extension column, this connector features a 1 1/2” cord management access hole. It utilizes Armor Lock security screws at all connection points. Available in Black (PEACC850) and Silver (PEACC850S) ..........................................................................................27.95

Cord Management Adapter (PEACC800)
For use with Vector Pro II and Armor Lock-Box only. Designed to route cords internally through an extension column. It threads in-between the projector mount and the extension column. The adapter features a 1 1/2” cord management access hole. Can also be used between the extension column and ceiling plate (Armor Lock-Box models). It utilizes Armor Lock security screws at all connection points. Black.................................................29.95

Side-to-Side Adjuster (PEACC830)
For use with Vector Pro II, PRS Series and Armor Lock-Box. Provides 4” of radial adjustment side to side. Can also be used in conjunction with cord management adapters and Projector Wall Arm. Includes EXT 002 Flush Mount Tube. Black.................................38.95

Threaded Rod Adapter (PEACC810)
For use with Vector Pro II, PRS Series and Armor Lock-Box. Threads directly into projector mounts (or extension column connector) and accepts 1/2” threaded rod. Secured with Armor Lock security screws. Black.................................................25.95

ALLIGATOR Concrete Anchors
Used for attachment to concrete, concrete block, or brick. These anchors are used in conjunction with wood screws, which are supplied with the projector mount and/or ceiling plate. The anchor expands in length and binds to the contours of the hole and the screw.

Package of 3 ALLIGATOR Concrete Anchors (PEACC203)........5.95
Package of 4 ALLIGATOR Concrete Anchors (PEACC204)............5.95
Package of 50 ALLIGATOR Concrete Anchors (PEACC250).........48.00
### Adjustable ExtensionColumns

Height adjustment at 1" increments. Black.

### 3/4" Pipe Reducer (PEACC093)

For use with FLP model extension columns. Order an additional reducer to attach ceiling plates with 1/2" hole. 15.95

### Extension Column Connector (PEACC109)

This connector joins two extension columns to create a maximum length of 20', and secures with Armor Lock security screws. Black finish. Weighs 1.1 lbs. 12.95

### Fixed-Length Extension Columns

Constructed of 1/2"-1.5 NPT schedule 40 pipe threaded on both ends and notched for “safety locking.” The EXT002 is for use with Vector Pro II, PRS Series and Armor Lock-Box only.

### Universal Projector Security Mount

Designed with security in mind, the PSM-UNV offers dual layers of protection for projectors. Socket-pin fasteners secure the projector to the mount, while the low-profile key-locking tray protects these fasteners for an extra level of security. The PSM-UNV features a standard adjustment screw that makes it easy to adjust the projector without having to compromise or access secure components. The PSM-UNV combines security with an easy to install and use design that is uniquely Peerless.

- ±15° tilt, ±15° roll, 360° swivel.
- Security fasteners at all connection points.
- Key-lock tray adds protection to projector attachment screws.
- Internal cord management.
- Comes ready for flush mounting to ceiling (accessory required for other mounting applications).
- Universal tray accommodates most projectors up to 30 lb.
- Max Load: 30 lb. Shipping weight is 9.8 lb.
- Model-specific PSM mounts with dedicated lamp and filter access ports also available.

(212) 444-6605 • 1-800-947-9905 • Quick Dial 821
Premier’s PBL and PBC universal projector mounts fit most projectors that weigh less than 25 lbs. They feature four double-jointed support arms that allow flexible positioning to reach almost any mounting point. Arms can be precisely positioned to avoid covering ventilation areas and maximize lamp life. The mounts also allow easy access for lamp and air filter replacement.

PBL Universal Projector Mount with Adjustable Channel

Designed for projectors weighing 25 lbs or less, this mount is very easy to install and is loaded with additional “no cost” installation features built into the mount. These features allow you to optimize your projector’s position to the screen for best projector performance and picture quality.

