Carl Zeiss Triotar T* Loupe 5x

Peak Zoom Loupe 816

Wista Standard Focusing Loupe 5x

Iston APO 4x Loupe

Rodenstock Loupe 4x (260010)
4x magnifier. Free of visible distortion, even at the border area. Minimizes stray light even against very bright backgrounds. Built-in focusing diopter, 25mm wide eye-point with built-on rubber eye cup. Base is built with a sliding hood. Easily converts loupe from 73x52mm opaque (for viewing film) to clear (for prints or groundglass focusing). Dimensions are 2.9 x 2" (73 x 52mm). Weighs 2.8oz. (80g).
Item # ROL4X.....99.95

Schneider Loupe 4x
High quality multi-coated 4x magnifier with optimal image quality. 30mm wide eye-point allows less eye fatigue. Built-in focusing diopter. Bottom skirt is interchangeable for film, print and glass viewing. Dimensions are 2.7 x 1.9" (68 x 48mm). Weighs 2.4 oz. (68g).

Schneider Aspheric Loupe 6x
Same as above with 6x magnification, and aspheric glass elements. Available in black color. Weighs 3.8 oz. (106g).
Item # SCL6XA.....254.00

Iston APO 4x Loupe
Copy of the German 4x loupe. Coated aspherical glass optics with built-in focusing diopter. Shows full 35mm slide. Includes 2 interchangeable skirts - clear for viewing prints and black for viewing slides. Metal construction. 26mm wide eye point; 2 x 2.6" (50 x 66mm). Weighs 3.5 oz. (100g).
Item # ISL4X.....49.95

Focus Extension Ring
For APO 4x.
Item # ISFERL4X.....9.95

Contax Triotar T* Loupe 5x (680-010)
A Carl Zeiss high-performance, 2-group, 3-element 5x magnifying glass featuring a wide visual field of coverage (24x36mm). Optical glass manufactured with world famous Carl Zeiss' T* coating. Effective viewing field of 45mm. 20mm wide eye point allows less fatigue. Built-in focusing adapter adjustable between +0.5 and -4. The lower section is designed with a sleeve interchange "Transparent Light Sleeve" for viewing prints, and the "The Shading Sleeve" for viewing slides on a light box. 2 x 22.4" (52 x 62mm). Weighs just 3.4oz (95g).
Item # COL5X179.95

NPC Pro Loupe 5.5x
5½" magnification integral black anodized aluminum loupe with an aluminum skirt that can be used in the up or down position for viewing prints or transparencies, or as a focusing aid with a view camera. 45mm effective viewing field. Dimensions are 2.2 x 2.4" (56 x 62mm). Weighs 5oz. (142g).
Item # NPL5.5X.....109.95

Kenko Precision Loupes

Precision Loupe 4x (PR-4X)
Fully covers 35mm film frame. For viewing slide or negative film with adjustable focus. The 45mm base with a sliding hood, easily converts from opaque (for viewing film) to clear (for viewing prints). 1G, 2E construction. Dimensions are 2.2 x 3" (55 x 76mm). Weighs 3.9 oz. (110g).
Item # KELP4X89.95

Precision Loupe 6x (PR-6X)
Same as above with 6x magnification. Its dimensions are 2.2 x 3.1" (55 x 78mm), and it weighs 5.3 oz. (150g).
Item # KELP6X119.95

Peak Zoom Loupe 816 (PK2044)
Permits stepless change of magnification for zooming. Composed of 8 lenses in 6 groups for zooming from 8x to 16x, it keeps sufficient brightness in each stage of magnification with the least optical aberration. The black body, with finished aluminum precision machining, allows smooth zooming. Click stops of desired magnification from 8x, 10x, 12x, 14x and 16x. Multi-groove screw helicoid system for diopter focus adjustment (+2.5 to -5) ensures smooth operation. Field of view zooms 20mm to 10mm. Dimensions are 1.8x2.6" (45x65mm), weight 5.3oz. (149g).
Item # PE2044189.95

Wista Standard Focusing Loupe 5x (1046)
A powerful 5x magnifier designed for all-purpose viewing, a built-in focusing diopter, interchangeable bottom skirts for viewing prints and for groundglass or slide viewing. With neck strap.
Item # WIL5X.....49.95

Canon Loupes

Canon Loupe 4x (C559351)
High performance super spectra coated magnifier for viewing a full-size 35mm frame in high resolution. Color aberration and distortion is completely eliminated. 30mm wide-eye point allows less fatigue. Focusable from -4 to +1 diopter. Bottom skirt is interchangeable for film and print viewing. Includes 2 skirts, eyecup, eyecup with neck strap and case. Dimensions are 2 x 2.5" (53 x 63mm). Weighs 3.8oz. (180g).
Item # CALAX.....129.95

