

**VIDEO EDITING SOFTWARE**

After capturing video for your production, the next step is to edit the content into a final project. The first stages of post-production include capturing or digitizing the data into an editing system, whether it be a Mac or Windows. There are even Linux-supported editing apps available. From there, you can edit with most file types and resolutions, including SD, HD, stereoscopic 3D, VR, and up to 8K resolution in native format. Editing functions include trimming of individual clips, adding titles, mixing audio tracks, color correction, adjusting speed playback, adding transitions, and many more features. Some editing software gives you the option to mix and match different formats, frame rates, and resolutions in the same timeline without rendering. Options are available for most editing software to include third-party effects and plug-ins to fine-tune your project before going on air, uploading it to the web, or distributing it on DVD and Blu-ray.

**COMPOSITING & PLUG-INS**

Comprehensive visual effects and compositing packages come as stand-alone applications or as plug-ins compatible with most Video Editing software. To make a workflow as efficient as possible, editors seamlessly transition into several different job titles with a click of a mouse or a keyboard shortcut. Powerful tools include color correction, denoiser, titling, removal of wire rigs, edge blur, compositing, lens flare, filtering, 3D and 2D VFX, upscaling, image restoration, VR tools, and hundreds of additional options. Simply apply a plug-in right on your editing timeline and adjust the settings for the desired look. Plug-ins fit every artist, from the beginning designer who is inspired by the presets to the hard core VFX artist who builds looks from scratch. A wide variety of tools lets you define the style of your video or film, opening a realm of creative possibilities. And with plug-ins, you can process SD, HD, 2K, and 4K images on standard hardware, or up to 8K x 8K pixels with the latest GPUs.

**ANIMATION**

Whether creating visually stunning Pixar-inspired 3D animation or creating complex objects using the latest CAD software, your creativity has never been easier. Transform your 2D designs into 3D models using customizable 2D drafting tools and 3D design tools for any industry. Comprehensive toolsets are available for creating advanced 3D graphics, 3D modeling, and 3D animation. Whether you are creating an illustration, a game character, a toy, and a figure for 3D printing or designing jewelry, sculpting, and painting, software gives you the basic platform to easily make it happen.

**Blackmagicdesign UltraStudio**

Capture and output of nearly any currently supported broadcast or consumer video format up to DCI 4K resolution is possible with UltraStudio. This I/O device features SDI & HDMI I/O and analog & digital audio I/O. Ideal for busy production environments, the device pairs with third-party software, including editing, media server, and graphics editing software on either Windows and OS X computers with Thunderbolt connectivity.

	Model	Thunderbolt	SDI I/O	HDMI	XLR Audio In	XLR Audio Out	SKU	Price
A	UltraStudio 4K Extreme 3	Thunderbolt 3	2 x 12Gb/s & 2 x 6Gb/s	HDMI 2.0	4 Channels	4 Channels	BLUS4KE3	2,995.00
B	UltraStudio 4K	Thunderbolt 2	2 x 10-Bit SD/HD/2K/4K & 2D/3D Switchable	HDMI	2 Channels	2 Channels	BLUS4KTB2	995.00
C	UltraStudio HD Mini	Thunderbolt 3	1x SDI	HDMI Out	None	None	BLUSHDMINI	495.00

**Blackmagicdesign DeckLink**

With bidirectional SDI interfaces, the DeckLink Series are versatile video I/O cards for professional video workflows. Since each SDI interface can be configured to be either an input or an output, a computer with this card installed can be purposed as a media play-out system, a multiscreen digital signage server, a live keyer, a real-time multichannel capture system, or a combination of the above to fit your specific workflow of the moment.

