The **Professional** Photo SourceBook

Section 10
Lightboxes

L I G H T B O X E S

One of the most important stages of the photographic process is editing your take. To do this right, you need to put your chromes or prints in the best light possible – literally. The best light boxes will clearly, evenly illuminate your images, with the most neutral light source available.

To keep the color rendering as true as possible to your intended original (an important feature especially if your work is destined for print reproduction) top-line light boxes use light generated by fluorescent bulbs with a color temperature of 5000 degrees Kelvin. This light offers qualities that are as close as possible to natural daylight. It provides neutral color balancing that is essential for consistent results every step of the process. And since 5000 Kelvin is an industry standard, your image will look the same when moved from one light table to another. This consistency is what professionals demand.

B R E T F O R D   A C C U L I G H T

Designed to provide the most accurate color-correct viewing possible, the Bretford Acculight line of viewers features ANSI standards for a 5000K light source, a CRI rating of 91+ and power from 110 to 120V AC, 60 Hz. Each unit is available in white and has a break-resistant frosted plexiglass viewing surface. All models are equipped with a 6' cord and switch and are UL listed.
*Two connected
4' viewers with Accuframe
(shown on an Accustand) with
transparency clips and slide overlay.*

Light Tables

Portable Acculight Viewer (6009)
Bring a color-correct light source anywhere with this portable viewer. Lets you view up to 48 2" slides at once; comes with protective vinyl cover and carrying handle.
Item # ACVP **89.95**

Two-Foot Acculight Viewer (6002)
Perfect for office or meeting room viewing. Easily displays up to 84 two-inch slides. Lays flat or useable at 15 and 70-degree viewing angles using folding legs in back of unit.
Item # ACV2 ....**179.95**

Four-Foot Acculight Viewer (6000)
Full-sized viewer holds up to 168 two-inch slides. It can be placed flat on a tabletop or at 15 and 70-degree viewing angles using folding legs in back of unit.
Item # ACV4 ....**209.95**

BRETFORD ACCULIGHT				
Description	Item #	Outside Dimensions	Viewing Surface	Weight
Portable Viewer	ACVP	18 x 15 x 4″ (56 x 38 x 10cm) W.D.H.	17.2x12.4″ (44x30x8cm) W.D.H.	10 lbs. (4.5kg)
2-ft. Viewer	ACV2	24.6 x 16.2 x 6.3″ (62 x 41 x 16cm) W.D.H.	23.3x14.3″ (59x36cm) W.D.H.	22 lbs. (10kg)
4-ft. Viewer	ACV4	49.1 x 16.1 x 6.3″ (125 x 41 x 16cm) W.D.H.	48.5x14.3″ (123x36cm) W.D.H.	36 lbs. (16.3g)

Light Table Accessories

Dust Cover for 6002
Black vinyl cover slips over the 2' Acculight Viewer.
Item # ACDCV2 ....**17.95**

Dust Cover for 6000
Black vinyl cover slips over the 4' Acculight Viewer.
Item # ACDCV4 ....**21.95**

Accustand Slide Overlay (6012)
Conveniently "locks in" up to 72 two-inch slides for a portable slide display that can be moved from office-to-office with ease. Crafted of lightweight steel, this unit features six removable plastic gripper strips that run the length of each row. Slides slip into the lip of the gripper and stay in place until you remove them. Fits easily on a 2´ or 4´ Acculight for viewing. 24x14¼″ (61x36cm) W.H. Weighs 5 lbs. (2.3kg).
*Item # ACAL*..**48.95**

Transparency Clips (6004)
These transparency clips slide under the Acculight Viewer's rubber lip and holds transparencies in place. Flexible spring steel design. Easy to insert and remove. Six clips per package.
Item # ACTC **7.50**

An Accuframe can double your Acculight viewing area

Accustand Slide Overlay

Accuframe (6003)
Specially-made holders that double your Acculight viewing display area by connecting two 4' or 2' viewers. Heavy gauge steel legs are painted white to match the viewers' finish.
Item # ACAF 54.95

Accustand (6048)
Adjustable stand holds Acculight viewers in standing or sitting heights. Height can be changed by simply resetting leg screws. Can be used with one or two viewers. Comes with four two-inch casters, two of which lock. Acculights must be ordered separately. Dimensions: 42 x 28 x 40.8˝ (107 x 71 x 108cm) W.D.H. Weight: 47 lbs. (21.3kg).
Item # ACAS 189.95

