Motorized Plasma Lift
BEI's Motorized Plasma Lift is designed for raising a plasma display from a cabinet or lowering it from the ceiling. The lift can be supplied in BEI's Plasma Lift Cabinet or provided as "mechanism only" to be installed in an existing cabinet or other suitable enclosure.

- Mechanism is designed around a sturdy T-slot aluminum frame system.
- Works with most commonly available wall mounts.
- Capable of lifting up to 200 pounds.
- Standard travels of 28", 38" and 48".
- Custom configurations are available.
- UL listed motor-in-roller.
- Control options include line voltage switching or low voltage control via wall switch, contact closure, RS-232, IR remote or RF remote.
- 5-year warranty

Plasma Lift Cabinet
Designed around the Motorized Plasma Lift, the cabinet is built to accommodate plasma displays up to 61". The handbuilt hardwood cabinet comes with fluted corners and furniture glides and is available in a choice of birch or oak and in a choice of finishes.

Motorized Artwork System
BEI's Motorized Artwork System is designed for raising and lowering a framed canvas artwork to conceal or reveal a plasma display.

- Fits all models of plasma displays.
- Choose from over 300 classic paintings and corporate and military images. Or send BEI your own hi-resolution personal artwork, images or company logos and they will apply it.
- Wide variety of designer and custom frames.
- Can be recessed or surface mounted on the wall.
- UL listed motor-in-roller.
- Control options include line voltage switching or low voltage control via wall switch, contact closure or IR Remote.

LCD TV MOUNTS

CMW-610F
Fixed Wall Mount for 26 - 42” LCD Displays
Finished in silver or black scratch-resistant aluminum, the Bentley CMW-610F is the ideal choice for 26“ to 42” LCD TVs. Designed very slim so the mount virtually disappears behind the screen, it allows very close to wall mounting. Supports up to 120 lbs. and includes hardware for installation.

Available in Silver (BECMW610) and Black (BECMW610FB) ........................................59.95

CMW-202
Tilt Wall Mount for 22” to 37” LCD Displays
Finished in silver scratch resistant aluminum, the CMW-202 features 20° of adjustable forward tilt and 5° of backward tilt for the best viewing angle. Supports screens with VESA hole mounting.

Mounts the TV 3.85” from wall.

CMW202 Wall Mount (BECMW202) ............................39.99

CMW-422
LCD TV Double Arm Mount
A full articulating, extendable, swivel, tilt wall mount, the CMW-422 can be pulled out from the wall and offers significant tilt left and right. VESA-compatible (75 x 75 and 100 x 100mm). Maximum clearance from wall is 2.36 to 15”.

Chrome (BECMW422) ........................................44.95
Black (BECMW422B) .......................................49.95

CMW-523
Extendable Arm LCD Wall Bracket
The CMW-523 incorporates an extendable, single arm articulating with tilt motion. Adjustable tilt 15° up/down, it can swivel left and right. Maximum clearance from the wall is 2.36-7.48". VESA-compatible (75 x 75 and 100 x 100mm).

Chrome (BECMW523) .............................44.95
Black (BECMW523B) ...............................54.95
PLAW-6000F
**Fixed Wall Mount for 32 - 60” Plasma Displays**

The PLAW-6000F is a universal flat wall mount that works with plasma TVs or LCD screens from 32” to 60”. Made of solid heavy-gauge steel construction with a durable powder coated finish (black or silver), it supports displays up to 175 lbs. A low-profile mount, the screen mounts only .85” from the wall. Mounting hardware included.

PLAW-6000F Fixed Wall Mount (BEPLAW6000F) ........................................ 89.95

PLW-101
**8° Tilt Wall-Mount for Plasma Displays**

The PLW-101 is an 8° tilt wall mount compatible with plasma and LCD screens from 32” to 63”. Solid heavy-gauge steel construction supports up 175 lbs. It has a scratch-resistant silver finish, is easy to install, and has the mounting hardware included.

PLW-101 8° Tilt Wall-Mount for Plasma Displays

PLW-102
**15° Tilt Wall-Mount for Plasma Displays**

The PLW-102 is a 15° tilt wall mount compatible with plasma and LCD screens from 32” to 63”. The solid, heavy-gauge steel construction supports up 175 lbs. It has a scratch-resistant silver finish, is easy to install, and mounting hardware is included.

PLB-WA3
**LCD/Plasma Heavy-Duty Double Arm Wall Mount**

Used with the PLW-101 mount, the flat panel is attached to this double arm enabling it to be brought out from the wall on an extended arm and positioned at various angles. The PLB-WA3 supports monitors weighing up to 150 lbs.

PLB-16
**Low Profile Tilt Wall-Mount for 23” - 37” LCD Displays**

A universal tilt wall bracket for 23-37” flat panel LCD monitors, the silver PLC-16 has a downward tilt of 15° and a maximum loading capacity of 165 lbs. Easy to install, it includes the mounting hardware.

CMS-901
**LCD Cart**

Bentley’s versatile LCD cart is designed to take the rigors of heavy use for years to come. Delivers superior mobility making it a highly functional presentation cart when equipment is shared between rooms. Lockable casters offer easy mobility. Adjustable 60°, 72° and 84° post heights. 50 x 50, 75 x 75 and 100 x 100mm VESA-compliant. 

- Adjustable tilt: 15° up and down
- Swivel: Left and right 360°
- Max. Load capacity: 50 lbs.

CMS-901: Available in Silver (BECMS901) and Black (BECMS901B). 99.95

PLAW-1011
**Single Arm Articulating Mount for 40” - 60” Plasma Display**

The PLAW-1011 wall mount is ideal for obtaining side-to-side rotation and upward/downward tilt. It supports 40” to 60” screens. It’s anodized aluminum silver finish elegantly complements offices, conference rooms, merchandising displays, hotel rooms or any room in the home. Smooth, continuous tilt and roll features allows you to easily adjust the screen to the desired position for comfortable viewing. Features 20° of smooth, continuous, one-touch tilt (5° up, 15° down). Adjustable swivel of 360° in either direction. Adjustable tilt up to 30°. Two knuckles for adjustment single arm. Supports up to 132 lbs. Includes hardware for installation.

PLAW-1011 Single Arm Articulating Mount (BEPLAW1011) .............. 99.95

CMS-901
**LCD Cart**

Bentley’s versatile LCD cart is designed to take the rigors of heavy use for years to come. Delivers superior mobility making it a highly functional presentation cart when equipment is shared between rooms. Lockable casters offer easy mobility. Adjustable 60°, 72° and 84° post heights. 50 x 50, 75 x 75 and 100 x 100mm VESA-compliant. 

- Adjustable tilt: 15° up and down
- Swivel: Left and right 360°
- Max. Load capacity: 50 lbs.

CMS-901: Available in Silver (BECMS901) and Black (BECMS901B). 99.95

Yoke-Style Wall Mounts

Bretford’s Wall Yoke TV Mounts fit most 19-35” diagonal monitors depending on the model. The mount features a yoke of 14- and 12-gauge steel and are finished in black powder paint. Mounts are UL and C-UL listed for safety. Yoke arms are height adjustable to snugly fit around most TV cabinets. Unique dual upper clamp system on yoke arms prevents the monitor from sliding forward or backwards. A width-adjustable lower tray is included for added stability. Design allows you to construct and mount the TV to the platform while on the floor or a table and then lift the unit into place on premounted arms. A 0-30° forward tilt (in 15° increments except the TVWW3020-BK and the TVWW3027-BK, which are fully adjustable) and 360° swivel, allows the monitor to be set in any position. An optional DVD/VCR bracket (VCR8-BK) is also available for these wall mounts.

- Mounts are UL and C-UL listed for safety
- Yoke arms are height and width adjustable to snugly fit around most 19-20” TV cabinets for the TVWW3020-BK, 25-27” TV cabinets for the TVWW3027-BK and most 32-35” cabinets for the TVWW3035-BK
- Unique dual upper clamp system on yoke arms prevents the monitor from sliding forward or backward

**TVWW3020-BK**
For installation on an external single wood stud. Recommended for use with 19-20” monitors ............................................................ Call

**TVWW3027-BK**
For installation on an external single wood stud. For use with 25-27” monitors....129.95

**TVWW3035CC-BK**
Includes hardware (BRTVULHDW) for installation on a brick or concrete wall. For use with 32-35” monitors ..........162.50

**TVWW3035HH-BK**
Same as above, except that it includes hardware (BRTVEBP) for installation on a hollow concrete/cinder block wall ................................... Call

**TVWW3035KK-BK**
Same as above, but with hardware (BRTVMPBK) for installation on an internal wood stud .............. Call

**TVWW3035WW-BK**
Same as above, except that it includes hardware (BRTVMPEXBK) for installation on an external wood stud .....................................Call

OSHPD Approved Yoke-Style Wall Mounts

Bretford’s Gibraltar Mounts have passed the most stringent testing to meet California’s Building Code Section 1632. California’s Office of Statewide Health Planning and Development (OSHPD) have earthquake standards for TV mounts. To meet the standard, Gibraltar TV Mounts passed an 8.0 Magnitude Earthquake Test, conducted by Equipment Anchorage & Seismic Engineering (EASE) of Arcadia, California. Bretford offers four OSHPD Approved Gibraltar TV Wall Mounts.

- Tested to an 8.0 magnitude earthquake, meets California building code section 1632.
- Yoke arms are height and width adjustable to snugly fit around the respective TV cabinets.
- Unique dual upper clamp system on yoke arms prevents the monitor from sliding forward or backward and deters theft.
- They include adjustable lower tray for added stability. Optional security screws increase the mounts tamper resistance.
- Design allows you to mount the TV to the platform while on the floor or a table and then lift the unit into place on pre-mounted arms, reducing possible damage to the TV and installation time.
- The 25-27” mounts feature a 0°-30° forward tilt and the 32-35” monitors a 0°, 15° or 30° forward tilt that provides excellent viewing angles for any size of room.
- A cover for the back wall mounting plate is included with the wall-yoke mounts to provide a professional looking installation. It includes knockouts for electric and antenna leads.
- Mounts feature a 360° swivel allowing the monitor to be positioned in any position.
- Yoke constructed of 14- and 12-gauge steel and finished in an environmentally friendly black powder paint.
- Double stud wall-yoke mounts include a masonry plate designed for mounting to 16” wood centers. Can also be used on hollow concrete block, solid concrete, or brick masonry wall installations when combined with the proper mounting hardware.
- Mounts require the additional purchase of mounting hardware based upon your specific installation requirements.

GIBRAL TAR SERIES

Double-Arm Yoke-Style Wall Mounts

Bretford’s UL-listed double-stud, double arm wall yoke TV mounts are width and height adjustable to accommodate monitors from 32” to 42”. Designed for wall installation on two single wood studs, the arms hold the mounts approximately 25” away from the wall, allowing a full 360° swivel.

- Unique dual upper clamp system on yoke arms prevents the monitor from sliding forward or backward.
- Supplied adjustable lower tray for added stability.
- You can construct and mount the TV to the platform while on the floor or a table, and then lift the unit onto pre-mounted arms.
- Optional security screws increase the mounts tamper resistance.
- A 0°-30° forward tilt provides excellent viewing angles for any size of room.
- 360° swivel allows positioning anywhere.
- Yoke constructed of 14- and 12-gauge steel and finished in an environmentally friendly black powder paint.

