Audio/WAV .......................................................... $89.95

XTc Files of Hip Hop
Packed with phat breaks, sloppy fills, ghetto bass, funky licks, cranking Rhodes and wild-
style FX. Plenty of loops and samples from the masters of ol’ dirty Wu Boy beats construc-
tion kits, master cuts, drumloops from 77-121 bpm, horror FX, guitars, strings, brass, bass, fills, vinyl FX, keys, pads, ambience, drum hits and more!
Audio/WAV .......................................................... $89.95

Wall of Vinyl 3
This 2-CD set SLAMS down the baddest Hip Hop, Rap and R&B - sure to hang your music on the wall in gold! Crackly, poppy, clean construction kits, hits, horns, piano, scratches, guitar, bass, synth, pads, strings, vocals, percussion, and even some xylophone!
"...this CD is worth the price of admission for its drum loops and breakbeats alone. suitable for almost any style of music that relies on sampled loops of live drumming." 5 out of 5 - Remix
Format: Analog sampling devices; Software that can extract files from an Audio CD
Audio.......................................................... $89.95

Vinylistics 3
Another massive amount of stretchin’ & bendin’ ol’ Ruffstyle breaks, keeping all the dust and dirt! Ruff Hip Hop and Funk breaks with that distinguishing Vinylistics sound... over 1,000 measures of new Hip Hop and R&B beats and breaks filled to the brim with loops and variations, plus the component drum samples that made the loops.
Audio/WAV .......................................................... $89.95

Strictly R ‘n’ B
Are you a remixer? A DJ? A producer of Soul? Do you need some smooth, dope loops? From the
makers of XTcFiles of Hip Hop & Vinylistics comes Strictly R’n’B. 800 exclusive swing and soul, loops and samples with variations and all the drum samples that made each loop. A great mixture of slo & groovy loops from 60-100 bpm.
Audio/WAV .......................................................... $89.95

Strictly Hip Hop
From the makers of Strictly R’n’B and Vinylistics, comes this new collection of the most
groovy, freaky beats and breaks! Jam-packed with ‘em from 59 to 112 bpm, plus variations and the drum samples that made each loop. Lush, slo grooves mixed with mad, hectic double-time beats, in Street, Hip Hop, R&B and Soul- get busy and make ya own wildstyle traxx!
Audio/WAV .......................................................... $89.95

EQUIPMENT LEASING AVAILABLE
**Big Beat**

In the battle for the biggest beats, Big Fish has gone behind enemy lines to bring you a Mega-ton of them! We’ve plundered and pillaged our way across the war-torn landscape of modern Breakbeat dance music to bring you the fourth in the Megaton Bomb series. Big Beat is a 2-disc arsenal of the freshest, meanest, toughest sounds around—packed with insane construction kits, drumloops, hits, percussion, ruff-n-tuff background noises, vocals, ambient & atmospheric sounds from 85 to 150 BPM.

Format: Analog sampling devices; Software that can extract files from an Audio CD

---

**Breakbeat 2**

We’ve raised the bar on Hip Hop drumloops with this one. All new, all fresh, all never-before-heard breakz for you beathedz and digital funk-masters. The disc features extended breakz with variations - no filler! If you’re looking for the sound of a drum machine, look elsewhere; but if you want only hot, greazy, honey-suckin’ beatz with the hits from every loop... you know who to call.

"If the urban thing is where you and your music live, you'll find tons of stuff ripe for picking... strictly for producers who want to add some fresh beatz to their library..." - Keyboard

Audio .......................................................................................................................29.95

---

**Breakbeat 3**

More nasty, dirty breaks, with all updated sounds. Live splice-n-dice drums, with subtle electronic sounds. Perfect for hip hop, R&B and dance. Contributions come from major label recording artists Jamie Myerson (Columbia Records), as well as up-n-coming producers Alan Moore and Sean Dvorak. Tempos from 70-126, emphasis in 80-100 range. Long loops of 8-16 bars, variations every two bars, hits at the end of each, plus a section of 2-bar loops.

Format: Acid, Cakewalk, Cubase, EXS24, GigaSampler, HALion, Live, Logic Audio, ProTools, Reason, Sonar, Unity, WAV

**Hit Zone**

From deep inside the war-riddled Pop Chart bunker come the beats that'll bump the charts for a thousand years. Timbaland to Max Martin, Neptunes to Jimmy Jam & Terry Lewis, that clean, defined R&B/POP sound - a true Top 40/R&B/Hip Hop assault. Basses, beats, keys, licks, guitars, fx, and more. Ready for use in your sampler or software.

Multi-Format: Audio/WAV/Acid ..............................................................................99.95

---

**Hardcore Breakbeat Action**

Construction kits with big bonus section of drumloops from HUGE producers. Aimed at the breakbeat/big beat producer, with a focus on nu-school breaks, as well as old-school hardcore (i.e. fast-tempo breakbeat). Modern style elements of hip-hop, breakbeat and drum-n-bass, elements of happy and dark hardcore, and the occasional guitar-based riffs of big beat. Incorporates both the west coast funk-breaks sound, as well as the hi tech sound of the UK.

Format: Acid Cakewalk, Cubase, EXS24, GigaSampler, HALion, Kontakt, Live, Logic Audio, ProTools, Reason, Software that can extract files from an Audio CD Sonar, Unity, WAV

Multi-Format: Audio/WAV/Acid ..............................................................................89.95
**Electric Ghetto**

Electric Ghetto is the toughest Rock/Rap/Industrial disc ever produced and only followers of the likes of Limp Bizkit, Korn, Ministry, NIN and Zombie will be pleased by the groove-grinding madness of these sounds. Two audio CDs and 2 Acidized .wav CD-ROM's of extended construction kits that develop and change for ultimate variation, self-contained songs, guitar, synth, bass, guitar riffs, Hip Hop beats, creepy atmospheres and more crazed mayhem sure to set fire to your mix! Insert this nastiness only if you dare.

Format: Analog sampling devices; Software that can extract files from an Audio CD

**L.A. Riot 4**

The LA Riot team is back in it! This time they're breakin' out with a 4-CD set of the stuff to make you rich and famous. Producers of Hip Hop, R&B, Drum&Bass and Big Beat will find it ALL in here for the mixin' of some smokin' traxx! 50 construction kits, over 300 exclusive beats and breaks (from Chronic Music's secret stash), drum fills, bass riffs, vocal parts, accapella raps, freestyle raps and hooks, hooks, hooks! Keyboards, guitar and vocoder parts, horn riffs, tons of drum kits, cymbals, kicks, snares, bass tones and some messed up scratches!

Format: Analog sampling devices; Software that can extract files from an Audio CD

**Black Butta 3**

If you thought the first two were great... you better sit yourself down. Madjef is back! He's been listening to all your feedback from the first two volumes and has raised the stakes for volume 3! Black Butta 3 BUSTS out with two CDs of brand new Hip Hop and R&B loops. Beats, separate kicks, snares, hats, hits, wet, dry, scratches, basslines, guitars, percussion, keys, synths, Rhodes, FX and more, all in construction kit format. This hot, brand new CD has it all! Don't waste anymore time. Pick it up!

Format: Analog sampling devices; Software that can extract files from an Audio CD

**R&B Backline**

Chicago has a rich African-American music tradition and has been the birthplace of many soul and R&B groups over the last fifty years. Features loops from Chicago’s best rhythm section. Chuck Webb on bass (David Sanborn, Grover Washington Jr., Ramsey Lewis, Joe Sample & many others) and Khari Parker who currently has the hottest drumming gig in the business - Destiny's Child. Funky, laid-back bass & drumloops in construction kit format, with section variations.

Format: Audio, AKAI S5000, AKAI Z4/Z8, Audio CD Player, Cakewalk, Cubase, GigaSampler, HALion, Kontakt, Kurzweil, Live, Logic Audio, Mac, PC, Reason, Sonar, Triton, Unity, WAV, Yamaha

G-Force Drums
Rock-solid session drummer, Andrea Ge, lays down some serious rock drumloops. All the drum grooves were played by this highly sought-after Italian rock drumming legend. He used three different drum kits: an all maple drum kit, a "Roswell" aluminum set and "Bonsai Kit" made from birch. Six different snare drums: brass, maple, steel, aluminum and bronze plus tons of different cymbals. Recorded at Pickaboo Studio and Umbi Studio in Milan, Italy, these drum grooves are a serious necessity for the rock producer.
Format: Acid, Cakewalk, Cubase, EXS24, GigaSampler, HALion, Live, Logic Audio, ProTools, Reason, Sonar, Unity, WAV
Multi-Format: Audio/WAV/Acid .................................................................89.95

MIXtended Drums
A new kind of drum library offering enhanced mixing options. Features five huge-sounding, ultra-professional drum kits offering unbeatable possibilities. Per kit you get close-miked dry kit with signals routed to individual outs, overhead kit and room kit all featuring up to 12 velocity levels per kit. Mix and process these three components to create the perfect drum sounds for any application, because combining drum sounds with their natural room while placing and mixing instruments individually is easy thanks to HALion's multitimbral functionality.
Format: EXS24, Kontakt, LM4
EXS24/Battery or HALion/LM4 .................................................................89.95

Scott Rockenfield-Queensryche Drums
From driving force behind the multi-platinum and grammy nominated band, Queensryche, comes the ultimate rock drum loops collection. From driving force behind the multi-platinum and grammy nominated band, Queensryche, comes the ultimate rock drum loops collection. Scott Rockenfield recreates the drum tracks for many of his favorite Queensryche songs. The drum tracks for each performance have been split into many different loops, variations, fills, and individual hits that you can string together to create a complete drum track that fits your song!

DRUMS
Hadeeth — Arabic Rhythms
There’s nothing like old world rhythms to add flavor and essence to tracks that would seem otherwise a bit ordinary. These Arabic rhythms are just that - traditional percussion rhythms that will add the authenticity that makes any traditional track or film score come alive, but also modern rhythms that add an edge off to the traditional, and add a new flair to the ancient rhythms that originally inspired dance. Hadeeth was recorded by seasoned Arabic professionals and contains loops and hits from tabla, taar, duff, tambourine with skin, congas, sakat (hand cymbals) . . .
Format: Analog sampling devices; Software that can extract files from an Audio CD

**Dread: The Reggae Collection**

Reggae is a hugely popular art-form, and yet rarely has it been represented properly in a sample CD, so Big Fish is extremely pleased to present Dread. Quit planting that stuff in your back yard, get back inside and make some sweet rhythms. These construction kits are gorgeous...the drums are authentic, the bass is low and throbbing, and in the ‘pocket’ like it should be. Also included: extra drum hits, loops, keyboard bits, guitar and bass loops, and lots more.

This fat one will take you from dirty ol’ raggamuffin dub to joyous island sounds, you can’t find a better reggae disc.

“If you want to ‘Marleyfy’ your music-making then this’ll be just the ticket.” - Computer Music

Performance Loops – Acoustic Guitars

Finally, a usable acoustic guitar library! What better way to have it than in the Performance Loops series? Similar to the Performance Loops Drums series, you’re able to use several guitar loops and variations from a single performance (or session) and string them together to create a complete track. Each guitar performance is organized by chords or root key and laid out for you to construct a whole song instead of just relying on one ambiguous loop. 6-string steel, 6-string nylon and 12-string guitars from Taylor, Guild, Gibson, Ovation and others. Over 1000 loops in folk/rock, rock/pop, acoustic singer/songwriter, with some jazz, funk and a touch of country thrown in. The Performance Loops series has revolutionized production and this is one to not miss!

Platinum Essentials

Keith Clark, a.k.a Clizark, is the best kept secret on the West Coast! Shhhh, don’t tell no one, but he’s lettin’ you in on his multi-platinum bag of essentials! His wicked versatility as a producer can be heard on albums like the debut of Def Jam Recording Artists “The Dove Shack”, Snoop’s first album with No Limit Records “Da Game Is T o Be Sold Not To Be Told”, along with his follow-ups – including Suited N Booted on Snoop’s brand new “Paid Tha Cost to be Da Bo$$” and multi-platinum hits from B-Legit, Mack 10, Kurrupt, Eastsidaz and TRU. These hits propelled Keith to multi-platinum status in a matter of minutes! Now he is among an elite group of producers putting it down on the West Coast and lapping up the worldwide recognition. “Platinum Essentials” is JAMMED with construction kits, beats, sounds and more from his bag of platinum sounds! This joint is so hot, a few of the tracks even got sold before it was done. Now you’re hearing them on the radio. You want the platinum? Pick up the essentials.

LA Drum Sessions

Prepare yourself for the ultimate collection of drum performances to date. Phat, thick, luscious beats, in about every style you can think of, with so much variation, you won’t need anything else for a long while! Three discs of acidized WAV, divided up into folders containing a number of related loops in a given style and tempo. Allows you to construct a song in your style by picking from similar loops. A variety of recording setups were used in the studio, to fit the needs of each style being recorded. There are three versions of each performance: dry recording, room-mic recording only and mixed (dry and room-mics together). The mixed versions have been mixed for each style separately to create an appropriate mix... but if you don’t like it, you can mix your own version! Over 80 categories of styles; over 6000 loops; Jazz, Rock, Disco, 60’s Fun, Funk, Punk, Country, Blues, Texas Shuffle and more. Call up your own session drummer today, and add the quality only real session pros can offer.

Styles include: Jazz, Big Band, Rap/Rock, Hard Rock/Metal, Slow Rock, Fast Rock, Pop/Rock, 60’s Fun, Slow and Fast Surf-Rock, Disco, Slow Groovin’, Funk, Gypsy/Bossa, Punk, Reggae, Blues (slow, fast, chicago, etc.), Country Waltz, Texas Shuffle...and more.

### Mark Walker - Latin Drums

Mark Walker lays down slamming Cuban, Brazilian, Puerto Rican and other Latin American rhythms* but this is not your typical Latin Percussion disc of traditional timbales and congas. What sets this one apart from all the others is that the loops are played on a full drum kit plus a complete assortment of hits and cymbals. The loops cover a HUGE variety of tempos and feel plus a section of superb rock guitar hits that get up to nine levels of velocity!* some say the best ever recorded. If you liked Peter Erskine - Living Drums, you're going to LOVE this!

### Pocket Syndrome v.1 - Funk Guitar

Groove Master, Bernd Schoenhart (John Secada, George Michael, Kenny G, Slash, Marc Anthony, Dave Valentin, C+C Music Factory) brings you his unique "In The Pocket" guitar feel. More than 700 "In The Pocket" guitar loops at multiple BPMs and keys per loop. All loops are calculated to 1 or 2 bars in more than 20 unique styles, grouped by BPM, ready to give your tracks the Pocket Syndrome Edge. Your tracks will come alive with the "funky guitar feel" you've only dreamed of achieving with your sampler or computer - until NOW!

**AIFF/SampleCell, AKAI S1000, E-mu E4, Giga or Roland 700...** 129.95

**WAV.................................................................** 114.95

**Audio...............................................................** 89.95

| **Christian Lane - Ultimate Marimba & Vibes** | This gorgeous library features a Marimba One five octave rosewood marimba, and a Musser Gold Century set of vibes. 4 sets of mallets to choose from with each instrument which should give you an idea of possibilities that await your compositions. The marimba patches include 4 velocity strikes, rolls, muted strikes and rattan handle strikes. The "marimba extra" patch includes resonator strikes, glisses, various runs & more. The Vibraphone patches include 3 velocity strikes, pedal up strikes, bowed vibe & many ethereal sounds. 3 selectable motor speeds are programmed via the mod with each mallet of the vibes. The days of dealing with one velocity and one mallet choice are finally over! |          |
|                          | AIFF/SampleCell, AKAI S1000, E-mu E4 or GigaSampler ................................|          |

| **Will Lee: Ultra Freakin’ Bass** | More than 40 minutes of the most "In The Pocket" bass grooves, riffs and loops ever assembled, as performed by "Bass Legend" Will Lee! Recorded at multiple tempos and keys in an array of styles that will keep you busy making music for a long time. Bonus: the audio version (2-CD set) also includes 5 new basses from the Will Lee Bass Library, sampled chromatically, featuring Will’s most requested bass - the Sadowsky 4-string! So we call this audio disc Will Lee Bass Library Vol. 2. The CD-ROM version is a single disc, just the loops, pre-looped and formatted, ready to eat. |          |
|                          | AIFF/SampleCell, AKAI S1000, E-mu E4 or Roland 700 ................................| 214.95  |

| **Whole Lotta Country** | Another first from Sampleheads! There is nothing like this in the industry! The definitive collection of country instruments, performed by Country Guru, Larry Campbell. Fiddle, mandolin, pedal steel, banjo, dobro, hi-string guitar, electric telecaster, 6-string bass, and gut bucket, all chromatically sampled to the highest of standards. Plus, the most outstanding collection of country/acoustic loops, phrases and riffs ever assembled, including endings and fills. This double audio CD or 2 CD-ROM set will put a smile on anyone looking for |          |
|                          | AIFF/SampleCell, AKAI S1000, E-mu E4, Giga or Roland 700 .......................| 214.95  |

| **Jazzistic** | At long last, a sample CD totally devoted to Jazz! Pure Jazz drumloops, brush loops, hi-hat and cymbal loops, all laid out so you can program your own beats. Tons of tempos and coverage of even the more obscure Jazz styles such as swing, funk, Latino, African and even some Caribbean! Round it off with some of the sweetest Jazz guitar, double stand-up bass, tons of drum, guitar and bass samples, plus a pile of construction kits covering authentic Jazz! ...and as if that weren't enough, there's a bonus section of suit-case electric piano and Hammond organ on the CD-ROM! Finally, all the building blocks for the genuine Jazz touch! |          |

Recorded exclusively in Spain, this CD captures a wealth of traditional and modern rhythms and flavours played by original respected Flamenco musicians - names such as Ketama, Tino De Geraldo and Pedro Andrea among others. Includes guitar rhythms, Male Cantaor and Female Cantaora (vocals), tapping feet, solo tapping, castanets, shouted vocals and Cajon rhythms. Bring out the gypsy in your music!

"All ... you need to add either a hint of Flamenco to an existing track or construct your own Spanish-style dance floor smash... the feel of true Flamenco music ...." (SOUND ON SOUND, UK).

EAPS46....................................................44.95

Returning to the "rawfunkindirtyassboogiebeats" that have made the Planet Of The Breaks series such a phenomenon, Emre Ramazanoglou delivers a huge selection of fresh and raw grooving breakbeats. Edgy and tough, small, large, fast, fat, lo-fi, hi-fi, mid-fi, broken, smashed, cuts, drops and extreme funk with quintessential quirk! Shawn Lee (Creator of the 5 star, Key Buy Award, Platinum Award 'Planet Of The Breaks' and 'Beneath The Planet Of The Breaks') was blown away when he heard these beats. Return To The Planet Of The Breaks will add that extra dimension of groove to your projects and tracks.

EAPS47....................................................44.95

Very hot stuff from smash CD Disco De Luxe - authentically produced for disco/house/frenchhouse/funk&soul productions, inspired by often-sampled disco vinyl for hot club burners. contains construction kits, drumloop kits, strings, brass, flute, guitars, basses, vox, single sounds. EAPS50....................................................44.95

The people have spoken!
ProSamples, a series from three of the world's most critically acclaimed Soundware developers — BEST SERVICE, EASTWEST, and ZERO-G — is such a huge success that EASTWEST sent their team back into the studio to churn out five more new volumes. Pro Samples is the fastest selling series in history!!

It is with great pleasure that they introduce the latest Pro Samples offerings, Vol. 46-50. Each new ProSamples volume includes up to seven formats (with the exception of the multisampled instruments, which don't include ACID).

Formats include ACID, AUDIO, AIFF/MAC, AKAI, EXS24, HALion, and WAV/PC.

EAPS46....................................................44.95
Compatible, convenient and competitively priced, 2rAw is the sample product you’ve been waiting for! These CDs feature sounds in ReCycle (Rex) files, Reason refill and Acidized wav files for enhanced use with all the hottest Mac and PC music creation software. No matter which program you use, getting the sounds into your project is quick and easy, so you spend less time converting and editing files and more time creating!

**Funkmaster**
If you want real, pure, original funk, you have to go to the source, James Brown. The Funkmaster Jabo Starks is on more James Brown classics (Sex Machine, Good Foot) than anyone and kicks out some of his funkiest beats, along with a slamming virtual band - including bass, guitar and percussion played by top notch funksters.

This library contains the following 201 Acid/wav loops: Drum, Bass, Guitar, Percussion, 163 Rex2/Refill files- Drum, Bass, Guitar, Percussion, Construction kits, 112 Drum hits and variations of The Jabo Starks Redrum Kit.

**ExtremeROCKFUNK**
ExtremeRockFunkRage collection is geared to fill the needs of samplers, with some of the extremely powerful and contemporary rock grooves, riffs and loops that are so prominent in much of today's music. The construction kits are played by Unstoppable, one of the LA's most underrated and influential rock trios, with a unique blend of hard rock and pocket funk, PLUS plenty of extra guitar, bass drum and vocal scream riffs with an Extreme attitude.

Compatible, convenient and competitively priced. Feature sounds in ReCycle (Rex) files, Reason refill and Acidized wav files for enhanced use with all the hottest Mac and PC music creation software. Getting the sounds into your project is quick and easy!

**Acid/Reason** .......................................................... 44.95
**Audio** ........................................................................ 89.95

**Drummers of Motown**
Add some history to your drum tracks with the drums and percussion from the Drummers of Motown. Pistol Allen, Uriel Jones and Jack Ashford have played on over 350 hit records, the original Hitsville USA groovemasters who supplied the beats behind tracks like I Heard it Thru the Grapevine, Tears of a Clown and My Girl. Now get total control of these classic loops and rhythms. Unprecedented control over time stretching loops. 252 Acid/Wav Drum and percussion loops, 248 Rex2/Refill files, 72 Wav file guitar sounds, 1 Motown Redrum Kit (29 Drum hits)

**Dub Tactic Manual**
Straight from the tape vaults of visionary producer Bill Laswell, Dub Tactic Manual stokes the dub fires with an awesome collection of Material style dub/ambient elements that transcend musical boundaries. Loads of dub bass lines, gritty breaks, earthy percussion and spacey keys to infect your tracks with a serious sound virus. This multiformat disk allows for sample access convenience and tempo control so you can spend your time more creatively. Wicked Material.

