Screen Protector

User Manual

Thank you for choosing Xuma

This screen protector is designed to protect your iPad mini’s screen from scratches, dust and smears. It’s easy to apply and remove, and it adheres to the screen without leaving behind any sticky residue.

Please read the instructions before applying your Xuma screen protector.

Applying your Xuma Screen Protector

1. Remove any films or other intervening substances from your iPad mini’s screen.
2. Use the included microfiber cleaning cloth to clean your iPad mini’s screen, making sure to remove any dust and fingerprints.
3. Partially peel off mask 1 from the screen protector. Be sure not to touch the exposed side of the screen protector.
4. Make sure your iPad mini is on a stable surface, and align the screen protector with your iPad mini. Make sure the cutout for the home button is properly aligned.
5. Hold the screen protector up by mask 1 while gently pushing down on the screen protector with the included applicator card. As you push the applicator card further down the screen of the iPad mini to apply the screen protector, mask 1 will gradually peel off.
6. Use the applicator card to smooth out any remaining air bubbles by pushing them out to the edge of the screen protector.
7. Peel off mask 2 from the screen protector.