Yoke-Style Ceiling Mounts

Bretford’s Ceiling-Yoke TV Mounts will fit most 19-40” diagonal monitors depending on the model. Yoke arms are height and width adjustable to snugly fit around most TV cabinets. Unique 11-gauge steel upper clamp system on yoke arms prevents the monitor from sliding forward or backwards. Tray and arms are constructed from 14- and 12-gauge steel. An adjustable lower tray for added stability is included. Design allows you to construct and mount the TV to the platform while on the floor or a table and then lift the unit onto pre-mounted arms. A 0-30° forward tilt (in 15° increments except the TVCC3020-BK and the TVCC3027-BK which are fully adjustable) and 360° swivel allows the monitor to be set in any position. Mounting pipes and hardware are sold separately and are required for installation. UL and C-UL Listed. Bretford recommends the use of a professional installer to install TV mounts. An optional VCR bracket (VCR8-BK) is also available for these ceiling mounts.

- Yoke arms are height and width adjustable to snugly fit around most TV cabinets.
- Unique dual upper clamp system on yoke arms prevents the monitor from sliding forward or backward.
- New design allows you to construct the platform, mount the TV to the platform on the floor or a table and then lift the unit into place on pre-mounted arms.
- Includes an adjustable lower tray for added stability.
- Optional security screws increase the mounts tamper resistance.
- TVCC3020-BK and TVCC3027-BK feature a 0-30° forward tilt. The TVCC3035-BK and TVCC3040-BK feature a 0°, 15° or 30° forward tilt that provides excellent viewing angles for any size of room.
- UL and C-UL listed for safety
- 360° swivel allows the monitor to be positioned in any position.
- Yoke constructed from 14- and 12-gauge steel and finished in black powder paint.
- Ceiling yoke mounts require a ceiling bracket and 1½” threaded NPS pipe for installation. Brackets and pipes sold separately by Bretford.

Platform-Style Wall Mounts

Perfect for wall installations, platform style mounts are ideal for small to mid-size monitors, that can be secured with a safety belt (that is included with non-locking models). Non-locking models have a 1” front retainer lip to keep the monitor from sliding. Each wall-platform style mount features at least a 0-10° tilt and 360° swivel. The TVPW models feature back plates with knock-outs for easy wiring. TVML models offer an anti-theft device to secure monitor to platform and protect valuable equipment. An optional space-saving DVD/VCR bracket conveniently mounts below any of the models and accepts 8-21” wide DVD or VCR players. The bracket features an anti-theft device (use is optional) and has a 180° swivel independent of the mount. Designed for mounting on a single wood stud, the mounts are constructed from heavy-duty, 14-gauge steel with black powder paint finish to withstand years of use.

Non-Locking Platform Mounts

- Non-adjustable platform features a 1” front retainer lip and Bretford safety belt to keep monitor from sliding (TVPW models only)
- Features 0-10° forward tilt and 360° swivel for the perfect viewing angle and position
- TVPW models are UL listed for safety
- Mounting plates include box cutouts for electrical wiring and cable management
- TVM4 models are OSHPD approved

PROFESSIONAL SERIES PLATFORM-STYLE WALL MOUNTS

www.bhphotovideo.com
Double-Stud Platform-Style Wall Mounts

These mounts can be easily mounted directly to a finished wall, eliminating the need for additional mounting plates. The mounting plate is pre-drilled for 16” wide double wood mounting studs. A tubing extender arm attaches the mounting plate to the platform. The mount has a non-adjustable platform that is perforated to allow attachment of the monitor. Each mount features 360° swivel. Non-locking mounts feature 0-10° tilt, while the locking models feature 0-15° tilt. The locking models also offer an anti-theft device to lock the monitor to the platform and protect valuable equipment. An optional DVD/VCR bracket can be mounted to any mount. The bracket features an optional anti-theft device and has 180° swivel independent of the mount. Non-locking mount are UL-listed and include a safety belt.

Q2 SYSTEM—SMALL FLAT PANEL MOUNTS

Static Wall Mount

FSM-4000 Series
The VESA compliant FSM-4000 series holds small flat panel displays close to the wall for an exceptionally slim appearance at an attractive price. Q2 Mounting System ensures easy installation, stable mounting, quick release and optional security.

- Quick installation
- Low profile
- Touchscreen compatible
- Includes interface bracket. Non-VESA compliant interface brackets also available
- Display installs in portrait/landscape views

FSM Series
Depth from Wall / Pole
7/8”
Overall Dimensions (HWD)
7 1/4” x 5 1/2” x 7/8”
Interface Brackets
Compatible with all other 4000 Series products

Tilt-Adjustable Wall Mount

FPM-4000 Series
The VESA compliant FPM-4000 series provides rigid pitch adjustment (+5%/-18%) to help you achieve the optimum viewing angle for your small flat panel display. Q2 Mounting System ensures easy installation, stable mounting, quick release and optional security.

- Quick installation
- Includes interface bracket. Non-VESA compliant interface brackets available
- Low profile
- Display installs in portrait/landscape views
- Touchscreen compatible

FPM Series
Depth from Wall / Pole
1 1/2”
Overall Dimensions (HWD)
6 7/8” x 5 5/8” x 1 1/2”
Interface Brackets
Compatible with all other 4000 Series products

Single Display Pole Mount

FSP-4000 Series
An innovative alternative to wall mounting, the VESA compliant FSP-4000 series allows you to attach small flat panel displays to any 1 1/2” - 2” (OD) diameter pole. A wide range of tilt adjustment allows you to achieve the perfect viewing angle. Q2 Mounting System secures display with a lockable latch. Includes pole clamp and interface brackets. Pole not included.

- Quick installation
- Non-VESA compliant interface brackets available
- Tilt adjustment 10° up, 25° down
- Set tilt for touchscreen use
- Yaw adjustment 360°

FSP Series
Depth from Wall / Pole
1 7/8”
Overall Dimensions (HWD)
6 7/8” x 5 5/8” x 1 7/8”
Interface Brackets
Compatible with all other 4000 Series products

Dual Display Pole Mount

FDP-4000 Series
Your solution for viewing small flat panel displays from opposing angles, the VESA compliant FDP-4000 series installs two displays back-to-back and attaches to any 1 1/2” - 2” (OD) diameter pole. Includes pole clamp and interface brackets. Pole not included.

- Quick installation.
- Exclusive Q2 Mounting System secures small flat panel display with a lockable latch
- Non-VESA compliant interface brackets available
- Set tilt for touchscreen use

FDP Series

# Q2 SYSTEM—SMALL FLAT PANEL MOUNTS

Small Flat Panel Display Mounting Solutions

Chief’s full line of small flat panel display mounting solutions are designed to support most flat panel displays under 30” that use plasma or LCD technologies. Chief’s 4000 Series mounts incorporate the exclusive Q2 Mounting System to provide you with easy installation, stable mounting, integrated security and quick release.

## Q2 Mounting System

Quick, easy and versatile, Chief’s exclusive Q2 Mounting System is designed to make small flat panel mounts exceptionally user-friendly. Q2 uses self aligning mating components, a steel latching flag and an optional security accessory to help you easily guide, latch and lock your screen to the mount. Due to its universal mounting pattern, Q2 allows you to install the display in either portrait or landscape mode, quickly and easily change out displays, or move a display between mounts.

</table>
They all feature:

- They are 75 x 75mm or 100 x 100mm VESA compliant
- They ship fully assembled for easy installation
- Exclusive Centris Technology Gravity-centered tilt self adjusts to securely hold different display weights.
- Independently adjustable tension at pivot points provides customized control and can be optimized for touch-screens (FCS-110/FCD-110)
- Minimal hardware is visible from the underside of the work surface—they offer a very clean look

**Single Swing Arm Desk Mount**

**FCS-110**
The VESA-compliant FCS-110 swings away from the desk and provides pivot/pitch adjustment for ergonomic needs. Folds in close to desk mount for a low profile appearance. Perfect for home and office installations. Extends up to 9\(\frac{3}{4}\)".

**Single-Arm Height-Adjustable Desk Mount**

**FCV-110**
The VESA-compliant FCV-110 has the ability to extend over 14" and has a height adjustment of 13\(\frac{3}{4}\)" making it a leader in ergonomic capabilities.

**Dual Swing Arm Desk Mount**

**FCD-110**
The surface mount of the VESA-compliant FCD-110 has multiple installation capabilities that make it easy to use. Low-profile desk mount with swing arm for pivot and tilt adjustment. Perfect for home and office installations. Extends up to 9\(\frac{3}{4}\)".

**Height-Adjustable Dual-Arm Desk Mount**

**FCG-110**
The VESA-compliant FCG-110 extends up to 20" and has a height adjustment of 13\(\frac{3}{4}\)". An ergonomic solution for the home or office providing excellent adjustability.

**Centris Mounting Technology**

Strong, attractive, and easy to install, Chief’s Centris System is designed to enhance the appearance and functionality of your small flat panel display. All Centris mounts incorporate smooth tilt function, adjustable pivots, easy display attachment, and a hidden wall plate. Centris System mounts will not sag or drift over time by the weight of the display and is the only mount on the market that can support 40 lbs.

**Height-Adjustable Triple-Swing Arm Desk Mount**

**FCB-110**
The VESA-compliant FCB-110 is the most versatile product in the small flat panel display line. It extends over 26" and height-adjusts 13\(\frac{3}{4}\)" making the FCB-110 a leader in ergonomic capabilities.
**SMALL FLAT PANEL WALL MOUNTS**

- They ship assembled for easy installation
- Easy to install—Attach wall plate to single stud. Attach display to mount. Slide mount onto plate. Secure hardware.
- They are VESA-compliant (75 x 75mm or 100mm x 100mm).
  Interface brackets are available for non-VESA compliant displays
- Built-in cable management for a clean installation.
- Sleek, attractive design hides all hardware
- Smooth tilt adjustment ±15° down by hand.
- Gravity-centered tilt self-adjusts to securely hold different display weights (Centris Technology).
- Independently adjustable tension at pivot points provides customized control. Tension can be optimized for touchscreen use.
- Portrait and landscape rotation and side-to-side pivot (pivots 180° at wall plate)

### Pivot/Pitch Wall Mount

**FWP-110:**
The FWP-110 attaches small flat panel displays to the wall and provides smooth pivot and pitch adjustment for different viewing angles and ergonomic needs.

### Height-Adjustable Single Swing Arm Wall Mount

**FWV-110:**
The FWV-110 attaches small flat panel displays to the wall and provides ergonomic viewing height.

### Single Swing Arm Wall Mount

**FWS-110:**
The FWS-110 swings out from the wall for close viewing and provides display pitch and pivot adjustment for ergonomic needs. The mount remains hidden behind the display when it is folded against the wall.

### Height-Adjustable Dual Swing Arm Wall Mount

**FWG-110:**
Provides a broad range of motion for viewing displays from multiple angles and heights. Ideal solution for installations that require installation at a certain height and viewing at another.

### Dual Swing Arm Wall Mount

**FWD-110:**
Provides a broad range of motion for viewing small flat panel displays from multiple angles. Folds in close to the wall for a low-profile appearance. Mount remains hidden behind the display when folded against the wall.

### Height-Adjustable Triple Swing Arm Wall Mount

**FWB-110:**
The most versatile product in the small flat panel display line. The ability to extend up to 26” makes it a leader in ergonomic capabilities.

TELEVISION MOUNTS

CHIEF

ASSORTED SMALL FLAT PANEL MOUNTS

NEW! FSR & FTR
Fixed & Tilt Wall Mounts

The FSR fixed wall mount and FTR tilt wall mount are the newest members of the Fusion Series. The FSR is designed to provide ultra low-profile installation and built-in security. The FTR provides fast installation, smooth tilt adjustment and built-in security. Both include the Q-Latch Mounting System to allow for portrait and landscape installation.

- Low-profile - only 0.6” deep (FSR) and under 2” deep (FTR).
- Smooth fingertip tilt (FTR only).
- Multiple installation options (single stud/drywall).
- Integrated security with an optional padlock.
- VESA 75 x 75, 100 x 100 (custom interfaces also available).