258 Acid/wav Bass, Beats, Keys, Percussion, 207 Rex files Bass, Beats, Keys, Percussion

**Acid/Reason** .......................................................... 44.95
**Audio** ........................................................................ 89.95
New World Order 1

The New World Order series scans the globe to bring you unique loops from around the world. NWO 1 contains drum and percussion loops and grooves from India, Africa, Cuba, the Caribbean, Japan, Ireland, Texas - that’s right Texas, and Brazil. Awesome grooves from instruments like the tabla, the talking drum, the daf, the dumbek, the bodhran, the djembe and more. Control the world with these acidized and rex2fied beats.

Multi-Format ................................................................. 44.95

New World Order 2

The New World Order series scans the globe to bring you unique loops from around the world. NWO 2 contains music loops and phrases from instruments like the Balalaika from Russia, the Gombri from Algeria/Morocco, the French Hurdy Gurdy, the Kora from Senegal, Balinese Gamelan, Key Harps from Sweden and different stringed instruments from India and Ireland.

Multi-Format ................................................................. 44.95

Club Spectrum

Lab tools for the Remixologist. Club Spectrum provides a killer variety of the necessary essentials for making dance music. 4 the floor beats, bass lines, synth riffs to create house, trance, techno, electro, retro, drumnbass... all in Acid/wav, and REX2 formats to easily work with a song’s tempo. Mix in time, Mix and refine.

Multi-Format ................................................................. 44.95

Uptown Breaks

PowerFX drops the BOM B!!!! New breakout beats for the NOW feel in R&B/Hip Hop/Nu Dance Pop. Wicked beats and syncopations with variations for butt moving connotations. Ultra modern-futuristically hip, Uptown Breaks is the real deal!

The formats included in this package are Reason, REX 2 & Acidized WAV

Multi-Format ................................................................. 44.95

FX in Time

This collection features loops supplied in Acidized .wav and .rx2 (REX) file formats, as well as a Reason ReFill.

The loops are the result of performances involving hand tools, power tools, garden and household equipment and lots of other mechanical bits and pieces “played” in a musical manner – for anyone who wants out of the ordinary loops and rhythm patterns to give their projects a very unique and distinctive edge. An unusual and creative palette of sounds and textures.

Multi-Format ................................................................. 44.95

Club Track Builders

Six top dance producers from four countries make Club Track-builders a unique and versatile tool for anyone creating club music with an edge! House, techno, 2-step, drumnbass styles with beats, bass and synth loops in rex-refill-acid-wav file formats. Spend more time creating great dance music.

Contains: 304 Acid/wav files, bass, beats, rhythm, synth 304 Rex2/Refill files- bass, beats, rhythm, synth files.

Acid/Reason ................................................................. 44.95
Audio ................................................................. 89.95
Without a doubt, BT is one of the fastest rising artists in today’s music scene. He has written the score for the #1 box office hit “Fast and the Furious”, as well as scores for “Driven”, “Go”, and “Under Suspicion”, produced N’Sync’s single “Pop”, released his own album “Movement in Still Life” (which received rave reviews), and most recently released the double re-mix album “R&R”.

**Breakz From the Nu Skool**

The first of two sample CDs in BT’s signature collection. Features cutting edge breakbeats hand mangled through hundreds of plug-ins, stomp boxes, pressed to vinyl, you name it! From Kyma to Reason, Breakz from the Nu Skool streams through on all frequencies of subconscious awareness. Best of all this CD is sample accurate! No more flaming as you stack loop upon loop. Drop them into any AKAI compatible Sampler and you’re off and sprinting. Also included is a bonus Audio version for fast auditioning. Once you’ve busted some Breakz from the Nu Skool, you won’t look back!

**Twisted Textures**

It’s time to unleash the power of art, spirit and sound with BT’s new sample CD - Twisted Textures. Twisted Textures is a massive two disc collection of sounds, pads, and waveforms that will lead you into all realms of the human condition and beyond the doorways of ordinary reality. Included with these amazing textures is a guide organized by emotion to help you narrow your search as you explore the complexity and depth this CD has to offer. So no matter what project you are working on, Twisted Textures has a sound for you. Suspend time and open your heart as you enjoy Twisted Textures.

**Monster Beats**

A double CD set (audio plus WAV CD-ROM) loaded with over 75 minutes of in-your-face Rock, Funk, Fusion and Alternative grooves ranging from 60 to 203 bpm. Recorded and mixed with state of the art recording technology at a number of London’s top studios, Monster Beats showcases the talents of an acclaimed session drummer and recording engineer at the top of their game. The drums are played with attitude, but never over-played as on some drum CDs. Monster Beats has a usability that no other loop based CD can beat. With extreme re-mix variations of EACH groove utilising some of the most sought after outboard FX and eq, plus custom analogue modular synthesizers. Complete drum performances, precisely timed WAV files are included - ensuring each and every beat can be looped at any point with exact accuracy!

**Brutal Beats**

From the producers of the KEY BUY and award-winning CHEMICAL BEATS! Loaded with the most intense and aggressive drum grooves ever. Recorded and mixed with state of the art recording technology (SSL 9000J) in one of the world’s top drum rooms (Townhouse Studios’ Stone Room in London), Brutal Beats is a tour de force of loud, rocking, edgy loops. With extreme remix variations utilizing proprietary software and hardware and some of the latest processing devices, it has an edge that no other loop based CD can match. With precise timing for each and every beat, grooves can be looped at any point with exact sample accuracy!

This library features 47 live drum kit performances based on classic 70’s rock tracks by Geoff Dugmore, one of Britain’s most in-demand session players. The beats include intros, fills, verse & chorus grooves etc. A massive variety of grooves are provided, including straight and shuffle feels, slow blues, odd-time patterns and many more. You will find a huge range of tempos from under 60bpm to over 200!

All performances were recorded with full 24-track digital recording mixed down to stereo. ‘Straight’ (mildly compressed) and ‘Compressed’ (pumping) mixes of all performances are provided, with up to TEN stages of digital and valve compression and limiting. Over 100 radically mutated dance remixes are included. The individual hit library is also provided to allow maximum flexibility and creativity.

<th>Sample Piano Library</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Post Musical Instruments</strong>&lt;br&gt;Grandioso Bosendorfer 290</td>
<td>This Bosendorfer library provides the greatest possible control during the softest pianissimo, through crescendos to the reserves of power needed for the loudest fortissimo. By utilizing new technology to optimize the mechanical performance of the action, Post Musical Instruments has created a product which leaves the pianist in total control of dynamic response, timbre and touch. PMI has finally captured a grand piano with &quot;breath&quot;. They recorded both dry samples and ambient samples. The dry samples are recorded fairly close to the piano strings. The wet samples are recorded at a distance so that the hall acoustic is captured. You can experience a concert hall type of sound and control the amount of ambience until you play it absolutely dry. Over 2 GB of samples, up to 16 recorded layers of velocity, separate sustain pedal up and down samples, multiple release samples... separate &quot;dry&quot; and &quot;wet&quot; samples that can be mixed for ultimate ambience control.</td>
</tr>
<tr>
<td><strong>Steinway B</strong>&lt;br&gt;Sampled Piano Library</td>
<td>EASTWEST’s STEINWAY B sampled grand piano features up to six stereo dynamics per note for unparalleled expression and realism. The Steinway B Grand Piano was recorded in Switzerland by the producer of the critically acclaimed FIVE STAR Sample Library THE ULTIMATE PIANO COLLECTION, Olivier Truan. Almost every note was sampled in 6 stereo velocities, 3 with the pedal up, and 3 with the pedal down for unparalleled realism and expression. 528 stereo samples were recorded in total, without any looping (up to 2 minute decays). The piano was digitally recorded and edited direct to disc to achieve the highest possible quality.</td>
</tr>
<tr>
<td><strong>Bosendorfer</strong>&lt;br&gt;Sampled Piano Library</td>
<td>EASTWEST’s BOSENDORFER 275 sampled grand piano features up to eight stereo dynamics per note for unparalleled expression and realism. The Bosendorfer Grand Piano was recorded in Switzerland by the producer of the critically acclaimed FIVE STAR Sample Library THE ULTIMATE PIANO COLLECTION, Olivier Truan. It is a 1995 BOSENDORFER 275 (9 foot 1 inch) Concert Grand built in Austria. It has an extra range down to F0, 92 keys. Almost every note was sampled in 8 stereo velocities, 4 with the pedal up, 4 with the pedal down for unparalleled realism and expression. 736 stereo samples were recorded in total, without any looping (up to 2 minute decays). The piano was digitally recorded and edited direct to disc to achieve the highest possible quality.</td>
</tr>
<tr>
<td><strong>Steinway D</strong>&lt;br&gt;Sampled Piano Library</td>
<td>Recorded with the best grand piano they could find: a 1965 premium condition Steinway model D3. It was fully refurbished by Steinway Hamburg in 1999. This piano served the Rotterdam ‘DOELEN’ concert hall for several decades, where hundreds of famous musicians, from Claudio Arrau to the Rolling Stones, performed for live audiences and broadcast concerts. Up to 6 articulations were captured (PPP, PP, P, MF, F, FF and FFF) for sustain pedal up, sustain pedal down and 4 articulations for the release triggered samples. Samples were recorded using the finest digital equipment available. Prism Sound, a 24-bit ProTools TDM M ix+ system and Waves processing was used. They mapped up to 16 levels of velocity, true multiple velocity release layers, ultimate staccato, and sustained pedal-down samples with a carefully chosen amount of resonance. The library has 5 GB of samples. The end result was tested by several concert pianists, who helped develop a sampled instrument which could meet their highest expectations. There is no doubt in our minds that this is the best sampled piano ever.</td>

**Giga**<br>Price: $219.95

**Giga**<br>Price: $179.95
Advanced Orchestra Compact

Peter Siedlaczek optimized this version of the acclaimed ADVANCED ORCHESTRA to take advantage of the incredible power of Gigasampler. Using the 16 lowest keys as control keys users can access gigabytes of sounds instantly and switch between different sound categories in real time! Advanced Orchestra is new standard for symphonic samples from the producer of the quadruple FIVE STAR sample CDs "Orchestra" and "Orchestral Colors" - Peter Siedlaczek. Advanced Orchestra contains over 5,000 samples of all Instruments and instrument groups, as well as a large symphony orchestra. Besides sustained and staccato notes on two dynamic levels, you will also find a series of new and useful samples which have never been released before. There are numerous characteristics that distinguish this library from others. The most important are: A variety of important and frequently used phrasings and articulations, which cannot be satisfactorily imitated with normal samples, for example, half or whole tone trills, various grace notes, runs, arpeggios, tremolos, crescendi, glissandi and other events playable in any key or pitch. A collection of unconventional, interesting sounds played on the classical instruments such as scratches, whistles, thumps, buzzes and other effects, which can be technically modified in many ways, adding a new color to your music. All of the staccato notes and some other events are sampled twice. If a quick repetition of the same note is needed, you can use them alternately. The result is more natural and not so "mechanical". The strength of this sound library lies not only in classical music or "real sounding" natural structures and arrangements, but also in many other types of music. Especially the complex phrasing and articulations, such as runs, trills or glissandi, are suitable for all types of distortion and unorthodox treatment. Use your imagination and experiment. A short sketch demonstrating the potential of this library - titled 'A Day in a Philharmonic Hall' - can be heard on the first disc (and East-West's Demo CD). It consists (with the exception of the drum loop) solely of samples from this library. Using this library, you can now arrange complex and amazingly realistic sounding structures. More realistic than ever before. The library includes:

String Ensembles
(instruments: 14 violins, 10 violas, 8 celli, 6 basses)

Solo Strings & Effects
(instruments: violin, viola, cello & unconventional sounds).

Woodwinds
(instruments: 3 flutes, solo flute, alto flute piccolo flute, oboe, english horn, 3 clarinets, bass clarinet, bassoon, contrabassoon.

Brass and Solo Clarinets
(instruments: 3 trumpets, solo trumpet, piccolo trumpet, 3 trombones, solo trombone, french horns, solo french horn, tuba and solo clarinets).

Percussion & Harp
(instruments: cymbals a due, cymbal 24", cymbal 18", timpani, gran casa (bass drum), snare drum, large tam-tam (gong), thai gongs tuned), chinese opera gongs, triangles, vibraphone, marimba, xylophone, orchestra bells (glockenspiel), tubular bells, harp etc.

Advanced Orchestra Upgrade

Advanced Orchestra Upgrade is a 3 CD-ROM set that adds functionality to Advanced Orchestra, but also was designed as an independent library.

Upgrade '97 contains:
NEW sample categories found in no other libraries.
True Legato Strings, NEW sound qualities, New Instruments. Bass Flute (this "magical" instrument is a must), Harp Single Notes, Percussion II, Hollywood Strings and Main Library Short Loops.

AKAI S1000

Advanced Orchestra Compact

AKAI S1000

Advanced Orchestra Upgrade
Advanced Orchestra Volumes 1-5

Available Individually

The new standard for symphonic samples from the producer of the quadruple FIVE STAR sample CDs “Orchestra” and “Orchestral Colors” - Peter Siedlaczek. Advanced Orchestra consists of 5 CD-ROMS (the Emu format has 6 CD-ROMS) containing 5,455 samples of all Instruments and instrument groups, as well as a large symphony orchestra.

Advanced Orchestra Volume 1

String Ensembles contains: 14 Violins, 10 Violas, 8 Celli, 6 Basses
Also included: 14 Violins, 10 Violas, 8 Celli, 6 Basses in Mono 22 kHz.
Above instruments played Con Sordino, Short detache, Sustained notes, Pizzicato, Col legno, Tremolo, Crescendo, Trills, Grace Notes, Short Chords, Runs (major & minor), Arpeggio (major & minor), Glissando.
Also available in Audio, EMU, GigaSampler and Roland.
AKAI S1000 ........................................... 149.95

Advanced Orchestra Volume 2

Solo Strings contains: Solo Violin, Solo Viola, Solo Cello
You'll find all the above instruments: Short detache, Sustained Notes, Spiccato, Solo expressivo, Con Sordino, whole tone ascending notes, Trills, Runs (major & minor), Short chords, Arpeggios (major & minor), Slow & Fast Glissando, Tremolo, Pizzicato, Crescendos.
Also available in Audio, EMU, GigaSampler and Roland formats.
AKAI S1000 ........................................... 149.95

Advanced Orchestra Volume 3

Brass & Effects contains: 3 Trumpets, Solo Trumpet, Piccolo Trumpet, Tuba, 3 Trombones, Crescendo, Solo Trombone, Solo French Horn, 4 French Horns,
You'll find the above instruments in: Staccato, Sustained Notes, Fast, slow & short glissando, Trills, Valve flutters, Flutter Tongue crescendos, Lip trills and more!
Also included are effects:
FX “blowing for the wind”, FX “shock treatment”, FX “Short & Percussive events, FX “unsingable melodies for everyone”, FX “clusters & longer events”, FX “the wonderful world of animals”, FX “breath of a wind player”
Also available in Audio, EMU, GigaSampler & Roland formats.
AKAI S1000 ........................................... 149.95

Advanced Orchestra Volume 4

Woodwinds contains: 3 Flutes, Flute, Alto Flute, Piccolo Flute, Oboe, Bassoon,
Contrabassoon, Solo Clarinet, English Horn
You'll find the above instruments:
Staccato, Grace Notes, Runs (major & minor), Flutter tongue, Sustained notes, Crescendo, Trill, Mordent, Solo Vibrato, whole tones and half tones ascending and descending.
Also available in Audio, EMU, GigaSampler & Roland formats.
AKAI S1000 ........................................... 149.95

Advanced Orchestra Volume 5

Percussion and Harp contains:
Cymbals A Due American Symphonic, Cymbal 24", Cymbal 18", Timpani, Gran Casa, Snare Drum, Orchestra Bells, Large Tam Tam/Gong, Thai Gong, Chinese Opera Gong, Triangles, Xylophone, Vibraphone, Marimba, Harp, Tubular Bells
You'll find the above instruments: single crashes, glissando, single strokes, tremolo, crescendos, single hits, strokes, various effects and more!
Also available in Audio, EMU, GigaSampler & Roland formats.
AKAI S1000 ........................................... 149.95
The EASTWEST / QUANTUM LEAP Symphonic Orchestra was recorded where orchestral instruments sound their most natural - in a ‘state of the art’ concert hall. Listen to the pure beauty of the "critically acclaimed" Symphonic Orchestra and "state of the art" 125 million dollar Concert Hall that were captured, using custom built recording equipment, by audio legend - Prof. Keith O. Johnson - recipient of two GRAMMYS, plus eight additional GRAMMY nominations for his 90 plus classical recordings.

FEATURES

- This is the first 24-bit orchestral sample library to include three simultaneous stereo mic setups (close, stage and hall), so users can mix together any combination of mic positions to control tonality and ambience.
- Concert hall environment offers a surprising amount of tonal control, virtually eliminating the need for EQ; and the ambient control, using any combination of these three stereo tracks, eliminates the need for artificial reverb (which usually sounds artificial).
- Create the sound "you" want. With other orchestral libraries, you get what they give you, and apart from adding reverb and EQ, you have virtually no control over the sound of the instruments. The control of tonality and ambience in the Symphonic Orchestra enables each user to "design" the sound of the orchestra to suit the work that is being created - no other orchestral collection offers this!
- In addition to this unprecedented control of tonality and ambience; the real ambience of the hall, combined with the automatic sample switching of up and down strokes that is built into the NATIVE INSTRUMENTS audio engine and interface (included with each volume of the library), has eliminated the "machine gun" effect when playing fast repetitions.
- Use the stage mics for a typical big Hollywood sound; boost certain instruments by adding a hint of the close mics; add in the hall surround mics to create a surround sound mix, or to add natural hall reverb. Finally, you can say goodbye to lifeless, dry studio recordings.
- All of the players were recorded in position. All of the instruments and sections were chromatically sampled, with multiple dynamics, with extremely dynamic and expressive articulations, and - although the library is huge, it has been programmed to be "extremely easy to use". For example, an efficient method of composing would be to use just the "close mics" or the "stage mics" during the composition stage, adding a combination of the three stereo pairs to adjust ambience and tonality in the final mixing stage.
- Each volume comes as a Virtual Instrument which includes a high-performance Native Instruments interface powered by the efficient KONTAKT audio engine (see page 1099 for details) including Direct-from-Disk streaming for Mac and PC.
- Each Virtual Instrument in the collection combines intuitive handling with excellent sound quality, and functions as a plug-in instrument, without the need for a sampler, in hosts such as Cubase, Digital Performer, Logic, Nuendo, Pro-Tools, Sonar etc.
- Professional sound quality with advanced 32-bit processing; eight-part multitimbrality and 256 voice polyphony allow for lush arrangements.
- Clean and intuitive interface never lets the technology get in the way of your creativity. All important instrument parameters can be immediately adjusted without the need to page, scroll, or fumble through a manual.
- For the sonically adventurous, many sound shaping tools have been built in to the interface. Powerful multi-mode filters, envelopes, and LFOs give a wealth of creative possibilities. Integrated high-quality reverb, chorus, and delay effects are also provided.
- Producers Doug Rogers from EASTWEST and Nick Phoenix from QUANTUM LEAP, have collectively received over 30 international awards for the sample libraries they have created.

Prof. Keith O. Johnson has spent over 30 years developing a reputation for innovative thinking, technical achievement and musician which has elevated him to a position in the audio industry occupied by only a handful of visionaries. His intensive investigation of electronic behavior and acoustic perception have led most recently to his development (with digital engineer Michael Pflaumer) of the revolutionary High Definition Compatible Digital encoding process, produced and marketed by Pacific Microsonics (recently acquired by Microsoft). His 90-plus recordings have long been considered the standard for high fidelity, and include two GRAMMY award-winners and eight additional GRAMMY nominations.

PHOTO-VIDEO-PRO AUDIO
Downtown Beats

If you are looking for the latest Nu Pop/Hip Hop/R&B beats that can be heard on records but not found on any current sample CDs, check out

“Downtown Beats”. Need the hottest and latest breaks à la Cherion Studios (Britney, N`Sync, BackStreet Boys) or Destiny’s Child, Outkast or Dirty South, the groove is right here. Beats, breakdowns, hits – organized in the meticulous PowerFX way. Wicked beats to write hits on. Plain and simple.

Audio/WAV ........................................ 89.95

Downtown Orchestra

Downtown Orchestra is the MODERN MASTERWORK sample cd from PowerFX. Strings, brass, woodwinds and percussion loops and samples beautifully written, played and recorded specifically for contemporary production. You get entire orchestral parts and sections, plus a killer set of “low string riffs” that rock the house. The highly inspirational phrases in this offering scream to be turned into your “latest and greatest” composition. Audio + WAV discs included.

Audio/WAV ........................................ 89.95

Downtown Strings 1

The finest collection of R&B/Hip Hop strings ever made. This beautifully recorded collection features custom string arrangements written specifically for today’s urban producers. String quartet construction kits, full string ensemble passages, killing upright bass grooves, unique and useful Harp loops and riffs as well as an ample selection of multisampled scales. Real strings from real players for the real deal.

Audio ...................................................... 89.95

Downtown Strings II

This is an impeccable collection of pristine, 24 bit WAV quartet arrangements organized into 5 separate categories: Cinematic, Disco, Hip-Hop, Pop & Rock and Modern Classic. Features string quartets containing each instruments part as a separate file as well as an “all” section where the instruments play the piece together.

WAV ...................................................... 89.95

Nu House

A fantastic collection of tough construction kits and individual samples from Zero-G ready to roll: chunky drums and loops, pounding bass lines, cutting synths and bubbling filters. Thirty construction kits, with tracks up to 3 minutes long, and a second CD full of loops, drums, synths, pads, arps, swells, hits and fx. Rex Files accessed using Reason.

Audio/WAV/Refill ...................................... 89.95

House Musique

Fresh & funky disco house material. Inspiring, dynamic construction kits. Extra lick & loop material: e-bass (73’strat), flute, clarinet (D6), organ (B3), acoustic piano, e-piano (mk1); plus useful drum & percussion collections for exs24, halion & kontakt; all sounds also in .wav on CD2.

Audio/WAV ........................................ 89.95

Beats Working - Pro Tools

Zero-G’s BEATS WORKING offers an indispensable first-call toolbox of immaculately recorded, highly usable drum performances grouped in versatile song construction sets, with Intro, Verse, Bridge, Chorus, Drops and Fills of every performance, covering a diverse selection of musical styles from Classic Pop to Big Band.