Canon Loupe 8x (C559361)
Same as above with 8x magnification. 4 groups, 2 elements. Dimensions are 2 x 1.6" (51 x 41mm). Weighs 3.4 oz. (96g).
Item # CAL8X.....169.95

We Exhibit at National and Regional Shows/Conventions

LOUPES

2 1/4" / ALL PURPOSE LOUPES

Eschenbach Standlupe 4x (GEB627)
A large 4x full-frame magnifier. Aspherical acrylic lens with duplex coating gives sharp images over a 3" field of view. High eye-point allows the eye to be further away from the loupe. Great for larger slides, negatives and prints. Eye piece width has 55mm effective viewing field (66x66mm). Dimensions are 3 x 3 x 2.4" (78 x 76 x 60mm), weight only 3oz. (84g).
Item # ES2616.....29.95

Horizon 4x Stand Loupe (GHZ104)
This all-purpose loupe uses high resolution lenses with chromatic aberration. Wide square vision (48 x 48mm). Features both a semi-transparent and black bottom skirt for use with different lighting conditions. Includes built-in focusing diopter with a 29mm wide eye-point. Dimensions are 2 x 2 x 2.6" (54 x 54 x 65mm), weight 3.6oz. (104g).
Item # HOLAXVF.....39.95

Schneider 6x6 Magnifier (08039816)
High quality multicoated 4x magnifier with optimal image quality. 30mm wide eye point for less eye fatigue. Built-in focusing diopter. 56x56mm bottom skirt is interchangeable for film, print and glass viewing. Dimensions are 2.4 x 2.4 x 3.4" (60 x 60 x 86mm) Weighs 4.4 oz. (124g). With strap.
Item # SCL66.....224.00
Hasselblad Base Plate Adapter
Item # SCHAL6695.95

Kenko Excelupe 5x (EC5X)
High quality all-purpose 5x magnification loupe that covers the 6x6 frame, with high eye-point. Distortion free. Adjustable focusing lens. The base is built with a translucent skirt for viewing prints or slides. Multicoated, 2G, 3E construction with a 55mm effective field of view. 2.5 x 2.7" (64 x 68mm). Weighs just 7.4 oz. (210g).
Item # KELE5X.....119.95

Rodenstock 6x6 Aspheric Magnifier (260200)
A high-quality aspheric 3x magnifier. Resolves even the finest details with high contrast over the entire 86mm diagonal image area. 33mm wide eye point for less eye fatigue. Built-in diopter correction from 0 to -2. Bottom skirt is reversible for film, print and glass viewing. 3 x 3 x 3.9" (75 x 75 x 100mm). Weighs 7.1 oz (202g).
Item # ROL66.....229.95

Peterson Viewing Lens System

Peterson 6x6 Viewing Lens System
For critical viewing of reflected and transmitted light. 85mm focal length is ideal for viewing 35mm and 120mm images. Specially coated multi-element rare earth cemented achromatic lens. Unique 15mm depth of field allows the viewing lens to be tilted off axis while retaining good focus. This eliminates constant adjusting of the lens for different viewers. Clear or black skirt for viewing prints or slides. 2 1/4" and 35mm rubber masks.
Item # PEV66.....119.95

Hasselblad Attachment
For viewing directly onto a Hasselblad focusing screen.
Item # PEHA.....9.50

Slide Viewing Attachment
For viewing 35mm slides with available light.
Item # PESVA9.50

Focus Loupes

Toyo 3.6x Groundglass Focusing Magnifier (180-301)
A powerful 3.6x magnifier with rubber base (to avoid scratching groundglass), rubber eyepiece (for eye glass wearers), coated optics and neck strap. Focal length of 60mm. Constructed of 2E, 2G glass.
Item # TOL.....39.95

Wista Standard Focusing Loupe 5x (1046)
A powerful 5x magnifier designed for all-purpose viewing. 3-element optical glass, a built-in focusing diopter, interchangeable bottom skirts for viewing prints and for groundglass or slide viewing. With neck strap.
Item # WIL5X.....49.95

Wista Hood Loupe 7x (1045)
The Wista Hood Loupe 7x is a high powered 7x magnifier designed for groundglass viewing. It can be extended almost an inch (24mm) for viewing through cameras with a folding focusing hood. 3-element optical glass and diopter focusing.
Item # WIL7X.....94.95

Schneider Focus Loupes

The Schneider focus loupes provide precise focusing of groundglass images, in studio cameras, laboratory and all-purpose use. The color corrected and multi-coated lenses enable objects to be viewed 6, 8 or 10x.

Schneider 6x Magnifier (080-39642)
With strap.

