Samsung

GALAXY S5 mini

SMARTPHONE

User Manual

Please read this manual before operating your device and keep it for future reference.
WARNING! This product contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, please call 1-800-SAMSUNG (726-7864).

Intellectual Property

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG Phone, including but not limited to, accessories, parts, or software relating there to (the “Phone System”), is proprietary to Samsung and protected under federal laws, state laws, and international treaty provisions. Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship. You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.

Open Source Software

Some software components of this product incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. Getting Started

Learn about your mobile device hardware, assembly procedures, and how to get started using your new device.
Front View

- **Proximity and gesture sensors**: Detects the presence of objects near the device.

- **Front camera**: Take self-portraits and record videos of yourself.

- **Power key**: Press and hold to turn the device on or off, to turn the device off or restart it, or for quick access to Airplane and Emergency modes. Press to lock or wake up the screen.

- **Back**: Tap to return to the previous screen, or to close a dialog box, menu, or keyboard.

- **Home key/Finger scanner**: Tap to return to the Home screen. Activate the Fingerprint security feature.

- **Recent apps**: Tap to display recent apps or touch and hold for home screen options.

- **Volume key**: Press to adjust the volume of your device's sounds and audio.

- **Status light**: Displays red when charging or the battery is low, blue when a notification has arrived or you are voice recording, and green when fully charged.

- **Earpiece**: Listen to a call.
**Microphone:** Records audio and detects voice commands.

**Infrared transmitter:** Controls external devices using infrared light.

**Rear camera:** Take pictures and record videos.

**Heart rate sensor:** When using the S Health app, this sensor measures your heart rate via your fingertip. For more information, see S Health.

**Microphone:** Records audio and detects voice commands.

**USB charger/Accessory port:** Connect the Charger/USB cable (included) and other optional accessories (not included).

**Speaker:** Plays music and other sounds.

**Flash:** Illuminate subjects in low-light environments when taking a photo or recording video.

**Headset jack:** Connect an optional headset (not included).
Assemble Your Device

This section helps you to assemble your device.

Remove the Back Cover

1. Remove the back cover using the slot on the top left of your phone.
2. Lift the cover up and to the right of the phone.

Warning: Do not bend or twist the back cover excessively. Doing so may damage the cover.

Install the SIM Card

When you subscribe to a cellular network, you are provided with a plug-in SIM card. During activation, your SIM card will be loaded with your subscription details, such as your PIN, available optional services, and other features.

Warning: Please be careful when handling the SIM card to avoid damaging it. Keep all SIM cards out of reach of small children.

► Carefully slide the SIM card into the SIM card slot, which is located below the microSD card slot.

Make sure that the card’s gold contacts face into the phone and that the upper-left angled corner of the card is positioned as shown.

Caution: If the card is not inserted correctly, the device will not detect the SIM card. Reorient the card and place it back into the slot if the SIM is not detected.
Install a Memory Card
You can install an optional microSD or microSDHC memory card (not included) to expand available memory space.

**Note:** A memory card can be installed at any time; it is not necessary to install it prior to using the device.

For more information on installing a memory card, see Install a Memory Card.

Install the Battery

1. Insert the battery into the opening on the back of the phone, making sure the connectors align.
2. Gently press down to secure the battery.

Replace the Back Cover

1. Place the back cover onto the back of the phone and press down.
2. Press along the edge of the back cover until you have a secure seal.
Charge the Battery

Your device is powered by a rechargeable, standard Li-Ion battery. A USB charger (charging head and USB cable) is included with the device for charging the battery from any standard outlet.

The battery comes partially charged. A fully discharged battery requires up to four hours of charge time. You can use the device while charging.

**Caution:** Use only charging devices and batteries approved by Samsung. Samsung accessories are designed to maximize battery life. Using other accessories may invalidate your warranty and may cause damage.

1. Locate the USB charger/Accessory jack.
2. Insert the USB cable into the device’s USB charger/Accessory jack.
3. Connect the USB cable to the charging head, and then plug the charging head into a standard outlet.
4. When charging is complete, unplug the charging head from the outlet and remove the USB cable from the device.

**Caution:** Failure to unplug the wall charger before you remove the battery can cause damage to the device.

When to Charge the Battery

When the battery is low and only a few minutes of operation remain, the device sounds a warning tone at regular intervals.

In this condition, your device conserves its remaining battery power by dimming the screen.

When the battery level becomes too low, the device automatically turns off.

▶ For a quick check of your battery level, view the battery charge indicator located in the upper-right corner of your device’s display. A solid color (□) indicates a full charge.

You can also choose to display a percentage value. Viewing a percentage value can provide a better idea of the remaining charge on the battery. For more information, see **Battery**.
Set Up Your Device

Turn Your Device On or Off

Turn the Device On
► Press and hold the Power key until the device vibrates and starts up.

Turn the Device Off
1. Press and hold the Power key until the device vibrates and the Device options menu displays.
2. Tap Power off.

Configure your Phone

When you first turn on your phone, you will need to set up a few things.
1. As each screen displays, follow the onscreen instructions to set up that particular feature.
2. Tap NEXT or SKIP to progress to the next page.
3. At the last screen, tap Finish, to finish your setup.

Secure Your Device

Use your device’s screen lock features to secure your device.

Lock the Device
By default, the device locks automatically when the screen times out.
► To lock the device, press the Power key.

Unlock the Device
The default Screen lock on your device is Swipe.
► To unlock your device, press the Power key or Home key, and then touch and drag your finger across the screen.

Set Up a Secure Screen Lock
The default Screen lock is Swipe, which offers no security. To choose a more secure screen lock, see Set a Screen Lock.
Set Up Accounts on Your Device

Google Account

Your new device uses your Google Account to fully utilize its Android features, including Gmail, Google Hangouts, and the Google Play store.

When you turn on your device for the first time, set up your existing Google Account, or create a new Google Account.

– or –

To create a new Google Account or set up your Google Account on your device at any time, use Accounts settings.

For more information, see Accounts.

Samsung Account

Create a Samsung account for access to Samsung content and apps on your device. When you turn on your device for the first time, set up your existing Samsung account or create a new Samsung account.

– or –

To create a new Samsung account or set up your Samsung account on your device at any time, use Accounts settings.

For more information, see Accounts.

► From a Home screen, tap Apps > Settings > Accounts > Add account > Google.
Set Up and Access Voice Mail

Set Up Your Voice Mail

1. From the Home screen, tap Phone, then tap Voicemail.
2. Follow the tutorial to create a password, record a greeting, and record your name.

Note: These steps may be different depending on your network.

Access Your Voice Mail

1. From the Home screen, tap Phone, then tap Voicemail. You may be prompted to enter a password.
2. When connected, follow the voice prompts from the voice mail center.

Access Your Voice Mail From Another Phone

1. Dial your wireless phone number.
2. When you hear your voicemail greeting, press the asterisk (*) key on the phone you are using.
3. Enter your password and you are connected to your voicemail.
Know Your Device

Learn some of the key features of your mobile device, including the screens and icons, as well as how to navigate the device and enter text using the keyboard.

**Warning:** Please note that a touch screen responds best to a light touch from the pad of your finger or a non-metallic stylus. Using excessive force or a metallic object when pressing on the touch screen may damage the tempered glass surface and void the warranty.
Home Screen

- **Status icons**: Displays information about the device, such as the network signal strength, battery level, the time, and more.

- **Status bar**: Displays device status icons (right) and notification icons (left).

- **App folder**: Applications can be grouped into folders on the Home screens.

- **Apps list**: Allows quick access to all of your applications.

- **App shortcuts**: Shortcuts to your favorite applications.

- **Home screen indicator**: Indicates which Home screen is presently displayed. Swipe across the screen to the right to open My Magazine.

- **Widget**: Self-contained application that runs on the Home screen (not a shortcut).

- **Notification icons**: Displays new messages and emails, notifications, available software updates, and more.
The Home screen is the starting point for using your device.

Customize your Home screen by adding application shortcuts, widgets, folders, and using wallpapers.

Manage Home Screens

Your device comes with multiple Home screens to hold apps and widgets. You can rearrange the Home screens in a different order.

1. From a Home screen, pinch the screen.
   - or –
   Touch and hold an empty space on the screen.

2. Use these options to manage screens:
   - **Add a screen**: Swipe to the end of the screens, and then tap Add.
   - **Remove a screen**: Touch and hold on a screen, and then drag it to Remove.
   - **Set a screen as the main Home screen**: Tap Main Home screen at the top of a screen. This screen displays when you press the Home key.
   - **Change the order of screens**: Touch and hold on a screen, and then drag to a new position.
   - **Tap Home screen settings** and tap an option to customize.
     - **Transition effect**: Change the visual effect used when you move between Home screens.
     - **My Magazine**: Display all My Magazine updates on the Home screen.

App Shortcuts

You can use app shortcuts to launch an app from any Home screen.

Add a Shortcut to a Home Screen

1. From a Home screen, tap Apps.
2. Touch and hold an app shortcut, drag it to a Home screen and release it.

Remove a Shortcut

1. Touch and hold an app shortcut to release it.
2. Drag the icon to Remove and release it.

*Note*: Removing a shortcut does not delete the app, it just removes the shortcut from the Home screen.

Widgets

Widgets are self-contained apps that run on a Home screen. There are all kinds of widgets, including links to a specific contact, Internet bookmarks, Gmail and email accounts, and many others.

Add a Widget to a Home Screen

1. Touch and hold an empty space on the screen, and then tap Widgets.
2. Touch and hold a widget, drag it to a Home screen and release it.

Remove a Widget

1. From a Home screen, touch and hold a widget to release it.
2. Drag the widget to Remove and release it.

*Note*: Removing a widget does not delete the widget, it just removes the widget from the Home screen.
Folders
Place folders on a Home screen to organize items.

Add a Folder to a Home Screen
1. From a Home screen, touch and hold an app shortcut.
2. Drag the shortcut onto Create folder and release.
3. Enter a folder name.
4. Tap Add application to place additional apps in the folder.
5. Tap DONE.
   A folder is created with the shortcuts inside.

Use Folders
1. Tap a folder to open it and access the shortcuts inside.
2. To add shortcuts to a folder, touch and hold the shortcut, and then drag it onto the folder and release.
3. Tap More options to change the folder’s color scheme.
4. To delete a folder, touch and hold the folder until it detaches, and then drag it to Remove and release.

Change the Wallpaper
Change the look of the Home and Lock screens with wallpaper. You can display a favorite picture or choose from preloaded wallpapers.

1. From a Home screen, pinch the screen.
   – or –
   Touch and hold an empty space on the screen.
2. Tap Wallpapers, and then choose Home screen, Lock screen, or Home and lock screen.
3. Tap a wallpaper to see a sample, and then tap SET AS WALLPAPER.
   For more information, see Wallpaper Settings.
The Status bar at the top of the Home screen provides device information (such as network status, battery charge, and time) on the right side and notification alerts on the left.

### Status Icons

- **Battery full**: Battery is fully charged.
- **Battery low**: Battery is low.
- **Battery charging**: Battery is charging.
- **Vibrate mode**: Vibrate mode is enabled.
- **Mute mode**: Mute mode is enabled.
- **4G LTE active**: The device is connected to a 4G LTE wireless network.
- **Signal strength**: Signal strength.
- **Wi-Fi active**: Wi-Fi is active.
- **Network not available**: No wireless network is available.

### Notification Icons

- **Missed call**: Missed call.
- **Call in progress**: Call in progress.
- **Call on hold**: Call is on hold.
- **Speakerphone**: Call is using speakerphone.
- **New email**: New email has arrived.
- **New Gmail**: New Gmail has arrived.
- **New voicemail**: New voicemail message has been received.
- **New message**: New text or multimedia message has arrived.
- **Download in progress**: Download of a file or app is in progress.
- **Upload in progress**: File is being uploaded or sent.
- **Location services active**: Location service (GPS) is active.
- **App updates available**: App updates are available from the Google Play™ store.
- **App updates complete**: App installation or updates are complete.
- **Keyboard in use**: Keyboard is in use.
Navigation, Motions, and Gestures

Touchscreen Navigation

Tap
Lightly tap items to select or launch them.
• Tap the onscreen keyboard to enter characters or text.
• Tap an item to select it.
• Tap an app icon to launch the application.

Touch and Hold
Activate onscreen items by a touch and hold gesture. For example:
• Touch and hold a widget on a Home screen to move it.
• Touch and hold a field to display a pop-up menu of options.

Swipe
To swipe, lightly drag your finger vertically or horizontally across the screen.
• Swipe the screen to unlock the device.
• Swipe the screen to scroll through the Home screens or menu options.

Drag
To drag, touch and hold on an item, and then move it to a new location.
• Drag an app shortcut to add it to a Home screen.
• Drag a widget to place it in a new location on a Home screen.

Pinch and Spread
Pinch the screen using your thumb and forefinger or spread by moving your fingers apart.
• Pinch or spread the screen to zoom in or out while viewing a picture or a web page.
• Pinch or spread the screen to zoom in or out while taking a picture.

Motions and Gestures
Control your device by making specific gestures with your hand above the device’s screen.

Enable Motions and Gestures
1. From a Home screen, tap Apps > Settings > Motions and gestures.
2. Tap each option and then tap ON/OFF to enable each feature.
Notification Panel

Notification icons on the Status bar display calendar events, device status, and more. For details, open the Notification panel.

View the Notification Panel

1. Swipe down on the Status bar to display the Notification panel.
2. Scroll down the list to see notification details.
   • Tap an item to open it.
   • To clear a single notification, drag the notification left or right. Tap CLEAR to clear all notifications.
3. To close the Notification panel, swipe upward from the bottom of the screen or tap Back.

Quick Settings

In addition to notifications, the Notification panel also provides quick access to device functions such as Wi-Fi, allowing you to quickly turn them on or off.

To view additional Quick settings:

► Swipe left or right across the visible icons.
- or -
   Tap View all.

Notification Panel Settings

To customize the Notification panel:

► From a Home screen, tap Apps > Settings > Notification panel.
Use the Samsung Keyboard

Type your text input using a QWERTY keyboard.

Predictive text

Options key

Note: The available Options keys depend on the application in use. Not all options are available for all apps.

Predictive Text

Predictive text suggests words that match your text entries, and automatically completes common words. Predictive text can learn your personal writing style from your contacts, messages, email, and social networking sites—improving its accuracy of predicting your text entries.

Configure the Samsung Keyboard

To customize the Samsung Keyboard:

1. From a Home screen, tap Apps > Settings > Language and input.
2. Tap Samsung keyboard for options.

Special Keys

Sym Symbols: Tap to insert numbers and symbols.

Touch and hold the Options key to:

Voice typing: Use Google Voice™ typing.