	Model	SDI I/O	HDMI	SKU	Price
E	DeckLink 4K Extreme 12G	2 x 12Gb/s SD/HD/2K/4K Supports Single/Dual Link 4:2:2/4:4:4, 2D/3D Switchable	HDMI I/O	BLDL4KE	895.00

I	DeckLink Duo 2	4 x Bidirectional 12-Bit SD/HD	None	BLDLQ2	495.00

**Blackmagicdesign DeckLink 8K Pro Cinema Capture Card**

- » 8-Lane PCIe Gen2 I/O Card
- » Multi-Rate 12G-SDI
- » Supports 8K & DCI 8K up to 60 fps
- » Single & Dual Link 4:4:4/4:2:2 Signals
- » Up/Down/Cross Conversion (BLDLKPR8K12G)..... 645.00

**Blackmagicdesign UltraStudio Mini Recorder Capture Device**

- » Capture Aspect of Capture/Playback Card
- » Transfers Video from Camera to Computer
- » SDI, HDMI, Thunderbolt / Embedded Audio
- » Captures Live Feeds and Playback Feeds
- » 10-Bit Color Precision / 4:2:2 Sampling
- » Supports Resolutions up to 1080i60
- » Real-Time Colorspace Conversion » Software-Based Down Conversion (BLUSMINIREC)..... 145.00

**Blackmagicdesign HyperDeck Studio Mini Ultra HD Broadcast Deck**

- » Records up to 3840 x 2160 at 30 fps
- » Plays Back up to 3840 x 2160 at 30 fps
- » 1x 6G-SDI Input
- » 1x HDMI and 2x 6G-SDI Outputs
- » Records Uncompressed / ProRes / DNxHD
- » Front-Panel Buttons, Jog Wheel & LCD
- » Blackburst / Tri-Level Sync Input » Rackmountable Form Factor (BLHDSM)..... 695.00

**Blackmagicdesign Design Web Presenter Streaming Media Solution**

- » Stream Any SDI or HDMI Signal in 720p HD
- » Connect Virtually Any SDI or HDMI Camera
- » Presents SDI/HDMI Source as USB Webcam
- » Built-In Teranex Conversion Technology » SDI and HDMI Outputs
- » 12G-SDI, HDMI, XLR Mic & RCA L/R Inputs (BLWEBPTR)..... 495.00

**Blackmagicdesign Intensity Shuttle for USB 3.0**

- » Compatible with Multiple Applications
- » 10-Bit HD/SD Capture and Playback
- » Separate Sides for Inputs & Outputs
- » Support for Multiple Video Standards
- » No Separate Power Source Required
- » 10-Bit HDMI Video Direct Capture
- » No Compression Required
- USB 3.0 (BLIS)..... 199.00
- Thunderbolt (BLIST)..... Call or Log-On

**Blackmagicdesign Intensity Pro 4K**

- » Save Video Compressed or Uncompressed
- » Capture & Playback in Ultra HD at 30 fps
- » 4-Lane PCIe Card for 4, 8 & 16 Lane Slots
- » Ingest HDMI, YUV, S Video & NTSC/PAL
- » Connect Cameras for Live Streaming
- » Capture Directly to Popular NLEs
- » Capture 1080p at 60 fps
- » HDMI 1.4b Standard (BLIP4K)..... 199.00

**Blackmagicdesign DeckLink Mini Recorder 4K**

- » SD/HD/3G/6G-SDI Input » HDMI Input
- » PCI-Express 2.0 x4 Interface » 10-Bit Processing
- » DCI 4K, UHD, HD, and SD Video Support
- » Hardware Color Space Conversion
- » Software HD Down Conversion
- » Mac OS X, Windows, and Linux Compatible (BLDLMR4K)..... 195.00

**Professional Capture & Playback Devices**

- » SD & HD (NTSC & PAL) HDMI Support
- » Embedded SDI and HDMI Audio I/O
- » Professional Genlock
- » LTC Input/Output
- » RS-422 Control

Features	Io 4K	Io XT

**USB 3.0 Gen 1-Powered Capture Device**

- » USB 3.0-Powered 3G-SDI Capture
- » 3G-SDI Input
- » SDI Out (Looping Output)
- » 1920 x 1080p Resolution
- » YCbCr 4:2:2
- » 2-Channel, 16-Bit, 48 kHz Audio
- » Windows, Mac, and Linux Compatible

(AJUTAPSDI) ..... **Call or Log-On**  
 U-TAP DVI Capture (AJUTAPHDMI) ..... **Call or Log-On**

**4K HDMI Video Capture Card**

- » Uncompressed Video & Audio Capture
- » Ideal for Streaming & Videoconferencing
- » Scaler and Colorspace Conversion
- » Supports Windows, OS X, Linux & Android
- » DirectShow, QuickTime, V4L2 Compatible
- » Powered via USB Port » Up to 2160p30 Video
- » HDMI Input » USB 3.0 Cable Included

