Hey There!
Thank you for purchasing the JAM Trance Mini. Check out the sections below for all the important information about your new speaker.

Just Charge It
Charging the speaker is so easy you’ve probably figured it out by now, but just in case, you’ve got two options: you can charge it using your computer or a wall outlet. The Trance Mini needs about 3 hours for up to 5 hours of party time.

1. The cord that came with the speaker — the one with the USB on one end and the micro USB on the other — will work with your computer.
2. If you want to use the wall outlet, you’ll need to pick up a power cord with a micro USB the next time you’re at the store, or use any USB AC adapter, including the one for your cell phone.

Control Your Destiny ... Or at Least Your Speaker
1. This is the power button
2. Choose between 7 different light colors
3. Shuffle through 6 different light shows
4. Control the brightness of your light show
5. Turn the music down (press and hold for 3 seconds to move to the previous track)
6. Push it to play, push it again to pause
7. Turn the music up (press and hold for 3 seconds to skip to the next track)
8. Toggle between languages here
9. Here’s where you hook it up old-school
10. The power cord goes here
11. Language selector pin

Shed Some Light
When they’re not rocking out, the LED lights on your speaker let you know what it’s doing.

Bluetooth® Connection — It’s a Setup
Like any amazing couple, this one starts with a connection — one between your device and the speaker’s Bluetooth. Here’s how it works:
1. Make sure the smartphone, tablet, or computer you’re using with the speaker has Bluetooth.
2. Turn on the speaker (press and hold the power button for 3 seconds) and look for the front screen to illuminate with a multi-colored light show.
3. Do whatever your device needs you to do on its end.
4. Look for JAM Trance Mini in your device’s Bluetooth list or click YES.
5. Now hit PLAY on your speaker and crank it up — or down if you’re lame.

Continued on page 2.
BLUETOOTH® CONNECTION, CONTINUED

The device and Bluetooth will find each other every time, as long as the speaker is set to Bluetooth and your device’s Bluetooth is, you know, on.

If you’re connecting to a computer, you may have some extra steps on that end. You’ll have to get that information from the computer company.

Depending on your device, you may be prompted to enter a pairing code. If prompted, enter “0000” as the code.

To disable pairing of an existing device and pair a new device, press and hold the + and - buttons for 5 seconds to activate pairing mode.

Note: If you turn on your Trance Mini but haven’t started the party yet, it will automatically power off after 2 minutes of unpaired inactivity.

Note: Once you’ve paired, if you pause the party for 15 minutes or more, the JAM Trance Mini will automatically shut off to preserve battery power.

PUTTING ON A SHOW!

The Trance Mini comes with 6 distinctly different light programs that allow you to throw your own light party.

<table>
<thead>
<tr>
<th>Light Program</th>

<tr>
<td>Equalizer 2</td>
<td><img src="image" alt="Equalizer 2" /></td>
</tr>
<tr>
<td>All Programs (cycles through all the light programs)</td>
<td><img src="image" alt="All Programs" /></td>
</tr>
</tbody>
</table>

LIGHT IT UP

Not only does the Trance Mini let you pick the light pattern you want to jam out to, but you can also choose the color. The Trance Mini has 7 different colors to choose from.

<tr>
<td>Multicolored</td>
<td><img src="image" alt="Multicolored" /></td>
</tr>
</tbody>
</table>

HELLO? SPEAKERPHONE? YES!

When friends call asking to join the party — and you know they will — answer the phone without disconnecting from your JAM Trance Mini. Yes, that’s right. Your speaker is a speakerphone, too. How amazing is that? Here’s how it works:

1. Make sure your phone and speaker are connected through Bluetooth.
2. Answering and ending a call works the same way; simply click the PLAY/PAUSE button on your Trance Mini.
3. If you’d rather not talk, hold down the PLAY/PAUSE button on your Trance Mini for 3 seconds to ignore the call.

THE COOLEST PART: The Trance Mini knows when a call is coming in and pauses the music before ringing. When you hang up, the music starts where it left off — and so does the party. If it’s you making the call, just start dialing from your phone, and the Trance Mini automatically does its hands-free thing. Isn’t it refreshing to know your speaker totally gets you?

Check out the chart below for a complete guide on handling calls with your Trance Mini.

<table>
<thead>
<tr>
<th>Situation</th>
<th>Short Press Play/Pause Button</th>
<th>Long Press Play/Pause Button</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Incoming call</td>
<td>Pick up call</td>
<td>Reject call</td>
</tr>
<tr>
<td>On call</td>
<td>End call</td>
<td>Move call from speaker to device</td>
</tr>
<tr>
<td>2nd Incoming call</td>
<td>Call 1 on hold, pick up call 2</td>
<td>Reject call 2</td>
</tr>
<tr>
<td>Both calls active</td>
<td>Hang up call 1, switch to call 2</td>
<td>Switch between call 1 and call 2</td>
</tr>
</tbody>
</table>
HOOKING UP OLD-SCHOOL AUDIO, JACK
1. Plug one end of the cord into the speaker and the other into the headphone jack on your device.
2. Turn on the speaker.
3. Hit PLAY on your device and crank it up—or down if you’re lame.
You'll have to play and pause the music from your device, not your speaker. No problem. You're there anyway, right?

COMING CLEAN
A soft, dry towel is all you need to clean off your speaker. Using water, harsh cleaners, or anything else only starts messing with the mechanics inside. So, yeah, don’t do it.

THE VOICE FROM WITHIN
When your JAM Trance Mini isn’t rocking out, it can tell you all sorts of things it’s doing: when it’s powering on, ready to pair, paired, at maximum volume, charging, receiving a call, ending a call, rejecting a call, and powering off.
Just like the global gadget it is, your speaker toggles between several languages or no language at all. Your speaker can parlay with you in English, Spanish, French, or Portuguese. Making the change between language and tone is as simple as poking a paperclip, safety pin, or the included language selector pin into the small hole on the bottom of the speaker. Click through until the speaker starts speaking your language.

STUFF THE GOVERNMENT MAKES US SAY
FCC Compliance:
Note: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Note: Changes or modifications not expressly approved by HMDX could void the user’s authority to operate this equipment.

IC Caution: RSS-GEN Issue 4 November 2014
This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

STUFF OUR LAWYERS MAKE US SAY
IMPORTANT SAFEGUARDS:
When using an electrical product, basic precautions should always be followed, including the following:
READ ALL INSTRUCTIONS BEFORE USING
• WARNING: Do not place speakers too close to ears. May cause damage to eardrums, especially in young children.
• Use this product only for its intended use as described in this manual. Do not use attachments not recommended by HMDX.
• HMDX is not liable for any damage caused to smartphones, iPod/MP3 players, or any other device.
• Do not place or store this product where it can fall or be dropped into a tub or sink.
• Do not place or drop into water or any other liquid.
• Not for use by children. THIS IS NOT A TOY.
• Never operate this product if it has a damaged cord, plug, cable, or housing.
• Keep away from heated surfaces.
• Only set on dry surfaces. Do not place on surface wet from water or cleaning solvents.
Attention California Residents:
WARNING: This product contains chemicals known to the State of California to cause cancer, birth defects, and other reproductive harm.

A MESSAGE FROM THE ENVIRONMENT
WARNING:
This product has an internal, non-replaceable lithium battery. Please dispose in accordance with your local, state, province, and country guidelines.
This product contains small parts that may present a choking hazard for young children.
CAUTION: All servicing of this product must be performed by authorized HMDX Service Personnel only.