Accustand Slide Overlay (6012)
Locks in up to 72 two-inch slides. Six removable plastic gripper strips that run the length of each row. Slides slip into lip of gripper and stay in place until you remove them. Designed for two- and four-foot Acculight viewers. Dimensions: 24 x 14.3˝ (61 x 37cm) W.H. Weight: 5 lbs (2.3kg)
Item # ACAL..................................48.95

18˝ Lamp (6052)
For the Portable Acculight Viewer (6009).
Item # ACL18 ....27.95

24˝ Lamp (6051)
For the Two-Foot Acculight Viewer (6002).
Item # ACL24 ....17.95

48˝ Lamp (6050)
For the Four-Foot Acculight Viewer (6000).
Item # ACL48 ....22.50

J U S T   N O R M L I C H T

Just Normlicht offers an extensive line-up of viewers for virtually every possible use and in a wide range of sizes. All offer 5000 degree Kelvin light sources, which is the industry standard for neutral color temperature. This gives you the truest color possible. Solidly built in a choice of silver, metallic or white finishes, these viewers are built to last while providing even illumination for the most critical jobs.

Color Control 5000

Transparency Flat Viewer 5000K
Standard flat viewer designed for everyday applications: reproduction, photo studios and ad agencies. Silver finish.

Concept Mini 5000

High-design series of viewers offer portability and space-saving viewing surfaces.

Transparency Flat Viewer 5000K
Super-flat, light and handy viewer goes anywhere for successful presentations. See Cm5/DM mini in chart for specifications. Mini 4S comes with a bracket.

Transparency Bracketed Viewer
Viewer includes a carrying handle that doubles as an adjustable stand. This model is equipped with a resting roll and an electronic dimmer. See CM5/DN in chart for specifications.

Transparency Viewer "Studio"
Desktop viewer comes with base and swivel-arm. Includes an electronic dimmer. See CM5/DN mini 2A SF in chart for specifications.

Color-Match with Swivel-Arm
Ideal for use with DTP and Electronic Publishing workstations, this space-saving unit is clamped to the side of the desk and swivels out of the way. Comes with electronic dimmer. See CM5/VM 2AC SWA in chart for details.

Transparency Swivel-Viewer
Space-saving swivel-out design is ideal for use with DTP and Electronic Publishing workstations. Comes with electronic dimmer. See CM5/DN mini 2A SWA in chart for specifications.

Color Match "Portable" 5000K
Take-anywhere display flips open to reveal backlit and reflective display of chromes and proofs. Electronic dimmer is included. See CM5/VM2 AC SB in chart for details.

Color Match "Studio" 5000K
Base and swivel arm makes this ideal for table use. Comes with electronic dimmer. See CM5/VM2 AC SF in chart for details.

Classic Line

View and Mounting Plates
Uncompromising quality to fit limited budgets, these viewers come with electronic ballast and electronic dimmer. See CL/DL in chart for details.

Transparency Viewer 5000K
Traditionally-designed bracket viewer with two brightness levels, service hour meter, clamping and resting rail. See CL/DN in chart for details.

Viewing Walls 5000K
When you need a wall of light, these oversized alternatives to light tables offer two brightness levels, service hour meter, and a clamping rail. Wall fastening is available on request. See CL/LW in chart for details.

Light-Repro Light 5000 Video-Repro Lightviewer
Extremely high and flicker-free light source is ideal for transparency reproduction on video or for digitizing transparencies on a scanner. Electronic ballast provides immediate start-up. See VR/DL in chart for details.

Light Tubes

From the chrome to the final press sheet, consistent, standardized light is absolutely necessary in every step of quality print reproduction. The Just Color Control Daylight 5000 line of fluorescent tubes offers a unique color rendering index and combines energy-saving high light strength with optimal color rendering. Discriminating photographic professionals will be able to see subtle shades and hues that were previously impossible to differentiate.

KAISER
LIGHT BOXES

The Kaiser series of light boxes give professionals the ability to correctly appraise transparencies. Besides viewing originals, these boxes can provide lighting for reproduction and trick photography, tabletop photography and reduced or enlarged copying processes. Because the light is consistent and neutral, reproducible conditions for appraising negatives, transparencies, foils, X-Rays and montage materials are virtually guaranteed.