The world’s first Professional Drum Performance Library recorded in 10 channels for mixing to 5.1 surround sound (and beyond). Recorded at the legendary ABBEY ROAD Studio 2 in London by top recording and mix engineer Haydn Bendall, and performed by top session drummer Ralph Salmins, the sound and performances are impeccable. Utilising high-end esoteric microphone pre-amps, and a direct signal path to a Euphonics R1, it is hard to imagine a purer, cleaner signal path.

In addition, multiple kicks, snares (both modern and vintage), toms, cymbals and hats were recorded at multiple velocities, giving you the ultimate flexibility to design your own kit.

9 disc ProTools version (24-bit SDII files - 10 channels of audio for each performance) .............................................................. 445.00
Audio/WAV (ACIDized) 16-bit stereo 2-disc set .............................................................. 116.95
Public Enemy

Welcome to the Sampledome

In 1987, PUBLIC ENEMY redefined rap music and Hip-Hop culture with their explosive debut album, "Yo! Bum Rush The Show". Their subsequent six albums, released over the better part of the next decade, sold millions of copies worldwide. The New York Times named Public Enemy's "It Takes A Nation of Millions To Hold Us Back" to their list of "25 Most Significant Albums of the Last Century", and Entertainment Weekly listed their "Fear Of A Black Planet" album to be one of the most important records of the '90s.

Now, with the release of WELCOME TO THE SAMPLEDOME, a "beats and loops" collection, PUBLIC ENEMY have become the first major Hip-Hop act to release such a project.

The 2-disc set features over two hours of brand new "beats and loops", presented in a "construction kit" format [fully mixed loops and all of the individual samples used to make up the entire loop]. Users can "customize" each loop by using as much or as little of the original.

Audio ................................................................. 89.95

Return to Planet of the Breaks

Returning to the 'raw-funkindirtyassboogiebeats' that have made the ZERO-G Planet Of The Breaks series such a phenomenon, Emre Ramazanoglu delivers a huge selection of fresh and raw grooving breakbeats. Edgy and tough, small, large, fast, fat, lo-fi, hi-fi, mid-fi, broken, smashed, cuts, drops and extreme funk with quintessential quirk!

Audio/WAV (ACIDized)/ReFill .............................................. 62.95
Giga ............................................................................. 179.95
Pro Tools ........................................................................ 224.95

Escape from the Planet of the Breaks

Shawn Pelton, long time Saturday Night Live drummer and one of the most in demand drummers in the world, teams up with N.Y. guitarist/producer Vinnie Zummo, producer of the award winning New York Cutz & New York Cutz Volume 2 - Off Da Hook, and Zero-G to bring you a 3-CD set of the maddest, phattest 'rawfunkindirtyassboogiebeats' in the universe, including 2 audio CDs and a CD-ROM disc with WAV (Acid ready) files of every sample, cut and ready to burn in your software and sampler.

High-fi, lo-fi, & mid-fi drums, wa drums, sound efx, long loops, short loops, composite tracks, Psychedelia, Funk, R&B, Hip Hop, Jazz, Trance, Trip Hop, Dance, Metal & general madness in one slammin’ package to bring the madd edgy taste of New York drumming to your next project.

Whether playing with Shawn Colvin on her two time Grammy Award winning song "Sunny Came Home", David Byrne, Bruce Springsteen or Elton John, Shawn always brings his solid 'funk thang' to a song. Add his bodacious groove to your next track. Taste the flavah.

AUD/WAV ................................................................. 62.95
Giga ............................................................................. 179.95

Beneath the Planet of the Breaks

More down right dirty beats from the funkster Shawn Leel Beneath The Planet Of The Breaks is Zero-G’s continuing journey to bring you the toughest raw breaks on the planet. As the sequel to Planet Of The Breaks, which swept the board with top awards from every major music magazine, Beneath The Planet Of The Breaks is even better! Not only do you get the baddest loops imaginable, but you also get every loop cut and diced in WAV format ready for use in every leading music sequencer package, direct from the CD box! The funk master has returned! Dual format: AUDIO/WAV (Mixed Mode)

I concluded that the beat junky monkeys amongst you wanted more raw breaks (i.e. without additional programming and processing etc.). With that in mind, I've delivered a higher ratio of raw breaks to processed ones. Restriking the balance, if you will. You'll also notice a few more uptempo breaks and more flavas than you can shake a proverbial drum stick at. Two different formats of loops: there are beats that play for approximately two minutes (these have additional sonic treatments and so on), and shorter sixteen-bar ones.

AUD/WAV ................................................................. 89.95
Giga ............................................................................. 179.95
Drumkit From Hell

Features Tomas Haake from Meshuggah on Ludwig and Sonor kits. CD-1 contains samples, and CD-2, "Loops From Hell", contains programmed loops. The sound of the drums is left gratifyingly natural with a degree of ring and ambience following each hit. This makes it easy to treat the sampler output as a set of conventionally recorded drum tracks for the application of gates or EQ. Each drum is multisampled with both left and right hand grip, from soft to hard hits. For example, the snare consists of 10 different hits from soft to hard with both left and right hand grip. In addition to that; 10 hard left hand hits, all with a slightly different approach plus a variety of useful hits such as rolls and sidestick.

All cymbals are also multisampled with different types of hits. Each sample has two different stereo samples, one is the drum itself (with all the other mics turned on), and the other one is the room/ambient mics. With this feature you’re able to process the closely miked all the other mics turned on), and the other one is the room/ambient sample has two different stereo samples, one is the drum itself (with a slight-ly different approach plus a variety of useful hits such as rolls and sidestick.

The sound of the drums is left gratifyingly natural with a degree of ring and ambience following each hit. Each drum is multisampled with both left and right hand grip, from soft to hard hits. For example, the snare consists of 10 different hits from soft to hard with both left and right hand grip. In addition to that; 10 hard left hand hits, all with a slightly different approach plus a variety of useful hits such as rolls and sidestick.

Aerosmith’s Joey Kramer Drum Loops

If you are looking for the absolute best pop/rock drumloop collection on the planet - look no further!

JOEY KRAMER "the engine" behind the legendary rock group "Aerosmith," has put together the most comprehensive collection of "Pump & Thump" drum loops and samples available anywhere. Never before has the percussive thunder of a Rock & Roll Icon been offered for use to the general public. Meticulously recorded and painstakingly assembled to offer you the best collection available anywhere of truly usable rock solid drumming. This collection contains no fat! Every loop and every sample are the stuff of rock at it’s best. So strap yourself in and collaborate with a master of this genre!

This 2 Audio CD collection features all of the loops and samples mixed both "Dry" on CD-1, and "Wet" on CD-2. Both versions were recorded and mixed by Richard Chycki and produced by Marti Frederiksen.

Skunkworks

SKUNKWORKS features rhythm guitar grooves and solos from legendary Steely Dan guitarist JEFF "SKUNK" BAXTER. Jeff is the recipient of many industry awards, including twenty six gold and platinum records, two Grammys (plus six more Grammy nominations!), and is widely regarded as one of the greatest rhythm guitarists of all time.

The sounds in this collection, as you would expect, are killer! After all, Jeff has been a design consultant for Roland, Guild, Vox, and Gibson - and has his own signature series acoustic guitars. His playing on this collection is impeccable, including super tight rhythm guitar licks that have never been offered before in any sample collection. But that’s not all! There are guitar licks for all musical applications from acoustic to heavy metal, and everything in between. An additional BONUS disc of .WAV files is included with the package. How often have you been able to musically collaborate with one of the greatest guitarists of all times? Well, now you can!

Steve Smith Rhythmic Journey

Features drum loops and individual drum samples from ex-journey drummer STEVE SMITH, recorded by Aerosmith engineer Kevin Elson at Fantasy Studios in San Francisco. Steve Smith is one of the world’s most revered drummers. With the group Journey, Steve established himself as a tour-de-force groove master. RHYTHMIC JOURNEY was co-produced by East West producer Doug Rogers and David Frangioni, who collectively have produced many top-rated sample collections.

Needless to say, the grooves on RHYTHMIC JOURNEY are flawless and sound phenomenal - pre mixed by Rogers, Frangioni and Elson. There are also individual sounds for drum replacement or those that want to construct their own grooves using Steve’s sounds. The combined experience of Rogers, Frangioni, Elson and Smith has produced one of the best sounding and best performed drum loop CDs of all time. Power on your sampler and get ready, as the journey has only just begun.

Pure Guitars

Pure Guitars gives you the utmost control over all aspects of the recorded instruments, enabling them to sound as if they were played live! Featuring: Nylon Concert, Nylon Spanish, Nylon Vibrato, Jumbo, Ovation Piezo, Steel Pick, Steel Fingered, 12-String, Bass Fingered, Bass Aggressive, Bass Short. The best guitars and basses were used, such as Ovation, Martin, Taylor, Lakewood, Hopf, Lauenhardt and Kobs. This library offers the user authentic, realistic (unlooped), and dynamic guitar performances. Eleven different live acoustic guitars and basses, different FX volumes, chords and harmonics.

AKAI S1000, EXS-24, GigaSampler ........................................................... 134.95

Celtic

The first choice in Celtic Sample CDs! Zero-G’s Celtic features great performances and multisamples on a wide range of instruments including Fiddle, Uilleann Pipes, Mandolin, Accordion, Galician Bag, Bagpipes, Whistles, Flutes, Bodhran, Breton Bombarde, Overton, Banjo, 12 string, 6 string, Marching Snare, Pipe & Snare, Skittish Snare, Celidh Snare, and more. Features four full CDs of material (2 audio & 2 WAV)!

A huge range of solo riffs and phrases performed in authentic styles by leading Celtic musicians, together with a set of multisamples for most instruments. This is an absolute must-have collection for film composers or anyone looking for a true Celtic flavour. These samples will inspire you and prove very effective in setting the mood of a track as their authenticity shines through. Add the captivating essence of the Celtic tradition to your music!

Pure E Basses Vol. 1

Pure e-basses vol. 1 features the “Fender Jazz Bass” and “Fender Precision Bass”. The Fender Jazz Bass was recorded in the playing styles fingered, slap and pick muted. The Fender Precision Bass was recorded in the playing styles fingered, pick and pick muted.

Each playing style contains about 2,000 sound samples. All playing techniques like ghost notes, tappings, hammer-ons, 8th notes, slides slow, slides fast, pop ghost notes, pop slides, pop 8th notes etc. are also playable separately with up to 8 velocity splits per note. For the first time all basses were recorded in 2 different scales! This unique feature enables the choice of the string on which the note should be played! All playing techniques give you the option of combining any of the basses. Plus you get pre-fabricated combinations for each playing style with 8 velocity splits per note. More than 100 different samples per note!!! More than 150 FX per bass (harmonics, fret noises, slides, noises, scrapes etc).

Includes: 212 SubTractor Patches, 141 Rex2 files, 116 NN19 Patches, 10 ReDrum Kits.

**REASON/REX** ................................................................. **89.95**

### The Electro Jazz Retro Funk Thing
Take a step back to an innovative period in music history with The Electro Jazz Retro Funk Thing. This CD contains a wide range of vintage instruments (such as Wurlitzer & Rhodes pianos) as well as a plethora of ‘slammin’ drum loops, colorful effects loops and much more. In addition to offering convenient construction kits, there’s a huge variety of tasty Wurlitzer & Rhodes chords that make it easy to get that classic jazz sound into your project. Also featured are Clavinet loops, vintage synth string and analog pads and drum and cymbal hits to make this CD the ideal! It's a great source of sounds for anyone looking to add authentic Retro or Electro Jazz flavor reminiscent of the sound made famous by the likes of the Headhunters and Herbie Hancock. It's the bomb!

**AUDIO** ................................................................. **89.95**

### Clubotica
The ultimate contemporary dance resource for REASON users, this specially created collection is ideal for making the hippest dance tracks or as the ultimate dance remix toolbox. From bombastic beats and basslines to potent pads, patches and FX loops, everything you need to make guaranteed fillers!

Includes: 212 SubTractor Patches, 141 Rex2 files, 116 NN19 Patches, 10 ReDrum Kits.

**REASON/REX** ................................................................. **89.95**

### Retronica
Combine vintage keyboard sounds and killer '70's loops with futuristic electronica elements and techniques. Organize it all for the hottest piece of music software and you get RETRONICA, the new sample CD ROM for Reason. You have the perfect tools to make the best retro/electro/funk/jazz music imaginable!

Features: 2 Dumloops, Refill Electric Piano loops, Refill Vocoder loops, Upright Bass Refill loops, Redrum kits, Subtractor patches...and more!

**REASON/REX** ................................................................. **89.95**

### Synthotica
A diverse collection developed by sound designer Magnus Lindberg. Contains rich, beautiful and unique aural textures that will find a home anywhere you need lush synth and sampler sounds – plus a complimentary variety of synth rex loops and programmable drum patches. A whole new world of useful and controllable sounds.

Contains: 51 SubTractor synth patches, 13 NN19 sampler patches, 300 Dr. Rex files, 8 ReDrum patches.

**REASON/REX** ................................................................. **89.95**

### The Love & Pop String Thing
A brilliant and unprecedented presentation of Beatles style string quartets, string ensemble pads, loops and '60's style rock construction kits that are made to fit into all styles of music. Vivid and powerful loops that will instantly send you running to your setup to start kicking out masterpieces or to your wardrobe in search of a flowered shirt.

Wonderfully arranged and beautifully played by the Felix Orchestra in Moscow with string quartets that are presented in construction kits that include the individual cello, viola and violin parts for total user flexibility. Also included: Vintage guitars, basses and drums played by vintage people. It's the totally cool Love and Pop String Thing.

**AUDIO** ................................................................. **89.95**
‘56 Stratocaster

Introducing a next generation sample library from East West and Quantum Leap producer Nick Phoenix on 4 CD-ROMs that captures the pure tone of a ’56 strat played through a Super Twin Reverb amp. 3000 chromatic samples were taken using multiple pick-up settings and multiple picking styles at 4 different dynamics. This innovative library features groundbreaking new sampling methods. Features include: realistic chord strumming and chugging, pitchless strum and chugging patches, attitude and pick angle control, true legato notes for flowing leads, grace notes, slides, harmonics, mutes, pops, vibrato, non vibrato sounds, power chords and digital FX. The biggest Sampled Instrument ever!! 2.5 Gigabytes!! Please note: This product is HALion PC compatible- will not work with MAC version.

GIGA .......................................................................................................................... 269.95

Rare Instruments

Features 16 groundbreaking, ethnic, multi-sampled instruments. Rare Instruments is the most expressive ethnic library ever created, including up to 54 variations for some instruments on 3 CD-ROMs. In some cases the natural range of the original instrument has been expanded, thereby creating instruments that are more playable than the original!! Meticulously recorded in studios, not in some village in Africa on a home recorder; consequently the recording quality and standard of programming is superior to all other ethnic collections. Leap Rare Instruments is the Rolls Royce of ethnic collections!

AKAI S1000, GIGA ........................................................................................................ 445.00

Voices of the Apocalypse

A breakthrough sample library from East West and Quantum Leap producer Nick Phoenix on 3 CD-ROMs. Voices of the Apocalypse - Classical Choir. Every vowel and consonant sound sampled at multiple dynamics, programmed in a way that allows you to create realistic words, sung in any language. Sounds nothing like any other choir library you've ever heard, because the producer fearlessly went after the full spectrum of a Wagneresque choir. He chromatically sampled a 3 octave range of both men and women in a fabulous sounding hall. Everything from Angelic to downright evil!!

GIGA .......................................................................................................................... 449.95

Guitar & Bass

Nick Phoenix is a Los Angeles based session musician. Nick recorded and programmed this huge 600M b collection himself because he couldn't find any other guitar sample library that enabled him to express himself on a keyboard as a guitarist would on his guitar - the result is a stunning, brilliantly programmed collection that is so realistic you would never know the sounds were coming from a keyboard with your eyes closed. Quantum Leap Guitar & Bass is a revolutionary guitar & bass library comprised of incredibly expressive lead & rhythm patches. This CD-ROM contains the most comprehensive collection of guitar samples ever assembled, as well as nine unbelievable bass patches. Up to six samples are assigned to each note! Grace notes, bends, trills, pops, chugs, slides etc. are all included within each patch making the library very easy to use. Styles include: Blues, Rockabilly, Surf, Pop, Jazz, Steel & Nylon String Acoustics, Psychedelic, Rock, Grunge, Funk, Fretless, Electric Sitar & Hawaiiin. Ingenious Programming, SuperB Sound Quality! - There's nothing else like it!

Jungle Warfare for REASON

Over 1600 DrREX Loops, Over 1000 patches/samples for NN19/NNXT. Over 1.6 Gb of data (raw). The whole Jungle Warfare Series expertly converted to ReFill format, in a single multi-disc set. This library was awarded 5 stars (SOS) and a Key Buy Award (Keyboard USA) - and it's still the world's best full-blown Drum & Bass sample collection. Hardcore guerilla dancefloor ammo for speed freaks. A massive collection of ultra-fast techno & funk grooves, construction kits & samples - lethal dance production weapons in the right hands. If you need the RIGHT material to produce Drum & Bass this blinding collection has to be on your unmissable list.

Includes - Special Drum & Bass loops, Massive drum rolls & mega rhythm fills, Jungle percussion loops and kits of component samples, Intense jungle pads & chords, Aggressive digital synth pads, Jungle chords and hits, In yer face Bass notes, Manic jungle FX, Nasty vocals. Contains all three original Jungle Warfare releases.

Reason .......................................................... 116.95

Chemical Beats

‘Chemical’ beats are loops with masses of attitude, huge drum sounds and FX crunched through advanced signal processors, and massive grooves to kick start your imagination. Years of playing, programming and engineering expertise at your fingertips! To complete this awesome package, there are extra mad percussion loops, thunderous basses, radio loops, cutting edge synth & guitar FX, plus a vast collection of drum & cymbal bits.

All the samples are contained within a single REFILL file, and also provided again on the same disc as separate and individual REX2, NN19, ReDrum Kits and ACIDized WAV files.

Can be purchased in other formats: Chemical Beats Audio CD; Chemical Beats CD-ROM for AKAI S3000 series samplers (includes the Audio CD version free in the package); Chemical Beats GIGA or choose the smaller ProSamples version Volume 7 Future Beats 1 which is in multiple native formats and compatible with all samplers.

Reason ...................................................... 89.95
Audio ....................................................... 62.95
Giga ......................................................... 134.95

Ambient

Features the combined contents, in full, of both of the original AMBIENT audio sample CD libraries (AMBIENT Vol. 1 and AMBIENT Vol.2).

Over 470 Mb of stunning sounds produced by highly acclaimed British electronic musician, Ian Boddy. An array of dreamy NN19 atmospheric and FX patches for use in ambient dance, trance, film soundtracks or futuristic/spacey/trance music. Combining the hypnotic charms of Jarre, Floyd, Tangerine Dream and so on with current dance trends, “Ambient” is designed to mellow you out with relaxing washes, laid back rhythms and awesome sound effects.

An impressive inventory of analogue and digital synths were used to create these well organised stereo samples. There are digital drums, pads and effects (all very lush stereo) conjuring up deep space hyperspace through sinister alien landscapes, etc.

IMPORTANT: “Ambient” can ALSO be used with any software that imports WAV data.

Reason/Audio .......................................................... 89.95

Ambient Textures REASON

Features 1000 brand new patches created in Reason 2.0, including 300 Subtractor patches, 201 Malstrom patches, 259 NN-19 Sampler patches, and 240 NN-XT Sampler patches.

Synthesizers used: Microwave XT, Technics WSA1, Supernova 2 Pro X, Micro Q, Alesis QS

The Producer, Jonathan Heslop, has been creating electronic music for the past eight years. He has composed music for various independent films, computer games and even some patches for the Reason 2 Soundbank. During that time he has created a large number of synth patches, the best of which are on this superb ReFill CD.

(Notes: The Malstrom and NN-XT patches only work with REASON version 2.0 or later. All samples on the disc are contained within the single ReFill. This sound library was previously available direct from Jonathan Heslop’s website (www.funk-station.co.uk) but the Zero-G version is now the only one available).

IMPORTANT: The Rex Files contained in this collection can only be accessed using Reason.

REASON .......................................................... 62.95
**Trance Construction Kits**

This exclusive new REFILL for Propellerheads REASON was produced by Mike Ash, the producer of 'Nu House', and is essential raw material for tranceheads worldwide. From epic soaring melodies to pounding machine rhythms, Zero-G TRANCE CONSTRUCTION KITS delivers up-to-the-minute sounds, including plenty of Dr REX Drumloops, Dr REX Groove Loops, Redrum Kits, NN19 Patches, etc. It features tons of pumping beats from 132 to 146 bpm, ambient trippiness, bubbling synth lines, percussion, FX, and bass patches.

Also included are lots of patches of trance synths, pads and strings - in fact just about all the mind-blowing sounds, textures and sonic tools you need for use in Ambient, Epic or Hard Trance, Techno and "perfect-for-three-in-the-morning" dance production. You'd be hard pressed to find a better collection of trance material around at this price. If trance is on your flight plan, this is a fine place to take off.

**Wired - The Elements of Trance**

The Reason Refill version of the forthcoming Zero-G plug-in Virtual Sound Module WIRED - THE ELEMENTS OF TRANCE, featuring over 1.2 Gigabytes of samples (raw). This massive and exclusive sound archive from Nigel Anderson (the producer of "TOTAL TRANCE") provides every constituent you need to make the perfect trance track in Propellerheads' REASON software studio. Includes just about every 4/4 percussion combination that you can imagine. Great acid lines; energy and vibe; easy to edit. The pads, pad loops, synth lines and bass loops will help you muster your last ounce of euphoria. Loads of effect stabs and snare rolls. Huge selection of vital drumkit sounds.

Stylish Drum & percussion Loops, Snare Rolls, Acid Loops, Ambient Intro Loops, Bass Loops, FX Loops, Guitar Loops, Piano Loops, Trancy Synth Loops, Tribal Trance Loops, Acid Shots, Basses, FX, Piano, Stabs & Jabs, Sweeps, Groove Loops, Pads, Redrum Kits & Samples, 808 Kit, 909 Kit, House Kits, Tec-Trance Kits, and Percussion Hits.

**Creative Essentials**

Zero-G's award winning Creative Essentials Series of 31 sample CD volumes have now been expertly converted into REFill format to take full advantage of the incredible power and flexibility of REASON. This highly acclaimed library is surely the largest single title available in REFill format today - over 7 Gigabytes of quality inspiration compressed into just 3 CD-ROMs. All 31 collections are included:

- Rhythm, Guitar, FX

BPM s and keys are given to make your life so easy. Pure Hip Hop is a must for all your Hip Hop producers who want to add some new beats to their tracks!

