AUTOPOLE SYSTEM

Manfrotto's background systems combine AutoPole support with the Expan drive to create a strong, easy-to-use and flexible way to hold backgrounds. Autopole specifications: Minimum clearance height: 6'6" (2.0m), Maximum height: 11'4" (3.5m).

Deluxe AutoPole 2 (2950D)
The new Deluxe AutoPole 2, incorporates a new style locking mechanism. The locking lever has a safety lock in the handle and two position locking settings: one setting utilizes standard locking pressure lift, and the second provides extra pressure for a firmer hold. In addition, a spring-loaded tip combined with suction rubber cups on top and bottom gives you even greater security.
Set of 2.
Item # BO2950D.....139.95

Deluxe AutoPole 2 (2956D)
Same as above in black anodized aluminum.
Item # BO2950DB.....149.95

Autopole (2950)
The original AutoPole is similar to the AutoPole 2, but has a one cam-action locking system and rubber suction cup at top and bottom. Set of 2.
Item # BO2950.....128.95

Autopole (2956)
Same as above in black anodized aluminum.
Item # BO2950B.....139.95

Mini Autopole (2953)
Ideal for archways, doorways, or window sills, the Mini Auto Pole, in conjunction with the Super Clamp, is designed to hold lights or even cameras. It extends from 39" (99cm) to 67" (170cm) and uses the same automatic lever action positive locking system as the standard AutoPole. Set of 2.
Item # BO2953.....114.95

Spring Loaded Floor-To-Ceiling Poles (2981)
Spring Loaded mini pole. Set of (2). Extends from 68.9 to 130" (175 to 330cm).
Item # BO2981.....76.95

Extensions
Extensions attach easily to the AutoPoles without tools or modifications. Available in sets of two in two sizes.

Extension 59" (150cm) (2951)
Item # BO2951.....56.95

Extension 59" (150cm) (2957)
Same as above in black anodized.
Item # BO2957.....59.95

Extension 79" (201cm) (2952)
Item # BO2952.....61.95

Extension 79" (201cm) (2958)
Same as above in black anodized.
Item # BO2958.....64.95

Base for AutoPoles (5994)
When you are on the go, this set weighs 4.2 lbs. (1.9kg) and is designed to support AutoPoles, when either the ceiling is too high or when you want your backgrounds to be free standing.
Item # BO5994.....84.95

Base for AutoPoles (5994B)
Same as above in black anodized.
Item # BO5994B.....89.95

Autopole Spirit Level (2963)
Lets you make sure your AutoPoles are aligned correctly.
Item # BO2963.....5.95

Telescoping Crossbar (2983)
If you need just one background, this 3-section crossbar will attach to any two Bogen light stands (5/8" tip) and expands from 44" (112cm) to 9' (2.7m). Ideal for location shooting.
Item # BO2983.....51.95

Autopole Foot Cover (2962)
Set of four protective foot covers for use with autopoles and Autopole2.
Item # BO2962.....4.50

"U" Hooks (2902P)
Set of two "U" Hooks cross bar holder. Plugs into Super Clamp 2915 socket.
Item # BO2902P.....10.95

Gantry Arm (135)
For mounting lighting fixtures. Measures 78 3/4" x 3/8" x 9/16". Mounts with Narrow U-Hooks.
Item # BO135.....19.95

Narrow "U" Hooks (2903P)
Set of two narrow "U" Hooks cross bar holder. Plugs into Super Clamp 2915.
Item # BO2903P.....8.95

BACKGROUND PAPER SUPPORTS

EXPAN BACKGROUND SYSTEM

Expan Drive Unit

The heart of the system is the Expan drive set, incorporating two expandable core units. One side has a large toothed gear to which a nylon link chain affixes, permitting convenient raising and lowering of the background paper roll. The other side has an adjustable tension drag. To accommodate cored paper rolls in any length, all you do is insert the Expans at both ends, tighten up until they're snug and mount the entire assembly on your background holder hooks.