Handwriting mode: Use your handwriting to enter text.

Clipboard: Access the clipboard.

Insert emoji: Insert an emoji at the cursor position.

Keyboard layout: Change the layout of the keyboard.
Use Google Voice Typing

Instead of typing, enter text by speaking.

To enable Google voice typing:
1. On the Samsung Keyboard, tap **Google voice typing**.
   - You may need to touch and hold the **Options** key (left of the **Space** key) to find it.
2. Speak your text.

   **Note:** Tap **Languages** to download additional languages for use with Google voice typing.

Configure Google Voice Typing

To customize Google voice typing:
1. From a Home screen, tap **Apps > Settings > Language and input**.
2. Tap **Google voice typing** for options.

Use Swype

Swype is a text input method that makes it possible to enter a word by sliding your finger or stylus from letter to letter, lifting your finger between words.

For example, to enter the word “this”, simply slide your finger or stylus across t-h-i-s.

![Swype Keyboard](image)

Enable Swype

To enable the Swype keyboard while entering text:
1. Touch the top of the screen and swipe downward to display the Notification panel.
2. Tap **Select keyboard**.
3. Tap **Swype**.

Configure Swype

To customize Swype:
1. From a Home screen, tap **Apps > Settings > Language and input**.
2. Tap **Swype** for options.
Calling

Make telephone calls using a variety of calling features and services.
Make and Answer Calls

Learn how to make or answer a call. Explore features and functionality associated with making or answering a call.

Make a Call

1. From a Home screen, tap Phone.
2. Enter a number and tap Dial.

Quickly Dial a Number from Your Contact List

1. From a Home screen, tap Apps > Contacts.
2. While viewing your contact list, swipe your finger across a contact to the right call the contact.

Dial a Recent Number

All incoming, outgoing, and missed calls are recorded in the Call log. If the number or caller is listed in your contacts list, the associated name is also displayed.

1. From a Home screen, tap Phone.
2. Tap the Logs tab. A list of recent calls is displayed.
3. Tap a contact, and then tap Call.

Answer or Reject a Call

When a call is received, the phone rings and displays the caller’s phone number or name if stored in the contacts list.

Answer from the Main Screen

At the incoming call screen:
► Touch and drag Answer in any direction to answer the call.
– or –
Touch and drag Reject in any direction to reject the call and send it to your voicemail.

Answer While Active

If you are using an app when you receive a call, it will appear as a pop-up window.

On the incoming call pop-up screen:
► Tap Answer to answer the call and exit the application.
– or –
Tap Reject to reject the call and send it to your voicemail.

End a Call

When you are ready to end your call:
► Tap End call.
Multitask While on a Call

If you exit the call screen and return to a Home screen, your active call is indicated by on the Status bar.

This lets you continue with your current call and do something else, such as access the contacts list, view a recent email, locate a picture, and more.

To return to the call screen:

► Tap Reactivate to return to the call screen.

To end a call from any application:

► Swipe the Status bar downward to reveal the Notification panel, and then tap End.

Options During a Call

Your phone provides a number of functions that you can use during a call.

Adjust the Call Volume

► Press the Volume Key to increase or decrease the volume.

– or –

Quickly add more volume to the incoming audio by tapping More options > Extra volume.

Listen with the Speaker or Bluetooth Headset

Listen to the call using the speaker or through a Bluetooth headset (not included).

► Tap Speaker to hear the caller using the speaker.

– or –

Tap Bluetooth to use a Bluetooth headset (not included).

Personalize the Call Sound Setting

Adjust the sound by using an audio equalizer.

► From the currently active call, tap More options > Personalize call sound.

Place a New Call While on a Call

If your service plan supports this feature, you can make another call while a call is in progress.

1. From the active call, tap Add call to dial the second call. The first call is displayed as a thumbnail.

2. Dial the new number and tap Dial.

3. When the new call is answered:

   • Tap SWAP to switch between the two calls.
   • Tap Merge to hear both callers at once (multi conferencing).

Call Waiting

If your service plan supports this feature, you can answer an incoming call while you have a call in progress. You are notified of an incoming call by a call waiting tone.

To answer a new call while you have a call in progress:

1. Slide Answer in any direction to answer the new call.

2. Tap an option:

   • Put [caller] on hold to place the previous caller on hold while you answer the new incoming call.
   • Merge with [caller] to add the new caller to the current call.
   • End call with [caller] to end the previous call and answer the new call.

3. Tap the previous On hold number entry and select SWAP to switch between the two calls. This places the new caller on hold and activates the previous call.
Call Log

The numbers of the calls you have dialed, received, or missed are stored in the Call log.

1. From a Home screen, tap Phone:

2. Tap the Logs tab. A list of recent calls is displayed. If the caller is in your contacts list, the caller’s name is displayed.

Save a Recent Call to Your Contacts List

1. From a Home screen, tap Phone:

2. Tap the Logs tab.

3. Tap the call that contains the information that you want to save to your contacts list.

4. Tap CREATE CONTACT.
   
   – or –

   If you want to replace the number for an existing contact, tap UPDATE EXISTING.

Delete a Call from the Call Log

1. From a Home screen, tap Phone:

2. Tap the Logs tab.

3. Touch and hold the call you want to delete from the Call log.

4. Tap Delete.

Add a Call to the Reject List

By adding a caller to your Reject list, future calls from this number will be sent directly to your voicemail.

1. From a Home screen, tap Phone:

2. Tap the Logs tab.

3. Touch and hold the caller you want to add to the Reject list.

4. Tap More options > Add to Auto reject list.

Use Speed Dial to Make a Call

You can assign a shortcut number to a contact for speed dialing their default number.

To create a Speed Dial:

1. From a Home screen, tap Apps > Contacts.

2. Tap More options > Speed dial. The Speed dial screen displays showing the numbers 1 through 100. Number 1 is reserved for voicemail.

3. Tap an unused number. A list of contacts displays.

4. Tap a contact to assign it to the number. The selected contact displays in the speed dial number box.

To make a call using Speed Dial:

1. From a Home screen, tap Phone:

2. Tap the Keypad tab.

3. Touch and hold the speed dial number.

   If the speed dial number is more than one digit long, enter the first digits, then hold the last digit.

To remove a Speed Dial number assignment:

1. From a Home screen, tap Apps > Contacts.

2. Tap More options > Speed dial.

3. Find the contact to remove from Speed Dial and tap Remove.
Make an Emergency Call

The Emergency calling mode makes redialing an emergency number a one-tap process.

**Note:** This mode can drain your battery power more rapidly than normal calling mode.

Make an Emergency Call without a SIM Card

Without a SIM card, you can only make an emergency call with the phone; normal cell phone service is not available.

1. From the Lock screen, tap 📞 Emergency call and drag upward.
2. Tap **EMERGENCY CALL** to display the Emergency dialer.
3. Enter 911 and tap 📲 Dial.
4. Complete your call. During this type of call, you will have access to the Speaker mode, Keypad, and End Call features.
5. Tap 📛 End call.

Make an Emergency Call with a SIM Card

1. From a Home screen, tap 📞 Phone.
2. Enter 911 and tap 📲 Dial.

Call Settings

To access the Call settings menu:

- From a Home screen, tap 📞 Phone > More options > Settings > Call.
  - or -
  From a Home screen, tap 📱 Apps > 🎯 Settings > Call.
Applications

The Apps list displays all applications installed on your device, both preloaded apps and apps you download and install yourself.

Learn how to change the way apps appear, organize apps into folders, and uninstall or disable apps.
The Apps list shows all preloaded apps and apps that you downloaded. You can uninstall, disable, or hide apps from view.

Shortcuts to apps can be placed on any of the Home screens. For more information, see Add a Shortcut to a Home Screen.

Access Applications

1. From a Home screen, tap Apps.
2. Tap an application’s shortcut to launch it.
3. To return to the main Home screen, press the Home key.

Download and Install New Apps

Find new apps to download and install on your device.

- Play Store: Download new apps from the Google Play store. Visit play.google.com/store/apps to learn more.
- Galaxy Apps: View and download Samsung apps that are optimized for use with Galaxy devices. Visit samsung.com/levant/apps/mobile/galaxyapps/ to learn more.

Note: When you access Samsung apps, Galaxy Apps is downloaded to your tablet and displays on the Apps screen.

View Your Downloaded Apps

You can view all of the apps you have downloaded and installed on your device.

1. From a Home screen, tap Apps.
2. Tap More options > Downloaded apps.

Uninstall or Disable Apps

You can uninstall or disable apps you download and install.

- Preloaded apps cannot be uninstalled.
- Apps that are disabled are turned off and hidden from view.

1. From a Home screen, tap Apps.
2. Tap More options > Uninstall/disable apps.
   Apps that can be uninstalled show Uninstall/Disable on their shortcut.
3. Tap Uninstall/Disable and follow the prompts to either uninstall or disable the app.

To enable apps after disabling them:

1. From a Home screen, tap Apps > Settings > Application manager.
2. Swipe to the DISABLED screen and tap the app you want to enable.
3. Tap ENABLE. The app displays again in the Apps list.

For more information, see Disabled Services.
Organize Your Apps

The Apps shortcuts can be organized in folders and listed alphabetically or in your own custom order.

Change the Order Apps Are Listed

1. From a Home screen, tap Apps.
2. Tap More options > View as.
3. Tap an option:
   - Custom: The default view, which allows you to touch and hold apps to move them from screen to screen.
   - Alphabetical order: App shortcuts are arranged in alphabetical order.

Use Folders to Organize Apps

To create a folder:
1. From a Home screen, tap Apps.
2. Tap More options > Create folder.
3. Enter a folder name.
4. Tap More options to change a folder’s color scheme, and then tap More options to continue.
5. Tap Add application, select apps to include in the folder, and then tap DONE.

To launch apps in a folder:
   ▶ Tap a folder, and then tap an app shortcut to launch it.

To remove a folder:
1. From a Home screen, tap Apps.
2. Tap More options > Remove folder.
3. Tap a folder to select it.
4. Tap DONE.

Hide or Show Apps

Hide Apps from View
You can hide (rather than uninstall or disable) any apps you do not want to see on the Apps list.

1. From a Home screen, tap Apps.
2. Tap More options > Hide apps.
3. Tap apps to hide, and then tap DONE.

Show Hidden Apps
You can unhide apps you have hidden and put them back on the Apps list.

1. From a Home screen, tap Apps.
2. Tap More options > Show hidden apps.
3. Tap apps to unhide, and then tap DONE.
Apps List Options

1. From a Home screen, tap Apps.

2. Tap More options for these options:

   • **Edit**: Touch and hold an app shortcut then drag it to:
     - Create page to add another page to the Apps list.
     - Create folder to create a new folder.
     - App info to view information about this app.
     - Disable to disable the app.
     - Uninstall to uninstall the app. Preloaded apps cannot be uninstalled.

   • **Create folder**: Create a new folder to hold apps.

   • **Remove folder**: Remove folders that you have created. This option appears only if folders have been created.

   • **View as**: Choose how apps are listed.

   • **Downloaded apps**: View apps that you have downloaded.

   • **Uninstall/disable apps**: Uninstall an app that you downloaded to your device, or disable a preloaded app (preloaded apps cannot be uninstalled). Touch Uninstall/Disable to remove or disable the selected app.

   • **Hide apps**: Hide apps from the Apps list.

   • **Show disabled apps**: Display disabled apps. This option appears only if apps have been disabled.

   • **Show hidden apps**: Display hidden apps. This option appears only if apps have been hidden.

   • **GALAXY Essentials**: View and download Samsung Apps that are optimized for use with Galaxy devices.

   • **Help**: View information about your device.

Other Applications

Here are some other applications provided on your device.

Dropbox
Use this application to save and share files with others via the Dropbox cloud storage. When you save files to Dropbox, your device automatically syncs with the web server and any other computers that have Dropbox installed.

Flipboard
Use this application to access your personalized magazines.

Kids Mode
Kids Mode creates a child-friendly environment on your device. The following apps are available: Drawing, Gallery, Camera, Music. All content available to the child is controlled in the Parental Controls section.

Mobile Hotspot
Use Mobile Hotspot to share your device’s mobile data connection using a USB cable or as a portable Wi-Fi hotspot.

Smart Remote
Smart Remote lets you control select Wi-Fi-enabled Samsung TV models using your Samsung Galaxy device. Now you can control all of your TV’s settings, such as ON/OFF function, channel navigation, and volume control from the same Samsung device you already know.
The Calculator provides basic and advanced arithmetic functions.

**Basic Operation**

1. From a Home screen, tap Apps > Calculator.
2. Enter the first number using the numeric keys.
3. Tap the appropriate arithmetic function key.
4. Enter the next number.
5. To view the result, tap the equals key.

**Additional Functions**

To clear the results:

- Tap Clear.

To clear the calculator history:

- Tap History > CLEAR HISTORY.

To copy all or part of the calculation to the clipboard:

- Touch and hold an entry in the display field.

**Scientific Calculator**

Turn the device landscape to use advanced arithmetic functions, such as sin, cos, and tan.
Calendar

Manage your events and tasks.

Calendar View
To choose a calendar view:

1. From a Home screen, tap Apps > Calendar.
2. Tap Menu and tap one of the following:
   - **Year**: Display all twelve months of this year. Swipe across the screen to display another year.
   - **Month**: Display the current month. Swipe across the screen to display another month.
   - **Month and agenda**: Display the current month and any events or tasks for the month.
   - **Week**: Display the current week. Swipe across the screen to display another week.
   - **Day**: Display today’s schedule by hour. Swipe across the screen to display another day.
   - **Agenda**: Display all events and tasks.
3. Tap TODAY to return to the current date.

Create an Event or Task

1. From a Home screen, tap Apps > Calendar.
2. Tap Add and use one of the following methods:
   - **Add event**: Enter an event with an optional repeat setting.
   - **Add task**: Enter a task with an optional priority setting.
3. Enter details for the event or task, and then tap SAVE.

Delete an Event or Task

1. From a Home screen, tap Apps > Calendar.
2. Tap an event or task to view it.
3. Tap Delete.

To delete multiple events or tasks:

1. Tap More options > Delete.
2. Select events or tasks.
3. Tap DONE.

Share Events

1. From a Home screen, tap Apps > Calendar.
2. Tap to view an event or task.
3. Tap More options > Share via, select a sharing method, and follow the prompts.

Calendar Settings

These settings allow you to modify settings associated with using the Calendar.

1. From a Home screen, tap Apps > Calendar.
2. Tap More options > Settings.
3. Tap an option and follow the prompts.
Take Pictures

Take pictures with your device’s front or back camera or combine shots with Dual camera.