**Multi-Format** ................................................................. 44.95

**Pure Trip Hop**

It’s difficult to define trip hop, and most trip hop artists deny they are part of any scene at all. Often described as “instruments of music”, emphasis is on the music itself but every DJ producer has their own way of keeping a track alive so there can never be a distinctive trip hop sound. It takes ideas from Jazz, Blues, Hip Hop, Dub, Ambient, even Classical music, but it’s only through the sampler that trip hop happened at all. It vastly expanded the way music can be created. You can play with raw sound and experiment with new found frequencies, tempos and tones to make previously unimaginable music. Thirty musical pieces divided into their separate elements, plus extra helpings of beat loop samples, bass lines, EP chords and drum hits.

**Multi-Format** ................................................................. 44.95

**Pure R’n’B**

Extensive toolkit for assembling polished RnB including 35 song ready musical pieces divided into their separate elements, plus extra helpings of beat loops, bass notes and EP chords. These quality building blocks are spread over a 2 disc Audio/CD-Rom which includes Audio/AKAI/REX/WAV and are also “Acid ready”!

Features classic sounding soul breaks and exclusive swing and soul loops and samples. These are grooves from the heart of soul and swingbeat. Includes stacks of R’n’B construction kits (grooves plus all their component samples) plus extra drumbreaks, basses, Rhodes piano and organs. Add these pure R’n’B elements into your mix to give your music a refined edge and put a cool and effortless vibe into your grooves.

**Multi-Format** ................................................................. 44.95

**Pure Mayhem**

Pure Mayhem from ZERO-G brings electronic warfare to your sampler. Mangled beats, fuzz arps, techno FX, PWM, noize and more noize. This is one Sample CD package that brings you mayhem in its purest form, Pure Mayhem. Pure techno aggression. Pure Mayhem delivers killer Drumloops, Sequences, FX Loops, Guitar loops, Ambient Loops and Bass Loops. Everything you’ll need to produce your next hit record.

Gives you the ultimate in sampler and software compatibility Acid-ready WAV files, AIFF files, Emagic EXS24 sampler instruments, AKAI (and compatible) sampler instruments (e.g. compatible with Steinberg HALion®), Steinberg REX2 Recycled files and Audio!

**Multi-Format** ................................................................. 44.95

**Pure Brazilian Beats**

Enjoy the unmistakable flavor of Latin America in the 21st Century - the feel, the groove, the life. Recorded in Brazil by Duda Moura, Pure Brazilian Beats is an incredible collection of completely authentic Brazilian rhythms with an infectious feel, suitable for anyone with a desire to add rhythmic life to their productions.

Features acoustic drum groove/loops including: samba, baiao, axé, bossa nova, ijexá, samba reggae, samba rock, batucada, samba do Ilê, pagode, samba enredo, samba funk and other Brazilian fusion experiences.

Two Multi-format Sample CDs are included, giving you the ultimate in sampler and software compatibility.

**Multi-Format** ................................................................. 44.95

**Pure Tabla**

An unbelievable range of sonic beats created entirely with Tablas! ZERO-G bring you extreme remixes of incredible Tabla performances, with rhythmic adventures unlike anything you’ve heard before. Whether it’s dance or pop, Pure Tabla will give your rhythmic tracks a cutting edge inspiration. This multi-format sample collection gives you the ultimate in sampler and software compatibility – Acid ready WAV files, AIFF files, Emagic EXS24 sampler instruments, AKAI (and compatible) sampler instruments (compatible with Steinberg HALion®), Steinberg REX2 Recycled files and of course Audio! All BPM s and Keys are given where applicable.

**Multi-Format** ................................................................. 44.95
The Vienna Symphonic Library First Edition

Produced by top composers, played by musicians from Vienna's world-renowned orchestras, recorded in 96kHz/24-bit and perfected by 30 highly specialized editing engineers, the Vienna Symphonic Library is a sample library of unprecedented sonic dimension. Recorded in a specially constructed recording stage designed expressly for the rigorous demands of orchestral sampling, the Vienna Symphonic Library is simply unsurpassed in both size and quality. Complete, the library consists of 1.5 million single-note samples and performance elements. Until now, many of these instruments have never been recorded for a sample library. For example, the bass trumpet, contrabass trombone, and contrabass tuba bring closure to the sampled brass category, while the world's lowest-pitched gong, the deepest tubular bells, and others from the large and rare percussion collection owned by the Vienna Radio Symphony Orchestra are captured as well.

**“Silent Stage” Recording**
- The samples are totally devoid of background noise (80 – 100 dB signal-to-noise) and have absolute clarity, even in the pianissimo performances.
- The “Silent Stage,” as it is called, was designed specifically to record samples of orchestral instruments.
- The recording technology used (stereo throughout with full mono compatibility) makes it possible to produce everything from epic Hollywood film music to chamber music arrangements or solo pieces.
- An entirely new component system consisting of so-called Performance Elements means that playing techniques such as legatos, runs and repetitions, which have had limited implementation in previous orchestral sample libraries, are now completely and intelligently integrated to make possible a realism unobtainable until now.
- Special mappings make it easy to adjust the timing and note lengths within the performance elements and even to manipulate these authentic passages in real-time.
- Because each instrument is mapped the same way across its entire range, the user can find any instrument or sound quickly and dependably, despite the vast number of individual instrument and ensemble samples.

**FEATURES**

**Single tones with consistent dynamics**
- Chromatically sampled
- Up to 5 dynamic layers
- Up to 3 articulations (especially solo brass): soft, normal, marcato
- Without vibrato, soft and strong vibrato, progressive vibrato
- Different lengths for short notes: 0.1 sec, 0.3 sec, 0.5 sec
- 2 sampled variations of the same note for each short note
- Long notes (1 to 20 seconds) with release trigger

**Sample content of the Orchestral Cube, Strings, Brass & Woodwinds, Percussion**

**Single tones with progressive dynamics**
- 3 dynamic intensities slight, e.g. p<mp, f>mf etc. up to 4 dynamic layers
- Medium, e.g. pp<mf, ff>mf 2 dynamic layers
- Strong, e.g. pp<ff 1 dynamic layer
- Crescendos - diminuendos, e.g. p<mf>p
- Fp, sfz, sffz
- Lengths from 1 to 6 seconds
- With and without vibrato
- Trills slow and fast variations, accelerations
- Tremolos crescendo and diminuendo patches

**Consists of two Components**

The Orchestral Cube
- A massive collection of string, percussion, brass and woodwind samples (over 42,000), totaling 44 GBs, the Orchestral Cube contains single note samples with a variety of dynamics options, as well as a variety of multi-note samples including trills and tremolos.

The Performance Set
- 36,000 samples covering over 45 GBs, the Performance Set lets you play real legato in real-time with multiple dynamics.
- Legato performances contain up to 3 dynamic layers with optional vibrato, and the string samples are available with and without slides. Also features repetition performances, available in legato, portato and staccato with tempos ranging from 60 to 200 BPM and appoggiaturas.

**Acoustic & Synth Choirs**

These original multi-samples use beautiful children’s choirs, male choirs and female choirs. Recorded in Europe, these choirs will bring an organic element of beauty to your musical creations. There is also a section of complex productions and jump right out of your mix!

481 samples (181 children / 83 men & women / 60 women / 158 synth choirs); 61 audio tracks / AKAI partition: 61 volumes / Wav-Acid/Aiff: 425 MB

USBCDSC028 ..................................................49.95

**Vol. 29**  
**Killer Brass Riffs**

Do you really need more of an explanation? The name says it all! Many producers have waited far too long for a brass disk that is laid out to be useful for any style of music. From trumpet to flugelhorn, sax to trombone, it’s all here - with just the right flare to any mix. Bonus section: tons of hits and stabs.

845 samples (533 Riffs / 166 Riffs Solo / 146 hits & stabs); 46 audio tracks / AKAI partition: 46 volumes / Wav-Acid/Aiff: 420 M B; Tempo: 63 - 133 BPM

USBCDSC029 ..................................................49.95

**Vol. 30**  
**Bass Grooves**

Features lots of styles and playing techniques, from pop, rock and even hard-rock to funk, from jazz, Latin and soul to R’n B. Over 60 folders – each with an easily identifiable selection of loops, tagged with tempo and key. Lively bass grooves, with all the cool ingredients to make a successful track: fantastic timing, unobtrusive line, excellent sound!

338 samples (14 demos / 219 bass loops / 105 single notes); 64 audio tracks / AKAI partition: 67 volumes / Wav-Acid/Aiff: 558 M B; Tempo: 54 - 135 BPM

USBCDSC030 ..................................................49.95

**Vol. 31**  
**Rock & R’n B Miro’s Grooves**

A hybrid collection containing tons of electric guitar and bass phrases, expertly played by J.M. Miro. In order to fully understand the power of this library, you will find a bunch of construction kits produced by the producer of the Soundscan volume 19 Hip Hop / R’n B – the best selling Soundscan ever.

580 samples (404 loops, riffs & licks / 176 single shots); 50 audio tracks / AKAI partition: 50 volumes / Wav-Acid/Aiff: 480 M B; Tempo: 82 - 127 BPM

USBCDSC031 ..................................................49.95

**Vol. 32**  
**Roots Disco**

Break out your fur coats, put on that afro, and get yourself into those tight bellbottom blue jeans once again — the FEVER has just hit! Roots will take you back to the days of Charlie’s Angels and Ponch & John! Drumloops, construction kits, hits and some Starsky & Hutch style bass, strings and guitar! Captures what it took to sound good in the 70s. 774 samples (289 loops, riffs & licks / 425 single shots & co); 58 audio tracks / AKAI partition: 58 volumes / Wav-Acid/Aiff: 600 M B; Tempo: 113 - 150 BPM

USBCDSC032 ..................................................49.95

**Vol. 33**  
**Disjointed Textures**

Following in the heritage of SoundScan Volume 13 – Twisted Special Effects. Disjointed Textures displays yet another avenue of sound design that’s fresh, new, just waiting to be used. From the most beautiful ambience to the most frightening sonic textures, this is a film scene just waiting to happen!

244 samples (152 textures / 53 pads FX / 39 drums FX); 50 audio tracks / AKAI partition: 50 vol. / Wav-Acid/Aiff: 671 M B / Categories: Space, Sounds, Pads & FX, Sciences, Vox Loops, Devils...

USBCDSC033 ..................................................49.95

**Vol. 34**  
**Burning Grunge Hip Hop**

The nastiest, low-down set of hip hop loops available. From construction kits to drum loops to nasty, grungy guitar and bass – sure to put some serious attitude into your mix! Will give your stuff that authentic underground sound your Hip Hop project has been needing. A grab bag of sounds heard nowhere else:

338 samples (164 loops / riffs & licks / 374 single shots & co); 52 audio tracks / AKAI partition: 52 volumes / Wav-Acid/Aiff: 550 M B; Tempo: 88 - 116 BPM

USBCDSC034 ..................................................49.95

**Vol. 35**  
**The Dark Side of Trip Hop**

These grooves have that unique “laid-back” quality that sets them apart from any other slow loop. Dark Trip Hop is not to be mistaken with anything else: on the production side, each of the kits is instantly identifiable by its fat sound. Inject a loop, and your current mix will feel a lot heavier. New musical style!

246 samples (211 drumloops & kits / 35 special FX); 72 audio tracks / AKAI partition: 72 volumes / Wav-Acid/Aiff: 574 M B; Tempo: 56 - 94 BPM

USBCDSC035 ..................................................49.95

**Vol. 36**  
**Percussions Loops**

These essential loops have a priceless quality: they are simple! The featured instruments are:

246 samples (211 drumloops & kits / 35 special FX); 72 audio tracks / AKAI partition: 72 volumes / Wav-Acid/Aiff: 574 M B; Tempo: 56 - 94 BPM

USBCDSC036 ..................................................49.95

**SOUNDSCAN**

**Vol. 37 Pop / Rock Drumloops**
Ranging from the most timeless patterns to the really contemporary rock loops. Delivers a wealth of variation for each groove, sufficient to build a complete song, with cymbal add-ons, tom-tom variations, Hi-Hat builds and adapted fills. Impeccably looped. These eternal classics will be simple essentials for a long, long time.

384 samples (86 main / 174 variations / 174 fills / 75 hits); 22 audio tracks / AKAI partition: 22 volumes

Wav-Acid/Aiff: 464 MB; Tempo: 96 - 152 BPM

**USBCDSC037** ................................. 49.95

**Vol. 38 Funk & Groove Drumloops**
This library is unique in many ways: one CD is enough to tackle all the known variations of the classic "funky drumming," and provide a wealth of variations for each of the main loops: cymbal, tom-tom, hi-hat alternates, and matched fills. This is timeless funk for all your needs, between 80 and 120 BPM, whether you're into pop/rock, trip-hop, R'n'B,.. 453 samples (112 main / 163 variations / 62 fills / 116 hits); 28 audio tracks / AKAI partition: 28 volumes

Wav-Acid/Aiff: 584 MB; Tempo: 78 - 128 BPM

**USBCDSC038** ................................. 49.95

**Vol. 39 Brushed Drumloops**
Brushes and Hot Rods, playing groove, trip hop, jazz and Latin drum patterns, with comprehensive variation for each of the main grooves. The slow and dark ambience of the slower tracks are complemented by hellish speed trains and other brush classics. Perfectly matches the sounds of the Soundscan 38 and 39.

309 samples (89 main / 173 variation / 47 fills)

25 audio tracks / AKAI partition: 25 volumes

Wav-Acid/Aiff: 500 MB; Tempo: 72 - 200 BPM

**USBCDSC039** ................................. 49.95

**Vol. 40 Complete Accordions**
The styles grouped here are quite varied, ranging from Canadian folklore to French "bourrée", while also approaching polka, German traditional and Beerfest stuff, even Celtic instruments. Each folder starts with accordion rhythm patterns, followed by themes played unaccompanied in various harmonic combinations...

340 samples (180 Chords riffs / 115 Solo / 45 single shots); 59 audio tracks / AKAI partition: 32 volumes

Wav-Acid/Aiff: 500 MB; Tempo: 80 - 135 BPM

**USBCDSC040** ................................. 49.95

**Vol. 41 Roots Funk**
Whether you're producing R'n'B, pop or Dancefloor-oriented tracks, it's all for the groove now! A typically '70s CD, with superb drum loops reminiscent of the era; inspired keyboard parts, and numerous classic talk box effects (also called mouth-tube). To complement bass grooves, guitar loops are present in various forms.

369 samples (32 demos / 337 loops & samples);

63 audio tracks / AKAI partition: 31 volumes

Wav-Acid/Aiff: 550 MB; Tempo: 85 - 137 BPM

**USBCDSC041** ................................. 49.95

**Vol. 42 Celtic Flavors**
Features phrases and samples of all the typical instruments that thrive in Brittany, Ireland and Cornwall: celtic guitar, violin, concertina, acoustic guitars, Irish flute and mandolin - as well as biniou (small bagpipes) and bombarde (french shawm). Styles approached all part of the Celtic tradition. Multi-samples, with biniou, bombarde, celtic guitar and flute.

514 samples (412 loops & riffs / 102 single shots)

52 audio tracks / AKAI partition: 52 volumes

Wav-Acid/Aiff: 498 MB; Tempo: 80 - 160 BPM

**USBCDSC042** ................................. 49.95

**Vol. 43 Arabian Traditions**
This volume is dedicated to the wonderful sound of Arabian voices and instruments. With the included loops and phrases, the traditional melodies of Arabia come alive, allowing you to include that unique ingredient in your productions. Featured instruments are: luth, male and female voices, violin and percussions.

332 samples (289 loops & riffs / 43 single shots)

39 audio tracks / AKAI partition: 38 volumes

Wav-Acid/Aiff: 460 MB; Tempo: 80 - 140 BPM

**USBCDSC043** ................................. 49.95

**Vol. 44 African Traditions**
A truly unique meeting of tradition and more modern parts, this collection focuses on typical sounds from Africa. From Marimba and Kalimba to Djembe and Bongos, the percussions are all oozing with authenticity. You'll also find male and female voices, typical African guitar parts, and many other African music staples. TBA samples (TBA Riffs & co / TBA Licks / TBA single notes); TBA audio tracks / AKAI partition: TBA volumes Wav-Acid/Aiff : TBA MB (info. unavailable)

**USBCDSC044** ................................. 49.95

**Vol. 45 Indian Traditions**
The traditional melodies of India come alive, allowing you to include that unique ingredient in your productions. Featured instruments too numerous to list here, from percussions to vocals and instruments. Dive into the magic of Indian Traditions.

391 samples (81 Voices, 51 flutes, 104 Percs loops, 43 Star, 19 Papang, 17 Ravanhata, 14 violins, 41 Pungi, 10 Various Instruments, 11 Ambiences)

40 audio tracks / AKAI partition: 40 volumes

Wav-Acid/Aiff: 520 MB; Tempo: 80 - 170 BPM

**USBCDSC045** ................................. 49.95

Vol. 46
70's Breakbeats
Tons of authenticity and feeling, a great treasure-chest for those modern productions where they can be sliced, diced, slowed down or warped. Sounding just like they were lifted straight off rare and obscure vinyls of the era, 70's breakbeat provides the real thing, with the added work necessary to bring to you these copyright-clean loops.
691 samples (512 Breakbeats & loops / 179 single shots); 62 audio tracks / AKAI partition: 62 volumes / Wav-Acid/Aiff : 240 M B; Tempo: 84 - 133,5 BPM
USBCDSC046

Vol. 47
Hip Hop R 'n B v.2
The Team of producers who brought you volume 19 "Hip Hop R 'n B" strike back with this new cool Soundscan! Simplicity in programming will catch your ear first. Such impact with so little clutter is the signature of the best. The construction kits offer you both essential basics, and subtle add-ons to color the basic rhythm section.
561 samples (219 loops, 252 single drums, 61 single shots instruments, 29 demo tracks); 90 audio tracks / AKAI partition: 29 volumes / Wav-Acid/Aiff: 490 M B; Tempo: 85 - 133 BPM
USBCDSC047

Vol. 48
Ominous Drones
This truly fantastic collection of the deepest textures available today will suggest its numerous ways to you before you've reached the end of the audio Part. The AKAI part features an ingenious mapping: two drones per patch in left hand-right hand keyboard splits. Galactic textures, Low Tones, Mystical, Sub Marine,...
90 samples & drones; 45 audio tracks / AKAI partition: 45 volumes / Wav-Acid/Aiff: 582 M B (Galactic, Hi Spheres, Low Tones, Mystical, Submarine, Synth, Vox...)
USBCDSC048

Vol. 49
Analog Fantasies
An anthology of classic analog synthesizer multisamples, all ready to play: pads, sweeps and swells, leads, atmospheres, analog effects. All classic sounds, and all you need to quench that thirst for analog synth that have become rare and outrageously expensive collector's items.
727 samples (158 synth patches using 727 samples) / 20 power analog FX); 61 audio tracks / AKAI partition: 61 volumes / Wav-Acid/Aiff: 562 M B
USBCDSC049

Vol. 50
Electric & Acoustic Guitars
The best guitars on the market in the best multi-sampled library! No loops, only the most useful guitar patches. Six and 12 strings acoustic guitars, with Nylon and steel strings. Some typical playing styles, like Bottleneck. Multisamples supplied for soft, hard and muted version of instruments.
1087 samples (586 acoustic / 332 electric / 169 muted) / 50 audio tracks o Wav-Acid / Aiff / EXS24 / Halion / Reason2 / AKAI Z4-Z8/Mach5: 450 M B / AKAI partition: 23 vol.
USBCDSC050

Vol. 51
House Side of 2 Steps
When the energy of House music and the funk of R 'n B meet in a dark alley, the cutting-edge music press gives birth to a new style - "2 steps". An unprecedented merging of styles provides you with this ready-to-use library only Organized in construction kits and ready for immediate use.
935 samples (451 loops, 345 drums, 139 instruments/FX); 92 audio tracks / AKAI partition: 35 volumes / Wav-Acid/Aiff: 470 M B; Tempo: 120 - 137 BPM Sciences, Vox Loops, Devils
USBCDSC051

Vol. 52
R 'n B Side of 2 Steps
This exciting new genre allows creative designers and musicians to mix the punch of house music with the atmospheres and originality of Hip Hop/R 'n B. Construction kits contain striking themes and instrument tracks to embellish the super heavy rhythm section. Tempo info extremely accurate.
TBA samples (TBA Riffs & co / TBA Licks / TBA single notes); TBA audio tracks / AKAI partition: TBA volumes / Wav-Acid/Aiff: TBA M B (informations unavailable)
USBCDSC052

Vol. 53
Mediterranean Traditions
Jam-packed. Instrumental loops in all or most major and minor keys of Baglamas, Bouzouki, Tsouras and Saz. Plus, additional phrases of Cumbus and Oud. Many instrument multisamples, with variations such as Flizz or Tremolo. Drum and percussion loops; tempo ranging from 100 to 185 bpm. Gifted local players.
546 samples ( 172 Riffs & co / 99 drums & perc loops / 275 single notes ); 89 audio tracks / AKAI partition: 78 volumes / Wav-Acid/Aiff: 400 M B; Tempo: 60 - 185 BPM
USBCDSC053

Vol. 54
Keyboards Phrases
A very effective way to give atmosphere and life to a modern music track. Seriously talented players teamed up to provide the sweetest collection of Electric Pianos, Clarinet and acoustic piano loops available today. Perfect recordings for modern music production where sound quality is at the foundation of success.
TBA samples (TBA Riffs & co / TBA Licks / TBA single notes); TBA audio tracks / AKAI partition: TBA volumes / Wav-Acid/Aiff: TBA M B (informations unavailable)