Expan Drive Unit, Black (2920B)
Item # BO2920B.....48.95

Expan Drive Unit, Grey (2920G)
Item # BO2920G.....48.95

Expan Drive Unit, Red (2920R)
Item # BO2920R.....48.95

Complete Autopole Expan System (2960)

The system consists of a set of AutoPoles (2950), Background Holder Hook Set (2955) and 3 Expan drives (2920).
Item # BO2960.....339.95

Complete Autopole Expan System (2961)

Same as above with black anodized finish AutoPoles.
Item # BO2960B.....354.95

Extension Expan Chain (2923)
 39" extra length of plastic chain for Expan 2920.
Item # BO2923.....11.95

Metal Chain for Expan (2924)
 Replaces the standard nylon chain for heavy backdrops.
Item # BO2924.....34.95

Wall Mount Single Hook Set (059WM)
 For 1 Expan 2920, with screw set.
Item # BO059WM.....19.95

Weight for Expan (2925)
 Helps keep the Expan nylon chain straight.
Item # BO2925.....7.95

Alu-Core

The Alu-Core allows you to use the Expan system with uncored background paper. It consists of two aluminum sections which interlock by means of a joining casting. The Expans are inserted into the Alu-Core and provide a core for uncored background paper.

Alu-Core 107" (272cm) (2922)
Item # BO2922.....41.95

Alu-Core 144" (366cm) (2928)
Item # BO2928.....52.95

Background Hook Set (2955)
 Consists of two 2921 Cast Hooks mounted on Super Clamps, ready to mount on Auto Poles.
Item # BO2955.....74.95

Background Holder Hooks (2921)

Set of 2 sturdy, heavy gauge hooks, will accommodate up to 3 Expan units. These are drilled with clearance holes for #10 screws for mounting directly to your wall.
Item # BO2921.....34.95

Background Holder Hooks (0456)
 Set of 2 brackets for 6 Expan sets. To be wall mounted with supplied screws.
Item # BO0456.....56.95

Background Paper Counterweight (0622)
 Two sections with plastic clip to hold paper. Length 108.3" (275cm).
Item # BO2927.....31.95

LIGHTING Q&A

What's the best lighting to use for fashion-type portraits?

Some of the best fashion shots are runaway work, where I've used one on-camera flash and shot as the models come by, moving to music. These shots are fantastic. Often there's a stage behind them, which makes a great background. Fashion is clothing, movement and good-looking people. In some magazines, art directors pose people as if they were in 1930's Hollywood movies—draped against pillars, using strong lighting with shadows falling behind them. The image is one of total elegance. Strobes are ideal for showing the movement of the person and the clothes. Men's fashion usually doesn't involve movement—the models are usually standing still, leaning against a doorway or wall. In recent years a more casual look in fashion photography for men has been introduced. It is easiest to use outdoor lighting for fashion. Try having your model come up a stairway in bright sunlight, which shows the clothes well. Just turn the face away from the bright sunlight. The fashion look, in portraiture, or for straight fashion work, means you use the mood the outfit dictates. If a man is wearing a tweed jacket and an open-collared shirt, make sure he is photographed in a comfortable situation. If he's in a tuxedo, the situation is more formal. Clothing can determine a lighting setup—how dramatic it should be and how dominant.

MOTORIZED EXPAN BACKGROUND SYSTEM

The new Expan system (replaces the 2990 Motorized Expan) now provides a convenient and simple way to operate and adjust your studio backgrounds, using remote controlled motors that suspend, raise and lower up to 10 canvas or paper backgrounds at a time. Backgrounds are quickly interchanged in their holders and you can automatically set each background's high and low positions, then smoothly and easily roll from one to the other with a press of a button. Alternatively, use the manual roll up/down features for different positioning and fine adjustment. And when you've finished shooting, tidying the backgrounds out of harm's way is a touch of a button.