1. From a Home screen, tap Apps > Camera.
2. Using the display screen as a viewfinder, compose your shot by aiming the camera at the subject. While composing your picture, use the onscreen options or these gestures:
   - Touch the screen with two fingers and pinch or spread them on the screen to zoom in and out.
   - Tap the screen to focus on the area you touched.
3. If desired, before taking the photo, you can touch onscreen icons to access various camera options and settings. You can also touch the screen to move the focus field to the area you touch.
4. Tap Take a picture to take the picture.

**Note:** You can also press the Volume key up or down to take a picture. This is the default action of the Volume key. You can also set the Volume key to act as the video record key or as a zoom key.
Quick Settings
Reorganize shortcuts for easy access to the camera’s various options.

1. From a Home screen, tap Apps > Camera.
2. Tap Settings to quickly change Camera settings. The available options vary by mode.
3. Touch and hold a settings icon and drag it to the left side of the screen.
4. Touch and drag a Quick setting icon to change the position of the icon or to change which Quick settings to use.

Camera Settings
1. From a Home screen, tap Apps > Camera.
2. Tap Settings to configure settings for Camera. Available options vary depending on the camera or recording mode used.
   - Picture size: Select a resolution. Use higher resolution for higher quality. Higher resolution pictures take up more memory.
   - ISO: Select an ISO value. This controls camera light sensitivity. It is measured in film-camera equivalents. Low values are for stationary or brightly-lit objects. Higher values are for fast-moving or poorly-lit objects.
   - Metering modes: Select a metering method. This determines how light values are calculated. Center-weighted measures background light in the center of the scene. Spot measures the light value at a specific location. Matrix averages the entire scene.
   - Tap to take pics: Tap the image on the preview screen to take photos.
   - Save as: Save the picture in HDR (rich tone) only.
   - Video size: Select a resolution. Use higher resolution for higher quality. Higher resolution videos take up more memory.
   - Recording mode: Select Normal, Limit for email, or Fast motion mode.
   - Effects: Add special graphical effects.
   - Flash: Activate or deactivate the flash.
   - Timer: Take time-delayed pictures or videos.
   - Location tags: Attach a GPS location tag to the photo.
   - Storage location: Select the memory location for storage.
   - Review pics/videos: Set to show photos or videos after taking them.

Note: The shooting modes that appear vary depending on which modes are selected in Manage modes.

Shooting Mode
Several visual effects are available. Some modes are not available when taking self-portraits.

1. From a Home screen, tap Apps > Camera.
2. Tap MODE to display the following options:
   - Auto: Allow the camera to evaluate the surroundings and determine the ideal mode for the picture.
   - Beauty face: Take a picture with lightened faces for gentler images.
   - Panorama: Create a linear image by taking pictures in either a horizontal or vertical direction.
   - Virtual tour: Create interactive virtual tours of your surroundings.
   - Continuous shot: Take pictures continuously by pressing and holding the Capture button.
   - HDR (Rich tone): Take photos without losing details in bright and dark areas.
   - Shot & more: Take a quick burst of pictures and apply effects to them.
   - Manage modes: Select which shooting modes to display when you tap MODE.
   - Download: Download additional shooting modes from the Galaxy Apps store.

Note: The shooting modes that appear vary depending on which modes are selected in Manage modes.
• **White balance**: Select an appropriate white balance, so images have a true-to-life color range. The settings are designed for specific lighting situations. These settings are similar to the heat range for white-balance exposure in professional cameras.

• **Exposure value**: Change the exposure value. This determines how much light the camera’s sensor receives. For low light situations, use a higher exposure.

• **Grid lines**: Display viewfinder grid lines to help composition when selecting subjects.

• **The Volume key**: Use the Volume key as the camera key, the record key, or as a zoom key.

• **Voice control**: Set the camera to take photos with voice commands.

• **Help**: View help on using the camera.

• **Reset settings**: Reset the camera settings.
The Clock app offers features for keeping track of time and setting alarms.

1. From a Home screen, tap Apps > Clock.

2. Tap a tab to use a feature:
   - **Alarm**: Set an alarm to ring at a specific time.
   - **World clock**: View the time of day or night in other parts of the world. World Clock displays time in hundreds of different cities, within all 24 time zones around the world.
   - **Stopwatch**: Measure intervals of time.
   - **Timer**: Use a timer to count down to an event based on a preset time length (hours, minutes, and seconds).

**Alarm**

Set alarms by using the Alarm tab.

**Create an Alarm**

Create an alarm event. You can set one-time or recurring alarms, and choose options for how to be notified.

1. From a Home screen, tap Apps > Clock.

2. Tap Create alarm to configure:
   - **Time**: Set a time for the alarm.
   - **Days**: Choose the days to use this alarm.
   - **Repeat weekly**: Repeat the alarm every week.
   - **Alarm type**: Choose whether the alarm will use sound, vibration, or vibration and sound to alert you.
   - **Alarm tone**: If you have chosen an alarm type that includes sound, choose a sound to play for the alarm.
   - **Volume**: If you have chosen an alarm type that includes sound, drag the slider to set the volume of the alarm.
   - **Snooze**: Tap ON/OFF to enable or disable the snooze function. Tap Snooze to select the interval and number of times to repeat the alarm.
   - **Smart alarm**: When on, the alarm will start playing a tone at a low volume at an interval before the alarm time, and slowly increase in volume. Choose a time interval and a tone to use with smart alarm. Available when you have chosen an alarm type that includes sound.
   - **Name**: Enter a name for the alarm.

3. Tap DONE.

**Delete an Alarm**

1. From a Home screen, tap Apps > Clock.

2. Touch and hold an alarm, and then tap Delete.
World Clock

The world clock lets you keep track of the current time in multiple cities around the globe.

1. From a Home screen, tap Apps > Clock.
2. Tap World Clock.

To list a city on the main World Clock screen:
1. Tap Add city and tap a city.
2. Repeat to add more cities.

To remove a city from the main World Clock screen:
1. Tap More options > Delete.
2. Tap the checkbox next to each city you want to remove or tap the selected checkbox to remove all cities.
3. Tap DONE.

Stopwatch

The stopwatch lets you time events down to the hundredth of a second.

1. From a Home screen, tap Apps > Clock.
2. Tap Stopwatch and use the following options:
   - START: Begin timing.
   - STOP: Stop timing.
   - LAP: Keep track of lap times.
   - RESUME: Continue timing after stopping the clock.
   - RESET: Reset the stopwatch to zero.

Timer

The timer provides a countdown timer for up to 99 hours, 59 minutes, and 59 seconds.

1. From a Home screen, tap Apps > Clock.
2. Tap Timer.
3. Use the keypad and tap Hours, Minutes, and Seconds to set the length of the timer.
4. Use the following options:
   - START: Begin the timer.
   - STOP: Stop the timer.
   - RESUME: Continue countdown after stopping the clock.
   - RESET: Reset the timer.
Contacts

Store and manage your contacts with the Contacts app, which can be synchronized with a variety of your existing personal accounts, including Google, Email, Facebook, and your Samsung account.

For more information on connecting with and managing your accounts through your device, see Accounts.

Manage Contacts

Access your list of contacts by using the Contacts app, which is a shortcut to the Contacts tab. To access your Contacts list:

► From a Home screen, tap Apps > Contacts.

Find a Contact

You can search for a contact, or scroll the list to find one by name.

1. From a Home screen, tap Apps > Contacts.

2. Tap the Search field, and then enter characters to find contacts that match.

– or –

Tap a letter on the side of the list to jump directly to that letter in the alphabetical list. You can also press and slide across the alphabetical list to select a letter with better precision.

Add a Contact

Use the following procedure to add a new contact.

1. From a Home screen, tap Apps > Contacts.

2. Tap Create contact, and then tap contact fields to enter information.

- Choose a storage account for the contact. You can store the contact on the device, your SIM card, or sync it with an account.
- Tap Contact photo to assign a picture to the new contact.
- Enter a name, phone number, email address, and assign the contact to a group, and choose a default ringtone.
  - Tap Add new to enter additional entries.
  - Tap Remove to remove an entry.
  - Tap Expand for additional fields.
  - Tap Label to choose a label for the field.
- Tap ADD ANOTHER FIELD to add additional contact information.

3. Tap SAVE.

Edit a Contact

When editing a contact, you can tap a field and change or delete the information, or you can add additional fields to the contact’s list of information.

1. From a Home screen, tap Apps > Contacts.

2. Tap the contact to display it, and then tap Edit.

3. Tap any of the fields to add, change, or delete information.

4. Tap SAVE.
Share a Name Card

When you share a name card, the contact’s information is sent as a vCard file (.vcf). You can share a vCard via Bluetooth or Wi-Fi Direct, attach it to a message, or save it to a storage location.

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap More options > Share name card.
3. Choose a sharing method and follow the prompts.

Link Contacts

When you have contacts from various sources (Gmail, Facebook, and more), you may have multiple similar entries for a single contact. Contacts lets you link multiple entries into a single contact.

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it, and then tap Linked contact.
3. Tap LINK ANOTHER CONTACT, and then select contacts to link to the original contact.
4. Tap DONE.

Unlink Contacts

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it, and then tap Linked contact.
3. Tap Separate beside contacts to unlink them from the main contact.

Delete Contacts

You can delete a single contact or choose multiple contacts to delete.

1. From a Home screen, tap Apps > Contacts.
2. Touch and hold a contact to select it. You can also tap other contacts or tap the selected checkbox at the top of the screen to select all.
3. Tap Delete.

Favorites

When you mark contacts as favorites, they are easily accessible from other apps. Favorites display together on the Favorites tab in Contacts.

Mark Contacts as Favorites

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap Add to Favorites (the star brightens ★).

Remove Contacts from Favorites

1. From a Home screen, tap Apps > Contacts.
2. Tap the Favorites tab, and then touch and hold a contact to select it. You can also tap other contacts or tap the selected checkbox at the top of the screen to select all.
3. Tap Delete.

Create a Shortcut to a Favorite

You can create a shortcut to a favorite on the home screen, to access their information directly from the home screen.

1. From a Home screen, tap Apps > Contacts.
2. Tap the Favorites tab, and then touch and hold a contact to select it.
Groups

You can use groups to organize your contacts. Your device comes with preloaded groups, and you can create your own. You might create a group for your family, for coworkers, or a team. Groups make it easy to find contacts, and you can send messages to the members of a group.

Create a Group

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap Create group.
3. Tap fields to enter information about the group:
   - Tap Create group in <location> to choose where to save the group. You can save it to a specific account, to the device memory, or to all accounts.
   - Tap Group name to enter a name for the new group.
   - Tap Group ringtone, Group message tone, and Group vibration pattern to select identifying notifications for this group.
4. Tap Add member and select contacts to add to the new group, and then tap DONE.
5. Tap SAVE.

Rename a Group

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap a group.
3. Tap More options > Edit group and enter a new name.
4. Tap SAVE.

Add Contacts to a Group

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap a group.
3. Tap Add member, and then tap the contacts you want to add.
4. Tap DONE.

Send a Message or an Email to a Group

You can send a message or an email to members of a group.

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap a group.
3. Tap More options > Send message or email > Email.
4. Tap either Message or Email.
5. Tap contacts to select them, or tap the selected checkbox at the top of the screen to select all, and then tap DONE. Only group members that have phone numbers (Message) or email addresses (Email) in their records are shown.
6. Choose an account and follow the prompts.

Delete a Group

Preset groups, such as Family, cannot be deleted.

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups.
3. Tap More options > Delete group.
4. Tap groups to select them or tap the selected checkbox at the top of the screen to select all, and then tap DONE.
5. Tap Group only to only delete the group or tap Groups and members to delete the groups and the contacts in the groups.

Contact Settings

These settings allow you to modify settings associated with using the Contacts app.

1. From a Home screen, tap Apps > Contacts.
2. Tap More options > Settings > Contacts.
3. Tap an option and follow the prompts.
Use the Email app to view and manage all your email accounts in one application.

To access Email:
> From a Home screen, tap Apps > Email.

Configure Email Accounts
You can configure Email for most accounts in just a few steps.

1. From a Home screen, tap Apps > Email.
2. Follow the prompts to set up your email account.

To add additional accounts:
1. From a Home screen, tap Apps > Email.
2. Tap More options > Settings > Manage accounts.
3. Tap + Add account.

The device communicates with the appropriate server to set up your account and synchronize your email. When complete, your email appears in the Inbox for the account.

Note: To configure email account settings at any time, tap More options > Settings. Tap Manage accounts and then tap the account to display Account settings.

View Multiple Email Accounts
You can view email you receive for all accounts on the Combined view screen or you can view email accounts individually.

1. From a Home screen, tap Apps > Email.
2. Tap Menu at the top left of the screen to select:
   - Combined inbox: View all email in a combined inbox.
   - <Account Name>: View email for only this account.

Remove Email Accounts
To remove an Email account:
1. From a Home screen, tap Apps > Email.
2. Tap Menu > MANAGE ACCOUNTS.
3. Touch and hold the account you want to delete, and then tap Remove.

Email Settings
These settings allow you to modify settings associated with using the Email app.

1. From a Home screen, tap Apps > Email.
2. Tap More options > Settings.
3. Tap an option and follow the prompts.
**Gallery**

*View, edit, and manage pictures and videos.*

**View Images and Videos**

Launching Gallery displays available folders. When another application, such as Email, saves an image, a Download folder is automatically created to contain the image. Likewise, capturing a screenshot automatically creates a Screenshots folder.

1. From a Home screen, tap Apps > Gallery.
2. Tap Menu, and then tap Time or Album to choose the way items display.
3. Tap Menu > Album, and then tap More options > Create album to create a new album.
4. To launch the Camera app, tap Camera.
5. When in Album view, tap an album to open it.
6. Tap an image or video to view it in full screen mode. Scroll left or right to view the next or previous image or video.

**Zoom In or Out**

Use one of the following methods to zoom in or out on an image:

- Double-tap anywhere on the screen to zoom in or zoom out.
- Spread two fingers apart on any place to zoom in. Pinch the screen to zoom out.

**Play Videos**

1. From a Home screen, tap Apps > Gallery.
2. Tap a folder to open it.
3. Tap a video to view it.
4. Tap Play to play the video.

**Trim Segments of a Video**

1. Select a video, and then tap Trim.
2. Use the sliders at the bottom of the screen to trim the video. Move the left bracket to the desired starting point, move the right bracket to the desired ending point.
3. Tap DONE to save the video.
Edit Images

While viewing an image:

► Tap More options:
  
  • **Edit:** Use basic tools to edit your picture.
  
  • **More info:** View image details.
  
  • **Studio:** Edit your picture with advanced tools.
  
  • **Rotate left:** Rotate the image 90 degrees to the left.
  
  • **Rotate right:** Rotate the image 90 degrees to the right.
  