- Adjustable-height 9” – 12.5” suspension channel to lower the projectors height. (It can be removed for low-profile mounting of only 2.5”)
- 0° - 45° angled ceiling compensation
- Four double-jointed arms for extreme versatility in mounting to any projector
- Mounts to walls or ceilings including vaulted or cathedral ceilings, single studs and solid ceiling surfaces
- Over ±20° tilt and roll
- Rotates 360°

PBL Universal Mount (PRPBLUMP): Silver color ................................................. 142.50
PBL Universal Mount (PRPBLUMS): Dark Gray color ........................................... 134.95
PBL Universal Mount (PRPBLUMW): White color ................................................ 142.95

PBC Universal Projector Mount with 1½” Coupler

Similar to the PBL universal mounts, the PBC universal projector mount has a 1½” pipe coupling instead of the adjustable-height suspension channel. The PBC may be ceiling or wall-mounted. You can couple to any length 1½” NPT for the perfect viewing height, or you can mount it at 7” from the mounting surface. For a cleaner look, you can route the cables through the pipe coupling.

PBC Universal Mount (PRPPBCUMP): Silver color ................................................. 142.50
PBC Universal Mount (PRPPBCUMS): Dark Gray color .......................................... 139.95
PBC Universal Mount (PRPPBCUMW): White color .............................................. 142.50

APP-2446 Adapter (PRAPP2446)
Mates easily with the PBC Universal Mount’s upper and lower components. It is height-adjustable in ½” increments from 24” to 46” (12” to 24” if cut in half) on a 1½” threaded pipe .......................................................... 109.95
GYROLOCK PROJECTOR MOUNTS

The Gyrolock projector mount is designed for 360° of rotation and comes with standard mounting hardware. Projectors may be mounted at a fixed-height of 2 1⁄2” from the surface, or they may be mounted with continuous adjustable-height of between 9” and 12 1⁄2” from the mounting surface. Cables may be hidden in channels. Roll/pitch allowance of greater than ± 20 ° from center. Yaw allowance of 360° Locks in any position. Docking system for easy display removal.

PBL Gyrolock Mount with Adjustable Channel

The amazingly flexible Gyrolock series is designed for projectors weighing 25 lbs. or less. Features include:

- Mounting plate specifically designed for your projector
- Wall, ceiling or tabletop mounting
- Fixed position locking at nearly any angle
- Over ±20° tilt and roll
- Quick release system for easy projector mounting and removal
- Rotates 360°
- Adjustable-height 9” – 12.5” suspension channel to lower the projectors height. (It can be removed for low-profile mounting of only 2.5”)
- Mounts to flat and angled ceilings
- Cables can be routed inside the height extension channel for a clean look

Check the B&H website to find the correct PBL mount for your projector....................149.95

PBC Gyrolock Mount with 1½” Coupler

Similar to the PBL Gyrolock mounts, the PBC Gyrolock mount has a 1½” pipe coupling that fits standard NTP instead of the adjustable-height suspension channel. The PBC mounts to flat and angled ceilings as well as walls.

CRADLE MOUNTS

Cradle projector mounts are the perfect way to hold projectors that are not designed to be inversion-mounted. They offer a generous 20° tilt from center, with positive locking at the set angle.

Cradle Mount: With an interior that is height-adjustable from 9½ to 15” and width-adjustable from 13½” to 21½”. Available with a 14” (PRUPM1321) or 20” (PRUPM1321D) deep tray..........................................................239.95

Cradle Mount/Extender Bracket: With an interior that is width-adjustable from 13½” to 21½”. Extender brackets provide adjustable height from 9½” to 15”. Available with a 14” (PRUPM1321EXT) or 20” (PRUPM1321DEXT) deep tray ..........................................................254.95

Cradle Mount/Suspension Adapter: With an interior that is height-adjustable from 9½” to 15” and width-adjustable from 13½” to 21½”. The height-adjustable suspension adapter provides a drop-distance range between 24” to 46”. Available with a 14” (PRUPM1321AST) or 20” (PRUPM1321DAS) deep tray ..................................................294.95

Cradle Mount Extender Brackets (PRUPMEXT): These extender brackets provide up to 3-1/2” of height extension for the Cradle Mount ..........................................................19.95
PBM SERIES

PBM Series mounts have been the industry standard for over 23 years. The various sizes of PBM mounts are designed to mount projectors of up to 350 lbs. All PBMs feature ±6° tilt from center, ±3° roll from center and up to 360° of yaw when used with threaded pipe. The PBM series mates directly to a permanent structure or to the popular PP-FCMA false-ceiling adapter. It also works with the PP-LSA lateral shift adapter, AST-2446 adjustable-height suspension adapters as well as several other installation adapters and accessories.