- Supplied in sets (one set = 1 passive roller and 1 active motor drive).
- Heavy duty motor to allow operation of heavy backgrounds (up to 26 lbs.)
- Smooth operation thanks to cardan - type clutch
- Equipped with hall-effect electronic position sensors, enable positioning precision down to 1/3 of a turn
- Very easy to install – just plug in jacks
- Cable to main control unit 1.5 meter length

Background Roll Drive Unit (850)
 Item # **BO850**.....**242.95**

HOLDERS FOR BACKGROUNDS

For Four Backgrounds (8544)
 Set of two universal holders for 4 backgrounds. Can be hung from wall or ceiling. Holders max load capacity 220 lbs.
 Item # **BO8544**.....**84.95**

Expan Holder for 4 Backgrounds (8544)

For Six Backgrounds (8546)
 Set of two universal holders for 6 backgrounds. Can be hung from wall or ceiling. Holders max load capacity 300 lbs. when holders are attached to the ceiling, 150 lbs. if attached to the wall.
 Item # **BO8546**.....**94.95**

Expan Holder for 6 Backgrounds (8546)

For Ten Backgrounds (85410)
 Set of two universal holders for 10 backgrounds. Can be hung from wall or ceiling. Holders max load capacity 400 lbs.
 Item # **BO85410**.....**169.95**

Expan Holder for 10 Backgrounds (85410)

CONTROL BOX

Manfrotto's new motorized Expan system is based on the well known manual Expan device, a fast and efficient paper background drive set designed to easily and rapidly roll and unroll all types of backgrounds (using a similar technique to that used on window blinds).

The new 851 Expan background unit builds on the practicality of the original concept and adds motorized remote controlled practicality and ease of use to perfectly control the deployment of up to 10 backgrounds.

- Controls up to 10 motors (therefore 10 backgrounds)
- Operating functions controlled by included IR remote controller
- Advanced IR communication functions:
 - Remote controller and control box are both programmable for operation on one of seven different channels – therefore if two control box systems are used in the same room, they can be set to different channels to avoid interference. In this case, it is not possible to control both main control boxes with one remote IR controller
 - Communication protocol IRUP – Infra Red over UPSEC Protocol
 - Advanced IR receiver is very sensitive to remote controller signal but extremely disruption-proof
- Advanced background motor control functions:
 - Each channel has independent, programmable background stop levels for max and min extension positions. Positions are remembered even after power off.
 - Manual mode background positioning
 - "Overload sensor" – automatically stops motor to protect equipment in case of overloading
 - "All backgrounds up" function – automatically rolls all backgrounds with a single touch of a button
 - "Background Start-up" function for easy background positioning in manual mode
 - "Fast stop" function – stops the background immediately, also reduces motor inertia after power off
 - Advanced background rolling modes, which speed-up system operation i.e. rolling up unused backgrounds.
 - Integrated easy-read display (digit height 1.75") shows selected background number
 - Sound signals for easy operation
 - Customizable – user can change parameters of the control box such as background working modes, sound on/off, etc
 - Owing to differences in international standards, main power supply cable is not included (see 850US Power Cable)

Control Box (851)
 Item # **BO851**.....**774.95**

USA Power Cable For 851 Control Box (850US)
 Mains power cable for Control Box USA plug. Type NEMA5-15P - 8.2' long (2.5m).
 Item # **BO850US**.....**29.95**

BACKGROUNDS / MUSLIN MOVER

REVERSIBLE BACKGROUNDS

Each has 2 distinct colors! Nylon velour, washable and opaque. Includes carry bag and Background Hanger Clips.

6' x 8' (1.8x2.4m)

Light Blue/Dark Blue (01250)
Item # **DEBGR68LBDB** **83.95**

Burgundy/Dark Green (01258)
Item # **DEBGR68BUGR**..... **83.95**

Thunder Gray/Studio Gray (01262)
Item # **DEBGR68TGSG**..... **83.95**

MUSLIN MOVER RAIL SYSTEM

The Muslin Mover Rail System compacts 10 foot backgrounds to as little as 18 inches. Attaches to suspended ceilings or, with standard "L" brackets, to walls. Curved track allows full use of space. Backgrounds connect by traveling carriers which are dual-wheeled, 100% nylon and 40% larger and stronger than other carriers. Lasts a lifetime and requires no maintenance. Can be "Customized" to meet any studio layout. Includes one carrier and one muslin clip per foot of track.