  • **Crop:** Resize the frame to crop the image.
  
  • **Rename:** Rename the file.
  
  • **Slideshow:** Start a slideshow with the images and videos in the current folder.
  
  • **Set as:** Set the image as wallpaper or as a contact’s photo.
  
  • **Print:** Print the image via a USB or Wi-Fi connection. Some printers may not be compatible with the device.
  
  • **Settings:** Change the Gallery settings.

Share Images

Use one of the following methods:

1. From a Home screen, tap Apps > Gallery.
2. Tap a folder to open it.
3. In a folder, tap More options > Select, select images, and then tap Share via to send them to others or share them via social network services.

   — or —

When viewing a single image, tap Share via to send it to others or share it via social network services.

Tag Buddy

Tag buddy automatically tags your photos and videos with the date and time it was taken, and optionally adds the location it was taken (if Location Services are enabled).

You can view these tags by tapping More options > More info while viewing the photo or video.

To enable Tag buddy:
1. From a Home screen, tap Apps > Gallery.
2. Tap More options > Settings > Tag buddy.
3. Tap ON/OFF to turn the feature on.

Face Tags

Face tags allow you to add a contact name to people in your photos. Using face tags lets you filter your photos by people’s names in the Gallery app and other apps which support face tags.

While viewing photos, face tags will appear identifying your contacts. Tap a face tag to call or message the contact.

To enable Face tags:
1. From a Home screen, tap Apps > Gallery.
2. Tap More options > Settings.
3. Tap Face tag to turn the feature on.

To use Face tags:
1. From a Home screen, tap Apps > Gallery.
2. Tap an image to view it in full screen mode.
   - Whenever possible, the Gallery app will identify faces with a circle. Tap the circle to add a contact’s name.
   - To manually add a face tag, touch and hold the photo where you want the tag. Move and crop the box if desired, and tap SAVE. Select a contact.
   - If the contact you select does not currently have a contact photo, you will be asked if you would like to use this photo as their contact photo.
Delete Images

1. From a Home screen, tap Apps > Gallery.
2. Tap a folder to open it.
3. In a folder, tap More options > Delete, select images, and then tap DONE.
   - or -
   When viewing a single image, tap Delete.

Gallery Settings

These settings allow you to modify settings associated with using your Gallery.

1. From a Home screen, tap Apps > Gallery.
2. Tap More options > Settings.
3. Tap an option and follow the prompts.
4. Tap More options > Add account to add a Samsung, Dropbox, Google, or Facebook account.
Access the Internet with a fully featured web browser.

Access the Internet

► From a Home screen, tap Apps > Internet.

Command Keys

The following command keys are available on the browser window:

- ◀ Back or ◀ Back: Return to the previous page.
- ▶ Forward: Go forward to a recent page.
- ▼ Home: Display your Internet Home screen.
- □ Refresh: Reload the current page.

View a Web Site

To view a web site:

► Tap the address field, enter the web address, and then tap Go.

To share, save, or print the current web page:

► Tap More.

To zoom in or out:

► Tap the screen twice or pinch the screen to zoom out and stretch the screen to zoom in.

Browser Tabs

Use tabs to view multiple web pages at the same time.

To open a new tab:

► Tap Tabs > NEW TAB.

To close a tab:

1. Tap Tabs.
2. Tap Close by the tabs you want to close.

Bookmarks

To bookmark the current web page:

► Tap Bookmarks > ADD.

To open a bookmarked web page:

► Tap Bookmarks and tap an entry.

History

To view a list of recently visited web pages:

► Tap Bookmarks > HISTORY tab.

Saved Pages

To save a web page:

► Tap MORE > Save web page.

To view a list of saved web pages:

► Tap Bookmarks > SAVED PAGES tab.
Share Pages

To share a web page address with others:

► Tap MORE > Share and follow the prompts.

Secret Mode

Pages viewed in secret tabs do not display within your browser history or search history, and leave no traces (such as cookies) on your device.

Secret tabs display Secret on their tab.

Note: Any downloaded files will remain on your device after you close the secret tab.

To open a new secret tab:

1. From a Home screen, tap Apps > Internet.
2. Tap 2 Tabs.
3. Tap MORE > New secret tab.

Internet Settings

These settings allow you to modify settings associated with using the Internet app.

1. From a Home screen, tap Apps > Internet.
2. Tap MORE > Settings.
3. Tap an option and follow the prompts.
Memo

Use the Memo app to write and save notes on your device.

Compose a Memo
1. From a Home screen, tap Apps > Memo.
2. Tap Create memo and type a memo.
3. To change the category, tap Category.
4. To insert an image into the memo, tap Insert.
5. To use your voice to insert text into the memo, tap Voice.
6. When finished creating your memo, tap SAVE.

Manage Memos
1. From a Home screen, tap Apps > Memo.
2. Tap a memo entry to open it.
   • To edit a memo, tap the content of the memo.
   • To delete memos, tap More options > Delete, select memos, and tap DONE.
   • To send a memo, tap More options > Select, select a memo, and tap Share via.
   • To send the memo to a Google or Samsung printer, tap More options > Select, select a memo, and tap More options > Print.

Browse Memos
1. From a Home screen, tap Apps > Memo.
2. Browse memo entries by scrolling up or down.
3. Tap Search to search for a memo.

Memo Options
While browsing memo thumbnails:

► Tap More options for the following options:
   • Select: Select notes to share, print, or delete.
   • Delete: Delete memos.
   • Account: Choose an account to use for storing memos outside of your device.
Learn how to send and receive different messages using the Samsung Messages app on your phone.

Types of Messages

The Samsung Messages app provides the following message types:

- Text Messages (SMS)
- Multimedia Messages (MMS)

The Short Message Service (SMS) lets you send and receive text messages to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider’s message service.

The Multimedia Messaging Service (MMS) lets you send and receive multimedia messages (such as picture, video, and audio messages) to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider’s multimedia message service.

Messaging icons are displayed at the top of the screen and indicate when messages are received and their type.

Create and Send Messages

This section describes how to create and send a message using the Messages app.

1. From a Home screen, tap Apps > Messages.

2. Tap Compose.

3. Tap the Enter recipients field to manually enter a recipient or tap Add recipient to select a recipient from your Contacts. You can also select the recipient based on Groups, Favorites, or Logs.

4. Tap the Enter message field and enter a message.

5. Tap Attachment to attach a file to the message.

6. Tap Add emojis to choose an available emoji from an onscreen list and then add it into your message (at the cursor location) if desired.

7. Review the message and tap Send.

Note: If you exit a message before you send it, the message is automatically saved as a draft.

View New Messages

When you receive a new message, a new message icon appears on the Status bar.

To view the message:
1. Open the Notification panel and select the message. For more information, please see Notification Panel.

   – or –

   From a Home screen, tap Apps > Messages, and then tap the new message to view it.

2. To play a multimedia message attachment (audio or video), tap Play.

3. To scroll through the list of messages, tap the screen and scroll up or down the page.

Delete Messages

To delete messages, follow these steps:

1. From a Home screen, tap Apps > Messages.

2. Tap More options > Delete.

3. Tap each message you want to delete or tap the selected checkbox at the top of the screen to select all messages.

4. Tap DONE.

5. At the Delete conversations prompt, tap DELETE to delete or CANCEL to cancel.

Message Search

1. You can search through your messages by using the Message Search feature.

2. From a Home screen, tap Apps > Messages.

3. Tap Search.

4. Enter a word or phrase to search for, and then tap Search on the keyboard.

Message Search

1. You can search through your messages by using the Message Search feature.

2. From a Home screen, tap Apps > Messages.

3. Tap Search.

4. Enter a word or phrase to search for, and then tap Search on the keyboard.

Emergency Alerts

This device is designed to receive wireless emergency alerts from the Commercial Mobile Alerting System (CMAS) which may also be known as the Personal Localized Alerting Network (PLAN). For more information, please contact your wireless provider.

Emergency Alerts allows customers to receive geographically-targeted messages. Alert messages are provided by the US Department of Homeland Security and will alert customers of imminent threats to their safety within their area. There is no charge for receiving an Emergency Alert message.

There are three types of Emergency Alerts:

- Alerts issued by the President
- Alerts involving imminent threats to safety of life (Extreme and Severe)
- AMBER Alerts (missing child alert)

Users may choose not to receive Imminent Threats (Extreme and Severe) and AMBER Alerts. Alerts issued by the President cannot be disabled.

To disable Imminent Threats and AMBER Alerts, follow the instructions below:

1. From a Home screen, tap Apps > Messages.

2. Tap More options > Settings > Emergency alerts.

3. Tap Emergency alerts.

4. Tap an alert option to disable it.

Note: All alerts are enabled by default.
Listen to your favorite songs with the Music player. Navigate through your music library, play songs, and create customized playlists.

Listen to Music

1. From a Home screen, tap Apps > Music.
2. Tap a library category at the top of the screen to view your music files.
3. Scroll through the list of songs and tap an entry to begin playback.
Access files stored on your device, including images, videos, songs, and sound clips.

To access the My Files app:
► From a Home screen, tap Apps > My Files.

File Groups

Files stored in the device are organized into the following groups:

- **Recent files**: View recently saved files.
- **Images**: View image files.
- **Videos**: View video files.
- **Audio**: View audio files.
- **Documents**: View document files.
- **Downloaded apps**: View downloaded apps.
- **Download history**: View all apps and files that have been downloaded to the device.

Shortcuts

When you add shortcuts folders, displays on the main My Files screen.

► Touch and hold a shortcut to rename or delete the shortcut.

Local Storage

To view folder and files located on the device:

► Tap **Device storage**.

To view folders and files located on the memory card (if installed):

► Tap **SD card**.

Cloud Storage

When you add shortcuts to FTP servers or other cloud storage locations, displays on the main My Files screen.

This option only appears if you have added shortcuts to the My Files main screen.

► Touch and hold a shortcut to rename or delete the shortcut.

View Files in My Files

1. From a Home screen, tap Apps > My Files.
2. Tap a group.
3. Tap a file or folder to open it.
My Files Options

On the main My Files screen:

1. Tap 🕵️‍♂️ Search, and then enter search criteria.
2. Tap 🕵️‍♀️ Storage usage to view memory information for your device and memory card (if installed).
3. Tap ‌More options‌ for these options:
   - Select: Select shortcuts to rename or delete.
   - Delete: Select shortcuts to delete.
   - Add shortcut: Add a shortcut to a folder on the My Files main screen.
   - Add FTP server: Add an FTP server shortcut on the My Files main screen.
   - Scan for nearby devices: Search for devices that have media sharing activated.
   - Settings: Change the settings for viewing files.

Group Options

After selecting a group:

1. Tap 🏡 Home to return to the main My Files screen.
2. Tap 🕵️‍♂️ Search, and then enter search criteria.
3. Tap ‌More options‌ for options:
   - Select: Select files or folders.
   - Delete: Select and delete files or folders.
   - Create folder: Add a folder to the current list. This option only appears in Local Storage categories.
   - View as: Change the appearance of the files or folders.
   - Sort by: Change the sort order of the files.
   - Add shortcut: Add a shortcut to the current location on either a Home screen or the My Files main screen. This option only appears in Local Storage categories.
   - Settings: Change the settings for viewing files.

File Options

1. Tap a folder to open it.
2. Tap files to select them or tap ‌More options‌ > Select, select files, and then use one of these functions:
   - Share via: Send files to others or share them.
   - Delete: Delete files or folders.

Tap ‌More options‌ for additional options:

- Move: Move files or folders to another folder.
- Copy: Copy files or folders to another folder
- Rename: Rename a file or folder. This option only appears when just one file or folder is selected.
- Zip: Create a zip folder containing the selected files. This option only appears in Local Storage categories. A selected zip folder has the additional options of Extract and Extract to current folder.
- Details: View details of the selected files or folders.

Tap ‌More options‌ for additional options:

- Details: View details of the selected files or folders.
Use S Health to plan, track, and manage your health goals and activities, including exercise, sleep, and meals.

Caution: The information gathered from this device, S Health, or related software is not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease.

The accuracy of the information and data provided by this device and its related software, including heart rate readings, may be affected by factors such as environmental conditions, skin condition, specific activity performed while using/wearing the device, settings of the device, user configuration/user-provided information, placement of the sensor on the body, and other end-user interactions. For more information on proper wear and use, see samsung.com/us/heartratesensor.

1. From a Home screen, tap Apps > S Health.
2. Read and accept the terms and conditions.
3. Set up your health profile and goals.

Before You Start Exercising

This app can be used to monitor your exercise. While moderate physical activity, such as brisk walking, is safe for most people, health experts suggest that you talk with your doctor before you start an exercise program, particularly if you have any of the following conditions:

- Heart disease;
- Asthma or lung disease;
- Diabetes, or liver or kidney disease;
- Arthritis.

You should also check with your doctor if you have symptoms suggestive of heart, lung, or other serious disease, such as:

- Pain or discomfort in your chest, neck, jaw, or arms during physical activity;
- Dizziness or loss of consciousness;
- Shortness of breath with mild exertion or at rest, or when lying down or going to bed;
- Ankle swelling, especially at night;
- A heart murmur or a rapid or pronounced heartbeat;
- Muscle pain when walking upstairs or up a hill that goes away when you rest.

Finally, the American College of Sports Medicine recommends that you see your doctor before engaging in vigorous exercise if two or more of the following apply:

- You are a man older than age 45 or a woman older than age 55;
- You have a family history of heart disease before age 55;
- You smoke or quit smoking in the past six months;
- You have not exercised for three months or more;
- You are overweight or obese;
- You have high blood pressure or high cholesterol;
- You have impaired glucose tolerance, also called prediabetes.

When in Doubt — Check It Out

If you are unsure of your health status, have several health problems, or are pregnant, you should speak with your doctor before starting a new exercise program. Working with your doctor ahead of time is a good way to plan an exercise program that is right and safe for you. Consider it the first step on your path to physical fitness.
S Voice

Speak commands to perform operations on your device, and to speak criteria for searches and other operations.

Use S Voice™ to find everything from directions to trivia answers to the current weather forecast.

Access S Voice

1. From a Home screen, tap Apps > S Voice.
2. Speak a command.
3. Tap the microphone icon, if the device does not hear you, or to give it another command.

Tip: Tap More options for example commands and to view a tutorial.

S Voice Settings

These settings allow you to modify settings associated with using S Voice.

1. From a Home screen, tap Apps > S Voice.
2. Tap More options > Settings.
3. Tap an option and follow the prompts.
Samsung Apps is now Galaxy Apps. When you access Samsung Apps, Galaxy Apps is installed on your device.

Galaxy Apps

Samsung Galaxy Apps is a free storefront that provides a quick and easy way to find and download apps that are compatible with your Galaxy device.