<tbody>
<tr>
<td>Vol. 55</td>
<td>Creative &amp; Dub Drumloops</td>
<td>Enroll an ace drummer, record him with vintage gear and a good dose of attitude, involve some classic processors... and you’ve got yourself a collection of fantastic drumloops that will be the basis of excellent future-retro tracks. This collection is as eclectic as it is inspiring; these acoustic groove, jungle and dub loops are anything but basic. 225 samples (acoustic processed drumloops); 65 audio tracks / AKAI partition: 28 volumes / WAV-Acid/Aiff: 460 MB; Tempo: 63 - 160 BPM USBCDSC055...49.95</td>
</tr>
<tr>
<td>Vol. 56</td>
<td>Modern Percussion Loops</td>
<td>Bread and butter loops played with the most popular percussion instruments in western music. An essential collection with bongos, congas, djembe, shaker, tambourine, audio, timbale and triangle. Two tempo groups: from 89 to 100 bpm for funky, groovy tracks; 112 to 133 for dance and pop tracks. 448 samples (bongo, conga, djembe, shaker, tambourine, timbal...); 67 audio tracks / AKAI partition: 39 volumes / WAV-Acid/Aiff: 450 MB; Tempo: 84 - 133 BPM USBCDSC056...49.95</td>
</tr>
<tr>
<td>Vol. 57</td>
<td>SFX Toolbox Vol. 1</td>
<td>Ambient sounds. Interior and exterior recordings, plus many other sound effects that allow you to create a virtual scene or dress up a basic video shoot. 187 samples (insects, animals, atmospheres, storm, water, winds, birds, trains, engines, subways, town, vehicles, doors, steps...); 24 audio tracks / AKAI partition: 24 Volumes / WAV-Acid / Aiff: 600 Mb USBCDSC057...49.95</td>
</tr>
<tr>
<td>Vol. 58</td>
<td>Drum’n Bass Sensations</td>
<td>This CD revives the genre while producing a fresh new library to work with. All construction kits start with the full loop, followed by individual instrument loops, and a few essential single samples. Recorded with the best studio equipment currently available, and the best and biggest sounding Drum &amp; Bass rhythms ever! 464 samples (256 samples in Construction Kits / 208 single sounds); 80 audio tracks / AKAI partition: 30 volumes / WAV-Acid/Aiff: 440 MB; Tempo: 100 - 178 BPM USBCDSC058...49.95</td>
</tr>
<tr>
<td>Vol. 59</td>
<td>Spanish &amp; Gypsy Traditions</td>
<td>Created by natural-born musicians and excellent Gypsy performers. Guitars, vocals, palmas and many other specific loops almost impossible to record in the USA or Japan, for lack of trained players. Imppecable looping; accurate tempo. 626 samples (355 loops/solos / 271 single shots) 61 audio tracks / WAV-Acid / Aiff / EXS24 / Halion / Reason2 / AKAI Z4-Z8 / Machs / REX2: 651.9 MB / AKAI partition: 28 volumes; Tempo: 70 - 133 BPM USBCDSC059...49.95</td>
</tr>
<tr>
<td>Vol. 60</td>
<td>Asian Traditions</td>
<td>Truthful Asian ambience is really difficult to produce, mostly due to the unavailability of credible loops. Addresses the need for traditional music from Asia: vocal, percussion and highly exotic instrumental loops. An excellent source of mystery and disorientation. 412 samples (162 loops / 250 single shots) – 38 audio tracks / WAV-Acid / Aiff / EXS24 / Halion / Reason2 / AKAI Z4-Z8 / Machs / REX2: 500 MB AKAI partition: 36 volumes USBCDSC060...49.95</td>
</tr>
<tr>
<td>Vol. 61</td>
<td>SFX Toolbox Vol. 2</td>
<td>The coveted harp is used in many classical compositions. Starts with a nice selection of musically inspiring phrases. Benefit from the subtleties of Glissando and Bissiglango. Mesmerizing and enchanting. 380 samples (36 loops / 35 bissiglandois / 39 chords / 29 cascades / 133 glisses / 108 single shots); 33 audio tracks / WAV-Acid / Aiff / EXS24 / Halion / Reason2 / AKAI Z4-Z8 / Mach5 / REX2: 513,6 MB / AKAI partition: 33 volumes; Tempo: 70 - 140 BPM USBCDSC061...49.95</td>
</tr>
<tr>
<td>Vol. 63</td>
<td>Balkanish Traditions</td>
<td>A very original music style. The Balkans’ great variety of instruments include Accordion, Double bass, Violin, Saxophone, Derbuka, Strings, Percs, Voices - in musical recordings of Vlaque, Srba, Paldouchko, Freilakh, Jovamo and many more. Bonus section: instrument multisamples. USBCDSC063...49.95</td>

Heart of Asia

Music plays an important role in all cultures across our planet. Yet its heart and soul truly must reside in the great continent of Africa.

Heart of Africa Volume 2 features rare performances recorded live at a two week tribal competition in Kenya. Most of the 8000 participants (primarily children) had traveled many miles by bus to perform their music. From huge feather head pieces and masks to shields and brilliant robes, the outﬁtting represented serious commitment.

A fascinating compilation of authentic choir and vocal shouts, chants and polyrhythmic percussion ensemble grooves from the Masai, Kikuyu, Meru, Pokot, and Nandi peoples. A collection of powerfully primal and untamed tribal ensemble phrases & SFX. This volume is an intriguing disc for your next ﬁlm score, remix or album project.

Supreme Beats

A Percussion Library by Bashiri Johnson. Supreme Beats comprises an exhaustive collection of over ﬁve hours worth of inspiring acoustic percussion grooves and comprehensive instrument samples. Recorded over six months in top NY and LA studios, the production is state of the art. The Supreme Beats Percussion series is an essential resource for the modern composer, producer, and fx remixer, that is destined to become a classic. It features Bashiri Johnson (Whitney Houston, Donald Fagen, Madonna), Luis Conte (World renown latin percussionist & LA session ace) and Cyro Baptista (Brazilian master), and many others. The key to Supreme Beats is that each percussion groove is presented in three temps, ﬁrst in a full mix, and then with each percussion element solo’d allowing for the most ﬂexibility in how the loops can be combined and applied to your music. A full compliment of single hits of all of the instruments are included as well.

In addition to the many traditional and ethnic percussion instruments used on Supreme Beats, unusual live sources such as elevator shafts, breathing, human stomping and many others were creatively incorporated into the grooves, giving these rhythms a truly unique sonic quality.

... a feast of human feel, energy and emotion... enough material to feed an army of samplers... one of the most exhaustive and impressive percussion libraries we've seen, and it sounds even better than it looks! ... If we had three army of samplers... one of the most exhaustive and impressive percussion libraries we've seen, and it sounds even better than it looks! ... If we had three

**BackBeat**

If you tired of searching through piles of overcooked, pretentious loops, just to find a solid groove for your song. Backbeat is just what you’re looking for...great feeling, rock-steady grooves with attitude, but without overplaying. Producers Eric Persing and Bob Wilson recorded four world-class drummers in numerous legendary studios, with some of the best drum rooms on the planet. The latest technology was used to capture a stunningly Hi-Fi, yet very natural sound.

The featured players include: Gregg Bissonette (Santana, Joe Satrani, Don Henley); Bob Wilson (Liquid Grooves, George Benson, The Crusaders); John Ferraro (Larry Carlton, David Benoit, Albert Lee, Aaron Neville), Eric Bosman (Liquido Grooves, James Newton-Howard).

Create your own complete drum track with Song Construction Elements including Variations, Fills, Fill Bars, Intros, Breakdowns, Ride and Sistick patterns, add-on cymbals and more. The power, feel and subtlety of a live drummer, combined with all the editing control of your MIDI sequencer results in a quantum leap in what can be achieved with drum loops.

Note: The Backbeat CD-ROM includes a Mac/Windows Data Disc, which contains the Groove Control sequences and high resolution WAV files of all the loops. You can use the USE files for auditioning grooves in SoundFinder, and for direct use in software like Acid, Logic, Cubase, Reason or Pro Tools!

**CD-ROM Multi-Disc Set (AKAI/Emu, Roland) includes Groove Menus and .WAV files** ....................................................... 189.95

**CD-Audio (Loops only)**............................................................... 99.95

---

**Retro Funk**

The sonic texture of these loops makes them ultra-flexible, bringing massive “vibe” to any modern track. Producer Eric Persing's mixes create a unique, dry sonic attitude in this library, making it ideal for layering with other groove elements. Vintage mics, warm analog tape compression and antique drums all contribute to the funkiness. And with Groove Control, the grooves are at your command, effortlessly blending their timing and human feel to match your music. Turn a GoGo groove into Deep House, a JB Boogaloo into Drum & Bass, a Fatback P-Funk groove into Alternative Reggae, or an R&B stomp into a Pop Ballad!

The featured players on Retro Funk include Gregg Bissonette (Santana, Joe Satrani, Don Henley), Bob Wilson (Liquid Grooves, George Benson, The Crusaders), John Ferraro (Larry Carlton, David Benoit, Albert Lee, Aaron Neville), and Eric Bosman (Liquido Grooves, James Newton-Howard).

Create your own complete drum track with Song Construction Elements including Variations, Fills, Fill Bars, Intros, Breakdowns, Ride and Sistick patterns, add-on cymbals, claps, vinyl noise and funky live percussion loops too! This massive stash of grooves is destined to be a legend.

**CD-ROM (AKAI/Emu, Roland, Giga)........................................... 189.95**

includes Groove Menus and .WAV files

**CD-Audio (Loops only)**............................................................... 99.95

---

**Symphony of Voices**

An extensive collection of voices produced by Eric Persing, with a breathtaking variety of multisamples, phrases and FX from some of the most prestigious singers. Disc 1 is devoted to richly detailed samples of the 80-voice London Chorale recorded in a large cathedral in England. Variations include multiple dynamics of multisampled ah, oos, ohs, es, humming, intense staccato stabs, natural crescendo/decrecendo swells, octaves, moving vowels, vibrato versions and even whistling!

Disc 2 brings you the power of classical soloists, with a wide variety of license-free Operatic Tenor and Soprano phrases (with words and melismatic), in addition to the natural multisamples of each singer. It also contains London Choir FX samples, Major, Minor and Suspended Chords with high & low chord voicings, thick clusters, Twelve-Tone and Ligeti fx, whispering and more!

Disc 3 focuses on an English Boys Choir and a Gregorian Mens Choir. The Boys Choir features multisampled phrases, soft and loud multisampled static vocals and moving vocals, as well as Solo Boy phrases and multisamples. The Gregorian Mens Choir delivers multisampled soft and loud ohs, mms, fifths, drones, intervals, multisampled Latin words and ancient Gregorian Chants!

Disc 4 offers an overwhelming variety of Lush Multitracked Pop Stacks, created from over 10,000 perfect vocal performances! Comprehensive multisampled vocals, moving vocals, washes and “scooped” notes. Gorgeous male and female textures will add that smooth silk to your next hit!

**4-CD-ROM Set (Roland, AKAI/Emu, Kurzweil, SampleCell).............. 474.95**
**Liquid Grooves**

Grooves that have existed only in your imagination. Fluid rhythms forged by a synthesis of propelling live drum grooves and unusual, organic percussion loops. The live elements, performed by some of L.A.'s most creative session players, have been transformed into a unique sonic texture via ground-breaking signal processing techniques and state of the art instruments such as the Korg Wavedrum.

These highly original grooves have lots of space and are presented in a Construction Kit format similar to the Supreme Beats collection. Many of the grooves are presented in both “Natural Acoustic” and “Hybrid Remix” versions for a new level of versatility. If you've been frustrated at the lack of slow tempos on most loop discs, this is the library you've been searching for. Tempos start at a laid-back 52 BPM and go to a cruising 126 BPM.

The liquid concept is 2-fold: Sparse “hand-played” grooves that feel great, combined with a focus on uncharted sonic territory.

*CD-AUDIO* Grooves only ................................................................. **99.95**

*CD-ROM* Complete library (Roland, Akai/Emu/Asr, Kurzweil and SampleCell) ........................................... **189.95**

**Burning Grooves**

Finally, a drum library that delivers maximum impact. Killer Kits and blazing live drum grooves laid down by L.A. slammer Abe Laboriel Jr. (Seal, Steve Vai, Joe Sample) with extreme re-mixes by producer Eric Persing.

The diverse selection of unrelenting alternative, power funk, progressive soul, rock & roll and grungehead loops in a wide variety of tempos (56-213 BPM) puts this collection in a class by itself. Each groove has a unique mix (edge, hi-fi, ambient, distorted, lo-fi, etc), and some have both Hi-Fi and LO-Fi re-mixes. It is one of the only libraries to include different time signatures (3/4, 5/4, 6/8, 7/8, 12/8), and those hard to find Tom-Tom and Sidedick grooves. All the loops have been “pre-tweaked” for synchronization at the listed tempo, saving you a lot of time.

Burning Grooves offers versions of the grooves played without kick drum and without snare drum for unprecedented flexibility in customizing the loops to your music. This allows you to create your own kick or snare patterns within the loop, breakdowns and makes it easier to layer Burning Grooves with other loops. Separate fills and intro loops are available to help smooth transitions, and create the “live vibe”. The fills and grooves don't have any Cymbal Crashes limiting their usefulness. Add your own when you need them.

The *CD-ROM* version includes “Smokin’ Kits” – an entire drum hits library! These are some of the punchiest and most expressive kits ever assembled, since they were sampled within a musical context. If you're looking for attitude, search no further. Where there's smoke, there's fire!

*CD-Audio* (grooves only) ................................................................. **99.95**

*CD-ROM* (Roland, SampleCell, Akai/Emu/U/Asr, Kurzweil) Includes Audio CD, Grooves & Smokin’ Kits ......................................................... **189.95**

**Liquid Grooves Groove Control**

The unique and inspiring grooves from the timeless library “Liquid Grooves” are now available in a Groove Control version. This revolutionary new method allows you to mix and match grooves in any tempo, and will even follow tempo changes from your sequencer. Groove Control also allows you to easily change the pattern, feel and pitch of the rhythms to your music simply by using the MIDI editing capabilities of your sequencer. Imagine being able to tune the Wavedrum grooves to the key of your song in real-time, without the rhythm changing! You can also program your own original patterns and fills with the same sounds and mixes from this library.

If you're new to Liquid Grooves, this is the only version you will need. If you're an existing Liquid Grooves CD-ROM user, you can upgrade to the new Groove Control version.

*CD-AUDIO* Grooves only................................................................ **99.95**

*CD-ROM* Complete library (Roland, Akai/Emu/Asr, Kurzweil and SampleCell) ........................................... **189.95**

**GROOVE CONTROL**

ILIO and Spectrasonics have teamed up to create Groove Control activated libraries that give you independent control over the tempo of live, stereo sampled loops, without affecting pitch. What’s more, you can use your existing sampler and sequencer.

Change a straight backbeat groove into a funky shuffle with just a few clicks. If a drummer’s performance was a little too laid back for you, simply quantize it a little. Let’s say your bass line riff is pushing too hard against the kick drum – just nudge the kicks over until they’re “on the money.” Or completely change the pattern.

Simply load a groove from the *CD-ROM* into your sampler, then open the included sequence on your Mac or PC, and you've got Groove Control. Since you're already working in the sequencer of your choice, there's no learning curve. It just works! And since it works inside your sequencer, the grooves automatically follow your tempo changes. Plus, you can use MIDI controllers to automate mix levels, filter sweeps, drum tunings, or you can stack many different layers of grooves on top of each other, automatically locking them to tempo. It all adds up to unprecedented control and inspiring flexibility.

The first Groove Control activated libraries will feature some of the most famous drummers and percussionists in the world - names like Gregg Bissonette, Alex Acuña, Bashiri Johnson, Bob Wilson, John Ferraro, Eric Bosman and many more to come!

**How Do You Use Groove Control?**

1. Find the groove you want to use.
2. Load the Groove Control version of that groove into your sampler.
3. Load the corresponding Groove Control sequence into your sequencer.

That's it! Once you copy the sequence into your own song, the groove automatically snaps to tempo. Feel free to quantize, alter the feel, change time signature, change drum tunings, or even layer more grooves. Do whatever you want, and your Groove Control groove will follow right along!
**Distorted Reality 1**

Produced by Eric Persing, Distorted Reality is a one-of-a-kind library that explores an experimental world of extraordinary colors. This is quite possibly the best selling professional sample library of all time.

Featuring Cutting Edge Textures, FX, Batterie and Loops; from altered 3-dimensional atmospheres transformed via true harmonic Sound Morphing, to incendiary fuzz mutations exploding with corrosive energy. Trance-inducing ambiances, visceral grunge loops, enormous modular drones and astonishing timbral contortions make this an essential resource for the producer, composer, sound designer and industrialist in search of the magic noise!

- **CD-ROM** Complete Library (AKAI/Emu, Roland) ..................189.95

**Metamorphosis**

Get ready to take it to the next level. Acclaimed producer Eric Persing’s newest creation features an entire library of his trademark, cutting-edge loop manipulations. Each one of the hundreds of amazing remix grooves are truly unique in texture and feel. From floating, atmospheric Trip Hop pulsations, to experimental euro-club beats... and all the way to intense, Drum ‘N Bass fury, this is an extremely versatile library for creative film composers, producers and remixers. The latest tools like Reactor, Reason and over 100 hardware and software devices were used and abused to great effect in the development of this remarkable library. The processed rhythmic inspirations range in tempos from 50 to 180 BPM and beyond.

For the first time on any library, every groove is presented three different ways: First as a standard loop, then in innovative, tempo-matched Groove Menus which offer amazing real-time groove layering at any tempo, and most importantly in Groove Control activated versions. There are literally thousands of combination possibilities right at your fingertips.

Metamorphosis brings a one-of-a-kind sonic palette to the already powerful combination of Groove Control activated products. Because of the three unique approaches presented, Metamorphosis is much more than simply a collection of inspiring loops — it’s an invaluable creative tool for forging your own rhythmic innovations for years to come.

High resolution WAVE files of all the loops are included on the Mac/Windows Data Disc - both for auditioning in Soundfinder, and for direct use in software like Acid, Phraser, Logic, Cubase, Reason or Pro Tools!

- **CD-ROM Multi-Disc Set** Groove Control
  (AKAI/Emu, Roland, GIGA) includes Groove Menus and .WAV files ....189.95
- **CD-Audio** Loops only..............................................................99.95

**Distorted Reality 2**

The legacy continues. An audible feast of colors created with the very latest in sonic sculpturing technology. After three years of intense development, you can be sure that fresh inspiration is in abundance. Spinning metallic textures, singing oceans, vast amounts of unique loops (50-480 BPM!), crushing impacts, glorious pads, crystalline galaxies, subsonic low-end and the many joys of feedback only begin to describe this wonderful collection. Sound Design techniques include:

- neural network processing, Meta synthesis, physical modeling, transform multiplication, enharmonic and cellular morphing, sonic dispersion, additive, convolution, Hyperprism, transwave cycling, phase vocoding, harmonic stretching, and Virtual Analog synthesis.

- **CD-ROM** Complete Library (AKAI/Emu, Roland) ..................189.95

**Vocal Planet**

An epic five disc CD-ROM set produced by Eric Persing and Roby Duke, with an awesome variety of over 12,000 samples of male and female singers. These incredible one-of-a-kind sounds have all been pre-cleared for your musical use without any additional licensing fees! The main categories on Vocal Planet are:

- **GOSPEL:** A collection of Black Gospel Choir multisamples, shouts, hums, praises and phrases, Urban Youth Choir, Claps, Snaps and Stomping samples and loops, Worship Ambiences, Holy Spirit moaning, soloists and screamin’ preachin’!
- **R&B/DANCE:** Greasy multisampled background licks available in Chromazones, Souful R&B phrases from the top LA singers, Doo-Woppers, Hip-hop and DJ boasts, scorching Dance hooks and shouts, “street corner” acapella groups and hundreds of human percussion grooves!
- **JAZZ/BLUES:** Incredible jazz vocal ensembles (ala Take-6) - multi-sampled doos, dahs, babs, accents, sfx, bends and FX - Scat singers, Base Vocal phrases and multisamples, Sampled Jazz Vocal Chords with intelligent voice leading! Songs and stories from moaning Mississippi Delta Blues men!
- **VOCAL FX:** Wild mouth noises, Rock ‘N’ Roll screamers, hambone loops, breathing, chaotic utterances, strange vowel drones, sfx, animalistic noises, thousands of vocal percussion samples, processed vocals, yells...

**WORLD:** Tuva throat singers, Colombian, Peruvian, Brazilian and Mariachi yelps, Native American chants, Rastafarian toasting, haunting Indian vocalizing, ethereal phrases, ancient sacred singing, Serbian and Middle Eastern wailing, Nordic folklore, Black Sea, Balkan, Zulu chants, Yodelers, Saharan, Macedonian, Qawalli, Himalayan, Gaelic and Celtic folk songs and more.

Includes a Mac/Windows Data CD with a Soundfinder system for quickly finding the right phrase. Groove Control allows you to independently change the tempo, feel and key of more than 175 Human Percussion loops from your sequencer. A bonus Vocal Planet Rebirth mod is included too!

**CD-ROM** Set (more than 8 hours of audio material)
- **AKAI** (compatible with Giga and software samplers), Roland ..........379.95
World renowned composer Hans Zimmer is currently experiencing the most prolific time in his distinguished career. In 1994, Zimmer created the score for the phenomenally successful film, The Lion King, Disney’s highest grossing animated film of all time which also proved to be the most successful soundtrack in the history of Walt Disney Records, selling over 12 million copies worldwide.

Zimmer is a pioneer in the use of digital samplers and synthesizers, advanced computer technology, electronic keyboards and their integration with the traditional orchestra for film and television. He began his career as a composer writing jingles and teamed up with Trevor Horn and Geoff Downes as “The Buggles” to produce the worldwide hit, “Video Killed the Radio Star” and subsequent album “The Age of Plastic.” Among Zimmer’s musical achievements: The Last Emperor, Nature and the Beast, Wonderland, Burning Secret, A World Apart, Rain Man, Black Rain, Driving Miss Daisy, Bird On A Wire, Days of Thunder and Pacific Heights, Green Card, Thelma and Louise, Backdraft, Radio Flyer, Thriller, K2, The Power of One, A League of Their Own, Toys and True Romance, Cool, I’ll Do Anything, House of Spirits, Drop Zone and more...

Hans Zimmer Guitars Vol. 1

For the first time, Oscar & Grammy award winning film composer Hans Zimmer releases sounds from his private sample library. These powerful guitar textures are more detailed & expressive than any other Guitar library, with patches containing up to 12-way velocity switching, allowing for such nuances as dynamically-controllable string slides, pops & harmonics.

The versatility of this collection is unmatched, ranging from a wide variety of pristine acoustics, vintage Telecasters, 32 meg leads, to a rare $12,000 Paul Reed Smith collector’s edition “dragon” guitar! This outstanding library also includes Guitar grooves presented in every key signature and multiple tempos.