Single Wall System (44200)
16 ft. (4.9m) of track.
Item # **DEMMS16**..... **86.50**

Two Wall System (44210)
26 ft. (7.9m) of track.
Item # **DEMMS26**..... **133.50**

Three Wall System (44220)
36 ft. (11m) of track.
Item # **DEMMS36**..... **187.95**

Three Wall System (44230)
42 ft. (12.8m) of track.
Item # **DEMMS42**..... **217.95**

Three Wall System (44240)
58 ft. (17.7m) of track.
Item # **DEMMS58**..... **296.50**

"Customize" your Muslin Mover with these accessories:

4' Curved Track 90° (44250)
Item # **DEMMA4Q**..... **26.50**

4' Straight Track (44251)
Item # **DEMMA4**..... **24.95**

6' Straight Track (44252)
Item # **DEMMA6**..... **41.95**

Nylon Track Carriers (15) (44255)
Item # **DEMMTTC**..... **15.95**

Muslin Spring Clips (15) (44256)
Item # **DEMMA6C**..... **9.95**

24" Velcro Straps (6) (44257)
Item # **DESSMM**..... **14.50**

Wall Brackets (10) (44260)
Item # **DEBWMM**..... **16.95**

FLOTONE

GRADUATED BACKGROUND MATERIAL

A synthetic PVC material with beautiful, smoothly graduated backgrounds that afford interesting lighting effects. In a few minutes, a photographer can achieve beautiful effects that would take hours with lights and single-tone backgrounds. Each sheet is individually handmade to achieve a silky matte, non-glare surface. The material and colors do not absorb water, so they can be used with ice cubes, fruit, flowers etc. They can be cleaned with a mild soap solution and soft cloth, making Flotone reusable.

COLLAPSIBLE, SCREEN PRINTED 6' x 7'

This range of collapsible 6' x 7' backgrounds is designed particularly with school photography companies and other larger organizations with many photographers all doing similar work in mind. These backgrounds are screen printed on a knitted, crease resistant base. The screen-printing means that each of the backgrounds is color and pattern consistent which will aid all the processing stage, allowing color balancing to be done accurately and quickly. Each background has a black back which prevents light coming from the rear, allowing work against windows.

CURTAIN/MUSLIN SHEETS 10' x 12' AND 10' x 24'

Especially useful for kids, pets, and sports this extensive range of curtain backgrounds gives photographers the colors and patterns to express their creativity. The backgrounds can be draped over props or bunched for added texture. They are all 10' (3m) wide and come with a handy tote bag. They have a hem along the shortest edge to insert a pole for support.

Washables: Fully machine washable at 40°C in a large washing machine, these backgrounds are for photographers who use backgrounds extensively. The colors take their inspiration from American States.

TUBS

The four tubs for putting family groups into aesthetic poses are covered with strong, durable nylon fabric. All are padded for comfort and are built on a sturdy fibre board frame. Each size fits inside the largest for easy storage and portability.

Posing Tub (4)
with Cushions (LA8014)
Item # LAPTA **296.95**

LIGHT TENTS

Light Tents provide soft shadowless light and are an excellent method of isolating a subject from its environment. They avoid reflections on glass and silverware in studio shots and outdoors they shield plants and small animals from wind.

BABY POSER

Put your subjects to the best effect. The modular baby poser can be used in at least three configurations. It comes with its own neutral grey cover, which doubles as a bag.

Baby Poser w/Grey Cover (LA8017)
Item # LABPCG **138.95**

BACKGROUNDS-IN-A-BAG

Portable, packable backgrounds that are featherlight and reversible. The material used is a type of nylon-

blend velour specially dyed to specifications. They are hand painted on one side to create an "Old Masters" effect – an important plus to the portrait photographer – the reverse side is offered in its solid color for other photographic uses. Because the material is not completely opaque, the backgrounds respond very well to additive color through the use of gels. There are eleven colors offered; Medium Blue, Stormy Grey, Royal Burgundy, Rembrandt Brown, Pastel Blue, Pearl Grey, Earthtones, Grey Mirage and the new Beige Pastel. Blackest Black and Photo White (unpainted) complete the color selections. Sizes include a 6'x7' (1.8x2.1m) and an 8'x12' (2.4x3.7m). The 8'x12' may also be used in a 12'x8' configuration such as would be required for larger or wider compositions. Weights including the bag are six and a half pounds for the 8'x12' and four pounds for the 6'x7'. Thousands of these backgrounds are used throughout the photographic world. Various photographers count on them among their most important tools.