Prolite Scan

Special fluorescent lamps, operating at a color temperature of 5000 degrees Kelvin, provide high-quality color rendering with a Color Rendition Index (CRI) of greater than 98. (This index represents how well fluorescent light can mimic daylight; 90 is the minimum acceptable for photography, 100 is equivalent to noon sunlight. The closer the number to 100, the less filtration needed.) Even illumination is assured, thanks to the light alloy inside reflectors finish and shape, the partly-coated lamps and high-grade translucent acrylic sheet. Thanks to this bright, even illumination, originals heat up very little, even when continuously lit. Non-slip rubber feet assure stability, while the strong metal housing provides durability.

Profile 5000 Series

Profile 5000 (20-2190)
A simple light box designed for occasional use, this model provides all of the high-quality viewing benefits of larger Profile 5000 light boxes. Wall mountable.
Item # KALBPL1017. ....**269.00**

Profile 5000 (20-2191)
Larger viewing area makes this light box ideal for larger film format viewing. Features a clamp and holder strip for fast, secure holding of films and foils, and a folding arm for ergonomic working conditions. Wall mountable. An optional carrying bag is also available for this model. See item 2198.
Item # KALBPL1418. ....**349.00**

Profile 5000 (20-2192)
Ideal for working with multiple large-format images, this offers a large viewing area. Features a clamp and holder strip for fast, secure holding of films and foils, and a folding arm for ergonomic working conditions. Wall mountable.
Item # KALBPL1423 ....**389.00**

Profile 5000 (20-2193)
A large viewing area provides plenty of surface for professional transparency users. Features a clamp and holder strip for fast, secure holding of films and foils, and a folding arm for ergonomic working conditions. Wall mountable.
Item # KALBPL1447 ....**599.00**

Prolite, Handylite and Flatlite Series

Prolite Scan (20-2182)
Four ultra-bright Osram Dulux fluorescent tubes provide approximately 40,000 lux, ideal when viewing dense negatives and chromes, appraising X-Rays and microfiches. The color reproduction index is CRI>98, while the color temperature is matched to 5000 degrees Kelvin. A high-frequency operating system, the Prolite Scan uses a 40 kHz, flicker-free starting and operation. Other features include a built-in timer and screen calibration in inches and centimeters. A large stepless adjustable arm and film clamp holder strips are built in. Wall mountable.
Item # KALBPLS1414 ....**1,278.50**

Prolite, Handylite and Flatlite Series, *continued*

The Prolite 5000s Basic light Boxes feature special fluorescent lamps that provide a very bright light source. The 5000K Kelvin color tem-perature and balanced spectral distribution matches the daylight sensitization of most films perfectly, allowing users to match projected and printed results – essential for applications that include lithography, medical, engineering, scientific applications and photographic analysis. Inch and centimeter scales appear on either side of the viewing area to aid graphic designers and photofinishers in montage work. Standard features include clamps and holder strips. A built-in timer monitors the lamps' lives (since lamp color stability changes as it ages). Changing lamps is a simple process; no tools are needed. A large arm is adjustable in stepless degrees for fine adjustment of viewing angle while offering stable support. A two-step switch controls power preventing eye strain and lengthening lamp life.

L O G A N

L I G H T   B O X E S

Designed to provide even, uniform distribution of light, Tru-View light boxes by Logan come with ANSI Standard 5000K fluorescent lamps with a CRI rating of 91. They are all solidly-built with all-metal welded construction and a white baked-enamel finish. They can be used flat on a table, inclined or hung on a wall.