To access the Samsung Galaxy Apps website:
► From a Home screen, tap Apps > Galaxy Apps.

Galaxy Essentials

Galaxy Essentials is a collection of specially chosen applications available through Samsung Apps.

From Galaxy Essentials, you can access and download a collection of premium content, free of charge.

To access Galaxy Essentials:
1. From a Home screen, tap Apps > Galaxy Apps, and then swipe across the Galaxy Apps screens and tap GALAXY Essentials.
   - or -
   Swipe across the Home screens and locate and tap the GALAXY Essentials widget.
2. Follow the prompts to download Galaxy Essentials apps specially chosen from Samsung Apps.

Note: A Samsung account is required to purchase and download apps.
Use Studio editing tools to add effects to pictures and edit movies in the Gallery.

1. From a Home screen, tap Apps > Studio.

2. The following Studios are displayed:

- **Photo Studio**: Improve the quality of your pictures by adjusting the brightness, contrast, and more. Crop and rotate your pictures, add effects, decorations, and more.

- **Collage Studio**: Create collages using multiple pictures.

- **Shot & more**: Edit and fine tune pictures you've taken with the Shot & more shooting mode. For more information, see Shooting Mode.

- **Video trimmer**: Use the left and right slider controls to set new starting and ending points for your video.
Play and manage videos stored on your device.

To access Video:
1. From a Home screen, tap Apps > Video.
2. Scroll through the videos stored on your device. After a few seconds, each video thumbnail begins playing a preview of the clip.
3. Tap a video to view it.

Use Pop-Up Player
Multi-task with Pop-Up Player—transform your video player into a pop-up window. The video will continue to play, and the pop-up window can be resized or moved anywhere on the screen.

1. From a Home screen, tap Apps > Video.
2. Tap a video to view it.
3. Tap to continue playing the video in a floating window.
   - Drag the window to any location on the screen.
   - Use two fingers to pinch or spread to resize the floating window.
Voice Recorder

Record voice memos and notes.

Create a Voice Recording

1. From a Home screen, tap Apps > Voice Recorder.

2. Tap More options > Settings > Recording quality to adjust the recording quality.

3. Tap Select mode to choose the appropriate recording mode:
   - Normal: This recording mode picks up any sounds detected by the microphones.
   - Interview: The top and bottom microphones are used for two-directional recording. The top and bottom of the device pick up equal amounts of sound. Microphones can be muted during recording and playback.
   - Conversation: The microphones are sensitive to sound from all directions and can distinguish up to eight sources of sound. Sound sources can be muted during recording and playback.
   - Voice memo: Voice input is converted to text on screen. The maximum recording time is five minutes.

The following additional controls are available:
   - Record: Record an audio file.
   - Stop: Stop recording. The file is automatically saved.
   - Pause: Pause the recording of an audio file.
   - Cancel: Cancel the recording of an audio file.
   - Bookmark: Add a bookmark to the recording.

Manage Recordings

To display a list of recordings:

1. From a Home screen, tap Apps > Voice Recorder.

2. Tap List.

To search through available recordings:

- Tap Search.

To share or delete one or more voice recordings:

1. Tap More options > Select.

2. Tap each recording you want to delete or tap the selected checkbox at the top of the screen to select all recordings.

3. Tap Share via to share the recordings or tap Delete to delete the recordings.

For additional options:

- Tap More options.
   - Select: Choose desired recordings.
   - Sort by: Sort the list of recordings.
   - Filter by category: Filter entries by category.
   - Edit categories: Modify your categories.
   - Settings: Configure Voice Recorder.
Configure your device's connections and settings, add accounts, and customize the home screen, apps, and features.
How to Use Settings

Access Settings

► From a Home screen, tap Apps > Settings.

– or –

From a Home screen, drag down from the Status bar to display the Notification panel, and then tap Settings.

Settings Options

• Some options use an ON/OFF button to turn the option ON (ON) or OFF (OFF).

• For some options, you must tap a field, such as Email address, to display and set options.

• Some options are enabled or disabled by tapping a checkbox. When enabled, a checkmark displays. Tap the checkmark to remove it and disable the option.

Search for Settings

If you are not sure exactly where to find a certain setting, you can use the Setting search feature.

1. From a Home screen, tap Apps > Settings.

2. Tap Search.

   • Enter a word or words in the Search field. As you type, settings that match display on the screen.
   • Tap an entry to go to that setting.

Change How Settings Are Listed

Settings can be listed in a grid view (default), a list view, or a tab view.

1. From a Home screen, tap Apps > Settings.

2. Tap More options > View as.

3. Select a different view.

Customize the Quick Settings Menu

Quick settings are the settings that you are most likely to frequently use. When you first access the Settings menu, the Quick settings are set to a default list of settings.

Change the Quick Settings Menu

You can change the Quick settings menu to include your most frequently used settings.

1. From a Home screen, tap Apps > Settings.

2. Tap More options > Edit quick settings.

   • Select settings to display in your Quick settings menu.

   Settings that are checked display in the Quick settings menu.

   • Uncheck a setting type to remove it.

3. Tap DONE to save your new Quick settings menu.
Wi-Fi and Wi-Fi Direct

Wi-Fi is a term used for certain types of Wireless Local Area Networks (WLAN). Wi-Fi communication requires access to a Wireless Access Point (WAP).

Wi-Fi Direct creates a direct connection between two or more devices using Wi-Fi.

Turn Wi-Fi On or Off

Turning Wi-Fi on makes your device able to discover and connect to compatible in-range WAPs.

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on or off.

Wi-Fi Status Indicators

Status bar icons show your current Wi-Fi connection status:

- When Wi-Fi is connected, active, and communicating with a Wireless Access Point (WAP), displays.
- If a Wi-Fi access point is available, but your device is not connected to it, displays. It may also display if there is a communication issue with the target Wireless Access Point (WAP).

Scan and Connect to a Wi-Fi Network

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on.
   • When Wi-Fi is first turned on, your device automatically scans for available networks and displays them.
3. Tap the network you want to connect to.
   • When you select an open network, you are automatically connected to the network. Otherwise, enter a password to connect.
4. To manually scan for networks, tap More options > Scan.

Manually Connect to a Wi-Fi Network

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on.
3. Swipe to the bottom of the screen and tap Add Wi-Fi network.
4. Enter information about the Wi-Fi network:
   • Network SSID: Enter the name of the Wi-Fi network.
   • Security: Select a security option and enter your password.
   • Show advanced options: Tap if you need to add advanced options such as Proxy settings, IP settings, or Key management.
5. Tap CONNECT to store the new information and connect to your target WAP.
Wi-Fi Settings

The Wi-Fi settings menu allows you to set up many of your device’s advanced Wi-Fi services.

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on.
3. Tap More options for options:
   - Scan: Start another scan for nearby Wi-Fi networks.
   - Wi-Fi Direct: Configure a Wi-Fi Direct connection with a nearby device.
   - Advanced:
     - Network notification: Receive a notification when new Wireless Access Points (WAPs) are available.
     - Passpoint: Connect to passpoint-enabled Wi-Fi Access Points automatically.
     - Sort by: Sort Wi-Fi networks by Alphabet or Signal strength.
     - Keep Wi-Fi on during sleep: Specify when to disconnect from Wi-Fi.
     - Always allow scanning: Allow Google location service and other apps to scan for networks, even when Wi-Fi is turned off.
     - Smart network switch: Automatically switch between Wi-Fi and mobile networks to maintain a stable Internet connection.
     - Install certificates: Install authentication certificates.
     - MAC address: View your device’s MAC address, which is required when connecting to some secured networks (not configurable).
     - IP address: View your device’s IP address (not configurable).
   - WPS push button: Set up a connection to a WPS (Wi-Fi Protected Setup) router or other equipment.
   - WPS PIN entry: View the PIN used by your device to set up a PIN-secured connection to a Wi-Fi router or other equipment (not configurable).
   - Share Wi-Fi profile: Share Wi-Fi profiles you have created with others.
   - Help: Learn about setting up and using Wi-Fi networks, and other settings.

Wi-Fi Direct

Wi-Fi Direct allows direct device-to-device connections via Wi-Fi, without having to connect to a Wi-Fi network.

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on. Wi-Fi must be on to configure settings.
3. Tap More options > Wi-Fi Direct. Your device automatically scans for nearby Wi-Fi Direct devices or you can tap SCAN to start scanning.
4. After scanning for devices, select a device, and then follow the prompts to complete the connection.

To rename your device (as seen by other devices):
- Tap More options > Rename device.

To disconnect from a device:
- Tap END CONNECTION.

Wi-Fi Direct Status Indicator

When your device is connected to another device using Wi-Fi Direct, ☷ displays in the Status bar.
Bluetooth

Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car Bluetooth systems, and Bluetooth-enabled computers, printers, and wireless devices.

Note: The Bluetooth communication range is approximately 30 feet.

Turn Bluetooth On or Off

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn Bluetooth on or off.

Bluetooth Status Indicators

When Bluetooth is turned on, displays in the Status bar.

Change Your Device’s Name

Change the name others use when pairing with your device via Bluetooth.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth > More options > Rename device.
3. Tap the device name field and edit your device name.

Make Your Device Visible to Other Bluetooth Devices

When you make your device visible, other Bluetooth can find it in a scan and initiate pairing. You can choose the length of time your device remains visible.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn Bluetooth on.
3. Tap Bluetooth > More options > Visibility timeout.
4. Select a time period for your device to remain visible after you turn on visibility.

Scan for Bluetooth Devices

When you want to pair with another Bluetooth device, you can scan for nearby devices that are visible.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn Bluetooth on.
3. When Bluetooth is first turned on, it scans for nearby Bluetooth devices and displays them.
   • To manually perform a new scan, tap SCAN.
Pair Bluetooth Devices

The Bluetooth pairing process allows you to establish trusted connections between your device and another Bluetooth device.

Pairing between two Bluetooth devices is a one-time process. Once a pairing is created, the devices will continue to recognize their partnership and exchange information without having to re-enter a passcode.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn Bluetooth on.
3. Make sure that the target device is discoverable, so that your device can find it. Refer to the instructions that came with the device to find out how to set it to discoverable mode.
4. Tap SCAN. Your device starts scanning for Bluetooth devices within range.
5. When you see the name of the target device displayed in the Bluetooth devices section, tap the name. Your phone then automatically tries to pair with the target device. If automatic pairing fails, enter the passcode supplied with the target device.

**Note:** Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth-compatible devices.

Delete a Paired Device (Unpair)

When you unpair from a Bluetooth device, the two devices will no longer recognize each other. To connect again, you have to pair the devices.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn Bluetooth on.
3. From the Bluetooth settings screen, tap Settings next to the previously paired device, and then tap Unpair to delete the paired device.

Review Files Received via Bluetooth

When you receive files from another device via Bluetooth, you can access them from Bluetooth settings.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth > More options > Received files.
Tethering and Wi-Fi Hotspot

Share your phone’s mobile data connection with a Mobile Hotspot, USB tethering, or Bluetooth tethering.

Use Mobile Hotspot to share your device’s Internet connection with other devices using your device as a portable Wi-Fi hotspot.

Mobile Hotspot

Note: You must have a tethering plan on your service account in order to use the Mobile Hotspot.

Warning: Mobile Hotspot consumes battery power and uses data service.

Connect a Device to Your Mobile Hotspot

Use the other device’s Wi-Fi control to connect to your device’s Mobile Hotspot.

1. From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot > Mobile Hotspot.
2. Tap ON/OFF to turn Mobile Hotspot on.
3. Activate Wi-Fi on the target device.
4. Scan for Wi-Fi hotspots and select the target device from the list.
5. On the target device, enter your device’s Mobile Hotspot password.

Allowed Devices List

Control whether devices connect to your Mobile Hotspot with the Allowed devices list. After you add devices to the list, they can scan for your device and connect using your device’s Mobile Hotspot name and password.

Note: Using your device as a Mobile Hotspot consumes battery power and uses data service. While Mobile Hotspot is active, your device’s applications will use the Mobile Hotspot data service. Roaming while using your device as a Mobile Hotspot incurs extra data charges.

1. From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot > Mobile Hotspot.
2. Tap ON/OFF to turn on Mobile Hotspot.
3. Tap More options > Allowed devices, and then tap Add to enter the other device’s Device name and MAC address.
4. Tap OK to add the device.

Turn Mobile Hotspot On or Off

Activate your device’s Mobile Hotspot application to allow other devices to use your device’s Internet connection.

1. From a Home screen, tap Apps > Mobile Hotspot.
   – or –
   From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot > Mobile Hotspot.
2. Tap ON/OFF to turn Mobile Hotspot on or off.

Warning: By default, your device’s Mobile Hotspot has no security applied, and any device can connect. For more information, see Configure Mobile Hotspot Settings.
Change the Mobile Hotspot Password

1. From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot > Mobile Hotspot.
2. Tap ON/OFF to turn on Mobile Hotspot.
3. Tap More options > Configure hotspot.
4. Tap the Security field and select WPA2 PSK and enter a new password.

Turn Off Mobile Hotspot Automatically

Set your device to automatically turn off Portable Wi-Fi hotspot if there are no connected devices.

1. From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot > Mobile Hotspot.
2. Tap ON/OFF to turn on Mobile Hotspot.
3. Tap More options > Timeout settings and select an amount of time.

Configure Mobile Hotspot Settings

Manage your Mobile Hotspot security and connection settings.

1. From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot > Mobile Hotspot.
2. Tap More options > Configure hotspot:
   - Network SSID: View and change the name of your Mobile Hotspot.
   - Hide my device: Make your Mobile Hotspot invisible to other Wi-Fi devices during a scan. Other devices can still connect to your Mobile Hotspot, but will have to set up the connection manually with your Network SSID and Password.
   - Security: Choose the security level for your Mobile Hotspot.
   - Password: If you choose a security level that uses a password, enter the password. By default, the password is your device’s phone number.
   - Show password: Display your password instead of masking it.
   - Show advanced options: Access advanced options, including Broadcast channel, and to specify the channel your device uses for Mobile Hotspot.

USB Tethering

To connect your device to a computer using USB tethering:

1. From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot.
2. Use a USB cable to connect to your phone.
3. Tap USB tethering to turn tethering on.

Bluetooth Tethering

To connect your device to a computer using Bluetooth tethering:

1. From a Home screen, tap Apps > Settings > Tethering and Wi-Fi hotspot.
2. Pair your phone with the computer using Bluetooth.
3. Tap Bluetooth tethering to turn tethering on.

For more information, see Bluetooth.
Airplane Mode

Airplane mode disconnects your device from all networks and turns off connectivity features, such as phone calls and Wi-Fi.