POLE MOUNTS

Chief’s pole mounts easily attach to poles and provide smooth pivot and tilt adjustments

They all feature:

- Portrait and landscape rotation and side-to-side pivot.
- Gravity-centered tilt self-adjusts to securely hold different display weights (Centris Technology)
- VESA compliant (75mm / 100mm). Interface brackets are available for non-VESA compliant displays
- Easy height adjustment by adjusting a single screw.
- Friction-adjustable pivot points for customized movement.
- Extremely flexible, allows installation on pre-existing poles.

Small Flat Panel Pivot/Pitch Pole Mount

FPP-110: The FPP-110 easily attaches small flat panel displays to a pole and provides smooth pivot and pitch adjustment.

Single Swing Arm Pole Mount

FPS-110: The FPS-110 swings out away from the pole for close viewing and provides display pitch and pivot adjustment for ergonomic needs. The FPS-110 remains close to the pole in closed position for a low-profile appearance. Easily attaches displays to poles and provides smooth pivot and tilt adjustments. Allows extension up to 9⅜”.

Dual Swing Arm Pole Mount

FPD-110: The FPD-110 provides a broad range of motion for viewing displays from multiple angles. The FPD-110 fully extends 15.27” for ergonomic adjustment and folds in close to the pole for a low-profile appearance. It easily attaches displays to poles and provides smooth pivot and tilt adjustments. Allows increased extension up to 15¾”.

FHP-110
Ceiling Mount with Adjustable Column

The FHP-110 is a sleek, Centris mounting system designed for VESA 75mm/100mm compliant displays. The mount includes an adjustable column, two snap-on cable management covers, and a variety of screen positioning options. The all-metal mount is available in either silver or black. The slender column on the mount is finely finished with easy adjustment between 23- and 42” in 1” increments. The snap-on cable management cover, fitting snugly against the column, conceals unsightly cabling. The mount rotates 360°, allowing portrait or landscape mounting of your display. The friction-adjustable pivot points include 15° of up and down tilt for customized movement.

- Gravity-centered tilt self-adjusts to securely hold different display weights (Centris Technology)
- Centris Technology also enables effortless tilt and pivot as well as finger tip tilt and swivel for viewing at any angle
- Portrait and landscape rotation and side-to-side pivot
- Includes all installation hardware—ceiling plate, adjustable extension column, two plastic snap-on cable management covers, and pivot/tilt attachment for a variety of screen positioning options.
SMALL FLAT PANEL TABLE STANDS

Great for boardroom applications, Multi-Monitor Table Stands are designed to provide a rock-solid, free standing solution for multiple monitors. They feature Centris pivot/tilt mechanism to provide a smooth range of motion for hassle free monitor positioning.

◆ Heavy duty solid steel base and oversized pole for unmatched stability
◆ Patented fingertip tilt and pivot control
◆ VESA 75mm x 75mm and 100mm x 100mm compatible
◆ Snap-on cable cover for quickly routing cables.

FTP-220 Dual Horizontal Table Stand: A low-profile table stand that lets you view up to two displays horizontally. It mounts the two displays side-by-side on a 14” pole. Available in Black or Silver.

FTP-230 Dual Monitor Vertical Table Stand: This low-profile, sturdy table stand stacks two displays vertically on a 28” pole. It provides smooth adjustments and modular versatility. The FPP-220 is available in Black or Silver.

FTP-320 Triple Horizontal Table Stand: A rock solid, free-standing solution for mounting three monitors. Centris Technology provides smooth motion for hassle free monitor positioning. Available in Black or Silver.

FTP-440 Quadruple Table Stand: Easily stack four monitors for easy viewing of multiple screens. A great solution for broadcast, financial and graphics offices. Available in Black or Silver.

OPTIONAL ACCESSORIES

Grommet Accessory (FTA-1000): Provides a rock-solid bolt down option for multiple monitors. Available in Black or Silver.

Multiple Monitor Array Connector (FTA-1001): Provides a connection between two array components for multiple monitor installations.

Free Stand Base Accessory (FTA-1002): Can be used with other FTA accessories to design a custom multiple monitor solution (with a maximum of 4 screens and 2 rows tall). Available in Black or Silver.

Pole Accessory: Provides different height options for customized multiple monitor solutions. It is available in Black or Silver finish in 14” (FTA-1014), 28” (FTA-1028) and 42” (FTA-1042) packages.

Dual Horizontal Array Pole Clamp (FTA-220): Used with other FTA array accessories for a customized installation. Available in Black or Silver.

Triple Horizontal Array Pole Clamp (FTA-320): Used with other FTA array accessories for a customized installation. Available in Black or Silver.

MOUNTING ACCESSORIES

Installation Adapters

Wall Plate Adaptor: Can be used to quickly change a desk mount into a wall mount. Available in Black (FSA1001B) and Silver (FSA1001S) ................................. 48.95

Desk Mount Adapter: Can be used quickly change a wall mount into a desk mount. Available in Black (FSA1002B) and Silver (FSA1002S) ................................. 98.95

Extension Arm: Attaches to single or dual arm mounts and pivot/tilt wall mounts for additional extension. Available in Black (FSA1003B) and Silver (FSA1003S) ................................. 58.95

Extension Height Adjustable Arm: Attaches to any single or dual arm mount for height adjustment and additional extension (a maximum of three arms can be used). Not compatible with lifting arm solutions. Available in Black (FSA1004B) and Silver (FSA1004S) ................................. 179.50

Centris Quick Release Interface: Small flat panel quick release bracket (to complete installation you must order the correct interface bracket). Available in Black (FSA1007B) and Silver (FSA1007S) ................................. 58.95

Security Accessories

Lockable Latch Accessory: Lockable latch for FSM, FPM, FSP and FDP mounts. Includes adaptable accessory flag and set screw. Compatible with padlocks. Available in Black (FSA1008B) and Silver (FSA1008S) ................................. 18.95

Height-Adjustable Arm Security Hardware Kit replaces exposed hardware on any small flat panel arm configuration with security arm. Please note that it is not compatible with height-adjustable arm mounts. Available in Black (FSA1005B) and Silver (FSA1005S) ................................. 28.95

Arm Security Hardware Kit replaces exposed hardware on any small flat panel arm configuration with security hardware. Available in Black (FSA1009B) and Silver (FSA1009S) ................................. 28.95

Security Screw Cover Kits: Provides added protection against theft. It prohibits access to screws by covering hardware and locking with padlocks or cable (not included). Each kit includes three covers for screws. Kits are available for screws up to #10 (CHSSC1), screws up to 1/4” (CHSSC2) and screws up to 5/16” (CHSSC3) ................................. 28.95

**8” Ceiling Plate with Attached Adjustable 1 1/2” NPT Column**
Mount your flat panel from the ceiling quickly and easily. A universal solution for most structural ceiling installations, it is adjustable in 3/4” increments, and allows you to easily achieve your desired drop distance from 24 1/4” - 46”. The 1 1/2” NPT threaded column universally attaches to Chief accessories. It has a weight capacity of 500 lbs, and is available in Black (CMA100B), White (CMA100W) or Silver (CMA100S). ........... 156.95

**5” Designer Ceiling Plate with 1/2” NPT Opening (CHCMA101)**
A cost effective solution for simple installations. Easy to install, the Designer Ceiling Plate is made so versatile, it can hold equipment using all 4 holes or 2 opposing holes. The 4” x 4” mounting pattern is designed to allow use of 3/8” mounting bolts. It has a weight capacity is 500 lbs, and includes set screw to secure 1/2” NPT to a ceiling plate .................... 18.95

**4 x 4” Ceiling Plate with 1/2” NPT Fitting (CHCMA105)**
This ceiling plate combines with any CMA adjustable or fixed extension column, allowing you to customize your installation. Great for installations where a short extension column will be used, or in installations where there may not be adequate space for a larger plate. Includes set screw. Weight capacity is 500 lbs .................................................... 38.95

**6 x 6” Ceiling Plate with 1/2” NPT Fitting**
Combines with any CMA fixed or adjustable extension column or other 1/2” NPT extension columns threaded on both ends. Includes set screw. It has a weight capacity of 500 lbs, and is available in Black (CHCMA115B), White (CHCMA115SW) or Silver (CHCMA115S) ..................... 48.95

**8 x 8” Ceiling Plate with 1/2” NPT Fitting (CHCMA110)**
Combines with any CMA extension column. It includes set screw and has a weight capacity of 500 lbs .................................................... 58.95

**Offset Fixed Ceiling Plate (CHCMA330)**
Allows you to route cables through the extension column and out the top of the ceiling plate. It includes an 8” square ceiling plate with a 1 1/2” high offset. It has an overall height of 4 3/4”, attaches to a 1/2” NPT extension column and has a weight capacity is 500 lbs ..................... 48.95

### EXTENSION COLUMNS

**CMA Adjustable Extension Columns**
- Use with any 1 1/2” NPT accessory to lower the display
- Provides a range of height adjustment in 1” increments
- Includes set screw for added rigidity
- Weight capacity is 500 lbs (227 kg).

Swing Arm Mounts for Medium Flat Panel Displays

Get ultimate flexibility and a broad range of motion for viewing medium and small flat panel displays with Chief’s patented CYNERGY Series Swing Arm Wall Mounts. This line of custom mounting solutions provides maximum extension or folds flat against the wall for a low-profile appearance. Centris Technology provides smooth pivot and tilt adjustments that securely hold different display weights. The CYNERGY Series Mounts are full of innovative features to complement any application.

### Pivot/Tilt Wall Mount for 26 - 40" Flat-Panel Display

**JWP-V**

The JWP-V provides a broad range of motion for viewing displays from multiple angles (single stud wall mounting). Available in black or silver.

### Single Arm Wall Mount for 26 - 40" Flat-Panel Display

**JWS-V**

The JWS-V swings out for close viewing or folds flat against the wall. It extends over 11” from the wall, and retracts to 2½”. Available in black or silver.

### Dual Arm Wall Mount for 26 - 40" Flat-Panel Display

**JWD-V**

Provides the maximum flexibility for viewing mid-size displays. It extends over 20” from the wall, retracts to 2½”. Available in black or silver.

### End-User Focused

- **Exclusive Centris Technology**
  - Self-adjusts to support different display weights
  - Enables effortless tilt and pivot adjustments
- **Customer-Friendly Designs**
  - Fingertip tilt and swivel for viewing at any angle — all without tools
  - Hidden wall mount hardware and cable concealment for a clean installation
- **Ultimate Flexibility**
  - Maximum range of motion — from low profile to full extension.

### Faster Installation

- **Easy, 3-Step Installation**
  1. Attach plate to wall
  2. Hang mount onto wall
  3. Attach display to mount
- **Advanced Display Mounting**
  - Teardrop hole pattern makes mounting the screen quick and easy

### Proven Quality

- **Solid construction** — designed with cast components and steel uprights for ultimate strength.
- **Every mount goes through a series of rigorous tests to ensure a safe and secure installation.**

### Superior Support

- **Expert and Accessible Customer Service**
  - Knowledgeable support from experienced industry professionals.

FUSION SERIES

Fixed and Tilt Wall Mounts
for Medium and Large Flat Panel Displays

A line of custom mounting solutions, the FUSION Series combines functionality with low profile design for quick and easy installation of large and medium flat panel displays. With a variety of fixed and tilt solutions for multiple screen sizes, you can be sure you’ll find a mount to fit your needs.