Desk Top Light Box (810)

Tru View Light Box (2416)

Tru View Light Box (501)

Futura Light Box (1812)

Desk Top Light Box (810)
The Desk Top Light Box is small enough to carry in a briefcase and store in a desk drawer. This unit has an 8.8 x 11.5˝ (22 x 29cm) viewing surface, as is equipped with a 5000K fluorescent lamp. Its outside dimensions are 12.5 x 9.5 x 2˝ (32 x 24 x 5cm) W.H.D., and it weighs 4.4 lbs. (2kg).
*Item # LOLB810. ....***46.95**

Tru View Light Box (501)
Battery-operated light box uses six "C" cell batteries (not included) and a Daylight fluorescent tube to provide bright lighting and an evenly illuminated surface. It will also work on AC current via an adapter which is supplied. Designed for portability, this light box easily fits in a briefcase or drawer, and has a translucent acrylic surface measuring 9.5 x 5.5˝ (24 x 14cm) W.H. Outside dimensions: 12.3 x 8.8 x 2˝ (31 x 22 x 5cm) W.H.D. Weighs 3.5 lbs. (1.6kg).
Item # LOLB501...**31.95**

Tru-View Light Box (2416)
Mid-sized light box offers a 16 x 24˝ (41 x 61cm) viewing surface. It is supplied with two 20-watt 5000K fluorescent lamps, and moveable spring clips for holding transparencies. Its outside dimensions are 24 x 16 x 3.8˝ (61 x 41 x 10cm) W.H.D., and it weighs 18 lbs. (8.2kg).
*Item # LOLB2416. ....***159.95**

Tru-View Light Box (2500)
The Tru-View Light Box is a large light box that features 25 x 36˝ (64 x 91cm) viewing surface. Equipped with four 30-watt 5000K fluorescent lamps, moveable spring clips. The outside dimensions are 36 x 24.3 x 4.3˝ (91 x 62 x 11cm) W.H.D. It weighs 36 lbs. (16.3kg).
Item # LOLB2500...**269.95**

Tru View 48˝ Light Box with 5000K (4816)
This light box offers a large 16 x 48˝ (41 x 122cm) viewing surface, which is lit by two 40-watt 5000 degree Kelvin fluorescent lamps. It comes with movable spring clips to hold artwork in place. Outside dimensions are 48 x 16 x 3.8˝ (122 x 41 x 10cm). Weighs 33 lbs. (15.1kg).
*Item # LOLB4816. ....***209.95**

Futura Light Box (1812)
Economically designed with an 18x12˝ (46 x 30cm) break-resistant translucent acrylic panel. Illuminated by a bright 15 watt 5000K color corrected lamp. All metal, welded construction with a white baked enamel finish. Features a scientifically designed reflector for better distribution and uniformity of light. 110-220v. AC. 10 ft. cord and plug. On-off switch. 18¼ x 12¼ x 3½˝ (46 x 31 x 9cm). Weighs 7 lbs. (3.2kg).
*Item # LOLB1812. ....***57.95**

Other Light Boxes

Briefcase Light Box (6000)

A color corrected light box that is built into a briefcase, this model offers an 8.5 x 11.5˝ (22 x 29cm) acrylic viewing surface that is illuminated by a 5000 degree Kelvin fluorescent lamp. A specially designed reflector provides even light distribution. Case also offers storage areas for transparencies, slide pages, file folders, slide boxes, artwork, catalogs and so on. A ten-foot 110V power cord is included. On-off switch is built in. Key locks are included in this durable, lightweight package. Outside dimensions are 15 x 13 x 3.8˝ (38 x 33 x 10cm) Weighs 6 lbs. (2.7kg).
Item # LOLBBC...**84.95**

Light Box with CC 5000K (1512)

Intermediate-sized light box with 15 x 11.5˝ (38 x 29cm) viewing surface comes with 5000 degree Kelvin fluorescent lamp. Angles at top and bottom of acrylic panel can be raised to accommodate a clear glass top for tracing. Outside dimensions are 15.5 x 12.3 x 3.5 inches. Weighs 7 lbs. (3.2kg).
Item # LOLB1512...**88.95**

Porta-View Light Box (2020)

Similar to the Desk Top Light Box, the Porta View Light Box features a larger 12 x 17˝ (30 x 43cm) viewing surface and comes with a vinyl cover and heavy-duty strap handle. It includes a 5000K fluorescent lamp. Its dimensions are 18 x 14.5 x 3.5˝ (46 x 37 x 9cm) W.H.D. Weighs just 10.5 lbs. (4.8kg).
Item # LOLB2020. ....**89.95**

L I G H T B O X E S

The newly redesigned line of Porta-Trace light boxes virtually eliminates the "hot spots" found in other units. The frames and reflectors combined with the thick plexiglass top - provides uniform and even lighting over the entire viewing surface. The standard line of portables has a 304 stainless steel frame for durability and long life. Porta-Trace will maintain its attractive appearance for years. The three and four bulb units are equipped with two on/off switches to enable the user to vary the light to suit the job. The 2436-6C is equipped with three on/off switches each controlling 2 bulbs.