BACKGROUND-SUPPORT-SYSTEM-IN-A-BAG

The Background-Support-System-In-A-Bag is a unique package that will support seamless paper up to 11' (3.4m) in width as well as accommodating the 12' (3.7) width of the Backgrounds-in-a-Bag. The system consists of two heavy-duty professional support stands, a sturdy four-piece crossbar and a heavy-duty canvas carry bag. The background stands are professional quality units, featuring three positive locking levers and tubular legs. The four-piece crossbar snaps together with positive locking devices. The background system can be extended to 10.5' (3.2m) in height and 12.5' (3.8m) in width. When closed the entire package in the bag measures 39" (99cm) in length and weighs just 12 lbs. (5.4kg).

Background-Support-System-In-A-Bag (S40104) **144.95**
12' (3.7m) Crossbar (S40234) for Background System. **Item # PHCB12K** **47.50**

Special Extension Package (SXT18) Increases system width to 18 ft. Includes (2) 3-ft. crossbars, (1) support stand and carry case. **Item # PHEBSS** **79.95**

PEOPLEPOPPER

The ideal solution for photographers who need a complete background system that sets up in seconds, stores in a bag, and is ever so weight friendly. Backgrounds open to a generous 6'x7' (1.8x2.1m), enough to photograph singles and doubles. The specially dyed nylon velour fabric is wrinkle resistant and one side has been carefully air-brushed in an Old Masters design.

Use the original side with gels or as is to double its utility. In addition to the background, the complete PeoplePopper package includes one heavy duty support stand that expands from 30" (76cm) to 7.5' (2.3m), two crossbars for the top and bottom sewn in loops, crossbars that expand from 30" (76cm) to 6' (1.8m), all of which are encased in one of Photek's popular carry cases.

CHROMAFLEX

Reflectmedia was established as a specialist division of Reflec plc to deliver its patented technology to the media industry. Using the scientific process of 'retro-reflectivity', the company is changing the art of chroma key with a range of products that will bring economy of time and money, with increased creativity, to anyone filming content for film, television and video. Since it was first used in films in the 1950's, chroma key is a production process that has remained largely unchanged. Since introducing the concept of 'retro-reflectivity', Reflectmedia has begun to define what was a process with a specific product solution in Chromatte. As Reflectmedia continues to quantify for a mass market, a process that has been trial and error, its ambition is to be remembered in history as having contributed one of the most fundamental changes to the art of film making in the way colour, sound and digital editing have done already.

CHROMAFLEX

ChromaFlex takes chroma key production out of the studio and into any controlled lighting environment - enabling never before seen results with the minimum set up! Manufactured using proven collapsible frame technology ChromaFlex is a portable Chromatte screen that can be carried under your arm. Ideal for cameramen, videographers, production companies and news crews. Shooting chroma key on location and in non studio environments is a challenge for even the most experienced professional - achieving controlled and even lighting are just two of the problems! ChromaFlex is what it says - a truly flexible chroma key solution that allows you to shoot and key almost anywhere! The results achieved using ChromaFlex are as good as those achieved in a dedicated studio environment - yet in contrast you can take your chroma key studio with you wherever you go, as everything you need comes in one small bag! Using Reflectmedia's revolutionary Chromatte fabric the ChromaFlex screen offers the same high quality results in the most portable configuration. You get the same choice of using a blue or green LiteRing to generate your chosen keying colour - this camera mounted LED source is all you require to key with. The collapsible pop-up frame springs open when removed from its bag to create an instantly usable 6.9 x 6.9 ft. (2.1x2.1m) screen. The surface area allows sufficient space to shoot from close-up through to a wide shot of good proportion.

Fast - The pop-up screen takes a matter of seconds to erect as no other fittings are required.

