6. Transmitter and receiver pairing.
Both transmitter and receiver must be set to the same channel (A, B, C, D). If the selected channel is noisy, please switch both the transmitter and receiver to other channels until you could get a very clear sound.

![NOTE: Two transmitters on the same frequency will not work with one receiver.]

7. Turn the Power ON/OFF switch of both transmitter and receiver to the ON position.

8. Plug your earphone into the Phone Jack for real-time monitor.

9. Adjust the volume control wheel for best sound.

Warranty
Saramonic International provides one-year warranty under normal use and lifelong paid maintenance from the date you purchase this product.

Saramonic International will repair or replace the product that under the warranty for free during the one-year valid period, but customers should pay for shipping and insurance charges for returning the product to Saramonic International.

Compatibility
Compatible with any compact camcorder or DSLR camera with a microphone jack

Packing List
One SR-WM4C transmitter
One SR-WM4C receiver
One 1/8" (3.5 mm) signal transmission cable
One omnidirectional lavalier microphone
One pop shield
Two belt clips
One cold shoe mount adapter
User manual
Warranty card
Product Introduction

General Introductions
The Saramonic SR-WM4C is a compact and lightweight VHF wireless microphone system. Providing a perfect audio solution for recording free from the limit of distance, it is very helpful in film making, broadcast interview and business presentations.

Highlights
- Four switchable channels to keep you free from interference.
- Detachable and flexible antenna can be rotated 360° accordingly for best sound.
- The high-band VHF provides pure sound.
- Record audio up to 60 meters away with no obstacle.
- Real-time monitor.
- Volume control wheel.
- LED indicator indicates the battery life.
- Power provided by LR6/AA size alkaline battery.
- Includes a belt-pack transmitter, camera mountable receiver and an omnidirectional lavalier microphone.

Specifications

Channel A Channel B Channel C Channel D
203.65MHz 207.75MHz 211.55MHz 215.35MHz

Transmitter
- Operating Frequencies: 203-216MHz
- Modulation Frequency: FM
- Modulation Sensitivity: 6 mV input for full deviation
- Battery: LR6/AA size alkaline battery (not included)
- Current Consumption: 150 mA
- Battery Life: 5 hours
- Dimensions: 102 x 62.0 x 44.7 mm
- Antenna Length: 178mm
- Weight: 80 g (2.8 oz) without battery

Receiver
- Operating Frequencies: 203-216MHz
- Reception System: FM Superheterodyne
- Reception Sensitivity: 2 µV for 30 dB S/N
- Output Connector: 3.5 mm (1/8") TRS
- DC Input: 9V DC (center-positive)
- Battery: LR6/AA size alkaline battery (not included)
- Current Consumption: 150 mA
- Battery Life: 5 hours
- Dimensions: 102 x 62.0 x 44.7 mm
- Antenna Length: 178mm
- Weight: 80 g (2.8 oz) without battery

Product Structure

Transmitter
- Power Indicator
- Microphone Input Jack
- Power Switch
- Channel Selector Switch
- Antenna
- Belt Clip

Receiver
- Headphone Jack
- Volume Control Wheel
- Power Indicator
- Audio Output Jack
- Power Switch
- Antenna
- Belt Clip
- Battery Compartment
- Cold Shoe Mount Adapter
- LR6/AA size alkaline battery

Setup Guide

1. Install battery
The transmitter and receiver are each operated by two LR6/AA size alkaline batteries. Gently slide out the drawer from the battery compartment at the bottom of unit. Insert the battery according to the indicator as shown. Slide the drawer closed until it clicks into place.

NOTE: If the SR-WM4C will not be used for a long time, please remove the batteries to prevent product damage due to battery leakage.
