**Please do:**

- In or near airports or restricted areas.
- Antennas or overhead lines, or airborne toys like kites.
- Near or around obstacles such as birds or pets, aircraft, helicopters, other drones.

**Flight Safety Poster**

1. **Turn **ON** the drone and place it on a level surface.**
   - **Direction:** Left and Right Rotation
   - **To keep the drone flying at a given height.**
   - **If the drone may lose altitude when maneuvering.**
   - **Therefore, you may need to add more power**

2. **Set Sensitivity to Maximum and pull the throttle all the way back and left twice.**
   - This signals that the camera has stored a photo on the Micro SD Card. The blue Video-Photo indicator light on the drone will flash quickly. Twic...