The current version of Zimmer Guitars vol. 1 adds three additional new acoustic guitars - sampled without vibrato, in multiple dynamics: a beautiful new Nylon string, 6 string Folk Steel string & the unique Parker “Fly” Electro-Acoustic guitar. Also featured are major & minor acoustic guitar strum samples. These articulations are available in steel and nylon string versions, with both up and down strokes!

Hans Zimmer’s relentless pursuit of the ultimate samples for his private library has fueled his rich sonic approach on his scores for: The Lion King, The Rock, Crimson Tide, Broken Arrow, Rain Man, Driving Miss Daisy, Cool Runnings, Black Rain, True Romance, Thelma & Louise, A League of Their Own, Toys & many others.

CD-Audio .................................................................................. 99.95

Hans Zimmer Guitars Vol. 2

A new volume of expressive instruments created for Hans Zimmer by veteran sound designer Bob Daspit. Many of the instruments feature velocity switching up and down slides, in addition to a new method for controlling vibrato with dynamics. Among the distinctive sounds are great new pop sounds including a rich, moody Jazz Guitar - a spirited 1909 Gibson A2 Mandolin - a 1947 Lap Steel Slide guitar for that Ry Cooder vibe - the Coral Electric Sitar, originating in the sixties, and revived by Pat Metheny - the deep twang of the Electric Baritone - and finally, a brand new Steel String Acoustic guitar that will become the most indispensable sound in your collection.

Among the most exotic instruments from South America are the Cuatro, a hollowed-out single piece of wood with 4 sets of strings that create shimmering tones with great sustain - the Charango, made from the body of an armadillo with round, sparkling tones - the Cavaquinho, a high pitched guitar whose characteristic tones possess great depth - and a bold Flamenco Nylon guitar whose tones, tremolo and rasgando will ignite passionate compositions. Perhaps most rare in this collection are the string sounds of the Middle East (created for The Prince of Egypt score), including the Oud, a fretless 12-string with an Arabic accent - and the unusual Yavl Tambur, a long necked instrument capable of haunting drones and plucky melodies.

CD-ROM Roland, AKAI/Emu, Kurzwell & SampleCell ................. 284.95

Bizarre Guitar

If you’re a fan of the music and textures of Daniel Lanois, Brian Eno, Robert Fripp, Bill Frisell, Edge and Adrian Belew, this is a library you will not want to miss. This unique collection from visionary Guitarist Peter Maunu and Sound Designer Eric Persing, is an ideal companion to the Distorted Reality series.

Bizarre Guitar blazes a new frontier of Sound Design via guitar. It features the extreme contrasts of breathtakingly beautiful ambience beds to searing harmonic slashes, strange funk and unsettling washes. Created with tape loop techniques, e-bow, cutting edge signal processing tricks and the Roland VG-8 guitar system, these textures are truly one-of-a-kind.

The CD-ROM versions include the Audio CD and Groove Control method. This allows you to independently change the tempo and key of the rhythmic guitar loops, right from your existing sequencer!

CD Audio (w/o Groove Control) .................................................... 99.95

CD-ROM with Groove Control (Roland, AKAI/Emu, Kurzwell and SampleCell samplers, with sampler CD-ROM and Audio CD/Mac/PC CD-ROM) .......... 189.95
**American Heartland**

If you need a resource for all things acoustic, then you won’t want to miss this library. American Heartland is a tour through the backroads of American culture, overflowing with a variety of earthy stringed, wind and percussion instruments. These multi-samples were performed by experienced musicians and recorded with authentic vintage equipment to capture the true nature of grass roots music. The most complete approach to presenting these acoustic instruments.

You’ll get Mandolin, Moutain Dulcimer, Dobro Slide, Pedal Steel, Banjo, Harmonicas, Pump Organ, Upright Bass, Tack Piano, Drums and more! This disc has lots of multi-sampled notes and chords plus some tasteful licks as well, to add a little cross-country flavor to your music. Perfect for that “unplugged” sound as well as for Folk, Rock, Country, AAA, Blues, commercials, soundtracks – or wherever that old country road takes you.

**CD-ROM AKAI Universal (Giga, Software Sampler Compatible), AKAI, Roland, Emu EOS, SampleCell, Kurzweil, Yamaha..........................189.95**

**Interactive Drum Kits**

Following numerous requests for a straight-ahead drum disc - kits only, no loops — the producers of this set have obliged with an aggressively purist approach that expands the boundaries of conventional drum kit discs.

Interactive Drum Kits is dedicated to capturing the purity of the world’s best studio instruments. Kicks, snares, toms, hats and cymbals, from the vintage Ludwig, and Gretch sets to new top of the line Pearl and Drum Workshop kits, these are extremely realistic drums that you can wack from your keyboard or with your drum pad/triggers.

It takes more than a great drum kit to make a killer CD-ROM. It takes a seasoned performer to massage the best colors out of the instrument. The producers enlisted the talents of Toss Panos (Toy Matinee) and Nick D’Virgilio (Tears For Fears, Genesis) to tune, balance and perform the kits.

One of the unique aspects of this collection is the assortment of interchangeable snare programs. They feature upwards of 20 to 50 hits per snare, from center, to edge, to rim. When you load a single snare menu program, you get all the hits and nuances laid out for you, including drops, flams and ghost notes. It’s almost impossible not to get a life-like track out of these drums.

“. . . my new favorite drum sample collection... a drum collection that, with a little effort by the user, can be used to create extremely convincing drum tracks... for a drum library with which to create frighteningly realistic drum tracks, you owe it to yourself to audition Interactive Drum Kits & Snares” – KEYBOARD Review, Awarded Key

**CD-ROM AKAI Universal (Giga, Software Sampler Compatible), AKAI, Roland, Emu EOS, SampleCell, Kurzweil..........................189.95**

**Concert Grand Piano**

Tour the world’s top recording studios and you’ll notice more and more Yamaha Concert Grands showing up in the corners of these exquisite rooms. Unlike a lot of European and American concert grans, Yamaha pianos have become the choice of many studios and musicians because of their clarity and low-to-high consistency when going to tape.

Sonic Reality has successfully captured these instruments in this very well conceived and executed collection. A Yamaha C7 recorded in-studio and a CFIIIs 9’ grand recorded on a well-known scoring stage. Pedal down notes with resonating harp included. These pianos respond beautifully to 88 note weighted controllers. Each dynamic is provided in stereo or mono – can be loaded together or individually for maximum flexibility with your setup. A slew of programming options for loud or soft music…useful variety of memory sizes ranging from 10 to 128 mgs.

Concert Grand Pianos also boast the best sustain loops of any piano CD-ROM, with enormous, long sustains that rival the real thing. These pianos play beautifully and will add richness and depth to your tracks.

**CD-ROM AKAI Universal (Giga, Software Sampler Compatible), AKAI, Roland, Emu EOS, SampleCell, Kurzweil, Yamaha..........................189.95**

**Interactive String Sections**

Beautifully recorded Violins, Violas, Celli and Basses in a variety of playing styles, including legato, marcato, staccato, pizzicato and tremolo for solo, medium and large sized ensembles. Recorded with minimal room ambience, these strings were designed for use with your own external processing — allowing for tremendous flexibility.

You’ll get performance oriented styles with separate or integrated arco attack elements, interactive timbre control and several types of alternate double bowing techniques to enhance the realism of your string parts. Combine solo and duos strings to create trios, quartets or quintets. Layer these elements with the full string sections for more texture and nuance. And now, it’s now better than ever. Get more sections, articulations and effects variations – and even more detailed programming!

“Well-recorded samples. Ensembles of varying sizes allow building your own string orchestra in modular fashion. Thoughtful programming in the section patches, as well as in the multitimbral setups. Samples sound great . . . recorded with care. . . . looping is smooth. . . sound is full without being overblown.” – KEYBOARD

**CD-ROM AKAI Universal, Roland, Emu EOS, SampleCell, Yamaha..........................284.95**

AKAI Universal format made for superior compatibility with Giga and Software Samplers.

**CD-ROM Deluxe Edition AKAI, Emu EOS..........................379.95**
Compatible CD-ROM one affordable disc. Shimmering bells, vocal textures and other inspirations are packed onto this high performance collection. Special features include virtual rhythm guitars that can be strummed in any key and any tempo with a wide variety of chords. Extra “in between” guitar performance elements like note/chord stops, fret slides and other sounds are mapped for use with all the chords when used in MIDI omni mode.

Plenty of GM mapped drum kits and percussion make it simple to swap sets within your songs. Silky pads, a huge variety of classic and synthesized electronic pianos, deep basses and a wide variety of musical instruments and effects are packed onto this high performance collection. An indispensable tool for songwriters, composers, R&B artists, producers and anyone looking for a wide variety of instruments available from just one affordable disc. Shimmering bells, vocal textures and other inspirational sounds. Produced by Dave Kozner.

Miroslav Vitous

Solo Instruments I

This disc contains Bassclarinet, Bassoon, Basstrombone, Clarinet, Contrabassoon, Trombone, Trumpet, Viola and Violoncello—all in the highest quality. Very expressive. This is the first of two Solo Instrument discs—a must for anyone wishing to emulate orchestral solo performance.

CD-ROM Roland, AKAI, Emu EOS, SampleCell, Kurzweil, Giga native……………………………………………………………619.95

Solo Instruments II

This disc contains Alto flute, Contrabass, English horn, Flute, French horn, Oboe, Piccolo, Tuba, and Violin. This is the second Solo Instrument disc, which again contains the most expressive and musical orchestral samples on the market today.

CD-ROM Roland, AKAI, Emu EOS, SampleCell, Kurzweil, Giga native……………………………………………………………619.95

String Ensembles

This huge undertaking contains 11 Violins, 23 Violins, 4 Violas, 4 Violoncellos, 10 Violoncellos and 9 Contrabasses. Playing styles include Vibrato, No Vibrato, Mute, Detache, Pizzicato, Staccato, Sul Ponty, Sul Ponty Tremolo. Various speeds and velocities for the ultimate performance in String sampling.

CD-ROM Roland, AKAI, Emu EOS, SampleCell, Kurzweil, Giga native……………………………………………………………795.00

Woodwind and Brass Ensembles

This disc contains 3 Flutes, 3 Bassoons, 3 Clarinets, 3 Oboes, 3 Trombones, 3 Trumpets, and 4 French horns. All the ensembles you will need to complete the Symphonic Orchestra Samples. Expressive and musical with the highest sound quality.

CD-ROM Roland, AKAI, Emu EOS, SampleCell, Kurzweil, Giga native……………………………………………………………569.00

Acoustic Piano

Contains a stereo and mono version of a European Steinway sampled by Miroslav. Concentrates more on the classical sounding, softer touches of the instrument, with a crystal clear high end. Tuned to A-440. Two velocity layers. 23 to 50 mb versions. Easily combine for even larger piano loads. Classic sound!

CD-ROM AKAI, Emu EOS, Roland………………………………………………………………………………………………………145.00

- Classical Percussion and Harp

Classical percussion and harp with a few extras included—too many to list. This disc rounds out the Symphonic Orchestra Samples with beautifully recorded instruments that will cut through your mix with impact. Recorded and edited to achieve the most realistic classical sounds.

CD-ROM Roland, AKAI, Emu EOS, SampleCell, Kurzweil………………………………………………………………………………429.95
Miroslav Vitous

**Classical Choirs**

At last, the first release from the legendary Miroslav Vitous since his groundbreaking Symphonic Orchestra Samples library. Classical Choirs has all the realism and depth you’ve come to rely on from this master musician and producer.

Gorgeous multisampled male and female choirs designed for large-scale choral settings, the vocal talent is immense, hailing from the rich classical traditions of Eastern Europe. 16 Men and 16 Women were recorded separately and together as a mixed chorus at the Rudolfinum Dvorak Concert Hall in Prague, with some additional recordings captured in a smaller setting nearby. The recording quality is superb – the talents of the best engineers using fabulous mics and converters to create clear, smooth and quiet recordings.

The men were recorded in three dynamics, ff, mf and mp, singing the long sustained open vowels (Ahs, and Ohs). There are Oos, Ehs and Es, plus pianissimo and mezzo forte Brumendos (M ms). Additionally there are Oh Expressivos and Staccato Gohs.

The women contributed dynamic renderings of Ahs, Ohs and Oos plus pianissimo and mezzo forte Brumendos, Expressivo Oh and Staccato Gohs. The mixed choir features Ahs, Ohs, Uhs and Brumendos, in a mixture of octaves and unisons.

Another feature unique to this library is the inclusion of multi-sampled syllables, sung in both Porto (short sustained) and Staccato articulations. These syllables are offered chromatically and include do, re, mi, fa, so, la, si, mu and many more. In the Giga version, these are keyswitched to allow for fast and complex multi-syllabic passages, but in any platform this variety of utterances will provide an unprecedented reality when composing vocal performances.

Miroslav also includes a wide variety of vocal effects, like speech, murmuring, laughing and crying the quality of which you can only get from a well-trained ensemble of this caliber.

**Symphonic Orchestra**

The Miroslav Vitous Symphonic Orchestra is the standard by which all other libraries are compared. It was the first to convincingly capture the nuances of the orchestra through multiple articulations and highly detailed multisampling. Vitous applied his famed skill as a musician with his academic but practical knowledge of the orchestra to create a masterpiece.

“The sounds are the result of an intense and uncompromising process of playing and recording ... many hours of editing. Each instrument was played in a variety of ways in the studio and the symphonic hall ... to achieve the spatial positioning of a true symphonic experience. The true blending of harmonies can only come from instruments interacting with one another ... painstakingly achieved after hours of the most demanding recording sessions. I can assure the composer/producer that these orchestra and solo sets are the most realistic and expressive instruments that can be electronically produced.” - Miroslav Vitous

**CD-ROM** 5-disc set AKAI, Roland, Emu EOS, SampleCell, Kurzweil and Giga native.................Call

---

**Mini Library**

A less expensive option for those who still want the highest quality in orchestral samples. Provides the very basic performances of all the instruments in mono, composer banks included. Composers looking for samples to use in their classical music may want to check out the M other library. Those of you looking for more “basic” orchestral sounds will find lots to choose from in the Mini Disk.

**Phat Fingers**

Produced by Dan Portis-Cathers, this collection delivers hundreds of funkified guitar and bass patterns, slides and fills arranged into over 30 song construction kits. The grooves are incredibly tight, tempo locked and tuned to the key of the song. Most songs consists of bass patterns, slides, fills and some endings, guitar patterns, and occasional lead solos.

Tempos range from a very greasy 75 to a blistering 160 BPM. The grooves are performed by famed axe wielder Shane Roberts, a funk and fusion fanatic who plays regularly withphenoms Stan Lassiter, Reggie Wooten, drummer Chester Thompson and sax player Jeff Coffin. Imagine combining his riffs with Spectrasonics’ Retro Funk or Backbeat drum libraries and Memphis Horns!

By far the most ambitious in the Fingerstyles Series, this project includes a wide range of funk and fusion styles – with influences from James Brown and Curtis Mayfield, P-Funk and Soul, to Reggae, New Jack Swing and edgy Rock/Funk Fusion a la Primus. Often hard driving, sometimes smooth and sexy, but always with a lot of phat and grease.

**CD-ROM (includes Audio CD)**
AKAI (Giga, Emu, Software Sampler Compatible) .................................. **189.95**

**CD-Audio** .................................................................................................................. **99.95**

**Fretworks**

Featuring Legends of the Fretboard, this CD boasts an impressive roster of musicians playing an intriguing variety of stringed instruments, including Hiram Bullock on 6-string, 12-string and slide guitar, Nunzio Signore on a vintage 6-string Gibson, Mr. Bill Simms on his National Steel, C Nausbaum on mandolin, Nat Harris on guitar and Doug McCaill on his custom baritone guitar.

This collection is a journey “off the beaten path”, capturing the soulful essence of Delta blues, Appalachian folk, and the roots of rock, bluegrass, swing and shuffle. The performances were recorded in a musical context with all of the raw energy and “happy accidents” that make a track live and breath. The phrases are tempo-tuned for easy sequencing, and most are provided in several tempos for flexibility. Divided into four or eight bar patterns and free-style riffs, they can be strung together in countless ways to create your own unique solos. The vast musical experience represented in these fine performances will bring your tracks to that next level of quality and musicality.

**CD-ROM (includes Audio CD) .................................................................** **189.95**
AKAI (Giga, Emu, Software Sampler Compatible), Roland..................**99.95**

**FingerStyles**

The most authentic Acoustic Guitar library ever created, this approach to Acoustic Guitar sample libraries is so useful, that you’ll wonder why no one had thought of it before. Produced by Dan Portis-Cathers (Hot Steel Blues, Phat Fingers, Spectrasonic’s Heart of Africa), Fingerstyles consists of Guitar Patterns, Melodies, Cadences and Endings arranged in Construction Kits which can be assembled and overlaid to create complete, seamless tracks.

Music styles include New Age, Blues, Folk, Country, Pop, Ballad, Rock and others – nearly 40 compositions in all, each with as many as a dozen strums, riffs, patterns and melodies. Plus you get a variety of additional strummed chords, including extensions, for more flexibility. Quickly create full-length, ultra-realistic guitar parts. It’s the perfect solution for soundtrack composers on a tight schedule, or anyone looking to add rich sounding fingerstyles to their mix. The six string acoustic steel is expertly played and recorded, and each performance is tempo-tuned so you can sequence the patterns with complete confidence.

**CD-ROM (includes audio CD)**
AKAI (Giga, Emu, Software Sampler Compatible), Roland.................. **189.95**

**CD-Audio** .................................................................................................................. **99.95**

**Hot Steel Blues**

Following in the footsteps of the legendary Fingerstyles guitar library, Hot Steel Blues reveals a soulful Blues attitude with low-down and greasy riffs played by legendary guitarist Terry Robb (Steve Miller, Buddy Guy, John Fahey) and produced by Dan Portis-Cathers (Fingerstyles, Phat Fingers, Heart of Africa).

You’ll find over 800 phrases divided into Patterns, Melodies and Endings and arranged into Construction Kits that can be assembled and mixed to create complete, seamless tracks. Both “plugged” and “unplugged” styles traverse the entire Blues genre, from Waters to Clapton.

These hi-fi riffs and licks were recorded using top-notch mics and preamps. Both acoustic and electric guitars are featured, including a Martin 000-28, a 1920’s Weissenborn lap slide, a Gibson B25 upright slide, a Laguna L-29, a Fender Duo Sonic, and Fender Stratocaster. Both solid state and tube amps were used get that classic, fat and furious sound.

This combined with Robb’s unbelievably tasty playing makes Hot Steel Blues the most authentic, and musical, Blues guitar library to date!

**Skippy's Noizbox**

A new drum loop library from John "Skippy" Lehmkuhl, the creator of the hugely successful Skippy's Big Bad Beats - well-known worldwide for his amazing feel, sound and the astonishing variety of loops his mind can conjure up. Noizbox has more processed elements with an aggressive Euro attitude. Solid and inventive grooves.

More than half of Skippy's Noizbox is over 120 BPM, and features a vastly creative palette of Hi and Mid-Fi sounds, skillfully woven together in Skippy's unmistakable style. Of course, it's also 100% Groove Control activated, so you can manipulate all of this spectacular sound and groove design any way you like!

Every groove is provided with several different mixes; grooves are separated into thorough Construction Kits. When you play all of the elements together, you can fully recreate the Full Mix version of the loop, with no missing parts! This is a rarity for Construction Kit libraries.

If you're not familiar with the work of this self-described loopaholic, you owe it to yourself to check out both Big Bad Beats and Skippy's Noizbox!

---

**Stark Raving Beats**

Here's a wicked set of hard and fast grooves, based on live drum kit performances, mixed and remixed with wildly processed electronics and banger percussion. 100% Groove Control activated for endless tempo, feel and mix possibilities, SRB will bring out the monster in you!

All Go, No Slow! SRB starts at 105 BPM and accelerates to 170. Speed it up further with Groove Control! Every groove has an aggressive style that can burn rubber at any tempo. Great for Progressive, Jungle and D'n'B styles, but use your imagination to dissolve, distort and destroy these gems any way you like.

Hundreds of loops to mix and match millions of ways. Its extreme separation makes it a natural to combine with Skippy's Noizbox, Big Bad Beats, Ethno Techno, or any of the Groove Control activated libraries from Spectrasonics!

Performed and remixed by loopologist Chris O'Brien. SRB fulfills your need for speed and passion for aggression!

**Skippy's Big Bad Beats**

From the mind of groove guru John "Skippy" Lehmkuhl. This funkified library combines old school attitude with totally new grooves, presented in ultra hi-fi sonic fidelity to light your tracks on fire. Not just another remixed loop library, BBB gives you tons of new grooves (66BPM - 145BPM) each with multiple mix variations, including full mix, simple mix, no kick, no snare, high-end only, old record mix and more, so you can actually write a complete song with breaks and turnarounds. And with Groove Control, your options for changing tempo, feel and mix are truly limitless.

The sounds are fresh, fat and in-your-face. The grooves will hit you where it hurts. The loops are perfect for R&B, Nu-School, Hip Hop, D'n'B, Techno, Acid Jazz, Trip Hop, Modern Break Beats or any style you can dream up when using them with Groove Control. It also features multi-sample menus made with groove slices.

If you're looking for some very 'now'-sounding drum loops and need maximum flexibility combined with easy access, Big Bad Beats will not only deliver but might even represent the future of the sample CD.

**Ethno Techno**

Produced for ILIO by Eric Persing, this is Bashiri's first sample project since his ground-breaking Supreme Beats percussion library. Features hundreds of astonishing loops from the mind of one of the world's masters of timing and feel.

One of the great features of this collection is its use of custom invented, hand-made instruments with interesting names like Kissing Fish, Double Drink, Tributaries, Galaxy, and Satellite Flashdance. Other off-the-wall sounds include Computer Cans, Styrofoam w/Spring, Plastic Pail, Pipes, Toy Cow, Metal Sheet, and Garbage Can. Combined with ethnic instruments like Bamboo Slits, M inc Dumbek, Udu, Cora, Talking Drum, N igerian Bata, Surdo, Shak ers, Tam Tam, Angklung, Sabar, Waterphone, Mini Djembe, Dun Dun, and Serimba, this disc is a glorious journey through heart-pounding terrain.

Tempo range from to 70 to 166 BPM. The range of sultry rhythms with origins from all corners of the world, but evolved to a place that is definitely extra-terrestrial.