**End-User Focused**
- Customer-Friendly Designs
  - Ultra low-profile design keeps mount hidden behind screen
  - Fingertip tilt adjustment for custom screen angles
  - Lateral shift allows screen to be centered at ideal positions
- A complete solution, Fusion Series mounts are compatible with multiple accessories to customize any installation

**Faster Installation**
- Rapid Level System provides hands-free leveling of mount on wall
- Q-Latch Mounting System
  - Provides quick display connect and disconnect
  - Portrait or landscape mounting capability
  - Integrated security
  - Compatible with multiple accessories
- For cable management, an expanded wall plate opening provides cable access and reduces risk of outlet interference
- Integrated Lateral Shift
  - Provides up to 4” of continuous shift left or right of 16” centers
  - Allows for 16”, 20” and 24” center stud system mounting
  - MSR/MTR mounts to single stud with up to 4” of shift, or 16” centers with 3/4” left or right shift

**Proven Quality**
- Designed with heavy gauge steel, press-in studs and lock nuts for ultimate strength
- Rigorously tested, every mount undergoes a series of tests to ensure a safe and secure installation

---

**Fixed Wall Mount**
for 26 - 40” Flat-Panel Display

**Fusion MSR (CHMSR)**
The MSR is designed to be a low profile, fast installation wall mount for mid-size flat panel displays. Unique installer friendly features and a universal VESA interface make it a great solution.
- Ultra low profile design just over 1” deep
- Unique design provides cable access through sides of mount
- Multiple mounting options provides single stud at 5 different positions and 16” center stud mounting
- Integrated lateral shift up to 4” on a single stud and 1½” on 16” centers
- Q-Latch Mounting System simplifies installation
- Expanded wall plate opening provides cable access and reduces risk of outlet interference
- Provides integrated security – just add a padlock
- Heavy-duty construction with steel components

---

**Tilt Wall Mount**
for 26 - 40” Flat-Panel Display

**Fusion MTR-V (CHMTRV)**
The MTR is an ultra low-profile tilt wall-mount for mid-size flat panel displays. Friction adjustable tilt provides easy positioning at any angle. A universal VESA interface makes this a great solution.
- Ultra low profile design just over 1½” deep
- Friction adjustable tilt from 0 – 15°
- Multiple mounting options provides single stud at 5 different positions and 16” center stud mounting
- Integrated lateral shift up to 4” on a single stud and 1½” on 16” centers
- Q-Latch Mounting System simplifies installation
- Expanded wall plate opening provides cable access and reduces risk of outlet interference
- Provides integrated security – just add a padlock
- Heavy duty construction with steel components

## Fixed Portrait or Landscape Wall Mount for 37” - 65” Flat-Panel Display

**Fusion PST** (CHPST)
The installer-friendly Fusion PST offers a low-profile design that mounts just 1 1/8” from the wall. It's unique design provides cable access through the sides of the mount. Chief has coupled these benefits with a security option and seismic rating for safety to make the Fusion PST perfect for basic public display applications. A Rapid Level System provides hands-free leveling of the mount on the wall.

- Can support large displays up to 200 lbs.
- Heavy-duty construction with steel components
- Expanded wall plate opening provides cable access and reduces risk of interference

**Fusion PRO** (CHPRO)
The Fusion PRO is a low-profile rock-solid tilt wall mount for large flat-panel displays. With wrench-adjustable lock-down tilt from 0-15° and built-in security, the Fusion PRO is great for digital signage and boardroom applications. It features a heavy-duty construction with steel components, and is compatible with displays up to 200 lbs.

- Ultra low profile design just over 1 1/2” deep
- Wrench-adjustable 0-15° tilt
- Q-Latch Mounting System simplifies installation
- Expanded open wall plate cutout for cable management

## Lockable Tilt Wall Mount for 37” - 65” Flat-Panel Display

**Fusion PLP** (CHPLP)
The “Cadillac” of tilt wall mounts for large flat panel displays, the Fusion PLP boasts all the benefits you need for high-profile applications such as homes and corporate board rooms. Using Chief’s exclusive Pull-N-Tilt system, the Fusion PLP allows you to smoothly and easily tilt the display 0-15° by hand. Pull-N-Tilt holds the display in place anywhere within the tilt range. Customized brackets and a mount depth of only 1 1/2” provide an ultra-slim installation. The bottom of the mount pulls forward 3” for simplified cable access. The Fusion PLP is compatible with displays up to 200 pounds.

- Q-Latch Mounting System secures a large flat panel display with a lockable latch
- Ultra low-profile design – 1 1/2” standard mount depth
- Patented Pull-N-Tilt adjustment control from 0-15° allows for smooth adjustment by hand
- Bottom of mount pulls out 3” for simplified cable access
- Integrated security allows display to be locked to mount by adding a padlock

## Low-Profile Pull-N-Tilt Wall Mount for 37” - 65” Flat-Panel Display

**Fusion PLP** (CHPLP)
The “Cadillac” of tilt wall mounts for large flat panel displays, the Fusion PLP boasts all the benefits you need for high-profile applications such as homes and corporate board rooms. Using Chief’s exclusive Pull-N-Tilt system, the Fusion PLP allows you to smoothly and easily tilt the display 0-15° by hand. Pull-N-Tilt holds the display in place anywhere within the tilt range. Customized brackets and a mount depth of only 1 1/2” provide an ultra-slim installation. The bottom of the mount pulls forward 3” for simplified cable access. The Fusion PLP is compatible with displays up to 200 pounds.

**REACTION SERIES**

**Double Swing-Arm Wall Mount for 37 - 65" Flat-Panel Display**

**Reaction PDR (CHRPDR)**
View large flat panel displays from any angle with the new PDR Dual Arm Wall Mount – the newest innovation from Chief. This custom mounting solution swings out and extends over 37" from the wall, collapsing to only 2 7/8" when in home position! The PDR includes all of the standard features you can expect from a Chief mount, plus several new exclusive features developed specifically for the PDR mount.

- **Mounting guides provided for a hassle-free installation.**
- **Gravity-centered tilt. No tools necessary for adjustments.**
- **Integrated lateral shift up to 9" – 2" left/right of 16" stud system without disassembly.**
- **Built-in cable management channels inside the arms.**
- **Q-Latch Mounting System simplifies installation.**
- **Extends 37" from the wall, only 2 7/8" deep when collapsed.**
- **Post-installation height adjustment up to 3" for ultimate installation flexibility.**
- **Independently adjustable tension at pivot points.**

**Reaction PWR (CHRPWR)**
The Reaction PWR is a rugged, versatile, single swing arm mount for large flat panel displays. The arm extends 24 7/8" in length from the wall, pivots up to 90º left or right of center and collapses to 3 3/8" to provide ultimate flexibility. The PWR features G-Force Tilt Technology for fingertip adjustment from 0 – 15° and the Q-Latch Mounting System. The PWR is great for home entertainment or boardroom applications.

- **Extends 24 7/8" from wall and remains low profile at 3 3/8" in the home position.**
- **Q-Latch Mounting System simplifies installation, and provides integrated security. It is compatible with multiple accessories.**
- **G-Force Tilt Technology provides fingertip adjustment from 0 – 15°**
- **Integrated lateral shift up to 9"**
- **Provides positive latch in home position to keep screen tight to wall**
- **CableTrac System provides a fast and effective way to route cables.**

**Single Swing-Arm Wall Mount for 37-65” Flat-Panel Display**

**Reaction PNR (CHRPDR)**
The PNR dual swing-arm wall mount is rugged, versatile, and installer-friendly. Perfect for large flat-panel displays, the dual arms extend up to 24 7/8", pivot up to 90º left or right of center, and fold down to 3 3/8" in the home position. The PNR is designed for installations that require a solid dual swing arm with shorter extension. Available in black or silver color, it is compatible with displays up to 200 pounds.

- **Post-Installation height adjustment of 1 1/8"**
- **Extends up to 24 7/8" and remains low profile at 3 3/8" deep in the home position**
- **Q-Latch Mounting System simplifies installation**
- **Mounting guides provided for a hassle-free installation**
- **Integrated lateral shift up to 9”**
- **G-Force Tilt Technology provides fingertip adjustment from 0 – 15”**
- **Provides positive latch in home position to keep screen tight to wall**

HEAVY-DUTY WALL MOUNTS

Straight Column Single Ceiling Mount

**PCS:** Single display ceiling mount designed to thread directly into 1.5” NPT for a fast and secure installation. The PCS is a great solution for retrofit applications with existing columns or new construction digital signage, airports, bars and restaurant installations.

- Exclusive Q-Latch Mounting System secures the large flat panel display with a lockable latch
- No tools tilt adjustment for ultra fast screen positioning with lock down option
- Cable management through extension column
- Display installs in portrait or landscape
- ±2° roll, +5/-20° pitch, 360° yaw
- Weight capacity is 175 lbs.

Heavy-Duty Static Wall Mounts

**PSH:** A low-profile mounting solution for the new 84” and 60”+ large flat panel displays with smart overlays that weigh over 150 lbs. It uses Chief’s Q-Latch mounting pattern for easy installations, stable mounting, quick release and optional security. 60”+ flat panel displays with smart overlays require a corresponding custom PSB bracket, which must be ordered separately.

- Quick installation and quick display release. Exclusive Q-Latch Mounting System secures the display with a lockable latch
- Sturdy steel construction: Wall mount uses more surface area for balance and stability
- Built-in lateral shift
- Able to span three studs spaced at 16” centers
- Built-in security (just add a padlock)
- Dual safety latches and strong steel construction

Static Wall Mount

**PSM:** Look no further for a cost-effective mounting solution. The PSM is the lowest priced mount on the market while providing key features and functionality. Each PSM mount is a unique, one-piece custom bracket that cuts down on installation time, provides the slimmest fit possible for each display and lowers your shipping costs. Perfect for all basic large flat panel display installations, including large LCD displays. Weight capacity is 175 lbs.

- UL listed for proven strength; seismic rated for safer installations.
- Sturdy steel construction: wall mount uses more surface area for balance and stability.
- Low profile – 1” standard mount depth.
- Offers quick installation and quick release (in landscape view only).
- Q-Latch mounting system secures the flat panel display with a lockable latch.
- Multiple accessories available.
- Lateral shift capabilities with accessory on most brackets. Non-standard lengths of ENS extrusion are available up to 108”.
- Compatible with locking flag accessories (PAC-130, PAC-135).

Heavy-Duty Pitch-Adjustable Wall Mounts

**PPH:** A pitch-adjustable wall mount that is well-suited for large flat panel displays that weigh over 150 pounds. It is especially suitable for the new 84” and 60”+ large flat panel displays with smart overlays require a corresponding custom PSB bracket, which must be ordered separately. It’s overall dimensions are 40⅛” x 31½” x 1¾” (WHD), and it weighs 250 lbs. The exclusive Q-Latch Mounting System secures the display with a lockable latch.

- Quick installation and quick display release.
- Sturdy steel construction: Wall mount uses more surface area for balance and stability
- Built-in lateral shift
- Centers on 16” or 24”, or is able to span three studs spaced at 16” centers
- Built-in security (just add a padlock)
- Dual safety latches and strong steel construction
Single Ceiling Mount

PCM: UL listed for proven strength, the PCM is an innovative ceiling mount that hangs your plasma display with the natural center of gravity to give you a durable installation. Portrait or landscape viewing, pitch adjustment and cable management make the PCM highly functional for digital signage applications, such as those found in retail stores or airports; or in a residential application with many windows and a lack of wall space.

- PAC-140 Q-Clamp accessory included.
- Q-Latch Mounting System secures the display with a lockable latch.
- Height adjustment 5” to fit multiple display sizes; 3” roll adjustment.
- Provides easy cable management through mount and extension column by adding an optional CMA-330 accessory.
- Optional 13” x 13” USA-1 Accessory Shelf attaches to the PCM mount offering a convenient platform for DVD player, VCR or accessories.

Dual Ceiling Mount

PDC: The PDC offers advanced functionality for public transportation, digital signage and data presentation in high-traffic commercial zones and theme entertainment venues. UL-listed for proven strength, it securely holds displays back-to-back in either portrait or landscape mode. It allows smooth, easy tilt adjustment on a gravity-centered axis point. Multiple PDC mounts can be connected for multiple display stacking. Cables can be routed through the mount for a clean appearance.