Portable - Where hanging is not an option or you are not familiar with your filming location, ChromaFlex gives you complete flexibility. It can be held, leaned against a wall or clipped to a free standing frame. The ChromaFlex screen, LiteRing and LiteRing Controller pack away easily into a bag that can fit into the back of your car.

Effective - Chromatte achieves a high quality key, with no blue spill & excellent edge definition.

Inexpensive - No need for studio space, lighting and wasted labor.

Quality - The collapsible inner frame can withstand long term use and is of the highest quality

construction. The portability of ChromaFlex takes chroma key out of the studio and into the open - an office, classroom, meeting room or garage just became shooting locations! Chroma key is no longer a time consuming process only for experienced lighting technicians and camera operators - in minutes you can achieve results that before may have taken hours. As an experienced professional you will benefit from the ease of ChromaFlex and the release of time it provides for greater creativity. When you buy ChromaFlex it comes with your choice of a blue or green LiteRing, in either a small size to suit DV cameras or larger size for professional lenses. You may also choose to purchase additional LiteRings to increase the flexibility of the product.

LITE-RING

The LiteRing is a circular arrangement of bright blue or green light emitting diodes (LEDs) mounted around the camera lens. The LiteRing provides all the necessary source light required to illuminate the Chromatte fabric for keying. Manufactured in two sizes, it is compatible with most digital video and professional camera lenses. The AC powered LiteRing Controller (LRC) allows you to adjust the intensity of light required for optimum keying results.

Advantages of LiteRing - The LiteRing works in conjunction with our reflective Chromatte fabric. Together they efficiently use the LiteRing's narrow wavelength of light to generate a brilliant but low level and even colored background, producing excellent chroma key results. They achieve this due to the physical characteristics of the light, its direction and position, in relation to each other in a process called 'retro-reflectivity'.

Configuration - The LiteRing is a mains powered and adjustable light source, made up of blue or green LEDs, arranged around and close to the centre of the camera lens (known as the 'centre axis').

Location - The LiteRing is fixed to the camera and is positioned fractionally behind the front of the lens. Lightweight and detachable in seconds, if you want to change from a blue to a green key you simply unscrew and replace with a different colored LiteRing.

Angularity - The LEDs are specifically angled to beam the colored light at the facing concave shaped glass beads on the reflective Chromatte background. The light is then reflected back along the same axis (angle) towards and into the camera lens

Maneuverability - Traditional chroma key often requires that you relight the background for each camera set up. With the LiteRing attached to the camera you can move from 90 degrees head on, to approximately 10 degrees from horizontal only requiring a slight adjustment on the LiteRing Controller to effect a key.

Distances - Ideal shooting distances depend on a number of variables including levels of ambient light, choice of keying applications, camera quality and filming formats. As a rule the subject should be further than 2-3m (8') from the camera to avoid a blue or green cast of light. Maximum distance rises up to approximately 20m (60').

SPECIFICATIONS

Power source: Output 12V via an AC adapter f/UK, Europe and US.

Camera lens dimensions:

Small: 44.5mm-74.9mm

Large: 60.3mm-115.8mm

Kits Include: Lite-Ring, Controller and Power Supply.

Light Intensity:

Blue LiteRing: 47 candela

Green LiteRing: 158 candela

LITE-RING CONTROLLER

The intensity of the light emitted from the LiteRing can be adjusted with the LiteRing Controller. As a rule the LiteRing should be set to medium output and adjusted as required based upon distance and keying device, to achieve optimum results.

LiteRing Controller (RM4201)
Item #REICLR **295.00**

CHROMATTE / KITS

CHROMATTE

Chromatte is a 'retro-reflective' fabric designed to serve as a background for use in chroma key production for film, television and video. This light-weight, flexible fabric contains millions of glass beads that behave like 'cats eyes' - it is dark grey to the eye in ambient light, but when used with a camera mounted LED LiteRing the grey is seen by the camera as a brilliant but more importantly 'even' blue or green background for easy chroma keying.