- Mounting plate specifically designed for your projector
- Flat and angled ceiling mounting (angled ceiling mounting requires PP-T or PP-TL adapter)
- Fixed position locking at nearly any angle
- ±6° tilt from center
- ±3° roll from center
- 360° of yaw when used with threaded pipe

PBM Series Stackers

PBM-LPS1 Stacker for Smaller Projectors (PRPBMLPS1)
This dual-projector stacking system accommodates smaller projectors (up to 18˝ wide) and allows maximum ventilation. Requires appropriate PBM series projector mount (not included). Adjustable feet provided for tabletop replacement...............................................................CALL

PBM-LPS2 Stacker for Smaller Projectors (PRPBMLPS2)
This dual-projector stacking system accommodates larger projectors (up to 30˝ wide) and allows maximum ventilation. Requires appropriate PBM series projector mount (not included). Adjustable feet provided for tabletop replacement...............................................................719.95

PP-LPF Alignment Adapter (PRPPLPF)
Provides front to rear alignment in 1˝ increments. Works with the PBM-LPS1 and PBM-LPS2..........................139.95

BENTLEY Projector Mount

The Bentley UPM-01 projector mount features a visually attractive universal mounting system that fits any small or medium-sized projector on the market. Using three adjustable mounting arms, the mount can be adjusted for use with wide or narrow projector styles. The package includes 2 mounting tubes, which will allow a projector to be mounted 5.5” - 8.5” from the ceiling. A 15° tilt/pitch and a 360° turn allows for a variety of adjustments. This bracket will hold projectors up to 22 lbs. Theft prevention is enabled by optional special locking screws.

Universal Projector Mounts

The UL certified WPBL and WPBC universal projector mounts fit most projectors that weigh less than 25 lbs. They feature four double-jointed support arms (patent pending) that can reach almost any mounting point. By precisely positioning the arms to avoid ventilation areas, you can maximize the life of the lamp. These mounts allow easy access for lamp or air filter replacement. Unique levelling barrels maintain a level installation for oddly shaped projectors. They both offer 360° rotation as well as ±20° tilt and roll that provides flexibility. Cables can be routed inside the channel or pipe.

WPBL-UMS
Mounts to walls or flat and angled ceilings. Features a 9"-12½" adjustable-height channel. Cable can be routed inside the channel. Built-in 2½" low profile mounting. Weighs 9 lbs.

WPBC-UMS
Mounts to walls or flat ceilings. The 1½" pipe coupling fits standard NTP (NTP not included). Cable can be routed inside the channel.

Universal LCD Projector Mounts

H. Wilson's Universal LCD Projector Mounts have a 16½" diameter rotation of arms to easily fit your projector. The clamp style bracket models wrap around the projector. The flat-arm styles match up with the mounting holes on the bottom of the projector. All steel construction with attractive black powder coat finish.

Universal Fixed-Height Mount

Universal fixed-projector mounts have a fixed 6" pipe extension (1½" threaded pipe) from the ceiling mount. They come in two different designs. The clamp-style bracket WCFLCDM wraps around the projector. The flat-arm style WFLCDM matches up with the mounting holes on the bottom of the projector. They both have a 10° tilt, black powdercoat finish and a lifetime warranty.

WCFLCDM (WWCFLCDM)
Clamp-style bracket with mounting claws that have an adjustability of 3½" to 6½" to accommodate most LCD projectors. 7 lbs .................. 104.95

WFLCDM (WWFLCDM)
Flat mounting arm style-bracket lines up with the mounting holes on your projector. Weighs 6 lbs .................................................. 94.95

Universal Adjustable Height Mount

Universal adjustable projector mounts have a 10° tilt, black powdercoat finish and a lifetime warranty. The clamp-style bracket WCALCDM wraps around the projector. The flat-arm style WALCDM matches up with the mounting holes on the bottom of the projector.

WCALCDM (WWCALCDM)
Clamp-style bracket adjusts from 3½" to 6½" to accommodate most LCD projectors. The 1½" diameter threaded pipe adjusts from 34½" to 53". Weighs 9 lbs .................. 159.95

WALCDM (WWALCDM)
Flat mounting arm style-bracket matches up with the mounting holes on the bottom of the projector. The adjustability of the 1½" diameter threaded pipe is 27½" to 46½". Weighs 7 lbs .................. 152.95