The oak light boxes are constructed of 5/8″ (1.6cm) thick solid hard oak, complete with glass top and plexiglass. #1214 is available with plexiglass only.

The table units have 4 tilt adjustments from 0° to 40°.

Image Viewing System

Image Viewing System
The Image Viewing System is the solution to your viewing, sorting, comparing and organizing quantities of slides, negatives and transparencies. These units have strong uniform lighting with independent switches for each light box. They come with a thick plexiglass for a stable work surface that is also designed to take glass. With the modular type construction, you pick the configuration you need. A single table-top system can be converted later to a base mounted or double unit by ordering the base and brackets.

Color Viewing System

Color Viewing System (PVS1525)
This is alighting booth that is used for applications where materials or colors require evaluation under specific lighting conditions. The True Color Viewing System offers lighting to stimulate office or retail space, home and outdoor lighting. This allows color selection or matching with the type of lighting the color is going to be used in. Any application where color selection or matching is critical, such as printing, paint selection, color, comparisons, photographic, commercial, art, advertising, layout, residential, decorating, commercial decorating, and fashion. 115 VAC. 176 watts all switched. Light source is 2 5000K fluorescent tubes for artificial daylight, 2 cool white fluorescent tubes for store/office lighting, and 2 incandescent tungsten bulbs for home lighting. Its outside dimensions are 19.9 x 27 x 17.5˝ (51 x 69 x 44cm) HWD. Its inside dimensions are 15 x 25.3 x 15˝ (38 x 64 x 38cm) HWD. It weighs 50 lbs. (22.6kg).

LIGHT BOXES

Built with the budget-minded on-the-go user in mind, Tundra light boxes are small, lightweight, convenient and battery-powered for no-fuss setup anywhere, any time. Ideal for presentations on location, Tundra light boxes come in a variety of sizes that will fit in a briefcase and can be used even if there are no outlets. All models are durable enough to withstand the rigors of travel, and utilize a standard daylight fluorescent lamp for true color viewing. An optional AC adapter is available for most models.

Light Boxes

Portable Light Box 4x5 (96 PLB)
Built for portability, this light box can handle sheet film, slides, film strips, etc. Operates on 4 C batteries (not included) or optional AC adapter. Viewing area is 4x5' (10 x 13cm).

Logan

Slim Edge Light Pad (A5A)
Ultra-thin ½˝ (14mm) light box provides even, bright illumination.
8 x 10˝ (20.3 x 25.4cm) viewing surface for viewing slides, negatives, and transparencies. Has two 5400K color corrected lamps with 20,000 hour life. Can be used on a table, standing at an incline, or hung flat on a wall. Displays photo transparencies held under a clear plastic panel. Powered by a 12v DC adapter. Dimensions are 12¼ x 9¼ x ½˝ (31.1 x 23.5 x 1.3cm). Weighs 2 lbs. (907g).
Item # LOLBA5A..**89.95**

Cabin Light

Cabin Light Panel
The Cabin CL-5000P is a portable lightweight daylight balanced transparency viewer. Less than half an inch thick. The super flat light panel offers stylish design and pocket compactness. Allows instant checking of films and transparencies up to 4 x 5˝ (10.2 x 12.7cm). Dimensions are 7⅝ x 4½ x ½˝ (19.2 x 11.4 x 1.3cm). It weighs only 9.2 oz. (260g) with the 4AAA batteries which are included.
***Item # CALP*** **79.95**

Lite-A-Page

Lite-A-Page 2
The fastest and most economical method for viewing slides, negatives or any type of transparencies housed in standard ring binders. The slides or negatives remain in the ring binder and the user simply inserts the Lite-A-Page between the pages. The back side of the unit has four horizontal rows to hold up to twenty individual slides for viewing, sorting or sequencing and is illuminated by a bright 13 watt 5000K color correct fluorescent lamp. Its dimensions are 11 x 11˝ (28 x 28cm). It is 2¾˝ (7cm) at its thickest, and 1/4˝ (6mm) at its thinnest part, and weighs 28 oz. (794g).
Item # CALAP **49.95**