**Keys To The City**

Look no more for an intelligent way to get the hottest studio production elements into your tracks. Keys To The City was created and produced by one of the fastest rising stars of the keyboard, Michael Bearden. This library delivers tons of synth and keyboard grooves organized into multi-tracked compositions. The grooves are provided as complete mixes and individual elements for astounding flexibility – perfect for Dance, Hip Hop, R&B, Pop, Funk and Electronica. The sound is first class. The Bass-ment grooves are all individual bass lines that can be used alone or to accompany Studio loops - which are single layer comps, Duplex - which are dual layer grooves, Triplex, three layer grooves, or Penthouse which contain four or more layered parts.

Michael’s enormous talent has catapulted him to the top of the industry, recording and performing with the likes of Jennifer Lopez, Destiny’s Child, Madonna, Michael Jackson, Brandy, Whitney Houston, Lenny Kravitz, Stevie Wonder, Christina Aguilera, Ricky Martin, Babyface, and so many more. He’s also frequently called by Paul Shaffer to substitute for him on the Late Show with David Letterman.

**TranceFusion**

Fast becoming a cult classic among remixers, electronica gurus, composers and producers, TranceFusion is an indispensable collection of sonic mania for adding drama and intensity to any music. Trancefusion is hundreds of noise sweeps, spectral climbs, glides, fills and morphs. Other tricks include percussion sweeps, swell-stabs, vocal rantings and big hits to spice up your transitions, plus rave and trance style arpeggios and pads.

The whole purpose of this disc is to energize your tracks. By layering one of these massive glides or climbers at the end of an 8-bar loop, for instance, you can trigger that crucial, thrilling emotional reaction in your audience as they anticipate another slamming 8-bar beat. Many of the sweeps start softly, climax and fade slowly. Others have hard starts, ramping up to full intensity and stopping cold. Many are pitched glides (a la THX), while others are noise-based or searing reso-sweeps. All of them are thick with movement and intensity.

Build screaming transitions from one groove to the next, to carry the groove into a break or to add some unexpected madness to the mix.

**Digital Boy: Modern Synths and Dance**

Jam-packed with over a gigabyte of powerful, evocative sounds, this 2-disc CD-ROM set lets you focus on what’s important – your music. Modern Synths and Dance is extremely well programmed, for expressive, spine-tingling performances.

Swirling, evolving atmospheric synths and lush, dreamy pads; huge, intense analog/digital hybrid stacks and haunting synth voices; snappy, high-energy reso-sweeps and dramatic filter sweeps; funky, “old school” analog synths and booty-shakin' basses; “in-yo-face” hits, stabs, and industrial FX; a vast assortment of super-pop synths including bells, brass, claves, organs, electric pianos, and lead synths; essential acoustic sounds such as guitars, strings, brass, and more; and the most extensive collection of hard-hitting contemporary drum and percussion sounds ever assembled.

Almost all the sounds are extensively multisampled (in stereo of course) making them consistent and playable across the full range of the keyboard. Each sound’s envelopes, filters, LFO’s, and controllers are expertly programmed for maximum responsiveness and playability.

**CD-ROM** (Multi-Disc Set) AKAI (Giga, Emu, Software Sampler Compatible), Roland .................................................................285.00

---

**Analog Meltdown**

Here’s a new twist on your average synth library. Designed, engineered, blown up and re-animated by mad programmer Kevin Wakefield, Analog Meltdown has the brains of one synth and the body of another. Wakefield adds an array of mod wheels, faders, breath controllers and pedals to each program, making this one of the most playable synth libraries ever.

The sounds are wild and freakish, clamorous and whimsical. They have a unique personality, unpretentious and in-your-face. Analog Meltdown is truly the “Edward Scissorhands” of sample libraries.

A wide assortment of textures - including stunning leads, power pads, FM (no really, it’s FM!), plucky sounds, sweeps, bubbly effects, stellar grand prix, electro-shock treatments, sci-fi weapons and transporters, stingers and resonators, and more. Active sounds, designed to be featured and loud.

Caution: When handling the contents of this disc, be prepared to alter the course of your creativity due to the unpredictable effect of these sounds on your psyche.

**CD-ROM** AKAI (Giga, Emu, Software Sampler Compatible), Kurzweil................189.95
Memphis Horns
Wayne Jackson and Andrew Love have dominated the Rock, Soul and Funk scene since the 60's and to this day offer up their multi-tracked sound on tons of Billboard hits. Their list of Gold and Platinum records is impressive: Respect by Aretha Franklin, Dock of the Bay by Otis Redding, Slidehammer by Peter Gabriel, and hundreds more. Amazing Trumpet, Trombone, Baritone and Tenor sound!

Delivers hundreds of phrases in multiple keys and tempos, the phrases are presented both in their original complete form and divided into flexible short phrases, so you can easily integrate them any way you like. Styles range from Slow Soul and Passionate Pop, to Furious Funk.

Includes phrases ranging in tempo from 70 to 140 BPM, each in five harmonically related keys. You also get chromatically multisampled unisons, chords in major, minor, major 7, minor 7 and chord swells. Additionally, there's a great variety of unique brass effects like flutters, harmon mutes, tone clusters, falls and rips. Andrew also presents some of his famous solo sax work which you won't want to miss!

CD-Audio/Data CD 2-Disc Set (includes WAV files) ...............................145.00

Double Platinum Drums
An unabashed approach to West coast rock drums. Recorded at L.A.'s renowned Sound City, the drums are flawlessly recorded and mixed with both dry and room ambiances, evenly divided between multiple discs.

A jam-packed multi-disc set with over 500 loops in 40 tempo/style combinations (66 BPM to 203 BPM) with intros, time (main body), fills and endings. Styles include Rock, R 'n B, Pop, Hard Rock, Slow Rock, Metal, Surf, Funk, 3/4 Ballad, Country, Latin, New Orleans... Full fledged multi-velocity Kits include Drum Workshop, Tama, and Remo, while CD-ROM owners also get an extra Gretsch kit. Eight different snares to mix and match with, plus a vast collection of brilliant Zildjian cymbals.

Producer John Boylan, Exec Producer Tony Harris, and Engineer Paul Grupp pulled out all the stops (and the mics) to create a clean, impactful, and completely professional sound. Double Platinum Drums is a thrilling rock 'n roll joyride.

Dirk Campbell’s World Winds
Acclaimed UK composer and multi-instrumentalist Dirk Campbell brings you the evocative sounds of many rarities like the Bansuri (Indian flute), Turkish and Persian Ney flutes, Kaval (Southeast European flute), African flute, Suling Slendro and Suling Pelog (Javanese flutes), Irish Penny Whistle, Irish Low Whistle, Fujara (Slovakian Contrabass Whistle), Japanese Shakuhachi, Andean Panpipes, Armenian Duduk, Indian Shenai, Egyptian Zummar, Turkish Zourna, Gaïa Bagpipes (Greek and Bulgarian, three types), Irish Uilleann pipes (three types), Scots Highland pipes, Medieval Pradorius Bagpipes, Turkish Tulum, Arabian Mezoued, Cretan Askomandura, Czech Dudy, Nafir (Moroccan trumpet) and African Kudu Horn.

Sweet, delicate to eerie, breathy and complex... evoking the beauty, stillness, depth and mystery of the natural world. In contrast, there are the wild, strange and stirring timbres of ethnic reed instruments, bagpipes and African horns.

For film, TV and media composers, World Music, Rock, Pop and contemporary Classical composers and performers, creative keyboardists and programmers, and anyone with an ear for great instrumental sounds!

CD-ROM AKAI (Giga, Emu, Software Sampler Compatible) ..............189.95

Double Platinum Rock Piano
Finally, a piano that doesn't require tons of EQ, compression and effects to be heard. This is the industry's one and only true Rock piano, with all of the intrinsically natural brightness and depth you need to speak through your tracks. You've never heard a piano with better blending and stereo imaging.

The piano is a rare and famous vintage Steinway B, custom rebuilt and maintained strictly for studio recording. Its contribution to Rock history is etched in stone, having asserted its presence on multi-platinum records from Elton John and Tom Petty to Carl Perkins and Johnny Cash.

Chromatically sampled (all 88 keys), three velocities, looped and non-looped – an endless variety of patch combinations to choose from. The samples were recorded straight to digital on a vintage Neve console in Sound City's studio A. Paul Grupp engineered the sessions using his masterful ears and years of experience to get phase-perfect stereo mic placement. Produced by John Boylan and Tony Harris as the best two-fisted piano sound in the world — captured on one easy-to-use CD-ROM.

CD-ROM AKAI (Giga, Emu, Software Sampler Compatible), Roland, SampleCell, Kurzweil .............................................................145.00
Series 6000 - “The General”
World’s Largest Digital Sound Effects Library

Recognized all over the world as the most comprehensive sound effects library of its kind, Series 6000 represents the very best in general sound effects libraries. This staggering 40 CD collection of more than 7,500 sound effects (more than 50 hours of recorded sound), reigns supreme as the industry leader in professional audio - you simply cannot get a broader selection or more detailed coverage of the must-have categories required for daily production. Simply put, The General is the standard against which all other sound effects products are measured.

◆ The General is Sound Ideas’ signature library. It offers a broad spectrum of sound effects - including Animals & Birds, Construction, Crowds, Fire, Household, Industry, Military, Sports, Transportation, Office, Weather, and much, much more. SOUND IDEAS

GENERAL SOUND EFFECTS

Series 2000
The Series 2000 Library was the world's first collection of stereo effects to be recorded and mastered digitally. The sound quality is impressive and has set the standard for digital sound effects production worldwide. This collection of 22 CDs is invaluable on its own, or for added power in the studio. Works in perfect harmony with other Sound Ideas sound libraries.

2001: European FX: Ambiences, Crowds, Automobiles
2003: Traffic, European Telephones, Horses, Trains, Restaurants, Fairs, Crowds
2004: Airplanes, Animals, Automobiles
2005: Applause, Crowds, Laughter
2006: Automobiles
2008: Children, Clocks
2009: Chainsaws, Construction
2010: Dentist Sounds, Doors, Explosions, Fire & Fireworks, Guns, Arcades, Fairs & Roller Coasters

2011: Footsteps - Stone, Concrete, Pavement, Dirt, Grass, Hardwood, Leaves, Linoleum, Metal, Sand
2012: Footsteps - Sand, Snow, Water, Wood, Metal & Garbage, Farm & Tractor Sounds, Babies, Punches
2013: Helicopters, Hospitals, Squeaks, Sirens, Alarms
2014: Household & Industrial Sounds
2015: Motorcycles, Dune Buggies, Lawn Trimmers & Mowers
2016: Boats, Marine Sounds, Newsroom & Office Sounds
2017: Musical & Percussion Instruments, Whistles, Noisemakers
2018: Rain, Thunder, Bar & Restaurant Ambiences, Soda Fountains
2019: Space Sounds, Shopping Malls, Stores
2020: Sports, Military Tanks, Cannons & Battles
2021: Traffic, Trucks
2022: Water, Zippers

Series 2000 (22 Audio CDs) ........................................... $589.95

SFX Kit
This massive collection — 20,000 sound files in .wav file format — is especially designed for the game and interactive entertainment industries. Produced by Tommy Tallarico, one of the most successful and accomplished video game composers in history, this essential and wide-ranging library contains 7 CDs of .wav files in 110 different categories, plus a searchable data disc - all configured for easy use with Mac and Windows systems.

TSK-01 (1561 FX / 424 MB): Airplanes, Automobiles, Doors, Machinery, Misc. Transportation, Steam, Trucks
TSK-02 (1725 FX / 512 MB): Alarms & Beeps, Ambiences, Foley, Menu FX, Pickups
TSK-03 (9,073 FX / 509 MB): Bodyfalls, Footsteps, Human Vocals
TSK-04 (2,606 FX / 414 MB): Monsters & Creatures, Mystical & Magic FX
TSK-DATA: The Data Disc

The SFX Kit Data Disc contains data files in the following four formats: MS Excel, comma separated text, tab delimited text, and a fully functioning version of FileMaker Pro version 5 that offers a searchable interface. Simply use the MS Excel or text files to import the collection's data into your own search software, or fire up the FileMaker Pro version to perform searches immediately. The Data Disc is compatible with Mac and PC. Place the disc in your CD ROM drive and either copy the MS Excel or text files to your hard drive for import, or follow the instructions for setup and use of the FileMaker Pro search software.

SFX Kit (8 CD-ROMs) .................................................. $589.95
BBC SFX Library
British and International Sound Effects

The BBC Sound Effects Library gives you a limitless resource of sound. Meeting the highest industry standards, BBC offers a wide selection of sound effects recorded by BBC’s top engineers. The original 40 CD series comprises a full complement of exterior atmospheres, household, interior backgrounds, comedy, fantasy, humor, communications, water, industry, cars, hospitals, equestrian events, livestock, agricultural machinery, horses, dogs, schools and crowds. The second edition, offers an astonishing variety of professional quality sound effects, as well as international sounds and ambiences, from countries in Europe, Asia & South America.

De Wolfe SFX Library

A very special blend of general and European sounds together in one collection, De Wolfe is an exceptionally well recorded digital sound library that provides over 2000 effects on 23 CDs, and with great new sounds being added to the library on a regular basis, this is a library that can grow on you.

Combined with De Wolfe’s wide selection of ambience, transportation, domestic and comedy sounds are unique sounds like sailing a 18th Century Clipper Ship, the inside ambience of a Zeppelin and Harrier Jets on the attack. The versatility and professional quality of this library makes this collection a must for all audio professionals.

L2 SFX Library — General Collection from Hollywood

Produced by award-winning Hollywood sound designer Frank Serafine, the L2 SFX Library, is a must for everyone in the sound industry. Mr. Serafine is credited with the development of many digital audio techniques heard in blockbusters such as Star Trek, Lawnmower Man, The Hunt for Red October and Virtuosity. This innovative 10 disc set offers effects in eight exciting categories: animals, electricity and static, industrial (double disc), metal, science fiction (double disc), supernatural, transportation, and water. L2’s documentation provides clearly defined titles for each effect as well as more comprehensive descriptions of the sounds.

1: Animals
2: Electricity & Static
3: Industrial #1
4: Industrial #2
5: Metal
6: Science Fiction #1
7: Science Fiction #2
8: Supernatural
9: Transportation
10: Water

L2 SFX Library (10 Audio CDs) ................................................................. 495.00

Audio Pro SFX Library — General European Collection

The Audio Pro Sound Effects Library, produced by Yannick Chevalier of Point 12, offers 18 CDs of an extraordinary variety of sounds: nature, animals, airplanes & airports, trains and stations, transportation, traffic, crowds and industry, leisure & entertainment, tools, offices, communications, cameras, household, clocks, room tones, bells, sports, war, human solo, human groups, music samples, science fiction, cartoons, and footsteps. This library provides a wealth of well-recorded European sounds.

AP1: Sounds of Nature
AP2: Animals
AP3: Airplanes, Airport
AP4: Trains, Station
AP5: Transportation #1
AP6: Transportation #2
AP7: Traffic
AP8: Crowds, Industry
AP9: Leisure, Entertainment
AP10: Tools, Office, Communications
AP11: Household
AP12: Household, Clocks, Tools
AP13: Room Tones
AP14: Bells, Sports, War
AP15: Human: Solo

DIGIFFECTS MEGADISC

Over 380 effects from a wide variety of in-demand categories. This CD offers a great general SFX library, all on just one disc. The Megadisc has been tailor-made for use with a sampler and is prepared for easy looping. The package also includes a sound editing guide with tips & practical advice.

Digiffects (1 Audio CD) ............... 109.95

MIXED VARIABLES

A dynamic addition to your existing general effects collections, Mixed Variables from Crossing Point is a broad spectrum, 3 CD set created by Aarin Richard, one of the industry's top sound designers and an award winning engineer. This incredible collection features a stunning array of unique ambiances, everything from sci-fi to natural settings, plus a great selection of hard effects and Foley. Numerous tracks were recorded with the Neumann KU-100 binaural head (microphone), which creates exceptional stereo imaging and depth for playback over loudspeakers and truly amazing 3D qualities when listened to in headphones - very handy for games or special applications. Other effects are spatially enhanced over two speakers, and all 579 effects were recorded through world class equipment with meticulous attention to sound quality.

- Animals
- Automobiles
- Background Ambiences
- Bells & Whistles
- Birds
- Business & Telephones
- Comedy
- Computers & Electronics
- Crash & Destruction
- Drones
- Guns
- Hits & Explosions
- Human Groups & Solos
- Machines & Tools
- Monsters
- Pass Bys
- Percussion
- Space
- Sports
- Switches & Levers
- Water
- Weapons
- Whooshes
- Zips

MV-01

It's all about ambiances. Create worlds that are mysterious, eerie, haunting, ethereal, serene or foreboding. Sci-fi interiors abound with regeneration chambers, re红外neuralizers, photon inverters, rotating arms, reactors and pulsing machine rooms. You'll also find yourself in creeking tunnels, wet sewers and with chanting monks, not to mention the very practical selection of natural settings that have been captured on this disc.

- Animals
- Automobiles
- Background Ambiences
- Bells & Whistles
- Birds
- Business & Telephones
- Comedy
- Computers & Electronics
- Crash & Destruction
- Drones
- Guns
- Hits & Explosions
- Human Groups & Solos
- Machines & Tools
- Monsters
- Pass Bys
- Percussion
- Space
- Sports
- Switches & Levers
- Water
- Weapons
- Whooshes
- Zips

MV-02

Wide variety of FX that make great production elements, including whacks, thwacks, crunches, whooshes, fly bys, machines, cars, tools, magic, water, wind, rain, metal, wood, latches, squirts, slurs, aliens, odd flying things, processed effects ... and much more.

MV-03

More hard effects, plus a series of Foley oriented sounds. Many useful sounds here that can just be dropped into your production.

The Best of The Saul Zaentz Film Center

The Best of The Saul Zaentz Film Center is an outstanding collection of more than 200 feature film and general sound effects, representing some of the Center's finest work. This single CD offers a wide ranging selection of transportation, animals, props, Foley, creaks and crashes, explosions, ghosts and zombies, hits and impacts, rumbles, scrapes, tools, water and wind. It's a little bit of the best of everything...

Based in San Francisco, the Saul Zaentz Film Center has provided filmmakers with first class sound facilities and some of the best sound editors, mixers and Foley artists in the business since 1979. With more than 20 Academy Awards to their credit, Saul Zaentz and his team have produced many memorable major motion pictures, including One Flew Over The Cuckoo's Nest and The English Patient.

- Animals
- Biplanes
- Bodyfalls
- Crashes
- Creaks & Squeaks
- Riots
- Explosions
- Impacts
- Hits
- Rumbles
- Water
- Whooshes
- Wind
- Zombies

SOUND IDEAS

VINTAGE GENERAL SOUND EFFECTS

Series 1000 — World’s First SFX Library on CD

This is where it all began at Sound Ideas - the original Series 1000 SFX audio tape library was the first sound effects library of its kind to be made available on CD. Its 28 CDs contain over 3,000 professional quality analog sound effects in a wide variety of categories. This collection from the 1960s and 70s is also a valuable source of vintage archival effects.

1001: Airplanes
1002: Animals
1003: Airports, Archery, Applause, Automobiles
1004: Automobiles
1005: Baseball, Bells, Bicycles, Cameras, Clocks
1006: Birds, Boxing, Buzzers
1007: Children, Computers
1008: Construction
1009: Construction, Crashes, Crowds, Doors, Drawbridges
1010: Crowds
1011: Electronics, Earthquakes, Electricity, Elevators, Exercise
1012: Explosions, Fairs, Farms, Football, Fire, Guns
1013: Footsteps, Foreign Sounds, Gambling, Golf
1014: Helicopters, Horns, Hockey, Glass Sounds
1015: Household Sounds
1016: Human Sounds, Jungles, Laboratory, Laughter, Logging
1017: Indians, Industry
1018: Naval Boats, Ships, Motorcycles
1019: Military Battles, Guns, Harps
1020: Musical & Percussion Instruments
1021: Musical & Percussion Instruments
1022: Office, Country Sounds, Parades
1023: Pinball, Post Offices, Projectors, Pumps, Rodeos, Restaurants, Roller Coasters
1024: Service Stations, Sirens, Snowmobiles, Space Sounds
1025: Stores, Swimming, Subways, Telephones
1026: Rain, Thunder, Tennis, Taxis, Trains, Umbrellas, Vacuum Cleaners, Vendors
1027: Traffic, Trucks, Buses
1028: Water, Whistles, Wind, Zippers

Call Vintage SFX (12 Audio CDs) ....................................................... 449.95

Vintage SFX from Digiffects

Digiffects presents the Vintage FX Sound Effects Library - a 12 CD cross section of sound effects from the 50s to the 80s. With 1700 professionally recorded sound effects, this collection contains a very broad range of sounds - from insects to big explosions. Originally recorded on Nagra tape recorders these effects have been carefully selected and edited on today's state-of-the-art equipment.

The aim was to select sounds which are now very difficult or impossible to obtain. For example, it’s not easy to record a horse and cart rolling through an old town, nor are old cars, trains or machines readily available. If you need sounds to match older movies or audio productions, this is the perfect collection. The sound effects are top quality, they sound great in any audio production, old or new. Many of effects are really unique. Just listen to some of the war sounds or airplanes.