- Stackable mounting solution – an additional length of 2” NPT pipe can be attached to the bottom of the mount allowing additional units to be stacked underneath
- PAC-140 Q-Clamp accessory included
- Q-Latch™ mounting system secures the panel with a lockable latch
- 360° manual yaw; 3° roll adjustment; 5° upward tilt; 15° downward tilt
- Display installs in portrait/landscape views (some tilt is lost in portrait for 60” screens)
- Uses 2” NPT accessories for added strength
- Through-pipe cabling can be accomplished with CMA-332 accessory

Fixed Pole & Truss Mount

TPS: The versatile TPS accommodates a large range of truss and pole dimensions, includes security options and provides flexible features to achieve a custom installation for multiple applications. Perfect for exhibit, retail and digital signage applications.

- Easy to install, the mount fits vertical or horizontal truss systems up to 14” OD.
- Display installs in portrait or landscape positions.
- Ultra low-profile, the mount sits snugly against truss or poles for an integrated look.
- Durable constructed with heavy-duty steel and lock-down tilt.
- Accommodates a wide range of truss and pole dimensions to make a custom installation.
- Q-Latch Mounting System offers quick connect/disconnect and secures the display with a latching flag.

Tilt Adjustable Pole and Truss Mounts

TPM & TPP: An innovative solution for digital signage applications where tilt is needed for angled viewing.

- ±15° tilt up or down on gravity centered axis point. Able to lock down tilt.
- Use pre-set pitch locking points at 0, 5, 10 and 15° to quickly and easily align multiple displays.
- Gravity-centered tilt provides quick adjustment to any desired angle.
- Install in portrait position and use tilt adjustment for side-to-side pivot.
- With TPM, install displays in portrait or landscape mode with poles up to 6” OD; clamps available up to 3”.
- TPP spans most truss systems up to 14” (OD).
- Install on vertical or horizontal truss.
- Q-Latch Mounting System.

Pole and Truss Kits

(Order one of the following with your mount)

TPK-1 Pole Kit: 2 clamps for 1”–2” OD round or square poles
TPK-2 Pole Kit: 2 clamps for 2”–3” OD round or square poles
TPK-3 Truss Kit: 4 clamps for 1” or smaller OD round or square truss
TPK-4 Truss Kit: 4 clamps for 1”–2” OD round or square truss
TPK-5 Truss Kit: 4 clamps for 2”–3” OD round or square truss
TELEVISION MOUNTS

CHIEF

PLASMA MOUNTS

Floor Stand

PFS: A low-profile solution for digital signage and presentations, the PFS features a flat base that allows for easy traffic around the display and video conferencing shelf compatibility. The PFS uses the Q-Latch mounting system for easy installation, stable mounting, quick release and optional security. (Required PSB bracket must be ordered separately.)

◆ Unique design allows screen to be mounted at any height on the post.
◆ Presenter-friendly base reduces hazards.
◆ UL-listed for proven strength.
◆ Display installs in portrait/landscape positions.
◆ Optional height-adjustable PAC-100 video conferencing shelf.
◆ Able to stack multiple displays (depending on post length, display height and weight capacity.)
◆ Available in 3 heights: 60” (PFS2160), 72” (PFS2172), 84” (PFS2184).

Mobile Cart

PTC: UL-listed for proven strength, this sleek, mobile cart has chrome-finished poles that allow you to achieve the perfect display height, and add on small flat panel displays as well. Easily customize the PTC for video conference or digital signage applications by adding on shelves, CPU holder or portrait/landscape rotation device. (Required PSB bracket must be ordered separately.)

◆ Includes PAC-140 Q-Clamp.
◆ Includes four removable 4” swivel casters, two with total-lock brakes.
◆ 5° up/15° down tilt adjustment; 2” roll adjustment.
◆ Install display in portrait/landscape views, flexible height adjustment.
◆ Q-Latch mounting system secures the display with a lockable latch
◆ 3 post lengths: PTC2041 - 45” (max. screen height: 60”); PTC2042 - 57” (max. screen height: 72”); PTC2043 - 69” (max. screen height: 84”)

Presenters Cart

PPC: Designed specifically for presentations, the UL-listed PPC cart is perfect for business applications. The streamlined design eliminates trip hazards, allowing presenters to move freely around the display and even roll the cart up to a conference table for better viewing. (Required PSB bracket must be ordered separately.)

◆ Presenter-friendly base reduces trip hazards and allows easy movement to conference table for better viewing.
◆ Sturdy design accommodates displays up to 200 lbs.
◆ For added versatility screen height can be adjusted in 2” increments.
◆ Includes four 4” swivel casters, two with total-lock brakes (casters are removable, converting the cart into a stationary solution).
◆ Q-Latch mounting system secures the display with a lockable latch.
◆ Four shelf positions for accessory placement at 6” apart.
◆ Built-in cable management for a clean, professional installation.
PLASMA MOUNTS

Dual Display Presenters Cart

PPD: Designed for mobile video conferencing application requiring two displays, this completely mobile cart offers you the freedom to move the monitors in any direction. The streamline design eliminates trip hazards, allowing presenters to move freely around the display and even roll the cart up to a conference table for better viewing.

- Will accommodate displays up to 200 lbs.
- Pitch adjustment: 0° - 7 1/2°.
- UL listed for proven strength.
- Built-in cable management for a clean, professional installation.
- Four 4” swivel casters, two with total-lock brakes.
- Q-Latch mounting system secures the display with a lockable latch.
- Compatible with video conferencing accessory shelf and smoked acrylic equipment accessory shelf.
- Four shelf positions for accessory placement at 6” apart.
- Display installs in portrait/landscape view.
- PAC-140 Q-Clamp accessory included.
- Can display monitors in both portrait and landscape positions.

Fixed and Swivel Table Stands

PTS/PSS: The stylish solutions for residential, commercial and business applications, the PTS (fixed) and PSS (swivel) Table Stands provide a wide variety of features for most table top installations.

- They accommodate displays up to 32”. The PTS features five height adjustments in 1” increments; the PSS features 5” height adjustment.
- The PTS has a sturdy, low-profile base, the PSS is free-standing with bolt down capability for permanent installation and security.
- PSS offers smooth 45° swivel in either direction with optional stops at 15°, 25° and 35°.
- Q-Latch mounting system secures the display with a lockable latch.
- Built-in cable management for a clean, professional installation.

Electric Ceiling Lift

PCL: The ideal solution for creating impressive, high profile home and business installations, the PCL electric ceiling lift hides large flat panel displays (up to 230 lbs.) in the ceiling and smoothly lowers them at the push of a button or command of a control system. Exclusive Auto-Tilt feature automatically tilts the display to the angle of your choosing as the display is lowered for the optimal viewing angle. (Required PSB interface bracket must be ordered separately.)

- Adjustable travel limit to set your viewing position.
- Covered ceiling opening in closed position for hidden installation.
- Will accept 5–30v AC/DC for triggering commands.
- Q-Latch mounting system secures the display with a lockable latch.
- Integrated cable management for a clean, professional installation.
- Supplied controls include: Single Momentary Pushbutton and Low Voltage Controller.

“Pop-Up” Lift

PUL: The “Pop-Up” Lift gives you quiet movement and a reliable system. The chain-driven system keeps the motor at the bottom of the lift, making it exceptionally smooth and quiet for your high profile home and office installations. (Required PSB interface bracket must be ordered separately.)

- Quiet operation with adjustable travel distance; travel speed is approx. 1” per second.
- Chain-driven system keeps motor at the bottom of the lift, making operation smooth and quiet.
- Display installs in portrait or landscape positions.
- Q-Latch mounting system secures the display with a lockable latch.
- Integrated display attachment system allows you to replace an old display without reconfiguring the lift or redesigning cabinetry.
- Will accept 5–30v AC/DC for triggering commands.
- Supplied control options include: Single Momentary Pushbutton and Low Voltage Controller.
Universal Flat Wall Mounts

The SmartMount line of Universal Flat Wall Mounts is exclusively designed and engineered for the professional market. Four models cover a comprehensive range of flat panel screen sizes from 10” up to 63”. Standard (Phillips head) fasteners and integrated security fastener models are available. In addition to universal models, the SmartMount line also offers dedicated (screen-specific) models. Dedicated models come in black, include both security and standard (Phillips head) fasteners, and include only the hardware needed for a specific flat panel screen model.

### Universal Flat Wall Mounts for 10-37” Screens

The SmartMount Universal Flat Wall Mount is available in several versions to support virtually any 10” to 42” flat panel screen. The ultra-slim wall plate keeps the screen close to the wall for a very discreet installation that is perfect for digital signage, POS stations, or office applications. For a quick and easy installation they may be mounted to a single wood stud or concrete. They can also mount to metal studs using accessory metal stud fasteners.

- Ultra-slim design holds the screen flat against the wall (less than 1” away from the wall).
- Available in black or silver with or without integrated security features that provide effective theft deterrence.
- Screen adapter plate simply hooks onto the wall plate for quick and easy installation.
- Supplied screen adapter plates are compatible with VESA 75mm and 100mm mounting patterns (SF630 series) as well as 200mm and 200 x 200mm (SF632 series). Non-VESA adapter plates are also available.
- Includes hardware for installation to wood studs, concrete, and cinder block.
- UL tested to hold four times the stated weight load capacity.

### Universal Flat Wall Mounts for 23-63” Screens

Supports virtually any 23” to 63” flat panel screen. The wall plate keeps the screen close to the wall for a very discreet installation that is perfect for boardrooms, digital signage, or home theaters. The mounts include simple to align universal brackets and a unique wall plate that can be mounted to a single wood stud, two wood studs up to 16” (SF640 series) and 24” (SF660 series) apart, or concrete. It includes a “Sorted-For You” baffle pack with all screen hardware and security fasteners.

- Ultra-slim design holds the screen flat against the wall (just 1.18” away from the wall).
- Available in black or silver with or without security features.
- Screen hooks onto the wall plate for quick and easy installation.
- SF640 series allows optional horizontal adjustment of up to 6” (depending on screen model), SF660 series allows optional horizontal adjustment of up to 12” (depending on screen model)
- Includes hardware for installation to wood studs, concrete, and cinder block
- SF660 series comes with additional brackets to accommodate screens with a built-in curve or component box on the back
- UL tested to four times the stated weight load capacity

Universal Tilt Wall Mounts

These mounts are professional-grade solutions for applications requiring tilt to adjust viewing angle. Five models cover the widest range of flat panel screen sizes, from 10” to 63”. Models ship with your choice of either standard (Phillips head) fasteners or theft deterrent security fasteners packed in a conveniently sorted bag. In addition to universal models, the SmartMount line also offers dedicated (screen-specific) models. Dedicated models come in black, include both security and standard (Phillips head) fasteners and include only the hardware needed for a specific flat panel screen model.

Universal Tilt Wall Mounts for 10-37” Screens

The SmartMount Universal Tilt Wall Mount keeps the screen close to the wall for a very discreet installation that is perfect for digital signage, POS stations, or office applications. Featuring one-touch tilt, the Smartmount allows the screen to be tilted +15°/-5° without the use of tools. For quick and easy installation they can be mounted to a single wood stud or concrete. Metal stud mounting is possible with accessory metal stud fasteners.