USB 3.0 (IN4K2USB3) ..... **395.00**  
 SDI (INSDI2USB3) ..... **425.00**  
 DVI (INDVIUSB) ..... **350.00**

**PCI-E Video I/O Card**

- » Supports 4K Video up to 60 fps
- » 4K I/O via SDI or HDMI
- » Uncompressed 4:4:4/4:2:2 1080p I/O
- » Input/Output 1080p Video Simultaneously
- » Hardware Up/Down/Cross Conversion
- » 4-BNC to Mini-BNC Cable Included
- » 60-Pin Breakout Cable Included
- » Works with Optional K3G Rack I/O Unit

(AJKONA4) ..... **Call or Log-On**

**PCI Express Video Capture Card**

- » Simultaneous 4x HDMI Capture
- » Supports 1080p Resolution at 60 fps
- » Plug-and-Play Compatibility
- » PCI Express x4 Interface

HDMI (MA4000EHDMI) ..... **899.00**

- » Single-Lane PCIe 1.1 Video Capture Card
- » Single HD/SD-SDI Input and Loop-Output
- » Support for up to 1080i60/p30 Video
- » Multiple Parallel Output Streams
- » Independent Settings per Each Stream
- » VBI/VANC CC Extraction/Rendering

(OS0815E) ..... **Call or Log-On**

**Video Capture Box**

- » Simultaneous Live Streaming & Recording
- » HDMI Input and Output
- » Up to 20 Mb/s Streaming/30 Mb/s Recording
- » H.264 RTSP/RTMP Compliant Streaming
- » H.264 MP4 Recording with 2 Ch AAC Audio
- » Multi-Tap 10-Bit Scaler & Deinterlacer
- » Web UI Accessible on PC, Phone, or Tablet
- » Start/Stop Front-Panel Push Buttons

(MAMONHD) ..... **Call or Log-On**

**Video Capture Box**

- » Dual-Channel H.264 Video Encoder
- » SDI and HDMI I/O
- » Supports HD & SD Resolutions
- » 0 Frame Latency on SDI Loop-Through
- » Discrete Processing on Each Channel
- » Supports Flash and Wowza Platforms
- » Independent H.264 Preview Stream
- » Storage and Control over Network
- » Recallable Presets

(MAMONHDX) ..... **Call or Log-On**

- » Up to 4K Capture, Monitoring, and Output
- » Compatible with Media Composer/Ultimate
- » Works with NewsCutter & Symphony Options
- » Four Bidirectional SDI Ports (up to 12G)
- » XLR Input; Voiceover Direct to Timeline
- » HDMI I/O, LTC I/O, Ref In, RS-422
- » Two Thunderbolt 3 Ports » Hardware Scaling
- » Headphone Jack with Volume Control

(AVADNXIV) ..... **2,999.00**

**Standalone HDD, Ultra HD, 2K & 4K Processor**

- » Integrates with Avid Media Composer
- » Also Works with Third-Party Software » Hardware Avid DNx Encoding
- » 4K Resolution Video over 12G-SDI & HDMI
- » Supports Avid Resolution Independence
- » AES/EBU Audio In and Out » Built-In Monitoring LCD
- » Thunderbolt 2 Interface » Supports PCI-e Connectivity
- » Upgradeable to Support Fiber Optics

(AVADNXIQ) ..... **3,749.99**

- » Supports up to 1080p60 Resolution
- » 10 Simultaneous Inputs at up to 1080p30
- » Single Wired HDMI Input for Cameras
- » Wireless HDMI Input via CameraLink
- » Use Smartphones as Wireless Video Source
- » Streams to YouTube or Facebook Live
- » Record H.264 ISO Video to SD Cards or HDDs
- » Optional Battery Power and USB Expansion

(SLSTHUB) ..... **999.00**

elgato **Video Capture**  
USB Analog Video Capture Device

- » USB 2.0
- » Capture RCA Composite & S-Video
- » Mac & Windows Compatible

(ELVC) ..... **87.99**

**MAGEWELL™** Video Capture  
USB Analog Video Capture Device

- » Supports up to 1920 x 1200 60p Resolution
- » Hardware Scaling and Deinterlacing
- » Performs Frame-Rate Conversion
- » Plug-and-Play Using Existing Drivers
- » Backward Compatible with USB 2.0
- » Onboard RAM for Stream Buffering