All-Purpose Loupes

Peak Suction Cup Magnifier 10x (PK1993)
A 10x loupe that enables photographer to focus view cameras with two hands, with the loupe held in place on the groundglass by the suction cup. Lens diameter is 30mm, dimensions are 2.4x2" (60x51mm) and weight is 1.2oz (35g).
Item # PE1993.....29.95

Jobo Loupe 4x (3543)
Fully covers 35mm film frame. For viewing slide or negative film with adjustable focus. Base easily converts from opaque to clear. 1G, 2E construction. 2.2 x 3" (55 x 76mm). Weighs 3.9 oz. (110g).
Item # JOLAX.....65.95

Horizon Focusing Loupe 10x (GHZ102)
2-dimensional 10x magnifier. Features achromatic multicoated glass lens in aluminum construction. Base includes interchangeable opaque and clear lucite glass scale.
Item # HOL10X39.95

Horizon Focusing Loupe 8x (GHZ103)
Features high power 8x magnification achromatic glass. One inch viewing lens. Aluminum construction. Base made of rectangular lucite for clear and shadowless viewing. Etched millimeter scale.

Peak Loupes

Peak Loupe 15x (PK1962)
A high magnification all-purpose loupe with a coated achromatic 2G, 3E lens.
Item # PE196217.95

Peak Loupe 4x (PK2038)
High-resolution achromatic lenses with corrected chromatic aberration. 45 x 45mm wide square vision. Smart body design makes it useful as an all-purpose magnifier. Semi-transparent skirt for checking photographic films and black skirt for checking the focus of a large-focus camera. In addition, a multi-groove screw helicoid system, (ordinarily employed for camera lenses) is used for diopter adjustment, ensuring a very smooth operation. Dimensions are 2 x 2.6 x 2" (51 x 65 x 51mm). Weighs just 2.8oz. (80g).
Item # PE2038.....59.95

All-Purpose Scale Loupes

Peak Scale Loupe 7x (PK1975)

An all-purpose high power 7x loupe. Excellent 2G3E achromatic lenses. With focusing diopter and printed removable scale.

Item # PE1975 **38.95**

Peak Mini Comparator (Scale) Loupe 7x (PK2015)

Same as 7x scale loupe, but smaller and lighter.

Item # PE2015 **49.95**

Peak Scale Loupe 10x (PK1983)

A high power precision achromatic all-purpose 10x magnifier (2G4E) with focusing diopter and printed removable scale.

Item # PE1983 **59.95**

Peak Scale Loupe 15x (PK2016)

A wide field 15x magnifying glass with 3-groups and 4-elements. By observing through the magnifier and printed scale, the user can measure the length angle precisely, etc. This loupe can be used as an independent magnifier by removing the transparent skirt and turning the focusing diopter to the left.

Item # PE2016 **79.95**

Peak Professional Anastigmatic Loupes

Designed to allow viewers to simultaneously inspect the entire image area of a film or negative as large as 32x45mm, or flat objects up to 58mm in diameter on the 4x and 41mm on the 7x. Insures critical sharpness from edge to edge and corner to corner, due to the high degree of field and optical aberrations. Ordinary magnifiers are corrected only for the center image. The optical design of these loupes enable viewing from one inch above the eye piece, so that the entire image area may be viewed without moving one's head. Part of the barrel is constructed of clear plastic to allow for illumination of opaque objects. A smooth diopter focusing device allows for correction to the vision of individual users. A detachable glass scale is included to allow for measurement of objects directly on the film plane. Supplied with strap.

Peak Anastigmatic Loupe 4x (PK1990)

Item # PE1990 **129.95**

Peak Anastigmatic Loupe 7x (PK1990-7)

Stand Loupes

Bestwell Maxi Loupe 10x

Features quality optics 8x magnification with a 2" viewing lens, mounted in metal construction. Fully adjustable clear lucite stand.

Item # **BEML2**.....**24.95**

Hama Standing Magnifier 4x Round (5484)

Big magnifier with aspherical lens. Bright, distortion-free view with 4x magnification. Clear base for viewing from the top (stamps, negatives or contact prints). Its diameter size is 2 3/4" (70mm), height

2 3/4" (60mm) and weighs 2.9oz. (84g).
Item # **HAMR4X**.....**26.50**

Eschenbach 3.5x Hand/Stand Pocket Magnifier (GEB050)

Multi-purpose magnifier for home or away. The stand magnifier offers perfect focus with the correct distance. It can be converted into a fixed focus stand magnifier. The aspheric PXM lightweight lens with a diameter of 60mm features a magnification factor of 3.5X and provides perfect focus at the edges. Weighs 2.6oz. (74g).

Item # **ES2050**.....**39.95**

Eschenbach Stand Magnifier 6x (GEB626)

6x magnification loupe used wherever work has to be done beneath a high magnification lens, and as a high magnification visual aid. Lens aspherical, PXM lightweight lens with Duplex-Coating. Transparent plastic base for clear and shadowless viewing, with rectangular cut-outs to slide film through.