- Available in black or silver with or without integrated security features that provide effective theft deterrence
- Screen adapter plate simply hooks onto the wall plate for quick and easy installation
- Supplied screen adapter plates are compatible with VESA 75mm and 100mm mounting patterns (ST630 series) as well 200mm, and 200mm x 200mm mounting patterns (ST632 series).
- One-touch tilt adjustment of +15° forward tilt/-5° backward tilt without the use of tools for effortless adjustment of the screen
- Desired tilt angle can be locked in place if needed
- Includes hardware for installation to single wood stud, concrete, and cinder block
- UL tested to four times the stated weight load capacity

Universal Tilt Wall Mounts for 23-63” Screens

Designed for large flat panel screens, these mounts provide the solution for boardrooms, hotels and stadiums. One touch tilt allows easy +15°/-5° tilt without the use of tools. The simple-to-align brackets and a unique wall plate can be mounted to a single wood stud, two wood studs up to 24” apart (ST650 and ST660 series only) or concrete. Mounts are preassembled and include a “Sorted-For-You” fastener pack with all screen hardware included.

- Available in black or silver with or without integrated security features that provide effective theft deterrence
- Self-balancing, one-touch tilt for effortless adjustment. Tilt can be tightened in place if needed
- Up to 6” (ST640 series) or 12” (ST650/ST660 series) of horizontal adjustment after the screen is mounted
- Mounts to single metal stud (ST640 series) or two metal studs (ST650/ST660 series) with accessory metal stud fasteners
- Brackets easily hook onto the mount bars for fast installation
- ST650/ST660 series include additional brackets to accommodate screens with a built-in curve or component box on the back
- UL tested to four times the stated weight load capacity

**Articulating and Pivot Wall Mounts**

For the ultimate in functionality and aesthetics, the SmartMount line of Articulating and Pivot Wall Mounts is unbeatable. The six models in the line are compatible with both small (10”-22”) and mid-sized (22”-37”) flat panels. Choose from pivot models that have one extending arm or articulating models that incorporate two or even three extending arms for maximum adjustability. For optimum viewing, each model offers the ability to tilt and swivel the flat panel. Cord management is included on most of the articulating models to conceal A/V cables.

---

**Articulating LCD Wall Arm**

These arms fold flat against the wall, and extend out for TV viewing. The two-link arm provides easy one-touch tilt and up to 180° of swivel. Cords are routed internally within the arm to maintain a clean look.

- SA730P models fit 10”-22” LCD screens, extend 15” from the wall, and come with a VESA 75/100 screen adapter plate.
- SA740P models fit 22”-37” LCD screens, extend 20” from the wall, and come with a VESA 100/200/200 x 200mm screen adapter plate.

---

**Long Pivot Wall Mount**

This mount supports 10” to 22” LCD screens and is ideal for obtaining side-to-side rotation and upward/downward tilt. The enhanced ball joint allows the user to smoothly turn the screen in the desired position for comfortable viewing.

- Mounts to single wood stud, concrete, cinder block or metal stud (with accessory metal stud fasteners)
- Arm extends up to 6” from wall or folds flat to save space
- Supports screens with VESA 75 or 100 mounting holes
- Offers 70° (±35°) of upward and downward tilt
- Offers between 60° (±30°) and 160° (±80°) of additional side-to-side swivel at the ball joint (exact range is determined by screen size)

**SP730P (PESP730P)**: Black color ........................................ 87.95
**SP730P-S (PESP730PS)**: Silver color ............................... 87.95

---

**Extended Reach Articulating LCD Wall Arm**

This wall arm supports 10” to 22” LCD screens. With internal cord management, it folds flat against the wall or extends up to 18.79”. This 3-link arm provides easy one touch tilt and up to 180° of swivel for virtually limitless viewing positions. Cords are routed internally within the arm to maintain a clean look.

- 4 pivot points for maximized adjustment of viewing angle
- Comes with VESA 75/100 screen adapter plate
- Non-VESA screen adapter plates sold separately
- Ball joint design at screen for easy side-to-side movement and ±35° of tilt

**SAL730P (PESAL730P)**: Black color ........................................ 134.95
**SAL730P-S (PESAL730PS)**: Silver color ............................... 134.95

---

**Pivot Wall Arm for LCD Screens**

Ideal for obtaining side-to-side rotation and upward/downward tilt, this wall arm supports 22” to 37” LCD screens. Smooth, continuous tilt and swivel features allow you to easily adjust the screen to the desired position for comfortable viewing. The arm extends 10” from the wall, or folds flat to save space.

- Compatible with screens that have VESA 100mm/200mm/200mm x 200mm mounting hole patterns
- Optional non-VESA screen adapter plates sold separately
- Smooth anodized aluminum finish in black or silver
- One-touch, continuous tilt
- Includes hardware for installation to a single wood stud or concrete

**SP740P (PESP730P)**: Black color ........................................ 159.95
**SP740P-S (PESP730PS)**: Silver color ............................... 159.95

**Swing Arm for 10” to 22” LCD Screens**

Peerless’ LCD Swing arm with internal cord management is the perfect complement to reception areas, merchandising displays, or home theaters. This product offers dual swivel action and adjustable forward tilt to easily obtain the most comfortable and convenient viewing angle. In addition, the telescoping arm lets the user adjust the length of the arm to the installation requirements or needs. This product accommodates small LCD screens in the 10” to 20” range and ships fully kitted for ordering convenience.

The internally routed cord management is perfect for hiding wires. This feature makes it ideal for a variety of wall mounting applications such as in conference rooms, retail environments, other public arenas or at home. While preserving the clean line of the equipment, this mount offers full functionality, including two pivot points, adjustable tilt and 180° of swivel. It comes fully kitted for ordering convenience.  

**LS100 (PELS100): Silver color........................................................................55.95**

---

**Pivot Wall Mounts for 32” to 61” Flat Panel Screens**

The Pivot Wall Mount is designed for hotels and resorts. The PS-1 accommodates 30”-50” screens, while the PS-2 is designed to support the weight of larger plasma screens in the 60”+ size range. These mounts deliver exceptional screen adjustment with a maximum 10° forward, 5° backward, and 15° swivel from left to right—all without the use of a single tool. A manual leveling adjustment keeps the screen level (no tools required). Theft-resistant security fasteners secure the screen to keep your equipment safe. The arm on the PS-1 extends 8.75” from the wall and the arm on the PS-2 extends 10.125” away from the wall. Three pivot points off-center allow multiple viewing positions within the same room. When retracted, the screen sits almost flush against the wall. It can be extended to maximum of 28.8”.

Three pivot points on the arm with 180° swivel create limitless viewing positions. The 18” wall plate mounts to two studs with 16” centers. This mount can be mounted to wood studs, solid concrete or cinder block with appropriate fasteners. Screen adapter plate is sold separately.

- For use with LCD and Plasma screens up to 90 lbs.
- Adjustable screen tilt with a max. 5° forward, 0° backward
- Integrated cable management contains and protects cords
- Screen mounts in landscape orientation
- Mounts to wood studs, solid concrete or cinder block

**PLA-1S (PEPLA1S): Silver...498.95**

---

**Articulating Wall Mount for 26” to 40” Screens**

Articulating Wall Mounts allow multiple viewing positions within the same room. When retracted, the screen sits almost flush against the wall. It can be extended to maximum of 28.8”.

Three pivot points on the arm with 180° swivel create limitless viewing positions. The 18” wall plate mounts to two studs with 16” centers. This mount can be mounted to wood studs, solid concrete or cinder block with appropriate fasteners. Screen adapter plate is sold separately.

- Mount allows for leveling adjustment of flat panel to sit level at any angle; no tools required
- Screw covers hide wall mounting hardware
- Heavy gauge cold rolled steel construction
- Scratch resistant black or silver fused epoxy finish

**PLA-2S (PEPLA2S): Silver...299.95**

---

**Articulating Wall Mount for 32” to 61” Screens**

This mount extends, swivels and tilts, and is well-suited for recessed applications. The arm extends 30.5”, and folds almost flush against the wall. Three pivot points on the arm allow 180° swivel to create limitless viewing positions. Manual leveling adjustment keeps the screen level (no tools required). The 18” wall plate mounts to two studs with 16” centers (fasteners for wood stud included) or mounts to solid concrete or concrete block with appropriate fasteners (sold separately). Screen adapter plate is sold separately.

- Articulating arm can be attached at the center of the wall plate or at four other points off-center
- Adjustable tilt with a max. 10° forward and 5° backward
- Theft-resistant security fasteners secure the screen to the mount

**PLA-1 (PEPLA1): Black........498.95**

---

Pivot Wall Mounts for 32” to 61” Flat Panel Screens

The Pivot Wall Mount is designed for hotels and resorts. The PS-1 accommodates 30”-50” screens, while the PS-2 is designed to support the weight of larger plasma screens in the 60”+ size range. These mounts deliver exceptional screen adjustment with a maximum 10° forward, 5° backward, and 15° swivel from left to right—all without the use of a single tool. A manual leveling adjustment keeps the screen level (no tools required). Theft-resistant security fasteners secure the screen to keep your equipment safe. The arm on the PS-1 extends 8.75” from the wall and the arm on the PS-2 extends 10.125” away from the wall. Three pivot points off-center allow multiple viewing positions within the same room. When retracted, the screen sits almost flush against the wall. It can be extended to maximum of 28.8”.

Three pivot points on the arm with 180° swivel create limitless viewing positions. The 18” wall plate mounts to two studs with 16” centers. This mount can be mounted to wood studs, solid concrete or cinder block with appropriate fasteners. Screen adapter plate is sold separately.

- For use with LCD and Plasma screens up to 90 lbs.
- Adjustable screen tilt with a max. 5° forward, 0° backward
- Integrated cable management contains and protects cords
- Screen mounts in landscape orientation
- Mounts to wood studs, solid concrete or cinder block

**PLA-1S (PEPLA1S): Silver...498.95**
CEILING MOUNTS

Ceiling Mounts for 13” to 29” LCD Screens

The slim design of these ceiling mounts offers an ideal low-profile mounting solution. The slender extension column minimizes the mount's appearance, yet maximizes the screen's presence in any room. It is height-adjustable in 1” increments and has a -5° to +20° adjustable tilt. VESA 75/100 adapter plate (included) and accessory non-VESA adapter plates (sold separately) are supported by all LCC models. The mount allows the screen to be mounted in the standard position or facing the floor with the option of portrait or landscape orientation. Includes a ceiling plate, theft-resistant fastners and hardware for wood or concrete installations.

LCC-18 (PELCC18): 18” to 30” height range. Black color .......................... 142.95
LCC-18S (PELCC18S): 18” to 30” height range. Silver color 142.95
LCC-18-C (PELCC18C) 18” to 30” height range. With cable management covers. Black color ........................................ 174.95
LCC-18-CS (PELCC18CS) 18” to 30” height range. With cable management covers. Silver color .......................... 199.95
LCC-36 (PELCC36): 36” to 48” height range. Black color. 159.95
LCC-36S (PELCC36S): 36” to 48” height range. Silver color 159.95
LCC-36-C (PELCC36C) 36” to 48” height range. With cable management covers. Black color ......................... 190.95
LCC-36-CS (PELCC36CS) 36” to 48” height range. With cable management covers. Silver color ......................... 190.95

Curved Column Ceiling Mount for 32” to 63” Screens

The Curved Column Ceiling Mount delivers 0” to 20” of adjustable tilt and 360° of swivel. Theft-resistant security fasteners secure the screen. The screen can mount vertically or horizontally. The mount is available with a ceiling plate, or without a ceiling plate for those who want to use an alternative ceiling attachment. They accept optional extension columns when added length is needed. Includes instructions for wood and concrete structures.

PS1 (PEPS1): Accommodates 30”-50” flat panel screens, black .................. 377.95
PS2 (PEPS2): Accommodates 60”-61” plasma screens, black .................. 384.95
PLP-UNL (PEPLPUNL): Universal Adapter Plate 32-60” ......................... Call

Straight Column Ceiling Mount for 32” to 63” Screens

The Straight Ceiling Mount offers a straight column from the ceiling attachment point to the plasma screen. It is ideal for sports arenas, airports, lobbies or retail environments. Delivering 20° of adjustable tilt and 360° of swivel, this mount ships with a 2.5’ fixed-length extension column, and theft-resistant security fasteners. The straight column mount is available both with a ceiling plate, or without a ceiling plate for those who want to use an alternative ceiling attachment. If a different length is needed, you can use the optional fixed-length extension column in place of the included extension column, or add an optional 2.5’ column with an adjustable extension column. Concrete anchors are available to attach this mount to concrete, concrete block or brick. Model-specific or universal-style PLP adapter plates to match your screen make and model, are sold separately.