While in airplane mode, you can use other features, such as playing music, watching videos, and other offline applications.

To turn Airplane mode on or off:

1. From a Home screen, tap Apps > Settings.
2. Tap Airplane mode, and then tap ON/OFF to enable or disable the option.

Note: You can also control Airplane mode from the Device options menu. Press and hold the Power key, and then tap Airplane mode.
Data Usage

Monitor your mobile data usage.

**Note**: Your service provider may account for data usage differently.

1. From a Home screen, tap Apps > Settings > Data usage for options:
   - **Mobile data**: Enable mobile data. You can also control Mobile Data at the Notification panel.
   - **Set mobile data limit**: Disable your mobile data connection when the specified limit is reached. Drag the red limit line to set the data usage limit.
   - **Data usage cycle**: Tap the drop-down menu, and then choose a time period for data usage. Data usage for the period displays on the graph, along with usage by application below.
   - **By application**: View data usage by application.

2. Tap **More options**:
   - **Restrict background data**: Restrict some apps and services from working unless you are connected to a Wi-Fi network.
   - **Show Wi-Fi usage**: Display a Wi-Fi tab that shows Wi-Fi usage.
   - **Mobile hotspots**: Select Wi-Fi networks that are mobile hotspots. You can restrict apps from using these networks, and you can configure apps to warn you before using these networks for large downloads.
   - **Mobile networks**: Display mobile network settings: Mobile data, International Data Roaming, Access Point Names, and Network operators.
**Location Settings**

Some apps, such as Google maps, may require one or more location services be turned on for full functionality.

**Location Method**

1. From a Home screen, tap Apps > Settings > Location.
2. Tap ON/OFF to turn Location services on.
3. Tap **Mode** to select how your location is determined:
   - **High accuracy**: Use GPS, Wi-Fi, and mobile networks.
   - **Power saving**: Use Wi-Fi and mobile networks (no GPS).
   - **GPS only**: Use GPS only.

**Recent Location Requests**

Apps that have requested your location are listed under Recent location requests.

1. From a Home screen, tap Apps > Settings > Location.
2. Tap ON/OFF to turn Location services on.
3. Tap an entry to view the app’s settings.

**Location Services**

Google uses Location History to store and use your device’s most recent location data. Google apps, such as Google Maps, can use this data to improve your search results based on places that you have visited.

1. From a Home screen, tap Apps > Settings > Location.
2. Tap ON/OFF to turn Location services on.
3. Tap **Google Location History** and sign in to your Google Account for more options.

**Location Sources**

You can save your favorite locations for use with services that require location information. This information can improve your search results and other location-related activities.

1. From a Home screen, tap Apps > Settings > Location.
2. Tap ON/OFF to turn Location services on.
3. Tap **My places**.
4. Tap **Add** to add additional categories.
5. Tap a category (Home, Work, or Car) to add a location.
6. To delete a custom category, tap **More options** > **Select**, select a category to delete, and then tap **Delete**.

**Note**: Home, Work, and Car cannot be deleted.
More Networks

The More Networks settings allow you to configure a variety of communication settings for your device.

Set the Default Messaging App

Your mobile device can be equipped with more than one application for text and multimedia messaging. To select a default messaging app:

1. From a Home screen, tap Apps > Settings.
2. Tap More networks > Default messaging app to select the app to use for text and multimedia messages.

Mobile Networks

Control your device’s access to networks and mobile data services.

1. From a Home screen, tap Apps > Settings.
2. Tap More networks > Mobile networks for options:
   - **Mobile data**: Allow your device to connect to a mobile data network.
   - **Data roaming**: Allow your device to connect to data services while roaming. Significantly higher charges may result.
   - **Network mode**: Choose a preferred network mode.
   - **System select**: Choose a CDMA roaming mode.

Virtual Private Networks (VPNs)

Set up and configure Virtual Private Networks on your device.

**Note**: You must set a screen lock Pattern, PIN, Password, or Fingerprints before setting up a VPN. For more information, see Lock Screen.

Add a VPN

1. From a Home screen, tap Apps > Settings > More networks > VPN.
2. Tap + Add and follow the prompts to set up your VPN.

Connect to a VPN

1. From a Home screen, tap Apps > Settings > More networks > VPN.
2. Tap the VPN you want to connect to, enter your log in information, and tap CONNECT.

Edit or Delete a VPN

1. From a Home screen, tap Apps > Settings > More networks > VPN.
2. Touch and hold the VPN that you want to edit or delete.
3. Tap either Edit network or Delete network, and then confirm if prompted.
Share Files with NFC

NFC (Near Field Communication) allows data exchange when you touch your device with another compatible device. This is used for applications such as Android Beam and S Beam.

To activate NFC:

1. From a Home screen, tap Apps > Settings > NFC.
2. Tap ON/OFF to turn NFC on.

Android Beam

When Android Beam is activated, you can beam app content to another NFC-capable device by holding the devices close together. You can beam browser pages, YouTube videos, contacts, and more.

1. From a Home screen, tap Apps > Settings > NFC.
2. Tap ON/OFF to turn NFC on.
3. Tap Android Beam.
4. Tap ON/OFF to turn Android Beam on.
5. Touch the back of your device with another NFC-capable device and the content is transferred.

S Beam

When S Beam is activated, you can beam files to another NFC-capable device by holding the devices close together.

You can beam images and videos from your Gallery, music files from your Music app, and more.

1. From a Home screen, tap Apps > Settings > NFC.
2. Tap ON/OFF to turn NFC on.
3. Tap S Beam.
4. Tap ON/OFF to turn S Beam on.
5. Touch the back of your device with another NFC-capable device and the content is transferred.

Tap and Pay

Tap and pay allows you to select the default payment application you want to use for making purchases on your phone.

1. From a Home screen, tap Apps > Settings > NFC.
2. Tap ON/OFF to turn NFC on.
3. Tap Tap and pay.
4. Select the app that you want as your default.
Nearby Devices

Share your media files with nearby devices via Wi-Fi, Wi-Fi Direct, or Mobile Hotspot.

**Warning:** If file sharing is enabled, other devices can access your data. Use this option with care.

1. From a Home screen, tap **Apps > Settings > Nearby devices.**
2. Tap **ON/OFF** to enable Nearby devices.
3. Set the following options:
   - **Content to share:** Select the content to share. Choices are: Videos, Photos, and Music.
   - **Allowed devices:** Indicate the devices accessible to your device.
   - **Denied devices:** Indicate devices not allowed access to your device.
   - **Download to:** Allow downloading of data to your device or optional memory card (not included).
   - **Receive files from other devices:** Warn if a device attempts to upload data to your device.
Print images and documents to Samsung printers and other compatible printers (not included).

1. From a Home screen, tap Apps > Settings > Printing.

2. Tap a print service and follow the prompts.

**Note:** Tap Download plug-in to install additional print service drivers.
Screen Mirroring

Share Your Device’s Screen with Another Device.

1. From a Home screen, tap Apps > Settings > Screen Mirroring.
   • Available devices are listed.
2. Tap SCAN to find more devices.
3. Tap a device and follow the prompts to connect.
Configure the sounds and vibrations used to indicate notifications, screen touches, and other activities.

Adjust the Volume

Set the system volume level, and set default volume for call ringtones, notifications, and other media.

Tip: You can also set System volume from the Home screen by pressing the Volume key.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications, and then drag the sliders to set the default volume for:
   - Ringtone
   - Media
   - Notifications
   - System

Sound Mode

You can switch between sound modes, while preserving the individual sound settings you have made.

Tip: Sound modes are also available from the Device options menu. Press and hold the Power key, and then choose Mute, Vibrate, or Sound from the Device options.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Interruptions > Sound mode, and then choose a mode:
   - Sound: Your device uses the sounds, vibrations, and volume levels you have chosen in Sound settings for notifications and alerts.
   - Vibrate: Your device vibrates for notifications and alerts. This uses the Vibration intensity you choose in Sound settings.
   - Mute: Your device plays no sounds or vibrations. Onscreen reminders will still occur.

Vibrate When Ringing

Your device can vibrate in addition to ringing when you receive a call.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Vibrate when ringing to turn the feature on.
# Sounds and Notifications

## Ringtones
Choose from preset ringtones or add your own.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Ringtones.
3. Tap a ringtone to hear a preview, and then tap OK to set it as your default ringtone.
   - or –
   Tap ADD to use an audio file as a ringtone.

## Vibrations
Choose from preset vibration patterns or create your own pattern.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Vibrations.
3. Tap a pattern to preview it, and then tap OK to set it as your default vibration pattern.
   - or –
   Tap CREATE and follow the prompts to create a new vibration pattern.

## Notification Ringtone
Choose a sound for notifications, such as for new messages and event reminders.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Notification ringtone.
3. Tap a sound to preview it, and then tap OK to set it as your default notification sound.

## Other Sounds
Set various other sound options.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Other sounds.
3. Tap the checkbox next to the options under Feedback and Samsung keyboard to indicate whether to enable the sound or vibration.
4. To modify sound settings associated with several frequently used apps, tap one of the following to access the app’s sound settings:
   - Call: Configure call notifications and alerts.
   - Messages: Configure messaging notifications and alerts.
   - Email: Configure email account notifications.
   - Calendar: Configure event notifications.

## Do Not Disturb
This setting allows you to block all notifications and alerts. The options below determine what notifications can make sounds, and during what time periods you want to enter this mode.

To activate Do Not Disturb mode:

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Do not disturb.
3. Tap Turn on now to turn the feature on.
4. Tap Turn on as scheduled and then tap Days, Start time, and End time to set up a do not disturb schedule.
5. Tap Allow Exceptions to allow alarms, calls, messages, or events and reminders.
Notifications on Lock Screen

To define how notifications should be displayed on your phone’s lock screen:

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Notifications on lock screen and select an option: Show all content, Hide content, or Do not show notifications.

Set Application Notifications

To set whether application notifications are displayed:

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Application notifications.
3. Scroll through the alphabetical list of apps and tap the app.
4. Tap ON/OFF to enable or disable notification options.
Display Settings

Adjust display options and features, including screen brightness, font options, and more.

Brightness
Adjust the screen brightness to suit your surroundings or personal preference. You may also want to adjust screen brightness to conserve battery power.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Brightness for options:
   • Tap Automatic brightness to allow the device to adjust brightness automatically.
   • To set a custom brightness level, clear the Automatic brightness checkmark and then touch and drag the Brightness level.

Note: You can also control Brightness from the Notification panel. Drag down the Status bar at the top of the screen to find the Brightness options.

Font Style and Size
You can set the font style and size for all text that displays on the screen.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Font to choose a font style and font size.
3. Tap Font style > DOWNLOAD to find new fonts from the Google Play store.
4. Tap Font size and tap a font size.

Screen Rotation
Use the front camera to rotate the screen based on the orientation of your face.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Screen rotation.
3. Tap ON/OFF, and then tap Smart rotation to turn the feature on.

Smart Stay
Using the front camera to detect your face, the screen does not time out as long as you are facing the screen.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Smart stay to turn the feature on.

Screen Timeout
Choose how long the display screen remains lit after you tap the screen or press any key.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Screen timeout, and then choose a time period.
Screen Mode

Choose a screen mode to match your type of viewing. You can choose to have the device automatically adapt the display depending on the type of image being displayed, and other criteria such as battery level.

1. From a Home screen, tap Apps > Settings > Display.

2. Tap Screen mode, and then choose a screen mode.
   - To have your device automatically optimize the display to match the type of image being displayed and other criteria, such as battery level, tap Adapt display.
   - or –
   - Choose a specific type of screen mode based on what your are viewing.

Auto Adjust Screen Tone

Your device analyzes the images displayed on the screen and automatically adjust the brightness to conserve battery power.

1. From a Home screen, tap Apps > Settings > Display.

2. Tap Auto adjust screen tone to turn the feature on.

   Note: You can also control Brightness from the Notification panel. Drag down the Status bar at the top of the screen to find the Brightness option.

Daydream

The Daydream setting controls what the screen displays when the device is docked (dock not included), or while charging. You can choose to display colors, or display photos stored on your device.

1. From a Home screen, tap Apps > Settings > Display.

2. Tap Daydream.

3. Tap ON/OFF to turn Daydream on and configure the following options:
   - Colors: Tap the selector to display a changing screen of colors.
   - Flipboard: Display pictures from Flipboard. Tap Settings for options.
   - Google Photos: Display pictures from your Google Photos account. Tap Settings for options.
   - Photo Table: Display pictures in a photo table. Tap Settings for options.
   - Photo frame: Display pictures in a photo frame. Tap Settings for options.

4. Tap More options > Preview to see a demonstration of Daydream.

LED Indicator

Select which functions (such as charging or low battery) the LED indicator on the front of the device displays.

1. From a Home screen, tap Apps > Settings > Display.

2. Tap LED indicator for options.
Touch Key Light Duration

Set the length of time Recent apps and Back remain lit after you touch them.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Touch key light duration to choose a timeout period.

Increase Touch Sensitivity

Increase the sensitivity of the touch screen to improve results when wearing gloves.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Increase touch sensitivity to turn the feature on.
Wallpaper Settings

Change the look of the home and lock screens with wallpaper.

You can display a favorite picture or choose from preloaded wallpapers.

1. From a Home screen, tap Apps > Settings.
2. Tap Wallpaper.
3. Tap Home screen, Lock screen, or Home and lock screen.
4. Tap an image to preview it, and then tap SET AS WALLPAPER.
   - Tap From Gallery for additional wallpapers.
   - Tap Bubbles or Phase beam for animated wallpaper. (Animated wallpaper consumes additional battery power.)
   - Tap Travel wallpaper to set up that option (Lock screen only).

For more information, see Change the Wallpaper.
Lock Screen

Choose a method for unlocking your screen. Different Screen Locks have different levels of security and options.

Set a Screen Lock

1. From a Home screen, tap Apps > Settings.
2. Tap Lock Screen.
3. Tap Screen lock to select a screen lock and level of security:
   - Swipe: Swipe the screen to unlock it. This option provides no security.
   - Pattern: A screen unlock pattern is a tap gesture you create and use to unlock your device. This option provides medium security.
   - PIN: Select a PIN to use for unlocking the screen. This option provides medium to high security.
   - Password: Create a password for unlocking the screen. This option provides high security.
   - Fingerprint: Use fingerprint recognition to unlock the screen. This option provides medium to high security. For more information, see Finger Scanner.
   - None: Never use a Lock screen.

Show or Hide Sensitive Notification Content

After choosing a secure lock, you can select whether to show or hide sensitive notification content on the lock screen.