Item # **ES2626**.....**26.95**

Magnifiers

Peak Loupe 5x (PK1960)

A very practical magnifier with an acrylic tube. Lightweight and bright.

Item # **PE1960**.....**12.95**

Peak Loupe 22x (PK1964)

A high grade, powerful 22x magnifier with a coated achromatic 3G4E lens.

Item # **PE1964**.....**26.95**

Peak Loupe 30x (PK1996)

A simple 7mm eyepiece microscope type loupe with 4-element, 2-group construction. The image remains erect. Its dimensions are .7 x 1.4" (18 x 35mm) and it weighs just .3oz. (8g).

Item # **PE1996**.....**49.95**

Peak Steinheil Loupe 10x (PK198510)

With leather case. A color corrected 3-element composite, 15mm eyepiece width lens.

High resolution throughout the wide field of view. The classic high-quality high power (10x) loupe slips into a .9 x 1.4 x .8" (22 x 36 x 20mm) holder and weighs. 7oz. (20g).

Item # **PE1985**.....**69.95**

Beseler Loupe 8x

Professionally designed with 8x magnification, this loupe is both lightweight and pocket sized.

Item # **BEL8X**.....**6.95**

For extra illumination. Features an aspherical acrylic 3x magnification biconvex lens covering almost 4". Great for 2 1/4 slides, larger prints or Polaroid shots. (Requires C batteries.)

Item # ES1555.....39.95

Eschenbach Light Loupe (Leuchtlupe) 6x (GEB552)
An extremely lightweight torch magnifier, the Eschenbach Light Loupe 6x features an aspherical acrylic 6x magnification covering a 2" (50mm) field. Great for 35mm contact sheets, prints, Polaroid prints, etc. (Requires C batteries.)

Item # ES1552.....34.95

Eschenbach Light Loupe (Leuchtlupe) 4.2x (GEB525)
Features an aspherical acrylic 4.2x magnification lens covering a 2" field. Great for 35mm, contact sheets, etc. (Requires C batteries.)

Item # ES1525.....39.95

Peak Light Loupe 10x (PK1966)
Designed for use when extra illumination is necessary. It offers a high power 10x magnification and wide visual field. The effective viewing field is 42mm. The flashlight is made of metal and the clear lens is shielded by a hard plastic holder. The clear base works with or without the built-in light. Operates with two C batteries.

Item # PE1966.....26.95

Specialty Loupes

Peak Head Loupe (PK2035)
The Peak Head Loupe is an extremely lightweight head loupe, with two varying magnifications in one device. Comes with adjustable headband. Magnification: 2.2x and 3.3x. The dimensions are 7.5 x 2.8 x 9.9" (190 x 70 x 250mm). The Head Loupe weighs 3.5oz. (100g).

Item # PE2035.....39.95

Peak 5x Magnetic Loupe (PK1986)
The Peak 5x Magnetic Loupe is designed for viewing metal instruments with precision. This 5x magnifier allows hands-free use. Two magnets in the base adhere to all steel. Also handy for use with cameras. Lens diameter is 30mm, dimensions are 1.7 x .8 x 12" (44 x 20 x 30mm) and weight is 1/2oz. (15g).

Item # PE1986.....19.95

Iston Retouching Loupe (GST111)
Features metal construction, three coated optical elements and a swing-out design which prevents the scratching of mounted 35mm slide or medium format film. Allows comfortable viewing from 12" away. A perfect companion for 4x loupe. Folds down to 2.4x1.2x1.3" (60x30x33mm) and weighs 4.2oz. (118g).

Item # ISL10X.....58.50

Eschenbach 2.5x Clip-On Stereo Magnifier (GEB642)
Keep your hands free for spotting prints, sorting slides, fixing cameras, etc. Gives a magnifier-to-subject working distance of about 7", and the twin lenses hinge up and out of the way when they are not needed. Features a neat clamp frame that attaches to your own eyeglasses.

Item # ES1642.....49.95

GENERAL ALL-PURPOSE LOUPES & LINEN TESTERS

Saunders Light-Gathering Magnifiers 4x

The saunders light-gathering loupe is a superbly crafted, solid acrylic magnifier that intensifies the light which passes through it, making the magnified subject clearer and brighter. Innovative optical engineering and precision lens grinding are the power behind its performance. Available in three diameters - 51mm for viewing 35mm images, stamps, coins and other small objects (weighs 2.4oz./68g); 64mm for 35mm and medium format film reading (weighs 4.7oz./134g); 90mm for medium format negatives, 4x5" film and other general applications (weighs 13.1oz./372g). All three sizes have 4x magnification and the same light intensification.