◆ Screen mounts vertically or horizontally
◆ Uses standard 1½” – 11.5 NPT schedule 40 pipe
◆ Cord management
◆ Complete installation instructions for wood and concrete structures
PLCM1 (PEPLCM1) With ceiling plate ....................... 208.95
PLCM1CP (PEPLCM1CP) Bracket only. Comes without a ceiling plate .............. 229.95

The Flat Panel Straight Column Mount is designed to support a 32” to 61” plasma screen. Accessory extension column, ceiling plate, and screen adapter plate not included.

◆ Heavy gauge cold rolled steel construction
◆ Scratch resistant black fused epoxy finish
◆ 360° swivel  •  0° to 20° adjustable tilt
◆ Theft-resistant Penta-Pin security screws
PLCM-2 (PEPLCM-2): Extension column not included .................. 178.95
PLP-UNL (PEPLPUNL): Universal Adapter Plate 32-60” ....................... Call

www.bhphotovideo.com
Tabletop Stand for 32” to 50” Flat Panel Screens
The Tabletop Stand is ideal for a tabletop in a boardroom, your living room or bedroom. With a twist of a knob, the screen tilts 5° backward or 10° forward for a perfect viewing angle. For added functionality, the base can either sit in a fixed position or swivel with 360° rotation. This tabletop stand features an indicator window as a visual guide to help ensure a safe installation. Model-specific or Universal style PLP adapter plates are available to match your screen model, both are sold separately.

- All-steel support with black scratch resistant finish affixes to laminate base
- Indicator window provides a visual guide for easy and safe installation
- Internal cord management

PLT-BLK (PEPLTBLK): Laminate base in Black graphite ........................... 79.95

Floor Stand for 30” to 42” Flat Panel Screens
The Flat Panel Floor Stand is specifically designed to support 30” to 42” flat panel screens. It is a perfect piece to display a flat panel TV in a living room or bedroom, or in distinctive boardrooms or executive offices. While using little space, its unique and clean design elegantly displays high-end flat panel televisions. The clean line of the equipment is fully preserved with complete internal cord management.

- Internal cord management for clean aesthetics
- Upper tray dimensions are 32” x 22.7” (WD). Stand height is 27.6”.
- Includes height adjustable (3” to 5” in height) tuner bracket.

FPFS-SLV (PEFPFSSLV): Flat panel floor stand. Silver color .............. 377.95

Pedestal Mount for 32” to 50” Flat Panel Screens
This pedestal offers the perfect mounting solution for plasma and LCD screens in retail environments, sports arenas, airports or anywhere that other mounting options are impractical. It delivers 360° of swivel and 15° of forward tilt. The screen can be rotated from landscape to portrait with minor adjustments. Add an accessory DVD/ VCR shelf for your video needs. Model-specific or Universal-style PLP adapter plates are optionally available to match your screen make and model.

- 15° forward tilt and 360° swivel
- Cord management through column pedestal
- Theft-resistant security fasteners secure the screen to the mount
- Black color, available in four different height lengths

COLS10P (PEPECOLS10P): 5’ high (68.15” with base) .............. 469.95
COL610P (PEPECOLS610P): 6’ high (80.15” with base) ........... 482.95
COL710P (PEPECOLS710P): 7’ high (92.15” with base) .......... 492.95
COL810P (PEPECOLS810P): 8’ high (104.15” with base) ......... 499.95
Flat Panel Dual Screen Mounts

Peerless’ Dual Screen Mounts are designed to safely support two plasma or large LCD screens. The back-to-back design displays screens perfectly for retail or commercial environments. Two dual screen mounts are offered: The universal back-to-back ceiling mount design (PLB3342) will accommodate virtually any screen in the 33” to 42” range, and attaches around your screen (height and width adjustable.) For PLB-1, model-specific or Universal-style PLP adapter plates are available to match your screen make and model, both are sold separately.

**PLB3342**
This black flat panel dual screen mount allows each screen to swivel independently of each other and offers top and front rollout protection and 30° forward tilt for each screen. It is height and width adjustable to the exact dimensions of the flat panel screen. Screens can be mounted horizontally or vertically. It includes complete detailed installation instructions. For screens 33”- 42” ...................... 784.95

**PLB-1**
The entire PLB-1 dual screen mount swivels a full 360° with the swivel restriction/stop feature. It has a 20° adjustable tilt for each screen, and allows the screens to mount vertically or horizontally. It includes complete detailed installation instructions. For screens 30”- 50” ............................ 346.95

**Multi-Display System Accessories**

**Truss Ceiling Stress Decoupler (DCT300)**
This decoupler has a stub fitting for the attachment of an extension column. The ceiling mount attaches to round, square, rectangular, or l-beam. Black ................................. 86.95

** Structural Ceiling Stress Decoupler (DCS400)**
Prevents damage to equipment from seismic or other vibrations. Unit has stub fitting for attachment of an extension column. Ceiling Plate attaches to concrete beam, slab, or other structural member. Black ................................. 98.95

**Adjustable Extension Columns**
This adjustable extension column combines with a decoupler unit to make a complete dual plasma ceiling attachment kit. Black.

**Fixed-Length Extension Columns**
This fixed length extension column combines with a decoupler unit to make a complete dual plasma ceiling attachment kit.

Circular, In-Line and Curvilinear Mounts

The flat-panel Multi-Display Systems are ideal for use in retail environments, airports, and sports arenas. Available configurations include straight, curvilinear, or circular support systems. They all support 3 to 4 plasma or LCD screens ranging in sizes from 30” –50” and provide ideal merchandising tools for high impact visual displays. These pipe structures suspend from the ceiling and use PLCM-2 straight column ceiling mounts and components. The components are ordered individually to create the desired display.

Model-specific or Universal-style PLP adapter plates are available to match your screen make and model, both are sold separately.

CARTS and ACCESSORIES

Accessory A/V Shelf for Flat Panel Floor Stand (PEACC910)
The A/V shelf allows you to add additional A/V equipment to the Flat Panel Floor Stand, such as a DVD player, a receiver, or a satellite box. The cam shelf design fits snug around the stand upright without any drilling required. It holds safely up to 50 lb. Up to three shelves can be mounted onto the Flat Panel Floor Stand. 44.95

DVD Tray Accessory for Pedestal Mount (PEACC833)
Allows you to place a DVD unit below the screen. This 15.5 x 17.22” (LxW) tray mounts to the 3.5” column. Weighs 10 lbs, maximum load is 40 lbs. 72.95

Flat Panel Cart
This presentation cart delivers superior mobility to move equipment between rooms. Maximum height for the cart and screen (floor to top of screen) is approximately 76”. The screen height can be adjusted in 4” increments. Large casters allow safe and easy maneuvering over thresholds and through doorways. Model-specific or Universal style PLP adapter plates are available to match your screen make and model (sold separately).

Flat Panel Cart Accessories

Laptop Computer Support Arm (PEACC106)
Mounts on either upright and supports laptop or other equipment. Height adjustable. 360° swivel. 10 lb max. load. 49.95

Additional Adjustable Shelf (PEACC312)
Up to two additional shelves can be added. Maximum load is 25 lbs. 88.95

Video Conferencing Shelf (PEACC311)
This 24.6 x 7.9” (WxL) shelf mounts directly on the cart to accommodate small to large video conferencing cameras. Maximum load is 25 lbs. 94.95

Feet Accessory (PEACC310)
Optional accessory feet allow you to use the cart as a stand. 31.95

Accessories for Flat Panel Screens

Plasma Video Conferencing Shelf (PEACC309)
This 24.6 x 7.8” (WxL) shelf mounts directly to the wall to install above or below your flat panel screen. Includes hardware for wood stud. Supports up to 25 lbs. 79.95

Multi Mount
This space saving wall mount is ideal for stacking audio and video equipment, such as DVD players, receivers, CD players and more. Attachment hardware for wood stud walls is included. It weighs 9 lbs. and supports up to 100 lbs. PM600 (PEPM600): Black.. 39.95
PM600W (PEPM600W): White 39.95

Electronic Tower for Audio and Video Equipment
The Electronic Tower is designed to support up to four pieces of audio and/or video equipment neatly on the wall. This space saving wall mount is ideal for office or home theater applications. Ideal for placement beneath flat panel screen or monitor. Tower weighs 22 lbs. (52 lbs. with glass). Each shelf supports up to 15 lbs.

◆ Comes in black, silver, or white, with or without glass shelves
◆ Four equipment supports with adhesive foam pads to protect electronic components
◆ Choice of seven equipment support positions at 3” increments
◆ Cord management
◆ Heavy-duty steel construction
◆ Includes fasteners for wood stud or wood beam mounting applications

PM610 (PEPM610): Black, without glass shelves 126.95
PM610S (PEPM610S): Silver, without glass shelves 126.95
PM610W (PEPM610W): White, without glass shelves 126.95
PM610G (PEPM610G): Black, with glass shelves 174.95
PM610SG (PEPM610SG): Silver, with glass shelves 174.95
PM610WG (PEPM610WG): White, with glass shelves 174.95

Additional Shelf for Electronic Tower (PEACC102)
These heavy-duty steel supports can be added to the electronics tower for extra equipment. It includes foam pads. Supports up to 15 lbs. Weighs 3 lbs. Call

www.bhphotovideo.com
Wall Plates

Metal Stud Wall Plates - Triple Stud
An external wall plate that is designed for use on 25 gauge or heavier metal studs to safely span the load between three studs. Compatible with PLA-1 and PLA-2 models. Includes toggles for attachment to studs and screws for attachment of wall mount to plate. Offered in black or white for studs with 16", 20" or 24" centers. Models come with pre-scored electrical knockouts. Maximum load is 175 lbs.

Metal Stud Wall Plates - Double Stud
For LCWL, this external wall plate is designed for use on 25 gauge or heavier metal studs to safely span the load between two studs with 16", 20" or 24" centers. Includes toggles for attachment to metal studs and screws to attach wall mount to plate. Offered in black or white, with or without electrical knockouts. Can also be used on wood studs. Maximum load is 50 lbs.

Wood Stud Interior/Exterior Wall Plates
For LCWL models only. Recommended for wood stud installations. Mounts on surface of wall or behind dry wall. Mounting hardware for attachment to stud not provided. Includes screws for attachment of wall mount to plate. Maximum load is 150 lbs.

Metal Stud Wall Kit (Silver) (PEACC908)
This wall kit is used for LS100, SA730, and SAL730 model LCD screen mounts when mounting to metal stud. Includes fasteners to attach mount to plate and plate to metal stud wall. Maximum load is 25 lbs.

Ceiling Plates

Black Ceiling Plate for Flat Panel Mounts
Can be attached to a finished ceiling (wood joists on 16", 20" or 24" centers), using the four washer head wood screws included, or a structural ceiling, using optional ACC210 concrete anchor accessory kit. Unit has 1½”-11.5 NPT threaded fitting to accept an optional Peerless flush mount tube or extension column. Maximum load is 300 lbs.

CMJ470 (PECM470): 16" centers ......... 29.95
CMJ480 (PECM480): 20" centers .......... 30.95
CMJ490 (PECM490): 24" centers .......... 37.95

Black Unistrut and Structural Ceiling Plate
Can be attached directly to standard Unistrut (1¾" x 1½") or to a solid structural ceiling. Accepts Peerless EXT or ADJ extension columns. Can be used in conjunction with Unistrut fittings or other appropriate fasteners (fasteners or fittings not included.) Maximum load is 250 lbs.