1. Tap Show all content, Hide sensitive content, or Do not show notifications.
2. Tap DONE.

Screen Lock Options

Swipe Only
- Phone shortcut: Display a phone shortcut on your Lock screen.
- Unlock effect: Set the visual effect used when unlocking the screen.
- Help text: Show help information on unlocking the screen on the Lock screen.

Pattern Only
- Pattern type: Select a pattern type.
- Make pattern visible: Display the pattern as you draw it.
- Vibration feedback: Vibrate when the unlock pattern is entered incorrectly.

PIN, Pattern, Password, and Fingerprint Only
- Lock automatically: Screen will be locked in 5 seconds after screen automatically turns off.
- Lock instantly with power key: Screen will lock instantly when locked with the power key.
All Screen Locks

- **Dual clock**: Display a dual clock on your Lock screen when roaming.

- **Clock size**: Select the size of the clock that displays on your Lock screen.

- **Show date**: Display the date on the Lock screen.

- **Camera shortcut**: Display a camera shortcut on your Lock screen.

- **Owner Information**: Show owner information on the Lock screen.

- **Additional information**: Display Weather information or the step count when Pedometer in S Health is turned on.
Notification Panel Settings

Customize which Quick setting buttons display on the Notification panel.

You can also customize which apps display on the Recommended applications menu on the Notification panel when you perform certain actions, such as plugging in earphones.

► From a Home screen, tap Apps > Settings > Notification panel.

– or –

From the Notification panel, tap View all > Edit.

The following options are available:

- **Brightness adjustment**: Adjust the screen brightness from the Notification panel.

- **Recommended apps**: Show selected apps on the Notification panel after certain actions, such as connecting earphones. Tap ON/OFF to turn the feature on.

To customize which quick setting buttons display at the top of the Notification panel:

► Touch and drag buttons to reorder them.

To use the default layout:

► Tap Reset.

Recommended Apps

When you perform certain actions, such as plugging in earphones, the Notification panel can display shortcuts to your favorite related apps, such as Music Player or Google Play Music.

To customize which shortcuts display on the Recommended apps menu:

1. From a Home screen, tap Apps > Settings > Notification panel.

2. Tap Recommended apps.

3. Tap ON/OFF to turn the feature on.

4. Tap EDIT and choose which apps to display on the Notification panel when you insert earphones.
Toolbox

The Toolbox is a floating shortcut menu that displays on every screen, giving you quick access to your favorite apps.

To activate the Toolbox:
1. From a Home screen, tap Apps > Settings.
2. Tap Toolbox.
3. Tap ON/OFF to enable the feature.
4. Tap EDIT to choose up to five apps to display in the Toolbox.
Easy Mode

Switch between the default screen layout and a simpler layout. The Easy Mode layout has larger text and icons, making for a more straightforward visual experience.

Enable Easy Mode

To enable Easy mode:
1. From a Home screen, tap Apps > Settings.
2. Tap Easy mode.
3. Tap Easy mode to enable this feature.
   - When Easy mode is enabled, you can scroll down the page and select which apps you want to display on the Home screens.
4. Tap the checkbox next to the apps you want to add or remove.
5. When finished, tap DONE.

Return to Standard Mode

To return to Standard mode:
1. From a Home screen, tap Apps > Easy settings.
2. Tap Easy mode.
3. Tap Standard mode, and then tap DONE.
Accessibility

Accessibility services are special features that make using the device easier for those with certain physical disabilities.

Note: You can download additional accessibility applications from the Google Play store.

1. From a Home screen, tap Apps > Settings.
2. Tap Accessibility for options:

Vision

- **Switch Access**: Use this option to control your device using configurable key combinations. Tap ON/OFF to turn the feature on. Tap SETTINGS for more options.
- **TalkBack**: Speak feedback aloud to help blind and low-vision users.
  - TalkBack can collect all of the text you enter, except passwords, including personal data and credit card numbers. It may also log your user interface interactions with the device.
- **Dark screen**: Keep the screen turned off at all times for privacy. TalkBack must be enabled in order to configure this option.
- **Rapid key input**: Release your finger to enter selection instead of double tapping. TalkBack must be enabled in order to configure this option.
- **Speak passwords**: Read the characters aloud as you enter your passwords. TalkBack must be enabled in order to configure this option.
- **Font size**: Set the font size.
- **Magnification gestures**: Use exaggerated gestures such as triple-tapping, double pinching, and dragging two fingers across the screen.
- **Notification reminder**: Play a beep when a notification for a call, message, or other communication has been missed.
- **Negative colors**: Reverse the display of onscreen colors from White text on a Black background to Black text on a White background.
- **Color adjustment**: Adjust the color of the screen if you are color blind or have difficulty reading the display because of the screen color. Tap Color adjustment for options.
- **Accessibility shortcut**: Quickly enable accessibility features in two quick steps. Tap ON/OFF to turn the feature on.
- **Text-to-speech options**: Set your preferred TTS engine and options. For more information, see Text-To-Speech Options.

Hearing

- **Flash notification**: Set your camera light to blink whenever you receive a notification.
- **Turn off all sounds**: For privacy, turn off all notifications and audio.
- **Hearing aids**: Improve the sound quality of your device for use with hearing aids.
- **Samsung subtitles (CC)**: Use Samsung subtitles with multimedia files when available. Tap Samsung subtitles (CC) for options.
- **Google subtitles (CC)**: Use Google subtitles with multimedia files when available. Tap Google subtitles (CC) for options.
- **Sound balance**: Use the slider to set the Left and Right balance when using a stereo device.
- **Mono audio**: Switch audio from stereo to mono for use with one earphone.
Dexterity and interaction

- **Assistant menu:** Improve the device accessibility for users with reduced dexterity.

- **Press and hold delay:** Select a time interval for this action.

- **Interaction control:** Block areas of the screen from touch interaction. Disable Auto rotate screen and hard key functions. Only show application notifications in the Notification panel and the Status bar.

More Settings

- **Direct access:** Open your accessibility settings by pressing the Home key three times in quick succession.

- **Answering and ending calls:** Answer calls by pressing the Home key, using voice commands, waving your hand over the device, or by pressing the Power key.

- **Single tap mode:** Tap to stop/snooze alarms and calendar events.

- **Manage accessibility:** Export your accessibility settings and share them with another device.

Services

Additional accessibility apps may be downloaded from the Google Play store. Certain accessibility services you install may be configured here.
Private Mode

Hide personal content from being accessed by anyone else using your device.

Private mode is only available for certain applications.

Note: A secure screen lock (Pattern, PIN, Password, or Fingerprint) is required to use Private Mode.

Set Up Private Mode

1. From a Home screen, tap Apps > Settings.
2. Tap Private mode.
3. Follow the prompts to learn about and set up Private mode.
Use fingerprint recognition as an alternative to entering passwords in certain apps.

You can also use your fingerprint to verify your identity when logging in to your Samsung account.

Note: Fingerprint recognition uses the unique characteristics of each fingerprint to enhance the security of your device. The likelihood of the fingerprint sensor confusing even small areas of two different fingerprints is very low. But, in rare cases, the sensor may recognize a fingerprint that is similar to a registered fingerprint.

Register a Fingerprint

You can register up to 3 fingerprints. A password will also be set up as an alternative to your fingerprint.

1. From a Home screen, tap Apps > Settings.
2. Tap Finger Scanner > Fingerprint manager.
3. Swipe your finger over the Home key to register your first fingerprint or to continue to the next screen.

Add a Fingerprint

If no fingerprints are registered, the manager automatically opens the Register fingerprint screen. Otherwise:

► Tap Add and follow the instructions to register a fingerprint and password.

Rename a Fingerprint

► Touch and hold the fingerprint, and then tap Rename.

Delete a Fingerprint

► Touch and hold the fingerprint, and then tap Delete.

Change Backup Password

1. From a Home screen, tap Apps > Settings.
2. Tap Finger Scanner > Change backup password.
3. Enter your fingerprint.
4. Enter a new backup password.

Additional Settings

1. From a Home screen, tap Apps > Settings.
2. Tap Finger Scanner for options.

• Screen lock: Change your Screen lock and access Screen lock settings. For more information, see Lock Screen.

• Verify Samsung account: Verify your identity using your fingerprint when logging in to your Samsung account.

• Pay with PayPal: Link your PayPal account to your device to make faster and more secure PayPal payments using any of your registered fingerprints.
Motions and Gestures

Control certain device actions by touching the screen with the palm of your hand.

1. From a Home screen, tap Apps > Settings.

2. Tap Motions and gestures.

3. Tap an option, and tap ON/OFF to enable each of the following:

   - **Direct call**: Call the contact whose call log, message, or contact details are currently on the screen by bringing the device close to your ear.
   
   - **Smart alert**: Set the device to vibrate when you pick it up to notify you about missed calls and messages.
   
   - **Mute/pause**: Mute or pause sounds and video by covering the screen or turning over the device.
   
   - **Palm swipe to capture**: Capture an image of the screen when you sweep your hand left or right across the screen.
Air View

Preview information, extend text, or enlarge pictures by hovering your finger over the screen.

1. From a Home screen, tap Apps > Settings.
2. Tap Air view.
3. Tap ON/OFF to turn the feature on.
Accounts

Set up and manage accounts, including your Google Account, Samsung account, email, and social networking accounts.

Depending on the account, you can choose to synchronize your calendar, contacts, and other types of content.

Add an Account

1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > Add account.
3. Tap one of the account types.
4. Follow the prompts to enter your credentials and set up the account.

Synchronize Accounts

1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > [Account type].
3. Tap an account to view the sync settings for that account.
4. Check individual data items to sync.
5. Tap More options > Sync now to synchronize the account.

Note: Sync options and the location of the sync command differ depending on the account type.

Account Settings

Each account has its own set of settings. In addition, you can configure common settings for all accounts of the same type.

Note: Account settings and available features vary between account types and service providers. Contact your service provider for more information on your account’s settings.

1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > [Account type].
3. Tap an account to configure that account’s sync settings.
   – or –
   Tap Settings or other available options to configure common settings for all accounts of this type.

Remove an Account

1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > [Account type].
3. Tap the account, and then tap More options > Remove account.
Cloud

Back up your personal data using your Samsung account or Dropbox.

Use Your Samsung Account

1. From a Home screen, tap Apps > Settings.
2. Tap Cloud.
3. Tap your Samsung account to manage your sync settings and backup options.
   - If you have not signed in to your Samsung account, tap Add Samsung account.
   - Tap Storage usage to show the storage used and remaining storage available.
   - Tap Sync settings to select which data to sync.
   - Tap Backup to manage your back up and restore options.
   - Tap Restore to retrieve data from your Samsung account.

Use Your Dropbox Account

For more information about Dropbox, visit dropbox.com.

1. From a Home screen, tap Apps > Settings.
2. Tap Cloud.
3. Tap your Dropbox account to manage your sync settings and backup options.
   - If you have not signed in to your Dropbox account, tap Link Dropbox account.
   - Follow the prompts to set up and use Dropbox.
Backup and Reset

Back up your data to Google servers. You can also reset your device to its factory defaults.

Backup and Restore

Enable backup of your information to Google servers.

1. From a Home screen, tap Apps > Settings.
2. Tap Backup and reset for options:
   - **Back up my data**: Enable back up of application data, Wi-Fi passwords, and other settings to Google servers.
   - **Backup account**: Select a Google Account to be used as your backup account.
   - **Automatic restore**: Enable automatic restoration of settings from Google servers. When enabled, backed-up settings are restored when you reinstall an application.

Factory Data Reset

Return your device to its factory defaults.

Factory Reset Protection

Adding a Google account to your device automatically enables the Factory Rest Protection (FRP) security feature.

FRP prevent other people from using your device if it is reset to factory settings without your permission. For example, if your device is lost or stolen, only someone with your Google account can perform a factory data reset and use the device.

When a device is factory reset, the device will not be able to be setup without the user entering the Google Account associated with the device.

Caution: You should remove your Google Account before shipping your device to Samsung or any other service provider for service and before resetting the device to factory settings.

1. From a Home screen, tap Apps > Settings.
2. Tap Backup and reset > Factory data reset.
3. Tap RESET DEVICE and follow the prompts to perform the reset.

Warning: This action permanently erases ALL data from the device, including Google or other account settings, system and application data and settings, downloaded applications, as well as your music, photos, videos, and other files.
Language and Input Settings

Configure your device's language and input settings.

Language
Set your default language.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Language.
3. Select a language from the list.

Default Keyboard
Select your default keyboard or input method.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Default.
3. Select a keyboard.

Note: Additional keyboards can be downloaded from the Google Play store.

Samsung Keyboard
Configure options for using the Samsung keyboard.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input.
3. Tap Samsung keyboard for options:
   - English(US): Set the keyboard type to Qwerty keyboard or 3x4 keyboard.
   - Select input languages: Choose which languages are available on the keyboard. To switch between languages, slide the space bar sideways.
   - Predictive text: Allow Predictive text to suggest words matching your text entries, and, optionally, complete common words automatically. Predictive text can learn your personal writing style from your contacts, messages, Gmail, and social networking sites—improving its accuracy of predicting your text entries.
   - Additional keyboard settings provide assistance with capitalization, punctuation, and much more.
Swype

Configure options for using the Swype keyboard.

1. From a Home screen, tap Apps > Settings.

2. Tap Language and input.

3. Tap Swype for options:
   - **Settings**: Configure basic options.
   - **Themes**: Change the keyboard layout.
   - **My Words**: Manage your personal dictionary, new word updates, as well as how Swype can learn from your writing style in various apps.
   - **Languages**: Set the current language. Additional languages can be downloaded.
   - **Gestures**: Learn about using Swype gestures.
   - **Help**: View information on using Swype.

Google Voice Typing

Speak rather than type your text entries using Google voice typing.

1. From a Home screen, tap Apps > Settings.

2. Tap Language and input.

3. Tap Google voice typing for options:
   - **Language**: Select languages for Google voice typing.
   - **“Ok Google” detection**: Tap to launch a Google search whenever you say “Ok Google”.
   - **Hands-free**: Allow requests with the device locked.
   - **Speech output**: Select options for spoken feedback.
   - **Offline speech recognition**: Download and install speech recognition engines, allowing you to use voice input while not connected to the network.
   - **Block offensive words**: Hide words many people find offensive are in results of Google voice searches.
   - **Bluetooth headset**: Use audio input from a Bluetooth headset, if one is connected.
**Voice Input**

Use Google voice recognition to perform Google searches using spoken commands.

To perform a voice search, tap 🎤 in the Google search bar or widget. Or say “Ok Google” to launch a Google search (if the hotword detection option is enabled).

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Voice input for options.
   - **Enhanced Google services**: Full voice interaction.
   - **Basic Google recognition**: Simple voice recognition.
3. Tap 🎤 Settings next to the selected recognition service to configure its options.