USB Capture HDMI Gen 2 (MA32060) ..... **299.00**  
USB Capture SDI Gen 2 (MA32070) ..... **299.00**

**MAGEWELL™** 32040  
USB Capture HDMI Plus

- » Capture Device with Built-In Auto Scaler
- » Supports Input Resolutions up to 4K
- » Scales to 2K for Recording Streaming
- » Loop-Through HDMI Port for Monitoring » Mic / Headphone Jacks
- » Compatible with Windows, Mac, and Linux
- » Can Be Operated 24/7 » Deinterlacing, Image Control (MA32040).....

**359.00**

**Hauppauge!®** 1512 HD Personal Video Recorder 2

- » Records in Full HD 1080p
- » Uses H.264 Video Format for Recording
- » HDMI (Input/Output) + Component Video
- » No-Delay, Real-Time HD Video Passthrough
- » Tactile Top-Mounted Record Button

(HA1512) ..... **139.99**

**Hauppauge!®** ImpactVCB-e  
PCI Express Capture Card

- » Available OEM Software Development Kit
- » Composite / S-Video, Stereo Audio Inputs
- » Capture and Edit Video, Author DVD
- » Fits into Internal PCI Express Slot
- » Supports NTSC and PAL Signals
- » Software Captures Still Images
- » SD Video and Audio Capture
- » Windows Compatible

(HA01381) ..... **49.06**

**GNARBOX** 128GB Portable Backup & Editing System

- » Edit 4K Video from Your Phone
- » View, Edit & Share RAW Photos » 128GB Flash Storage Capacity
- » Data Transfer Rates up to 4GB per Minute » 1.92 GHz Intel Quad-Core CPU » USB 3.0 / 2.0 / SD / microSD Ports

128GB (GNAR128V1) ..... **279.99**

Portable Video Grabber

- » DVI, DVI-VGA, DVI-HDMI Adapters Included
- » Uncompressed, Near-Zero Latency Transfer
- » Transfer 1080p / WUXGA Video to Computer
- » Capture from DVI, VGA, or HDMI Sources
- » DVI Input; USB 3.0 Computer Interface
- » Supports Resolutions up to 1080p60
- » Shows Up on Computer as Webcam
- » External Capture UVC Device (EPESP1138).....

**399.95**

**epiphan video** AV.io SDI USB 3.0  
Portable Video Grabber

- » Plug-and-Play External Capture Card
- » Transfer Uncompressed Video/Audio to PC
- » 3G-SDI Input; USB 3.0 Computer Interface
- » Capture from SDI Video and Audio Sources
- » Supports Resolutions up to 1080p60
- » Near-Zero Latency Transfer
- » USB 3.0 Cable Included (EPESP0964).....
- » AV.io 4K (EPAVIO4K).....

**499.95**  
**Call or Log-On**

**epiphan video** DVIZUSB 3.0  
Portable Video Grabber

- » Uncompressed Video & Audio Capture
- » DVI, VGA, & HDMI Support over DVI-I
- » Resolutions up to 1920 x 1200 at 60 fps
- » Powered via USB Port » USB 3.0 Interface
- » Windows, Mac OS X, and Linux Compatible
- » Works with DirectShow, QuickTime, V4L2
- » DVI and USB Cables Included
- » Supports 24-Bit Color (EPESP1137).....

**699.95**

**DIAMOND MULTIMEDIA** VC500  
USB Video & Audio Capture

- » Composite / S-Video to USB Connections
- » Transfers Video from Video Device to PC
- » Also Supports Audio and Still Images
- » Convenient Way of Saving Old VCR Footage
- » Works with TVs, VCRs, Game Consoles, Etc.
- » Works with Simple Included Software
- » Direct to YouTube Publishing
- » Supports NTSC and PAL (DIVC500).....

**35.47**

**ADESSO** AV-200  
Video Capture Express Cable

- » Connects PC to VCR / DVD / Camcorder
- » RCA / S-Video Connector
- » Direct Video Transfer to DVD Burner
- » MPEG Format Videos / Images
- » USB 2.0 Interface (ADAV200).....