Saves on space - With only the camera mounted LiteRing required to light the background, you no longer need the space to accommodate heavy studio lighting. With Chromatte you can chroma key in smaller light controlled locations

Saves on lighting - Traditional chroma key fabric absorbs light where Chromatte is reflective, efficiently using its light source to give a bright and even background. This saves approximately 1KW of light for every 2m of conventional background fabric or painted walls.

Saves time - Lighting for chroma key requires skilled lighting technicians and can take hours. Chromatte is easy to set up taking just minutes and freeing up time that can be spent lighting a scene or subject more carefully and creatively.

Saves money - Time saved, space saved, lighting saved, heat saved, fewer retakes means money saved.

Chromatte 8x8' Curtain (RM1201)
Item # **RE88CC** **1595.00**

Chromatte 16x12' Curtain (RM1203)
Item # **RE1612CC** **4795.00**

Accessible - Chroma key production has historically been an expensive process available to larger productions with bigger budgets. Chromatte solutions now offer high production value to anyone wanting to use chroma key special effects.

Creativity - The camera is free to move as keying is possible at acute angles without needing to relight the background. Great results can be achieved in never before seen 'low light' situations allowing for greater creative control when shooting a scene.

Chromatte Curtains - Chromatte is supplied in three standard size curtains. Ideal for use when filming in a dedicated production environment, they do not need to be fixed or flat but can be pulled back or in to place just like a conventional curtain. Chromatte Curtains are backed with black light-proof wool serge and hemmed with eyelets across the top for easy hanging from studio tracking or a curtain rail.

Includes 16x12' curtain, large green Lite-Ring, controller & power supply.
Item # **REC1612LGK** **5595.00**

Off The Wall Productions is the leader in the manufacturing of studio prop systems for in-studio and outdoor photography. Consultants have visited thousands of studios around the world, enabling them to gain insight into the needs of today's progressive photographer. This knowledge and experience, combined with a team of highly creative artists and craftsmen brings to you a functional system of props that, when used properly, will immediately increase your sales.

WHAT IS A STUDIO PROP SYSTEM?

Versatile, modular, double-sided pieces were designed and manufactured, which have made it simple to create the illusion of size and depth in any camera room or outdoor location, so photographers could fully utilize the controlled environment of their camera room, not just as an alternative to bad weather. The color and tonality of all props and backgrounds were coordinated allowing your subject to remain the primary focus of the overall image. All systems are designed to become interactive, meaning they become a part of the image and not just part of the background.

WHAT ARE THE PROPS MADE OF?

These portable props are made of lightweight, high density polystyrene. Every piece is hand-carved and hand-painted for life-like results. They are easy to maneuver in your camera room or load into a vehicle for a location session. All of the high traffic areas are laminated to increase their strength. The entire product is then covered with a super strong surface coating making them weather resistant and extremely damage resistant.

WHAT ABOUT SIZE?

The props are designed to give a small camera room the illusion of size and elegance and a large camera room functionality. All sizes of camera rooms in all kinds of studios were successfully out-fitted. Even our largest systems store conveniently in a small area against a wall.

TRANS-LUM

Trans-Lum (55418)
Made from sturdy plastic, is available in rolls of 54" x 18 feet. Its specialized effect is that of a frosted glass; props on the other side can be seen as shapes. It can be easily cut with scissors and used as a background, prop set-up, light table or other special effects. Ideal for cutting silhouettes.

Item # SATLM.....**23.95**

DIFFUSE

Diffuse (59224)
Made of an innovative, translucent, nonwoven polyester fabric and is available in rolls of 92" x 24 feet. Use diffuse with back lighting for a beautiful soft lighting effect for fashion and other creative photography. Light it from front for a unique effect. It can be suspended like seamless or attached to a wooden frame.