VA1: Vintage City FX - Airports, Traffic, Other Environments
VB1: Vintage Domestic FX - Household Sounds
VC1: Vintage Rural FX - Forests, Weather, Water & Animals
VC2: Vintage Rural FX - More Animals and Tools
VD1: Vintage Transport FX - Trucks, Cars, Race Cars, Motorcycles & Scooters
VD2: Vintage Transport FX - Sirens, Traffic, Steam Trains, Horns, Ships, Motorboats, Sailboats, Airplanes
VE1: Vintage Industry FX - Factories, Workshops, Engines & Equipment, Tools
VE2: Vintage Industry FX - Watermills & Windmills, Equipment & Machines, Stretchers & Carts, Typewriters & Computers
VG1: Vintage Leisure FX - Bicycles, Boats, Swimming, Fireworks, Amusement Parks, Pinball, Cameras & Music
VI1: Vintage Human FX - Babies, Children, Laughter, Voices, Applause, Footsteps, Native Americans, Heartbeats
VJ1: Vintage Special FX - Hits, Breaks, Falls, Squeaks & Demolition, plus Guns, Cannons, War & Fight Sounds
SOUND IDEAS

Just Boom Trax

Specifically designed as a sweetener for use in the sub-woofer channel when mixing surround sound productions, Just Boom Trax offers more than 250 tracks of real life, fantasy and utility sound effects, all at low frequencies that allow the audience to feel the sound.
- Lower the boom and dig deep. Just Boom Trax enhances the depth and impact of your audio with a versatile toolbox of low frequency growls, impacts, hums, booms, throbs, rolls and drones.
- Also offers sci-fi and fantasy tracks, a set of oscillator tones, low frequency white and pink noise, and a selection of drum hits and synth accents - more audio goodies for your low frequency toolbox.
- Sounds drawn from real life -
  - aircraft carriers, jets & helicopters
  - boats, ships & submarines
  - automobiles, races & crashes
  - trains, trucks & motorcycles
  - animal growls, footsteps & cries
  - human hits & bodyfalls
  - thunder, wind, earthquakes, avalanches & volcanoes
  - weapons and military battles
  - construction, crashes & hits
  - explosions and impacts
  - doors, industrial & motor sounds, stampedes and the space shuttle’s sonic boom.
- Includes 2 CDs and 2 DVDs of multi-formatted low frequency effects. This collection offers the following six multimedia formats:
  - 44.1k 16-bit - in both .wav and AIFF formats
  - 48k 16-bit - in both .wav and AIFF formats
  - 48k 24-bit - in both .wav and AIFF formats

Renaissance SFX - Surround Sound Special Effects

The first sound effects library in the world that has been encoded and produced entirely in Dolby Surround. The Renaissance SFX Library offers awesome fully dynamic sound in a real 3D listening environment. The Dolby Surround encoding process makes it possible for a regular stereo source to deliver all four channels of sound. These sounds extend far beyond simple panning or standard MS techniques - you will hear complete sets of effects that literally move along the speakers and bathe you in true audio from all directions. In addition, you will be able to control the placement and movement of sounds in the different channels in order to recreate just the right audio environment for your productions.

The Renaissance SFX Library can be used in a regular stereo environment, but you will be even more impressed with the way a full surround sound system demonstrates the quality, richness and versatility of these recordings.

| CD #1 | World Ambiences |
| CD #2 | Sounds From Nature |
| CD #3 | Special Environments |
| CD #4 | Impact FX |
| CD #5 | Voice FX |
| CD #6 | Emotional Voices |

Renaissance SFX (11 Audio CDs) ................................................................. 1195.00

Renaissance 5.1

Renaissance 5.1 is the first sound effects library created for 5.1 production. A perfect complement to the Renaissance SFX library, it offers the best original recordings from the Surround Sound collection, digitally remastered in 24-bit 48 kHz 5.1 surround sound. Renaissance 5.1 uses Digidesign Pro Tools 5.1 name extensions, enabling the Pro Tools 5.1 user to load a 5.1 track as a single audio file. Remastering was accomplished through Renaissance Sound Technology's proprietary psychacoustic software applications, and all files have been .aiff mastered for full PC compatibility as well.

Sci-Fi Series 8000

Sci-Fi 8000 is a 4-CD compilation from Hollywood's best science fiction sound designers. It provides more than 500 contemporary space and futuristic fantasy sound effects and ambiences: everything from alarms, space ships and alien creatures, to hatches and air locks, robotics, rockets, telemetry, weapons and Challenger space shuttle launches.

Among the award-winning sound designers whose talents are featured in this collection are: Randy Thom (Mars Attacks! and Contact), David Yewdall (Fifth Element and Starship Troopers), Mike McDonough (Star Trek: First Contact), and Charles Maynes (Starship Troopers).

This modern collection comes packaged in a special carrying case - a tribute to classic retro sci-fi films - and all four CDs have been digitally mastered in stereo. The Series 8000 will take your productions where no man has gone before!

8001: Air Bursts, Alarms, Ambiences
8002: Ambiences, Animals & Creatures, Avalanches, Communications, Battles, Computers, Docking Thrusters, Doors, Drains, Drones

Sci-Fi Series 8000 (4 Audio CDs) .......................................................... 359.95

Sci-Fi Series 8000 Warp 2

Enter the next dimension! Come along for the ride as Series 8000 Warp 2 weaves its way through a whole new galaxy filled with alien, out of this world and futuristic sounds, including:

8005: Air Blasts, Air Locks, Alarms, Ambiences, Animals & Creatures, Battles, Bells, Black Holes, Communications, Computers, Control Rooms, Crowds

Sci-Fi Series 8000 Warp 2 (3 Audio CDs) ........................................... 359.95

Sci-Fi Series 8000 Warp 3

With over 400 sci-fi tracks on 3 CDs, this collection presents a broad galaxy of “out there” audio. Explore the sounds of new life forms, intergalactic transmissions and a selection of drones and deep space ambiences. Warp 3’s outstanding contents will compliment journeys to distant stars, alien worlds and the inner space of your imagination.

•extraterrestrial creatures & alien insects •sci-fi ambiences, backgrounds, drones, hums, tones & frequencies •space bells and unusual underwater atmospheres •a full transmission of communications, space buoys, relays & chatter •dynamic energy fields, electric arcs and damaging explosions •weapons, flame throwers and space torpedoes •hits, lasers and whooshes •intergalactic pneumatic delivery systems •radar sweeps, servo movements & sonar pings •tractor beams, transporters and scanners •shuttles, space ships and flying saucers •electronic squeals and telemetry •etheral space winds

Sci-Fi Series 8000 Warp 3 (3 Audio CDs) ........................................... 359.95

Designer Sound Library — Fantasy, Sci-Fi and Music Accents

This collection of almost 700 sound effects is guaranteed to add a little magic and mystery to your productions. You’ll also discover crystal ice bells & shifting space whirls, glassy ice rain & a fairy dust gliss, plus a full selection of space and fantasy ambiences and orchestral and percussion accents.

Designer Sound Library (3 Audio CDs) ................................................... 249.95
**Metropolis Science Fiction Toolkit 1**

This Science Fiction Toolkit from the professional sound designers at Futurity contains a vast collection of whooshes, sweeps, releases, scans, accents, alerts, blasts, prompts, bleeps, whirls, flutters, synths, washes, impacts, lasers, sirens, pulses and buzzes, plus a great selection of science fiction ambiences and other electronic tools. Keep the toolkit handy for everything from odd jobs to universal productions.

**Toolkit 1** .................................................. 109.95

**Metropolis Science Fiction Toolkit 2**

Taking design elements to new heights, the Metropolis Science Fiction Toolkit II CD contains over 200 new effects never heard anywhere before. This CD includes great mechanical, ethereal, whoosh, metallic, static, and ambience effects, plus squawks, scans, scrapes ... and lots more. If you’re looking for something off the beaten path, Metropolis II is here to open up a new frontier.

**Toolkit 2** .................................................. 109.95

---

**The Big Drone - Wide Variety of Simple and Complex Drones**

Mysterious, sweeping, pulsing and enigmatic. The Big Drone - one hundred tracks that are ready to rumble. This two CD set features both simple and complex drones that have been designed to enhance many different kinds of scoring applications.

**Big Drone (2 Audio CDs)** ......................... 109.95

---

**Jurassic Dinosaurs**

An out-of-this-world menagerie, Jurassic Dinosaurs provides all kinds of creatures, from tiny to humongous. Included in this jammed CD are all manner of prehistoric, fantasy, alien, monster, supernatural, fairy and robot creatures, with many different varieties of cries and associated sounds.

Some of the effects come from real-life animal sounds, which were morphed into something else. Many others were created in the studio and fine-tuned to provide a full range of possible variations. Additionally, the animal and creature sounds represented here are immensely versatile. Use them for modern day exotic jungle beasts, prehistoric creatures, or futuristic aliens from other planets - the choice is yours!

The creatures represented in this collection include the following:

**Organic Creatures, Small to Large:**

**Organic Body & Environment:**

Creature Footsteps on Various Surfaces, Impact Tremors, Thundering Stampede, Eating Cracks, Crunches and Snaps, Wing Flapping on Flying Creatures, Flying Insects, Plant Monster FX, Broken Foliage FX

**Alien, Robotic & Supernatural Creatures:**

Android, Cyborg Language, HELP Droidbot, Robot Footsteps and Servo Motor, Robot Start-Up, Overload, Electric Discharges, Radio Control Frequency & Squeaking Joints, Alien Creatures, Dragons, Werewolves, Shape Shifters, Ghost Vortexes, Classic Tinkerbell Winged Fairy

**Jurassic Dinosaurs** ................................................. 109.95

---

**Drone Archaeology**

This CD, produced by Numerical Sound, contains 99 stereo drones, ranging from 32 to 64 seconds in length. The drones are all steady in pitch, but have constant movement, thus they are never the same from one moment to the next. In order to aid multimedia and film production, the drones have been classified into seven categories as follows: Nature, Science, Drama, Industry, Voice, Bell and Drones.

Each drone is contemporary and original in nature, offering the film composer and musician an invaluable resource for creating soundtracks, sound beds, and sound design. Used as foundation material, these drones can be processed and transformed in any number of ways to assist the user in the development of their own unique sound.

**Drone Archaeology** ................................................. 109.95
SOUND IDEAS

SCI-FI COLLECTIONS

The Science Fiction SFX Library

The Science Fiction Sound Effects Library offers a broad range of futuristic, space, alien and creature sound effects and ambiences. This 3 CD package provides a full audio galaxy, designed for versatile use in a wide variety of science fiction scenarios and sequences.

The collection also contains excerpts from a sci-fi audio drama called Space Fighter Duel, showcasing many of the library’s effects and suggesting editing / mixing possibilities for them. Space Fighter Duel is provided as both a continuous track, and as separate indexes, and its available for use either in its entirety, or separated into specific effects.

Contains exciting and expressive source material in the following categories:

Spacefighter Duel & Selected Elements
- Flights & Attacks, Launches, Blasts, Flybys & Circling, Explosions, Battle, and a Roasted Toasted Alien

Foley Footsteps

The Foley Footsteps CD is a comprehensive all-digital collection of male and female footsteps, recorded on a variety of different surfaces and walking speeds. Surfaces available include cement, wood, grass, gravel, metal, and snow. Sounds of individual steps, paced steps, shuffles, running, jumping and climbing stairs are included. Each sequence is recorded in its entirety, while each individual footstep is also indexed to expedite the foley replacement process. Take a walk on the wild side with Foley Footsteps.

Foley Footsteps .................................... 109.95

Foley Footsteps Winter

Foley Footsteps Winter focuses on real winter situations, providing a great variety of surfaces, footwear and actions with:
- Real snow: Fresh Snow, Packed Snow, Corn Snow & Wet Snow
- Real surfaces: Linoleum, Metal Grate, Concrete, Wood Floor
- Real footwear: Ski Boots, Overshoes, Hiking Boots, Rubber Snow Boots and Snow Shoes

Over 1,700 winter effects, all digitally recorded and edited at a sample rate of 48 kHz 24-bits. The entire library was recorded on a foley stage wet room, by bringing the facility temperature down to 5°C (42°F) and loading the stage with real Canadian winter snow.

Foley Winter (2 Audio CDs) ..................... 250.00

4005 Music: Wide Variety of Fanfares, Jazz, Marches, Rock, Horror and Space Music

Series 4000 Hollywood (5 Audio CDs)............................................................425.00

Just Noise

Just Noise is a unique collection of vintage media noise, static, buzz and hum. Just right when you need some authentic background crackles, whine, fuzz or hiss, and also ideal as a starting element for sound design. This 2 CD collection contains 140 tracks, representing more than 20 different sources of great old fashioned noise, including:

Need a way to age, weather or add realism to a track? Try some garbled reception, static and hum from classic 1940s and 1950s radios, or a bit of crackling noise from a 1960s tape recorder. Add a bit of transistor buzz, a sprinkle of LP record noise or some pulsing synthesizer pops. You’ll also find a great selection of tape hiss, walkie talkie static and TV noise on this 2 CD collection.

• neon signs • open wires • tape recorders
• scanners • LP records • walkie talkies
• televisions • tube & transistor radios
• wax cylinders and gramophone discs
• analog synthesizers • reel to reel / cassette tapes

Just Noise (2 Audio CDs) .................209.95

**Blow Tools — Wind and Air Movement Effects**

A 12-CD sound effects library containing over 700 minutes of rushing, wailing, blustering, buffeting, groaning, rustling, droning, growling, shrieking and moaning, whistling, rumbling, whispering, sweeping and swooshing, breezing, blowing, howling, gusting and whooshing - you can create effects for any type of wind or air movement, including tunnels, air locks, ducts, objects falling or moving through air, and horror or sci-fi background effects. Each digitally recorded effect is clean and ready to use. Alone or layered — create a custom mood or environmental texture.

- Of the 263 Blow Tools winds, 239 are "perfect loops." The wind effects that are not pre-looped grow out of silence with ramps of varying length, then crescendo to full intensity and decrease to silence again. The wind effects also have a wide variety of character with varying texture, resonance, pitch, range, and activity.
- Blow Tools also includes more than 80 shorter blowing effects of amplitude variation - including flurries, gusts and quick bursts - plus 175 individual swooshes of 34 different types.
- Preview CD and documentation make it easy and quick to scan through the hundreds of wind textures. This special disc contains 5-second samples of each looped effect, plus an entertaining audio demonstration program. Use the Preview CD to determine the exact character or wind type you’re looking for, then follow the documentation directly to the library CD containing the full-length effect.

**Blow Tools (12 Audio CDs)**.....................$539.95

---

**Sounds of War Authentic World War II Sounds**

An authentic and historic gallery of period audio - single weapon, equipment and tank effects, aircraft sounds and effects, short scenario ambiences and full battle sequences (including an aerial attack, dogfights and an armoured assault). A complete World War II sound effects archive.

These sound effects had to be tracked down and salvaged from a wide variety of archival sources across Europe. All effects were then digitally enhanced through cedar processing and/or mixed into the longer scenario ambiences by skilled engineers with state-of-the-art equipment.

- A Hurricane fighter with its straining Rolls Royce Merlin engine taking off ...
- Heavy fire of an armored assault by Panzer Grenadiers, firing machine pistols ...
- Stukas screaming down on zig-zagging convoys while Royal Naval gunners throw up a constant wall of anti-aircraft fire
- Flying Fortresses thundering down their runways, hauling their full bombloads into the air, heading for the industrial heartland of Hitler’s Germany
- Boots on cobbled stones as infantrymen fight through northern France
- Crack of rifle fire and the rattle of heavy machine guns of German defenders

**Sounds of War**.............................................$109.95

Noise Generator

Noise generator is a motherlode of organically-based real sound design elements — a huge variety of real sounds grotesquely twisted, dismembered,amed, & verbally abused. Sounds that would perfectly accent video transitions, graphic packages or footage of exploding livestock - creative, attention getting elements.

This 4-disc collection of sound design elements was designed to sound COMPLETELY different than the tired, old early 90's FM-radio-ish lasers, white noise sweeps and synthesizer stuff that puts most of us to sleep. Our mission was to create a collection of sounds that would stand out and physically knock people off their feet.

Most of the 1,875 sounds on these discs started as real sounds, ie: banging the inside of a dumpster with a hammer, dropping a manhole cover (trust us: that's LOUD) - even stuff like taking microphone feedback, processing the feedback, then feeding it back against itself again. We took these elements and processed the living daylights out of them using digital audio workstations and state-of-the-art digital signal processors (plug-ins and outboard gear). Finally, they were mastered through high-end gear to end up with a ton of sounds that resulted in an incredible sounding product - but incredibly unhappy neighbours.

Comes with 4-color coded, fully-indexed audio discs and a 40-page booklet, organized by type and sound length.

Noise Generator (4 Audio CDs) ................................................................. $995.00

Slam, Bang, Boom

Slam*Bang*Boom is a 2-CD, 1257 element sound design package, plus a corresponding CD ROM of WAV files. Over 89 categories of hits - including explosions, bursts, computer and Internet sounds, flashes, & bowel-loosening thunder and lightning hits, the second set in the 'Noise Generator' collection of sound design products is dedicated to making the world a far more sonically disturbing place.

More hits than Elvis and The Beatles combined! Useful for anything that uses sound - from radio to video to multimedia. Tools for accenting cuts, titles, flashes, exploding watermelons and for getting your audience's attention.

The sounds on this collection come from a variety of sources, some real and some synthesized - mostly designed to sound different than anything else out there.

Comes with 2-color coded, fully-indexed CD, one CD ROM and a 24-page booklet, organized by type and sound length. Contains 16-bit, 44.1k, WAV files and is both Mac and PC-compatible. This CD ROM should also work in AKAI S5000/6000 series samplers with OS1.3 or later as well as any EMU or Kurzweil samplers that can import .WAV files.

Slam, Bang, Boom (4 Audio CDs & 1 CD-ROM) ................................................................................................................. Call

Transitions

The ultimate arsenal of whooshes & transitional elements! Transitions is a 2-CD 1229 element sound design package, plus a corresponding CD ROM of WAV files. Crammed with over 100 categories of transitions - including powerups, beams, electrostatics, fly-bys, vinyl sounds, rumbles, evolvers & grainy breakups.

Transitions is the third set in the 'Noise Generator' collections of sound design products, giving producers an edgier, more offensive, in-your-face selection of sound design.

First, a definition: a 'Transition' is defined (in almost 98% of the cases in this collection) as an event with a sloped attack that builds to an abrupt climax - or builds to a climax and then recedes. Good for aurally accenting wipes, fades, dissolves - or gaping holes in your audio that require covering up. Of course, radio can also utilize these sounds for sweeps and transitions, or just make their productions sound very, very different than what's out there now. The sounds come from a variety of sources, some real and some synthesized - designed to sound different than anything else out there.

Comes with 2-color coded, fully-indexed audio CDs, one CD ROM, and a 24-page booklet organized by type and sound length. The CD ROM contains 16-bit, 44.1k, WAV files and is both Mac and PC-compatible. This CD ROM should also work in AKAI S5000/6000 series samplers with OS1.3 or later as well as any EMU or Kurzweil samplers that can import .WAV files.

**OR—BUY THEM INDIVIDUALLY**

**Rock Mix**

Driven, punchy, kicking and cool - with just a dash of attitude. Rock Mix delivers 33 themes - a solid serving of electric guitar, percussion and saxophone tunes to gear up and drive your productions. Go the distance with this varied collection of heavy, Texas and southern rock, splashed with a dash of surf and blues. The Rock Mix - gutsy, energetic, rugged and rebellious.

**Eazy Rock Mix**

A little bit hip - a little bit bold; a smattering of funk - a sprinkle of soul! Eazy Rock Mix gives you 33 themes to stroll, saunter, swing and roll positive energy throughout your productions. Featured instruments in this collection include acoustic & electric guitars, piano, organ, saxophone, flute and fiddle, and there's also a smattering of rap and soul to keep it cool. The Eazy Rock Mix - carefree, confident & laid back.

**Corporate Mix**

Corporate Mix delivers 30 bold, dynamic and dominant themes that feature orchestral, brass and sampled sound arrangements. Up tempo, progressive and ready to work - this is music that means business. Promote your productions with the Corporate Mix - it gets results.

**Sports Mix**

Sports Mix - a winning combination of 34 themes that breaks a sweat and counts the score. The Sports Mix offers driving, competitive and exhilarating compositions that feature brass, electric guitar and orchestral arrangements. Knock em out with the Mix Signature Sports Mix - an adrenaline rush that really delivers.

**Eazy Listening Mix**

Something bright & fresh; something warm & gentle. Eazy Listening Mix offers 31 themes - reflective, warm and soothing arrangements designed to relax, revitalize and recharge your batteries. The Eazy Listening Mix features instruments like acoustic & electric guitars, alto, tenor & soprano saxophones, electric and traditional pianos and flutes - a soft set that lets you get mellow, release your cares & unwind.

**Lite and Easy Mix**

Bright, flowing and carefree. Lite & Easy Mix - a fresh selection of 30 themes designed to keep things light and breezy. This 2 CD set provides a soothing selection of reflective, mellow and gentle compositions, featuring solo and acoustic instrument arrangements. Drift into a daydream with the Lite & Easy Mix.

**New Age Mix**

2 CDs and 120 tracks of electronic style music that echoes the rhythms of a modern age. Pulsing and abstract .... hypnotic and ethereal - the New Age Mix offers a varied sample of several electronic styles in this selection of original synthesized music. Explore new territory with the New Age Mix - music for a new world.

**Classical Mix**

Refine your productions with this varied classical selection of 23 different public domain compositions, offered in a full compliment of broadcast lengths. Classical Mix graces your productions with popular classical music from Mozart, Bach, Vivaldi, Tchaikovsky, Beethoven, Brahms, Dvorak, Pachelbel and others. Add a little elegance and polish to your productions with the Classical Mix.
Choose From Over 200,000 Samples and Sound Effects

With the Sonomic On-line Library Card, you can customize your own sound library. Choose from over 200,000 sounds online - the latest loops, hottest sounds, and rarest FX, with thousands more added every week. Audition as many as you want and download exactly the sounds you need. All sounds are online and searchable in seconds. Select only the sounds you want from some of the best sample and sound FX libraries in the world, including Zero G, Sampleheads, Universal Sound Bank, Q Up Arts, Sound Ideas, BBC, Valentino and many more.

With regular CDs, you have to pay and hope the disc contains sounds you can use. All of the samples and sound FX at Sonomic are royalty-free, so you only pay once, no matter how many times you use the sounds in commercial projects. Multi-samples are available in EXS-24, Samplecell and Unity formats. All other samples can be downloaded on ACIDized .Wav or .Aiff formats for immediate use with any type of hardware or software.

Choose the card that's right for you: One card offers 50 samples or 20 sound FX, and another card is available that offers 10 samples or 5 sound effects.

◆ Available 24 hours a day, 7 days a week
◆ Sonomic’s search engine allows you to search by category or keyword. A few mouse clicks and you’ve created a custom list of the sounds you need.
◆ Every one of the sounds can be previewed before you buy them, so you always get exactly the sounds you need.
◆ Sonomic offers only professional-quality sound FX, samples, and multi-samples, which can be downloaded in any standard file format. Sounds are automatically stored in your SOUND-BAY enabling you to store, organize, access and re-download them from anywhere. All of the sounds stored in SOUND-BAY are secure and can be downloaded as many times as you like from wherever you’re working.

Three Easy steps:
1) Go to www.sonomic.com and click on Register
2) Enter the Online Library code found on back of card
3) Search, preview and download exactly the sounds you need!