**33.24**

**pinnacle** Dazzle DVD Recorder HD  
Video Input Adapter

- » Capture from Gaming Consoles, VCRs & DVDs
- » External Hardware Unit with Software
- » USB 2.0 Connection to Windows Computer
- » Make Movies with Studio HD Software
- » Add Effects, DVD Menus & Themes » Supports NTSC (PIDVCPENTAM).....

**1,115.00**

**PALETTE** PAL006 Aluminum  
Expert Control Surface Kit

- » Customizable Control Surface » Works with Popular Professional Programs
- » Modules Can Be Remapped to Keystrokes
- » Modules Attach Magnetically » Two Buttons » Three Dials » Two Sliders (PAL006).....

**299.00**

**Blackmagicdesign** DaVinci Resolve  
Micro Panel

- » 3x High-Resolution Track Balls
- » 12 Control Knobs
- » 18 Navigation and Transport Keys » USB C Interface
- » Supports Mac and Windows
- » Supports Select Linux Installations
- » USB 3.0 Type-C to USB Type-A Cable Included (BLDRPMC).....

**1,025.00**

**CONTOUR** ShuttlePRO v2  
NLE Multimedia Controller

- » NLE Multimedia Controller
- » 15 Programmable Buttons
- » Jog/Shuttle Control
- » Slim Profile
- » Mac OS X, Windows Compatible

(COSPRO2) ..... **99.00**

## hp Z Series G4 Workstations

Enjoy smooth rendering of 3D models, compiling of programming codes, and handling of other intensive tasks with the new Z Workstations from HP. Under the hood, an Intel Xeon processor can be found along with 2666 MHz DDR4 ECC RAM. To help prevent data corruption, ECC RAM automatically detects and corrects errors. Beyond memory correction, an HP Z Turbo NVMe SSD operates under PCIe lanes that offer fast, sustained read and write performance for large file sizes. This solid-state drive is installed in an M.2 slot, making it useful for recording or editing audio or high-resolution RAW video files. Windows 10 Pro 64 for Workstations is installed on this drive. Furthermore, these Z workstations are equipped with an NVIDIA Quadro graphics card to generate high-resolution graphics and large datasets for VR as well as graphic design.

As for connectivity, you'll find two Gigabit Ethernet ports and ten USB 3.0 ports, with one of the standard USB ports supporting device charging. Other notable connections include one headset connector, audio in, audio out, PS/2 mouse, and PS/2 keyboard. There's also a slim SuperMulti DVD-RW drive for record-

ing memories on to optical media. The expandability features on the HP Z4 G4 start with two 2.5"/3.5" internal bays along with one M.2 slot and one 5.25" external bay. The workstation is armed with multiple PCIe 3.0 slots to enable support for optional Thunderbolt 3 cards, RAID controllers, and other useful PCIe cards. For accommodating up to 256GB of memory modules, a total of eight slots are available.

For a full listing of all Z Series Workstations

- » Ethernet Connection for 720p Streaming

(STUSBZHDCAPS) ..... 169.95

**datavideo DAC-70 SD/HD/3G-SDI Up/Down/Cross Converter**

- » 10-Bit Processing » HDMI Output
- » SD/HD/3G-SDI, HDMI & VGA Inputs
- » 2x SD/HD/3G-SDI Outputs
- » SD/HD/3G-SDI Loop-Through
- » Analog Stereo Audio Input
- » Supports Embedded SDI/HDMI Audio

(DADAC70) ..... 499.00

**GEFEN HDMI/VGA to 3G-SDI Scaler/Converter**

- » Video Scaling » OSD Menu Settings
- » HDMI/VGA + Analog Audio Inputs
- » Supports 1080p60 Video
- » EDID Management
- » Locking Connectors
- » 6-24V Operation

(GEXHDVGA3GSC) ..... 323.40

**AAS 3G/HD/SD-SDI to HDMI & CVBS Converter Pro Series**

- » Supports Resolutions up to 1080p60/50
- » Integrated SDI Equalizer and Reclocker
- » HDMI or Composite Output, Selectable
- » 3G/HD/SD-SDI Input and Loop Output
- » Supports 3G-SDI Distances up to 450'

(AAHSDHMP) ..... 99.95