CMJ300 (PECMJ300): 4" x 4" .... 24.95
CMJ310 (PECMJ310): 8" x 8" .... 29.95

CMJ450 White Suspended Ceiling Plate (PECMJ450)
Replaces one ceiling tile and is secured to the structure above with four tie wires. Kit includes tie wire support system and ceiling plate with two knockout panels for outlet boxes and antenna leads (knockouts are for one-half size handy box with flanges.) Threaded fitting in center of tray accepts an optional Peerless flush mount tube or extension column. Maximum load is 250 lbs...

FLAT PANEL MOUNTING ACCESSORIES

Adapters and Decouplers for Individual Installations

Multi-Display Interface Bracket (ACC600)
Suspend a flat panel mount from a pipe up to 2” in diameter for in-line and curvilinear configurations. For use with extension columns models EXT or ADJ. If mounting from pipe larger than 2” in diameter, use ACC 557. Heavy gauge cold-rolled steel construction with a scratch-resistant black-fused epoxy finish. It weighs 3.8 lbs., and has a maximum load of 1200 lbs............$48.95

Truss Ceiling Adapter (ACC557)
Suspend a flat panel mount from a square, round, rectangular or I-beam trusses up to 3” in diameter. It can be used with or without an extension column. Heavy gauge cold-rolled steel construction with a scratch-resistant black-fused epoxy finish. Maximum load is 1200 lbs.................................$86.95

Truss Ceiling Stress Decoupler (DCT300)
This decoupler has a stub fitting for the attachment of an adjustable-length extension column. The ceiling mount attaches to round, square, rectangular, or I-beam. The column attaches to the stub with a 2.75” long hex head bolt and nylock nut. Black..................................................$98.95

Structural Ceiling Stress Decoupler (DCS400)
Prevents damage to equipment from seismic or other vibrations. Unit has stub fitting for attachment of adjustable length extension column. Ceiling Plate attaches to concrete beam, slab, or other structural member. Column attaches to stub with 60mm long carriage bolt and center lock nut. Black..........................$133.95

Escutcheon Ring (ACC640)
Chrome ring visually enhances suspended ceiling installations by covering hole where extension column passes through ceiling tile. Ring is hinged to open, wrap around extension column and snap into place to cover hole in ceiling tile. (Ring is not needed for installations using Suspended Ceiling Plates CMJ 450 or CMJ 453)...........$12.95

Cathedral Ceiling Adapter (ACC556)
Adapts mounts to angled ceiling. Can be used with or without extension column. Attaches to a finished ceiling (wood joists above drywall) using the included hardware, or a concrete ceiling using concrete anchor accessory kit ACC200 (sold separately). Maximum load is 300 lbs. White...................$39.95

Unistrut Adapter for Truss Ceiling (ACC550)
Has a 1½”-11.5 NPT fitting to accept Peerless “EXT” or “ADJ” extension columns. Designed for use with a 1½” x 1½”, 12 gauge Unistrut. Heavy-gauge steel construction. Maximum load is 250 lbs. Black.................$29.95

Internal Joist Mount (ACC200)
For extension column installations. The adjustable internal joist mount attaches between two wood ceiling joists on 16’ or 20’ centers. The mount features a 1½”-11.5 NPT threaded fitting which accepts any Peerless extension columns. The attachment point for the extension column may be positioned at any point within 3” of either joist. Maximum load is 300 lbs. It weighs 8.5 lbs. Black.................................$64.95

Truss Ceiling Adapter with Stress Decoupler (DCT100)
Includes truss ceiling plate with integral high density rubber decoupler to prevent vibrations from damaging monitors. Attaches to cylindrical, square, rectangular or I-beam trusses up to 3” in diameter. Unit has 1½”-11.5 NPT fitting for attachment of extension column. Maximum load is 300 lbs. Black..................$59.95

Structural Ceiling Adapter with Stress Decoupler (DCS200)
Includes structural ceiling plate with integral high density rubber decoupler assembly to prevent vibrations from damaging monitors. Attaches to concrete beam, slab or other structural member. Unit has 1½”-11.5 NPT fitting for attachment of extension column. Maximum load is 300 lbs. Black...............$79.95

www.bhphotovideo.com

Extension Column Connector (ACC109)
Joins two extension columns to create a maximum length of 20'. Can be used for flat panel installations. If equipment weighs over 50 lbs, and the extension exceeds 12', an ADD column must be used as the upper segment and an EXT column as the lower segment. Black..........................12.95

Fasteners

ALLIGATOR Concrete Anchors (ACC204)
Used for attachment of Peerless plasma mounts to concrete, concrete block or brick. Used with wood screws supplied by Peerless. The anchor expands in length and binds to the contours of the hole and the screw. Includes four anchors..........................5.95

Metal Stud Fastener Kit
The metal stud togglers are recommended for mounting Peerless Wall Mounts to metal studs. Metal Stud Fastener Kit (ACC215): Two togglers..........................5.95
Metal Stud Fastener Kit (ACC415): Four togglers..........................7.95

Concrete Expansion Anchors (ACC210)
Used for attachment of Peerless plasma mounts to concrete or brick. Not recommended for concrete block applications. Set of four anchors..........................7.95

Additional Accessories

Cord Wrap
Designed to externally route cords along the outside of an extension column. Sections can be stacked to create longer lengths or cut to desired length.

**Universal Mounts**

*for 37” to 61” Flat-Panel Screens*

These mounts fit most 37”-61” LCD and plasma displays. They all feature Premier Mount’s Griplate System that supports the appropriate mounting hardware with teeth set in detents along the mounting bracket. The solid fit keeps the display level securely in place, eliminating the need to apply excessive torque on the mounting hardware - as is required with many universal mounting products. Shipped with installation hardware for installation safety.

**UFM Universal Mount for 37”-61” Flat-Panel Displays**

This UL-listed single-wall plate features multiple mounting slots (16” and 24”) for easy installation and versatility, built-in lateral shift for precise placement and leveling feet for precise vertical adjustment.

*UFM (PRUFM) .......................... 114.95*

**PCM-MS2 Universal Wall Mount for 37”-61” Flat-Panel Displays**

With both 16” and 24” mounting slots, this UL-certified flat-panel mount has a 12° continuously adjustable tilt. It features built-in lateral shift for precise placement and the Griplate System to support your display without requiring excessive torque.

*PCM-MS2 (PRPCMMS2) ............ 176.50*

**CTM-MS2 Universal Mount for 37”-61” Flat-Panel Displays**

The UL-listed CTM-MS2 mounts to walls, ceilings, and stands, has multiple 16” mounting slots and a 12” continuously-adjustable tilt. It features the Griplate System and built-in lateral shift.

*CTM-MS2 (PRCTMMS2) ............ 176.50*

**CTM-MS1 Universal Mount for 24”-36” Flat-Panel Displays**

Same as above, but for 24” to 36” flat-panel displays.

*CTM-MS1 (PRCTMMS1) .............. 139.95*

**Multi-Monitor Mount with Adapter**

Mount three LCD displays side-by-side. The mounting arms feature smooth articulation in any direction and the ability to slide monitors from side to side. The mounting interface brackets offer additional tilt and pivot for precise placement, plus the ability to rotate your screen 360°. Fits most VESA standard monitors ranging in size from 10” to 20”.

**MMW Tabletop with Table Adapter (PRMMATA)**

Mounts up to six 10”-20” displays to a tabletop................................. 259.95

**MMT Tabletop with Wall Adapter (PRMMAWA)**

Mounts up to three 10”-20” displays to a wall................................. 259.95

**Additional Arm for Multi-Monitor Mount (PRMMMA)**

This arm allows you to mount three additional 10”-20” displays to an MMT Tabletop Multi-Mount................................. 257.95

**Flip-Down Mount**

The flip-down mount allows you to mount your LCD beneath any cabinet or other horizontal surface easily.

- Fits 10”-18” LCD displays
- Compatibility: VESA 50/75/100mm
- 180° pivot (once lowered)
- Display positioning anywhere along the support post
- Flips down for easy use, flips up to keep counters clear

*FLIP (PRFLIP) .............................. 37.50*
Ultra-Flat Mounts

The stylish PRF ultra-flat mount allows you to easily mount your 10”-40” flat panel display securely on the wall. The revolutionary, extremely low-profile design features a sleek design and places your display just 1” from the surface of the wall. Easy to install, the PRF ultra-flat mount is compatible with VESA 75/100mm mounting hole patterns. Plus, it’s backed by Premier Mount’s industry-leading Lifetime Guarantee.

- Supports most 75mm and 100mm VESA-standard LCD flat panels on the market
- Security Screws.
- Conceals cables for clean look.
- Stands less than 1” from wall.
- Comes with Premier Mount’s lifetime guarantee.
- Dimensions: 1.5 x 6 x 5.75”; max. load 50 lbs.
- UL Certified Silver color

PRF Ultra-Flat Mount: For 10”-40” displays. 50 lb. max. load.
PRF-220 Ultra-Flat Mount: For 40”+ displays. It includes a 200 x 100mm adapter, and has a maximum load of 50 lbs.

Tilt and Pivot Mount

The PTM mount allows you to easily mount your 10”-40” display securely on the wall. The revolutionary design features Premier Mount’s patented Radial Glide Technology, which supports your flat-panel display from its true center of gravity through the use of a radial axis bearing surface. This allows effortless tilt with release at any point for perfect adjustment and viewing pleasure.

The PTM Tilt and Pivot mount allows 15° of tilt or sits flat at just 3” from the surface of the wall. Easy to install, it is compatible with VESA 75/100/200 x 100mm mounting hole patterns. Plus, it’s backed by Premier Mount’s industry-leading Lifetime Guarantee.

- Fits LCD displays from 10”-40”
- Compatibility: VESA 75x75/100 x 100/200 x 100mm
- ±15° tilt and pivot
- 360° rotation
- Mounting distance is just 2½” from the wall.
- Cable routing inside tube.

PTM Mount: 2.8” x 9.8” x 4.8”. Silver color. 50 lb. max. load.

Universal Swing-Out Arm

Recommended for 17”-40” LCD displays, the AM2 full-articulation swingout arm can be pulled out 17” from the wall and allows 360° screen rotation. The revolutionary design features the patented Radial Glide Technology which offers smooth tilt adjustment of ±15°. You can pull your LCD/Plasma up to 17” from the wall and push it back to just under 3.5” off the wall when collapsed. All of your cables can be hidden inside the innovative cable management ports. Plus, it’s backed by Premier Mount’s industry-leading Lifetime Guarantee.

- Radial Glide Technology
- VESA 75 x 75 / 100 x 100 / 200 x 100mm compatible
- 15° tilt up or down
- 180° swing, left and right
- 360° screen rotation
- 3.5”-17” extension from wall
- Cable routing inside arms and through wall plate

AM3 Swing Out Arm: For 17”-40” displays. It’s dimensions are 3.9” x 10” x 10” and has a 50 lb. max. load. Silver color.

Universal Swing Out Arm for 40”-61” Displays

Featuring patented Radial Glide Technology, which offers smooth tilt adjustment of ±10°, the AM3 allows you to pull your LCD and Plasma displays up to 25” from the wall and push it back to just under 4” off the wall when collapsed. All of your cables can be hidden inside it’s innovative cable management ports. Plus, it’s backed by Premier Mount’s industry-leading Lifetime Guarantee.

- 10° tilt up or down
- 180° swing, left and right
- 4”-26” extension from wall
- Features innovative, patented Radial Glide Technology
- Lifetime Guarantee

AM3 Swing Out Arm: For 40”-61” displays. It’s dimensions are 22” x 29” x 29” and has a 160 lb. max. load. Silver color.