Item # SADM.....**58.50**

BACKGROUND STANDS

Port-A-Stand with Carrying Bag (62037)
A versatile, yet compact metal portable background stand. Matte black finish. Stand opens to 9'5" wide, 8'10" high and collapses to 44" for ease of carrying. The vertical uprights can be used as light stands for a completely versatile all-in-one system. Comes complete with a bag. The perfect background stand for location. Weighs 12 lbs. Accommodates 53" x 12 yds. or 107" x 12 yds. rolls of paper or fabric background.
Item # SABGSPAS.....**94.95**

Economy Background Stand (60099)
Economy background stand is ideal for the student or part time photographer. Holds 53" or 107" widetone seamless. Matte Black Finish.
Item # SABGSE.....**56.95**

Polevault® Background Stand (60115)
A freestanding portable background support stand made from 7/8" and 1" tubular steel. Professional locking collar for easy adjustment from 4'3" to 8'6" in height and 60" to 115" in width. Only 14 lbs. and requires no tools for assembly. This three-piece unit is ideal for supporting 53" or 107" background paper, quilts, drapes, display panels, etc.
Item # SABGSPV.....**89.95**

Multiple Polevault® Background Stand (63151)
An exceptionally strong, yet lightweight stand that can support either 3 rolls of 107" background paper or 1 roll of 140" background paper. Expands from 5'3" to 9'7" high and from 60" to 152" wide. Weighs 15 lbs. No tools required.
Item # SABGSMPV.....**199.95**

WIDETONE SEAMLESS

WIDETONE® SEAMLESS BACKGROUND PAPER

High quality, fine tooth non-reflecting surface available in an array of vibrant colors. Compatible with a variety of mediums, ideal for photo background, display, banners, drafting, decorations. The 26" and 53" rolls are shrink-wrapped and available in displays. The standard studio size 107" x 12 yd. as well as 50 yd. rolls and 140" wide are all core wound for extra support and wrapped in a plastic sleeve to keep moisture and dirt out.

Widetone Seamless — 26" x 12 yd.

CANVAS BACKGROUNDS

Studio Dynamics offers stunning, aesthetically pleasing backdrops for discriminating photographers. Beyond the thoughtful design, every backdrop is also the product of the dedication to quality. Each backdrop is painstakingly painted by hand, the traditional way, with attention to fine detail. These are not mass machine printed with fuzzy off-colors. Nor are they imported from a third world nation with all the attendant quality problems. This staff of artists has been carefully trained to produce backdrops that speak of elegance in the grand manner, a modern Renaissance of style and mood. You are promised the finest quality and incomparable style and craftsmanship. Color and texture will be similar to color chart, but not necessarily exact.

Light Stand Mount - Background comes ready to be used with a light-stand. It has wood at the top with a hole for the lightstand tip. A core is attached to the bottom for easy rolling. For 5 foot through 9 foot widths.

Studio Mount - Background comes ready to be used with a background stand. A core is at the top for use with a crossbar. A piece of wood molding at the bottom acts as a counterweight.

Color	5' W x 7' H (1.5x2.1m)		6' W x 8' H (1.8x2.4m)		7' W x 8' H (2.1x2.4m)		7' W x 9' H (2.1x2.7m)		8' W x 9' H (2.4x2.7m)

ILLUMINATOR

Collapsible backgrounds come in three styles and three sizes:

- **Illuminator (one-sided)**
5' x 6' (1.5x1.8m)
- **Illuminator (one-sided)**
6' x 7' (1.8x2.1m)
- **Illuminator (2-in-1)**
5' x 6' (1.5x1.8m)

Collapsible Illuminator backgrounds are a snap to set up and refold.

MASTERPIECE COLLAPSIBLE 2-IN-1 ILLUMINATOR 5' x 6' (1.5x1.8m)

Two-sided 5' x 6' collapsible backgrounds give two background choices in one bag. Pairs of the most popular colors of our masterpiece collection, as well as black and white have been joined together in one collapsible background. They collapse as our other Illuminator style backgrounds do into a third of their size and store in a flat circular bag about 30" in diameter. Designated colors complement high and low key ranges. Also for digital imaging, the Illuminator 2-in-1 Chroma-Key background provides two digital color options in one background.

MASTERPIECE SHEET "WASHABLE" BACKGROUNDS

Westcott now offers washable muslin sheet backgrounds in two sizes. The backgrounds are ideal for photographers to withstand applications that involve pets, sports, or kids. The backgrounds are machine washable in a large washing machine. Tumble dry on medium setting and remove at once from dryer when dry.