**Text-To-Speech Options**

Configure your Text-to-Speech (TTS) options. TTS is used for various accessibility features, such as TalkBack. For more information, see Accessibility.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Text-to-speech options for options:
   - Choose either the Samsung or Google text-to-speech engine. Tap 🎤 Settings next to each TTS engine for options.
   - **Speech rate**: Set the speed at which the text is spoken.
   - **Listen to an example**: Play a sample of speech synthesis (available if voice data is installed).
   - **Default language status**: Display the default language in use.

**Read New Notifications Aloud**

Set the device to read new notifications aloud for incoming calls, messages, and emails, as well as caller or sender information.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Read notifications aloud.
3. Tap the checkbox to enable each option.

**Mouse/Trackpad Settings**

Configure settings for using an optional mouse or trackpad (not included).

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Pointer speed.
3. Drag the slider to the right to go faster or to the left to go slower.
4. Tap OK to save your setting.
By default, your device receives date and time information from the wireless network.

When you are outside network coverage, you may want to set date and time information manually using the date and time settings.

1. From a Home screen, tap Apps > Settings.
2. Tap Date and time. The following options are available:

   • **Automatic date and time**: When enabled, the device takes date and time updates from the wireless network.

   • **Set date**: Enter the current date (only available when Automatic date and time is disabled).

   • **Set time**: Enter the current time (only available when the Automatic setting is disabled).

   • **Automatic time zone**: When enabled, the device takes the time zone from the wireless network.

   • **Select time zone**: Choose your local time zone (only available when Automatic setting is disabled).

   • **Use 24-hour format**: Set the format for time displays.
Receive real-time information about emergencies and severe weather conditions.

Geo News
Receive information about weather, environmental situations, and geological information for your location during emergencies.

1. From a Home screen, tap Apps > Settings > Safety assistance.
2. Tap Geo News.
3. Tap ON/OFF to turn the feature on.
   - Geo News notification pop-ups: Receive popup alerts.

Send Help Messages
Send a quick alert to your primary contacts when you are in an emergency situation.

1. From a Home screen, tap Apps > Settings > Safety assistance.
2. Tap Send help messages.
3. Tap ON/OFF to turn the feature on and configure the following options:
   - Send pictures: Send photos taken with the front and back cameras to your emergency contacts.
   - Send sound recording: Send a short audio message to your emergency contacts.

To send a help message:
► Press the Power key quickly three times.
Manage Primary Contacts

Select contacts or create new ones to be your emergency contacts. These contacts automatically receive your help message.

1. From a Home screen, tap Apps > Settings > Safety assistance.

2. Tap Manage primary contacts.

3. Tap Create primary contact and choose one of the following options:
   - **Create contact**: Enter a name and phone number for a new emergency contact.
   - **Select from contacts**: Designate a contact to be an emergency contact.
Battery

View how battery power is used for device activities.

1. From a Home screen, tap Apps > Settings.

2. Tap Battery for options.
   - **Show battery percentage**: Display the battery charge percentage next to the battery icon on the Status bar.

Battery Chart

The battery level displays as a percentage. The amount of time the battery has been used also displays.

▶ Tap the Battery chart to view History details.

Apps and OS Usage

Battery usage displays in percentages per application.

1. Tap Screen, Android System, Android OS, or an app to view how they are affecting battery use.

2. Tap Refresh to update the listing.

**Note**: Other applications may be running that affect battery use.
Power Saving

Conserve battery power by automatically adjusting the screen brightness, limiting the performance of the CPU, and other power reduction activities.

Ultra power saving mode saves even more battery power by using a gray scale theme on the Home screen and limiting the number of usable apps.

1. From a Home screen, tap Apps > Settings.

2. Tap Power saving for options:
   - Power saving mode: Tap ON/OFF to turn the feature on and to select options.
   - Ultra power saving mode: Tap ON/OFF to turn the feature on and to select options.

Tip: Tap More options > Help to display more information about conserving power.
Storage

View the device memory and usage, or mount, unmount, or format an optional memory card (not included).

Device Memory

View and manage the memory used by the device.

1. From a Home screen, tap Apps > Settings.

2. Tap Storage.

   - The Device memory displays Total space, which is the total space/free space in your phone's memory.
   
   - The amounts of memory used are further divided into:

     - **System memory**: The minimum amount of storage space required to run the system.
     
     - **Used space**: The amount of storage space currently being used.
     
     - **Cached data**: The amount of data currently cached.
     
     - **Miscellaneous files**: The amount of memory used to store miscellaneous files.
     
     - **Available space**: The amount of storage space currently available.

To increase available memory:

1. Tap Cached data to clear all cached data for all apps. Tap OK to confirm.

2. Tap Miscellaneous files, select unnecessary files or tap SELECT ALL, and then tap Delete.

Memory Card (SD Card)

Once an optional memory card (not included) has been installed in your device, the card memory displays as Total space and Available space.

Install a Memory Card

You can use an optional microSD or microSDHC card (not included) to add additional memory space to your device.

1. Remove the back cover. For more information, see Remove the Back Cover.

2. With the gold contacts facing down, carefully slide the memory card into the microSD card slot, which is located above the SIM card slot.

3. Replace the back cover. For more information, see Replace the Back Cover.
Mount a Memory Card

When you install an optional memory card, it is automatically mounted (connected to the device) and prepared for use. However, should you unmount the card without removing it from the device, you have to mount it before it can be accessed.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage > Mount SD card.

Unmount a Memory Card

To prevent damage to information stored on the memory card, always unmount the card before removing it from the device.

Unmounting an SD card may stop some applications from functioning until you mount the SD card again.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage > Unmount SD card.

Remove a Memory Card

**Warning:** To prevent damage to information stored on the memory card, unmount the card before removing it from the device.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage > Unmount SD card.
3. Remove the back cover. For more information, see Remove the Back Cover.
4. Slide the card out.
5. Replace the back cover. For more information, see Replace the Back Cover.

Format a Memory Card

**Warning:** When formatting an SD card, you should back up your music and photo files that are stored on the card because formatting the SD card deletes all the stored data.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage > Format SD card and follow the prompts.
Secure your device and protect your data with Security settings.

Device Administration
Manage your device administrators and application installation privileges.

1. From a Home screen, tap Apps > Settings.
2. Tap Security for options:
   - **Device administrators**: Add or remove device administrators.
   - **Unknown sources**: Enable installation of non-Google Play applications.

**Warning**: Enabling installation of third-party applications can cause your device and personal data to be more vulnerable to attacks by unknown sources.

Encryption
Require a numeric PIN or password to decrypt your device each time you power it on or encrypt the data on a memory card (not included) each time it is connected.

1. From a Home screen, tap Apps > Settings.
2. Tap Security for options:
   - Tap Encrypt device and follow the prompts to encrypt all data on your device.
   - Tap Encrypt external SD card to encrypt data on a memory card (not included).

Find My Mobile
Protect your device from loss or theft allowing your device to be locked, tracked, and for your data to be deleted remotely.

**Note**: You must sign up for a Samsung account and enable Google location service to use Remote controls.

1. From a Home screen, tap Apps > Settings.
2. Tap Security for options:
   - **Remote controls**: Lock and erase your data remotely if your device is lost or stolen.
   - **Go to website**: Direct link to the Find my Mobile website.
   - **Reactivation lock**: Use your Samsung account to stop anyone from reactivating your device without your permission.

Passwords
Display password characters briefly as you type them.

1. From a Home screen, tap Apps > Settings.
2. Tap Security > Make passwords visible to turn the feature on.
Security Update Service

Automatically receive security updates.

1. From a Home screen, tap Apps > Settings.
2. Tap Security for options:
   - **Security policy updates**: Automatically or manually check for security policy updates.
   - **Send security reports**: Send security reports to Samsung via Wi-Fi for threat analysis.

Credential Storage

Manage your security certificates. If a certificate authority (CA) certificate gets compromised or for some other reason you do not trust it, you can disable or remove it.

1. From a Home screen, tap Apps > Settings.
2. Tap Security for options:
   - **Storage type**: Select a storage location for credential contents.
   - **Trusted credentials**: Display certificates in your device’s ROM and other certificates you have installed.
   - **Install from device storage**: Install a new certificate from storage.
   - **Clear credentials**: Erase the credential contents from the device and reset the password.

Advanced Security Settings

Protect your device with these advanced security options.

1. From a Home screen, tap Apps > Settings.
2. Tap Security for options:
   - **Trust agents**: (Only available when a secure screen lock is set.) Set screen lock type to use.
   - **Pin windows**: Pin a specific app on your device screen. Follow the prompts.
   - **Apps with access to usage data**: View which applications can access your device’s usage history.
   - **Smart Lock**: (Only available when a secure screen lock is set.) Set your phone to stay unlocked when you have trusted devices connected or when it is in a trusted place.

Note: To view Trusted agents and Smart Lock, set up a screen lock (PIN, Password, Pattern, or Fingerprint). For more information, see Set a Screen Lock.
Help

View tips and guidelines for using your device.

1. From a Home screen, tap Apps > Settings.
2. Tap Help for information about:
   - New features
   - Getting started
   - Applications
   - Settings
About Your Device

View information about your device, including status, legal information, hardware and software versions, and more.

1. From a Home screen, tap Apps > Settings.
2. Tap About device, and then tap items for more details:
   - **Software updates**: Check for and install available software updates.
   - **Status**: View the status of the battery, network, and other information about your device.
   - **Legal information**: View legal notices and other legal information, including your embedded Samsung legal information.
   - **Report diagnostic info**: Give consent to provide diagnostic and usage data to Samsung to help improve the quality and performance of its products and services.
   - **Device name**: View and change your device’s name.
   - Additional device information includes the Model number, Android version, Build number, and more.

Software Update

Use Software update to update your device’s software.

1. From a Home screen, tap Apps > Settings.
2. Tap About device > Software updates.
3. Follow the prompts to check for available software updates to download and install.
Application Manager

You can download and install new applications on your device. Use Application manager settings to manage your downloaded and preloaded applications.

Warning: Because this device can be configured with system software not provided by or supported by Google or any other company, you operate this software at your own risk.

Memory Usage
See how memory is being used by Downloaded or Running applications.

1. From a Home screen, tap Apps > Settings > Application manager.
2. Swipe across the screen to display DOWNLOADED, SD CARD, RUNNING, or ALL to display memory usage for that category of applications. If you have disabled applications, a DISABLED tab also displays.

Downloaded
Displays apps you have downloaded onto your device.

1. From a Home screen, tap Apps > Settings > Application manager.
2. Tap DOWNLOADED to view a list of all the downloaded applications on your device.
   - To switch the order of the DOWNLOADED list, tap More options > Sort by size or Sort by name.
   - To reset all of your application preferences, tap More options > Reset app preferences.
3. Tap an application to view and update information about the application, including memory usage, default settings, and permissions. The following options are displayed (not all applications support these options):
   - FORCE STOP: Stop an app that is misbehaving. Restart your device if stopping an app, process, or service causes your device to stop working correctly.
   - UNINSTALL/UNINSTALL UPDATES: Delete the application from the device or uninstall updates made to apps that cannot be deleted.
   - DISABLE: Disable the app.
   - Show notifications: Tap the checkbox to enable or disable notifications from the app. Notifications display in the Status bar.
   - MOVE TO SD CARD: Move this app to your microSD card.
   - CLEAR DATA: Clear application data from memory.
   - CLEAR CACHE: Clear an application’s temporary memory storage.
   - CLEAR DEFAULTS: Clear an application’s customization.
   - Permissions: View information about the application’s access to your device and data.
SD Card
Displays apps you have downloaded onto your memory card (not included).

1. From a Home screen, tap Apps > Settings > Application manager.
2. Tap SD CARD to view a list of all the downloaded applications on your SD card.
   - To switch the order of the SD CARD list, tap More options > Sort by size or Sort by name.
   - To reset your application preferences, tap More options > Reset app preferences.

Note: When you reset app preferences, no app data is lost.

3. Tap an application to view and update information about the application, including memory usage, default settings, and permissions.

Running Services
View and control services running on your device.

1. From a Home screen, tap Apps > Settings > Application manager.
2. Tap RUNNING to view a list of running services.
   - All the applications that are currently running on the device display.
   - The graph on the RUNNING tab shows used and free RAM.
3. Tap SHOW CACHED PROCESSES to display all the cached processes that are running. Tap SHOW SERVICES IN USE to switch back.
4. Tap one of the applications to view application information.
   - STOP: Stops the application from running on the device. This is usually done prior to uninstalling the application. (Not all services can be stopped. Stopping some services may have undesirable consequences on the application or Android System.)
   - REPORT: Report failure and other application information.

Note: Options vary by application.

Disabled Services
View and configure disabled apps on your device.

Note: This screen only displays if you have disabled an app on the Apps list.

1. From a Home screen, tap Apps > Settings > Applications > Application manager.
2. Tap DISABLED to view a list of applications you have disabled.
   - To switch the order of the DISABLED list, tap More options > Sort by size or Sort by name.
   - To reset all of your application preferences, tap More options > Reset app preferences.
3. Tap an application to view and update information about the application, including memory usage, default settings, and permissions. The following options are displayed:
   - FORCE STOP: Stop an app that is misbehaving. Restart your device if stopping an app, process, or service causes your device to stop working correctly.
   - ENABLE: This moves the application back to the Apps list.
   - Show notifications: Tap the checkbox to enable or disable notifications from the app. Notifications display in the Status bar.
   - MOVE TO SD CARD: Move this app to your microSD card.
   - CLEAR DATA: Clear application data from memory.
   - CLEAR CACHE: Clear an application’s temporary memory storage.
   - CLEAR DEFAULTS: Clear an application’s customization.
   - Permissions: View information about the application’s access to your device and data.

Note: Options vary by application.
Default Applications

*If you have multiple applications of the same type, such as email apps, you can select one app to be the default.*

*You can also use a simpler Home screen which provides an easier user experience for first-time smartphone users.*

1. From a Home screen, tap Apps > Settings > Default applications.
2. Tap Home and select a Home screen mode:
   - **TouchWiz easy home:** Provides an easier user experience for the first-time smartphone users.
   - **TouchWiz home:** The Home screen that originally displays on your phone.
3. Tap Messages and select a default messaging app.
4. To clear defaults you have set up, tap CLEAR.
Applications Settings Shortcuts

Shortcuts to the settings for various apps are available in one convenient location.

To quickly access the settings for Calendar, Call, Contacts, Email, Gallery, Internet, Messages, or S Voice:

1. From a Home screen, tap Apps > Settings.
2. Tap one of the following to display the settings for the selected app:
   - Calendar
   - Call
   - Contacts
   - Email
   - Gallery
   - Internet
   - Messages
   - S Voice
